Chairman

The Chairman leads the Board and is also responsible for the effective performance of the Board. She continuously works together with the rest of the Board in ensuring the Group's policy framework and strategies are aligned with the business activities driven by the Management and is consistent with Maybank IB's objectives and aspirations.

Independent Directors

With more than half of its members comprising INEDs, the Board has a strong degree of independence. The Maybank Group has established a Directors' Independence Policy which sets out Maybank Group's approach in determining directors' independence ("the Independence Policy"). The Independence Policy provides a guideline for the Board to assess the independence of each INED. Consistent with the Independence Policy and the recommendations of the Malaysian Code on Corporate Governance issued

Corporate Governance Statement

in 2017 (the Code), the Board via the NRC, assesses the independence of INEDs upon their appointment, re-appointment and annually.

Tenure of Independent Non-Executive Directors

In line with BNM's Corporate Governance Policy, the tenure of service for INEDs has been capped at the maximum period of nine (9) years whereby upon the completion of such tenure, an INED may continue to serve on the Board subject to his re-designation as a Non-Independent Non-Executive Director, taking into account NRC's recommendation and BNM's approval.

Currently, none of the Independent Non-Executive Directors has reached the 9-year term in Maybank IB. The Board will continue to monitor the tenure of each independent Director as part of succession planning.

Independence Assessment

The NRC determines the ability of the INEDs to continue bringing independent and objective judgment to the board deliberations. Additionally, the NRC considers any ground or reason that have come to their attention that may affect the independence status of Independent Directors.

To assist the NRC in evaluating the independence of directors, Maybank Group had established a Directors' Independence Policy ("Independence Policy") which sets out the approach in determining directors' independence. The Independence Policy provides a guideline for the Board in the assessment of independence of each INED. Consistent with the Independence Policy, the Board via the NRC assesses the independence of INEDs prior to their appointment and re-appointment as part of the annual Fit and Proper Assessment exercise.

Pursuant to the recommendation of the NRC and based on the assessment undertaken for FY2021, the Board is satisfied that all the INEDs of the Maybank IB Board have met the independence criteria set out under BNM's Policy on Corporate Governance and Maybank Group's Independence Policy.

Senior Independent Director

Further to the clear separation of the role and duties between the Chairman and the CEO, a Senior Independent Director ("SID") is appointed from amongst the INEDs, to whom concerns of shareholders and stakeholders may be conveyed.

The SID may also:

- (i) Preside at all meetings of the Board at which the Chairman or Vice-Chairman (if the SID is not the Vice Chairman) is not present;
- (ii) Serve as a liaison between the Chairman and the Independent Directors; and
- (iii) Have authority to call for meetings of the Independent Directors.

Corporate Governance Statement

In this respect, Maybank IB Board had appointed Mr. Goh Ching Yin as Senior Independent Director of Maybank IB.

BOARD APPOINTMENTS

The Board delegates to the NRC the responsibilities to establish a formal and transparent procedure for the nomination and appointment of new Directors to the Board. Such responsibilities include screening, conducting initial selection of internal and external candidates, performing requisite evaluation and assessment on the candidates' ability to discharge their duties effectively and efficiently, prior to making recommendations to the Board for its approval. The NRC also ensures candidates possess the appropriate skills, core competencies, experience, integrity and time to effectively discharge his or her role as a director.

Fit and Proper Assessment

Besides the assessment on independence, the Directors also undergo a fit and proper assessment upon their appointment, re-appointment or annually. The assessment is undertaken in accordance with the Maybank Group's Fit and Proper Policy which has been in force since August 2006.

The Fit and Proper Policy, which sets out the attributes and qualifications required of a candidate to determine his/her suitability, include amongst others, requirements in respect of his/her management and leadership experience, which has to be at the most senior level in a reputable local or international financial services group, public corporation or professional firm/body. In relation to the candidate's skills, expertise and background, the candidate should ideally and to the extent available, possess a diverse range of skills, including in particular, business, legal and financial expertise, professional knowledge and financial industry experience, as well as experience in regional and international markets. The Fit and Proper Policy also assists in identifying the gaps in skills in the composition of the Board.

The following aspects would be considered by the Board in making the selection, with the assistance of the NRC:

1. Probity, personal integrity and reputation – the person must have key qualities such as honesty, integrity, diligence, independence of mind and fairness.
2. Competency and capability – the person must have the necessary skills, ability and commitment to carry out the role.
3. Financial integrity – the person must manage his debts or financial affairs prudently.

Nomination and Appointment Process

The Maybank Group Policy on the Nomination Process for appointment of Chairman, Director and CEO of Maybank Group (Policy on Nomination Process) sets out a clear and transparent nomination process of the same, which involves the following five stages:

Upon approval being obtained from the Board, an application for the appointment of the shortlisted candidates will be submitted to BNM for the requisite approval as required under the Financial Services Act 2013 (“FSA”).

The appointment process for Executive Directors is similarly robust, in order to ensure that the best person is selected for the top executive position in the interest of the Group. The process includes the identification of potential candidates (both internal as well as external) by a special committee of the Board, governed by the expectation of the roles and capabilities described and required by the Board. This process includes interviews, which are subsequently followed by a submission to the NRC for deliberation and thereafter the final recommendation to the Board for endorsement, and ultimately submission to BNM for approval.

Maybank IB also conducts annual assessments on the suitability of the Directors to continuously occupy their strategic leadership position subsequent to the appointment process, in accordance with the Maybank Group’s Fit and Proper Policy and in line with BNM Guidelines on Fit and Proper Criteria.

The Fit and Proper assessment involves self-declaration by the Directors as well as independent checks on their business interests in compliance with section 59 of FSA and BNM’s Policy on Corporate Governance to ensure the suitability of the Directors to continue to serve as directors of Maybank IB.

SUCCESSION PLAN

Succession planning is an integral part of the Board’s corporate governance practices as the Board believes that the membership and composition of the Board should be reassessed from time to time. This is to ensure continuity towards meeting the Bank’s long term goals and objectives.

Corporate Governance Statement

The NRC plays a major role in the recruitment and selection process of potential candidates. This process includes reviewing the Group's Talent Pool and procuring from time to time, the curriculum vitae of prospective candidates discreetly from various internal and external sources for its review and consideration to ensure that the Board will always have a steady pool of talent for selection whenever there is a need to appoint new directors. In this regard, the Group's Policy on the Tenure of Directorships ("Directors Tenure Policy") facilitates succession planning by providing the Board with the opportunity to consider and reassess its membership periodically.

This is to ensure continuity in meeting its long term goals and objectives and also to ensure that the knowledge, experience, and skillset of its members would be well suited to meet the demands of the ever-changing landscape of the financial industry.

Tenure of Directorships

The appointment of Non-Executive Directors on the Board, as well as their tenure as a director, is subject to the approval of BNM ("BNM Approved Tenure"). Prior to the expiry of the BNM Approved Tenure, Maybank IB may apply to BNM for an extension of the same if, pursuant to an assessment, the Board is satisfied with the performance and contribution of the said Non-Executive Director.

Directors' Retirement, Re-Election and Re-Appointment

All directors of Maybank IB are subject to re-election by the shareholders at the first opportunity after their appointment in accordance with Article 100 of Maybank IB's Constitution and are subject to retirement by rotation at least once every three years in accordance with Article 95 of Maybank IB's Constitution.

The Board's support for a Director's re-appointment is not automatic and is subject to satisfactory assessment of performance. The NRC will first assess the Directors who are due for re-appointment and will then submit its recommendation to the Board for deliberation and approval. Upon obtaining the Board's endorsement, the relevant submission including the justifications for such re-appointment is thereafter made to BNM for approval if the relevant Director's BNM's term of appointment is expiring.

BOARD PROCESSES

Board Effectiveness

The Board conducts annual evaluation of the Board, its committees and each individual Director from time to time. The Annual Board Effectiveness Evaluation will be conducted internally, with the assistance of the Corporate Secretarial team. Draft minutes of each Board meeting are also circulated to all directors in advance for their perusal prior to tabling the said minutes for confirmation of the minutes at the subsequent Board meeting.

In accordance with the expectations of BNM and the continuous practice of the Maybank Group, the Maybank IB’s minutes of meeting of the Board and various Board Committees incorporate the discussions of the members at the meetings in arriving at decisions and are concise and accurate.

The Company Secretary also ensures that a quorum is present at the commencement of each Board and Committees meeting in order to constitute a valid meeting.

REMUNERATION

In line with Maybank Group, Maybank IB's remuneration and rewards philosophy is aligned with Maybank IB's business strategies and values, fostering a performance-oriented and prudent risk management culture that delivers long-term sustainable returns to stakeholders. We have in place a comprehensive Total Rewards system which is a critical component of the integrated Talent Management framework that guides us to effect "Reward Right" principles to drive positive outcomes and deliver exponential business results responsibly. The system not only supports Maybank IB's strategy and business plan, it is also critical to improving employee productivity and engagement. Focusing on the right compensation, benefits and development support inspires our employees to achieve their personal and professional aspirations.

Environmental, Social and Governance (ESG) elements are inculcated in various aspects of our Total Rewards management through proper governance, performance measurement standards and risk management considerations. Governed by sound principles, Maybank IB's remuneration policies and practices are reviewed periodically to ensure alignment with regulatory requirements and to reinforce a high-performance culture. The aim is to attract, motivate and retain talents through market competitiveness and responsible values.

COMPONENTS OF REMUNERATION

Maybank IB adopts a holistic Total Rewards Framework comprising three main elements, namely Total Compensation, Benefits & Well-Being, and Development & Career Opportunities.

i) Total Compensation

Maybank IB's Compensation Policy ensures our employees receive salaries on par with the market. In addition to fixed pay, we offer differentiated compensation that are competitive in the form of variable bonus and a long-term incentive award (for eligible Senior Management and above). Employee's compensation is reviewed annually and is geared towards retaining, motivating and rewarding our employees.

Targeted Pay Mix levels (Fixed Pay and Variable Pay (i.e. Variable Bonus and Long-term Incentive Award)) have been designed to align with the long-term performance goals and objectives of the organisation. The compensation framework provides a balanced approach between fixed and variable components that change according to the performance of the Group, business/corporate function and individual.

Corporate Governance Statement

Fixed Pay	Variable Pay	
	Variable Bonus	Long-Term Incentive Award
<ul style="list-style-type: none"> • Attract and retain talents by providing competitive and equitable level of pay. • Reviewed annually in a holistic approach through internal and external benchmarking against relevant peers/locations, with consideration of market dynamics, individual responsibilities, functions/roles, performance, skillsets, and competency. 	<ul style="list-style-type: none"> • Reinforce a pay-for-performance culture and adherence to Maybank Group's Core Values, TIGER. • Variable cash award aligned with risk management and the Group's long-term performance goals through our deferral and claw-back policies. • Based on the overall performance of the Group, business/corporate function and individual. • Premised on the Balanced Scorecard (BSC) comprising financial and non-financial KPIs tailored to drive desired behaviours and performance in creating long-term shareholder value. In FY2021, we have incorporated ESG-related KPIs in the Group BSC and individual BSC which reflects our commitment to develop and drive compelling ESG values to generate sustainable and superior long-term results. 	<ul style="list-style-type: none"> • Comprises a significant component of Senior Management's Total Compensation with the intent to drive sustainable, longer-term risk management and to meet the Bank's M25 Strategy.
	<p>Deferral Policy: Any Variable Bonus in excess of certain thresholds will be deferred over a period of time. A Deferred Variable Bonus will lapse immediately upon termination of employment (including resignation) except in the event of ill health, disability, redundancy, retirement or death.</p> <p>Clawback Provision: Maybank's Board has the right to make adjustments or clawbacks to any Variable Bonus or Long-Term Incentive Award if deemed appropriate based on risk management issues, financial misstatement, fraud, gross negligence or wilful misconduct.</p>	

ii) **Benefits & Well-being**

Employee benefits are integral to our Total Rewards management. ESG values and M25 objectives have been embedded in our employee benefits and are priorities in our rewards management.

Corporate Governance Statement

Maybank's benefits programme - offering financial protection, healthcare, paid time-off, loans at preferential rates and work-life integration support - is reviewed periodically to remain competitive and reflect evolving trends in a rapidly changing business environment. We embrace a holistic, sustainable way of working that considers our employees' physical, mental and emotional well-being, financial needs, social needs, career development and opportunities to allow them to achieve higher levels of competencies and professionalism.

iii) Development & Career Opportunities

In line with our strong learning culture, we continue to deploy best-in-class learning and development programmes that are flexible and customisable to nurture our employees at all levels for long-term relevance, competitive advantage and growth.

Employees are encouraged to assume personal ownership of their development by upgrading their skills and taking on stretch assignments as well as expanded responsibilities.

LONG-TERM INCENTIVE AWARD**Employees' Share Grant Plan**

In December 2018, Maybank rolled out the Employees' Share Grant Plan (ESGP) under the Long-Term Incentive Award to replace a previous scheme that expired in June 2018. The ESGP, valid for seven years, serves as a long-term incentive for eligible talents and Senior Management.

Vesting eligibility of the ESGP is subject to fulfilment of the ESGP vesting conditions as well as meeting performance criteria at the Maybank Group and individual levels. The first ESGP Award that was granted in December 2018 has vested in December 2021. The fourth ESGP Award, granted in September 2021, will vest in 2024.

Governance & Controls - Remuneration Practices

Maybank IB's remuneration policies and practices comply with all statutory and regulatory requirements, and are strengthened by sound risk management and controls, ensuring remuneration practices are carried out responsibly.

Maybank IB has strong internal governance on the performance and remuneration of control functions which are measured and assessed independently of the business units to avoid any conflict of interest. The remuneration of employees in control functions are predominantly fixed to reflect the nature of their responsibilities. Annual reviews of their compensation are benchmarked internally and against the market to ensure they are competitive.

Based on sound Performance Management principles, our Key Performance Indicators (KPIs) continue to focus on outcomes and are aligned with our business plans. Each of the Senior Officers and Other Material Risk Takers (OMRT) carries Risk, Governance and Compliance goals in his/her individual scorecards which are cascaded accordingly. The right KPI setting continues to shape our organisational culture while driving risk and compliance agendas effectively. Inputs from control functions and Board Committees are incorporated into the respective functional area and individual performance results.

Senior Officers and Other Material Risk Takers

The remuneration of Senior Officers and OMRTs are reviewed annually and submitted to the Nomination and Remuneration Committee for recommendation to the Board for approval.

All Directors have access to the advice and services of the Company Secretary and the Board Satisfaction Index acts as an evaluation mechanism on the support and services provided by the Company Secretary to the Board during the financial year.

BOARD PROFESSIONALISMDirectorships in Other Companies and Maybank Group

Consistent with the best practices and recommendations of the Green Book issued by the Putrajaya Committee on Government-Linked Companies' High Performance, each member of the Maybank IB Board holds not more than five directorships in public listed companies. This enables the Directors to focus and devote sufficient time in discharging their duties and responsibilities effectively.

The Board values the experience and perspective gained by the Non-Executive Directors from their memberships on the boards of other companies, organisations, and associations. In this regard, the Board Manual provides that the Non-Executive Directors must first consult the Chairman to ensure that their acceptance of such other appointments would not unduly affect their time commitments and responsibilities to the Maybank IB Board and the Group.

Conflict of Interest

Members of the Board are required to make a declaration of interest in the event that they have interests in proposals which are being considered by the Board, including where such interest arises through close family members and related parties, in line with various statutory requirements on the disclosure of Director's interest.

In all situations where the Directors are deemed as interested, they would recuse themselves from all proceedings and deliberations of the Board pertaining to the matters of conflict. The declaration of interest and abstention from voting would be recorded in the minutes of meeting or written resolutions of the Directors.

The Maybank Group had reinforced its commitment in promoting sound principles and standards of good practice in the financial industry by establishing the Policy on Directors' Conflict of Interest ("CI Policy"). The CI Policy, which incorporates the salient rules and regulations issued by BNM and Bursa Malaysia, regulates and manages issues of conflict (both direct and indirect) which a Director may encounter during his tenure as a Director, and set out the processes to address such issues.

Alongside the Code of Ethics, the CI Policy ensures that each member of the Board uphold the highest integrity in discharging their duties and in dealing with stakeholders, customers, fellow employees and regulators.

Insider Trading

Directors, key management personnel and principal officers of the Maybank IB are prohibited from trading in securities or any kind of property based on price sensitive information and knowledge, which has not become public information, in accordance with the relevant provisions of the Capital Markets & Services (Amendment) Act 2015.

BOARD COMMITTEES

Certain governance responsibilities have been delegated by the Board in favour of its Board Committees, which operate within clearly defined terms of references, primarily to assist the Board in the execution of its duties and responsibilities.

Although the Board has granted such discretionary authority to these Board Committees to deliberate and decide on certain key and operational matters, the ultimate responsibility for final decision on all matters lies with the entire Board.

The Chairman of the Board Committees will table and present a report on the activities of the respective Board Committees at the monthly Board meetings.

The Board Committees of the Maybank IB Board are as follows save for the Nomination and Remuneration Committee (“NRC”), the functions of which are assumed at the Maybank Group level:-

- (iii) Chaired by Independent Director;
- (iv) The Executive Director is not a member of any of these Board Committees; and
- (v) The Chairman of the Board is not a member of any of these Board Committees.

While certain duties and responsibilities of the Board are delegated to these Board Committees, the Board remains fully accountable for any authority delegated to them. Each Board Committee operates within their own specific terms of references and the Chairman of each Board Committee is responsible to table and report on the activities of these Board Committees to the Board at the monthly Board meeting.
