

Celebrating earth day

Maybank believes that the future will be green or not at all. We are committed to reducing the environmental impact of our operations and to supporting sustainability activities and biodiversity programmes.

Protecting MALAYSIA'S TIGERS

We collaborate with MyCAT - the Malaysian Conservation Alliance for Tigers - and have contributed RM1.2 million to fund research and boost public support for the conservation of wild tigers in Malaysia.

Cutting CARBON EMISSIONS

We have pledged to cut our carbon emissions. We are part of the international Carbon Disclosure Project (CDP) and we are the only bank in Malaysia to participate in the Dow Jones Sustainability Index (DJSI).

Conserving NATURAL RESOURCES

We are reducing paper usage not just via our maybank2u internet banking service but by encouraging customers to use our electronic bill payment services and switch to online statements.

Promoting WASTE RECYCLING

At our Menara Maybank food court, we are initiating a programme to recycle used cooking oil into biofuel and food waste into fertiliser, as a model for other food courts in Kuala Lumpur.
