

Quick Touch

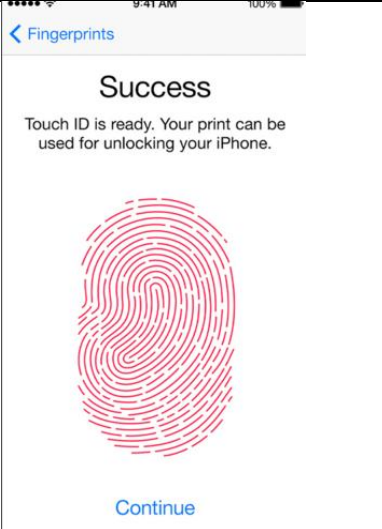

Quick Touch is the latest innovation leveraging on Apple's Touch ID technology – the fingerprint recognition feature – to provide customers an easy, quick and secure way to access Quick Balance on the Maybank2u App. Customers, who have registered for Quick Balance and have Apple devices that support Touch ID, will be able to access Quick Balance to check their account balances with their fingerprints instead of the 6-digit PIN.

This feature is only available on selected iOS devices that support Apple Touch ID technology: iPhone 5S, iPhone 6, iPhone 6Plus, iPad Mini 3, iPad Air2

Here's how to set up Quick Touch on selected iOS devices.

Step 1: Users must set up the Touch ID within the settings on the devices.

 <p>The screenshot shows the 'Settings' app on an iPhone. The 'Touch ID & Passcode' option is highlighted in the list of settings.</p>	 <p>The screenshot shows the 'Turn Passcode On' screen. It prompts the user to 'Re-enter your passcode' and displays a numeric keypad with digits 1-9, 0, and a backspace key.</p>	 <p>The screenshot shows the 'Settings Touch ID & Passcode' screen. It displays a fingerprint icon and options to use Touch ID for 'iPhone Unlock' and 'iTunes & App Store'. At the bottom, there is an 'Add a Fingerprint...' button.</p>
<p>1. Go to 'Settings' and select 'Touch ID & Passcode'.</p>	<p>2. Enter your passcode.</p>	<p>3. Select 'Add a Fingerprint'.</p>

 <p>Step 4: Place your finger on the Home button, as instructed. User will be asked to do it repeatedly to capture the fingerprint.</p>	 <p>Step 5: You will receive a confirmation message.</p>

Step 2: Launch the Maybank2u App.

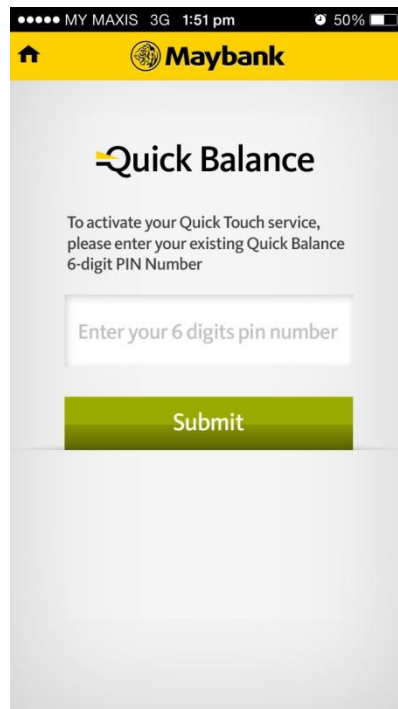

Step 3: Select Quick Balance from the main menu.

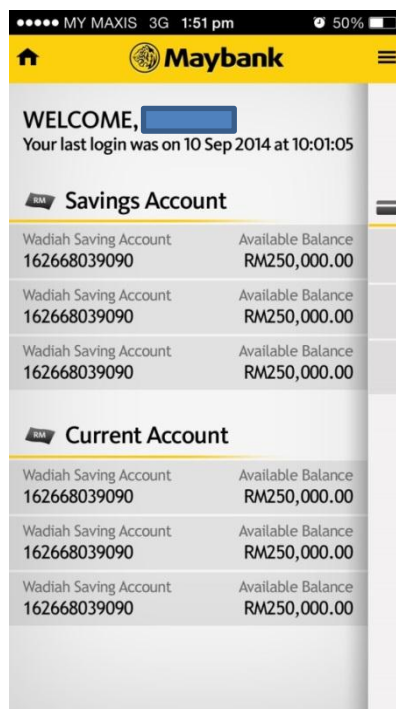

Step 4: The app will display the Quick Touch option if the device supports fingerprint recognition. Select 'Access using Quick Touch'.

Step 5: Information on Quick Touch is displayed. Accept the Terms & Conditions and click on 'Activate Quick Touch' to proceed.

Step 7: Enter Quick Balance 6-digit PIN to complete the activation process.

Step 8: Upon successful activation, the app will redirect you to the main page.
