#### 12. Performance Review

For the period ended 30 September 2017, the Group recorded a higher operating profit compared to the previous corresponding period. Operating profit increased by 28.2% from RM75.3 million to RM96.5 million.

Net interest income increased by 74.6% to RM21.5 million due to classification of derivative financial instruments as synthetic term loans during the period and the Islamic Banking income increased by RM49.9 million from RM14.1 million to RM64.0 million due to higher fee-based income from Islamic investment banking business. However, the non-interest income declined by 18.0% from RM263.3 million to RM 215.9 million due to lower fee-based income. Overall, net income increased by 4.0% from RM289.7 million to RM301.4 million.

Overhead expenses decreased by 4.4% or RM9.6 million to RM204.8 million from RM214.4 million. This was mainly due to lower establishment costs. However, it was partly offset by the increase in personnel expenses and administration and general expenses.

The Group's profit before taxation and zakat increased by 17.1% or RM12.9 million from RM75.4 million to RM88.3 million. Profit for the period increased by 12.8% or RM7.0 million to RM61.9 million compared to the previous corresponding period.

#### 13. Business Outlook

Global real Gross Domestic Product ("GDP") growth is forecasted to expand at +3.6% in 2017 (2016: +3.2%), on improved or sustained growth in the US (2017E: +2.2%; 2016: +1.5%), Eurozone (2017E: +2.1%, 2016: +1.8%), Japan (2017E: +1.5%, 2016: +1.0%) and China (2017E: +6.8%, 2016: +6.7%).

Meanwhile, the ASEAN-6 countries could chart relatively faster growth in 2017 at 5.1% (2016: +4.6%) supported by the recovery in external demand coupled with sustained momentum in domestic demand. Singapore is forecasted to grow at +3.4% (2016: +2.0%), Malaysia expected to expand by +5.8% (2016: +4.2%) and Indonesia to remain resilient at +5.1% (2016: +5.0%).

Malaysia's real GDP 2017 growth is supported by improvement in the manufacturing, services and mining sectors amid stronger exports growth, pick up in consumer spending and investment growth. Investment growth for 2017 and 2018 are expected to be underpinned by progress in on-going and rollout of major infrastructure projects in-the-pipeline. The Overnight Policy Rate is unchanged at 3.00% in 2017.

Against the backdrop of selective growth in the region, the investment banking industry is expected to remain challenging due to uncertainty in market conditions and investor sentiments.

Barring any unforeseen circumstances, the Group expects its financial performance for 2017 to be satisfactory given the ongoing challenging global environment.

#### **Contingent liabilities**

The Group and the Bank are defending all of the claims under litigation, through their solicitors, the outcomes of which are subject matter for the Courts to eventually determine.

#### Case 1

On 5 November 2012, four (4) holders of a bond ("Bondholders") issued by a company filed a claim against the Bank and five (5) other defendants to recover their losses arising from the limited recovery made by the Bondholders following the default of the company's bonds. The claims by the Bondholders, inter alia, include the sum of RM156.3 million or any other sum that the Court deems fit.

Following an order in terms of a joinder application by two (2) applicants to be added as 5th and 6th plaintiffs to the suit, the quantum of the claim increased from RM156.3 million to RM177.3 million to reflect the 5th and 6th plaintiffs' respective claims. On 17 September 2014, a 7th plaintiff was added and joined to the suit with no change to the quantum claimed of RM177.3 million.

On 4 September 2015, the trial of the matter concluded. On 17 February 2016 and 24 February 2016, parties attended Court for oral submissions.

On 24 July 2017, the High Court found in favour of the Bondholders for the sum of RM177,248,747.31 against the Defendants in the following proportion:

- (a) 1st, 2nd and 3rd Defendants 100% liable;
- (b) The Bank (4th Defendant) 50% liable;
- (c) The 5th Defendant 30% liable; and
- (d) The 6th Defendant 20% liable.

On 5 October 2017, upon hearing further clarification and submissions on the judgment sum, applicable interest and costs, the High Court held:

- (a) The Judgment against the Defendants is for the sum of RM177,248,747.31;
- (b) The total damages that the Bondholders can recover from the Defendants shall not exceed the aggregate sum of RM177,248,747.31;
- (c) Interest shall be calculated on the reduced sum of RM148,653,953.20 at the rate of 5% per annum from 1 November 2011 until full and final settlement; and

#### Contingent liabilities (Cont'd)

#### Case 1 (Cont'd)

On 5 October 2017, upon hearing further clarification and submissions on the judgment sum, applicable interest and costs, the High Court held (cont'd):

- (d) Costs as awarded against the Defendants in favour of the Plaintiffs:
  - (i) 1<sup>st</sup> 3<sup>rd</sup> Defendants : RM350,000;
  - (ii) The 3<sup>rd</sup> Defendant to pay costs of RM100,000 for the dismissal of his counterclaim;
  - (iii) The Bank to pay costs of RM300,000;
  - (iv) The 5<sup>th</sup> Defendant to pay costs of RM150,000; and
  - (v) The 6<sup>th</sup> Defendant to pay costs of RM200,000 and reimburse the Plaintiffs' expert witness costs of RM250,000.

The Bank and the other Defendants have filed their separate and respective appeals to the Court of Appeal ("the Appeals"). The Appeals are now fixed for case management on 13 December 2017.

The Bank's solicitors are optimistic of the Bank's chances of succeeding in its appeal to the Court of Appeal.

#### Case 2

The Bank and four (4) other financial institutions (collectively known as "the Banks") are holders of 48.54% of the Redeemable Convertible Secured Notes ("the Notes") issued by a company ("the Borrower"). The Notes are secured by various security including charges over lands granted by the Borrower and other 3rd parties in favour of the trustee for the Banks ("the Trustee"). Upon the Borrower's default of its payment obligations, the Banks commenced action to recover the sums due under the Notes.

Subsequently, a company ("the 1st Defendant") and an individual ("the 2nd Defendant") (collectively known as "the Defendants") agreed to resolve the claims of the Banks with the 1st Defendant agreeing to purchase from the Banks all the Notes held by the Banks at a total purchase price of RM146,458,246.20. The Banks and the 1st Defendant entered into a Sale and Purchase Agreement in August 2014 ("the SPA") and the 2nd Defendant executed a guarantee in favour of the Banks guaranteeing all sums due under the SPA.

The Defendants subsequently defaulted on their payment obligations under the SPA and on 5 June 2015, the Banks commenced action against the Defendants for specific performance of the SPA or in the alternative, damages for breach of the SPA (as against the 1st Defendant) and for the balance purchase price (as against the 2nd Defendant).

On 22 July 2015, by way of a counterclaim against the Banks and the Trustee, the Defendants prayed for 11 declarations against the Banks and the Trustee and among other prayers, claimed that the Defendants are entitled to the restoration of the sums of RM14,645,824.62 (10% deposit payment) and RM1 million (ex-gratia payment) paid by the 1st and 2nd Defendants respectively, being the sums forfeited by the Banks upon breach of the SPA as well as for interest, costs and damages to be assessed.

The Banks filed an application for summary judgement against the Defendants and an application to strike out the Defendants' counterclaim. The Defendants had on 19 August 2015 filed an injunction application to restrain the Trustee from proceeding with foreclosure proceedings and the Bank from enforcing the Put Option Judgement pending disposal of the counterclaim action against the Banks and the Trustee.

The Banks opposed the injunction application and on 3 September 2015, the court dismissed the injunction application with costs ("High Court Order"). The Defendants appealed to the Court of Appeal against the High Court Order ("Appeal") and in the interim applied to the Court of Appeal for an interim injunction pending disposal of the Appeal. On 8 September 2015, the Court of Appeal dismissed the motion for interim injunction with costs.

On 5 October 2015, the High Court allowed the Banks' application for summary judgement and application to strike out the counterclaim with costs. Accordingly, the Defendants' counterclaim against the Banks have been struck out ("Striking Out Order") and judgement has been entered against the Defendants for the balance purchase price under the SPA ("Summary Judgement"). On 23 October 2015, the Defendants filed their respective appeals to the Court of Appeal against the Striking Out Order and the Summary Judgement ('the Appeals').

#### Case 2 (cont'd)

On 6 December 2016, the Court of Appeal unanimously dismissed the Appeals with costs of RM20,000 to be paid by the Defendants to the Banks for each of the Appeals ('COA Decision').

On 30 December 2016 and 5 January 2017, the 1st Defendant and 2nd Defendant filed their respective applications to the Federal Court for leave to appeal to the Federal Court against the COA Decision ('FC Leave Application'). On 26 April 2017, the Federal Court allowed the FC Leave Application. The 1st Defendant and the 2nd Defendant can now file their appeals to the Federal Court against the Summary Judgment ('FC Appeals'). The FC Appeals are fixed for hearing on 15 March 2018

#### 28. Segment information

Segment information is presented in respect of the Group's business segments.

The business segments are prepared based on internal management reports, which are used by senior management for decision-making and performance management. The amounts for each business segment are shown after the allocation of certain centralised cost, funding income and the applicable transfer pricing where appropriate. Transactions between segments are recorded within the segment as if they are third party transactions and are eliminated on consolidation. All inter-segment transactions are conducted at arm's length basis on normal commercial terms that are not more favourable than those generally available to the public.

Segment revenue, results, assets and liabilities include items directly attributable to a segment, as well as those that can be allocated on a reasonable basis.

The Group's business segments are defined and categorised as follows:

(i) Pillar 1 - Investment banking and advisory

Investment banking and advisory focus on business needs of mainly large corporate customers and financial institutions. The products and services offered to customers include corporate advisory services, bond issuance, equity issuance, syndicated acquisition advisory services and debt restructuring advisory services.

(ii) Pillar 2 - Equities

Equities primarily engage in the shares and futures broking services and derivative financial instruments.

(iii) Others

This segment includes investment holding, nominee and custodian services.

#### (h) Fair values of financial assets and liabilities

The estimated fair values of those on-balance sheet financial assets and financial liabilities as at the reporting date, which are considered short-term in maturity, approximate their carrying amounts as shown in the statements of financial position.

#### (i) Allocation of income

The policy of allocation of income to the various types of deposits and investments is subject to "The Framework of Rate of Return" issued by Bank Negara Malaysia in October 2001. The objective is to set the minimum standard and terms of reference for the Islamic banking institution in calculating and deriving the rate of return for the depositors.

#### (j) Shariah committee

The operation of IBS is governed by Section 28 and 29 of Islamic Financial Services Act, 2013 ("IFSA"), which stipulates that "a licensed institution shall at all times ensure that its aims and operations, business, affairs and activities are in compliance with Shariah and in accordance with the advice or ruling of the Shariah Advisory Council ("SAC"), specify standards on Shariah matters in respect of the carrying on of its business, affair or activity" and Section IV of BNM's "Guidelines on the Governance of Shariah Committee for The Islamic Financial Institutions" known as the Shariah Governance Framework ("SGF") (which supersedes the BNM/GPS 1), which stipulates that "every Islamic institution is required to establish a Shariah Committee".

Based on the above, the duties and responsibilities of the Group's and the Bank's Shariah Committee are to advise on the overall Islamic Banking Scheme operations of the Group's and the Bank's business in order to ensure compliance with the Shariah requirements.

The roles of the Shariah Committee in monitoring the Group's and the Bank's activities include:

- (i) To advise the Board on Shariah matters in its business operations;
- (ii) To endorse Shariah Compliance Manual;
- (iii) To endorse and validate relevant documentations;
- (iv) To assist related parties on Shariah matters for advice upon request;
- (v) To advise on matters to be referred to the SAC;
- (vi) To provide written Shariah opinion; and
- (vii) To assist the SAC on reference for advice.

The Group and the Bank presently have five Shariah members.

#### 30. Fair value of financial instruments

#### Fair value hierarchy

The Group and the Bank classify its financial instruments measured at fair value according to the following hierarchy, reflecting the significance of the inputs in making the fair value measurements:

#### (a) Level 1: Quoted prices

Refers to financial instruments which are regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, and those prices which represent actual and regularly occurring market transactions in an arm's length basis. Such financial instruments include actively traded government securities, listed derivatives and cash products traded on exchange.

(b) Level 2: Valuation techniques for which all significant inputs are, or are based on, observable market data

Refers to inputs other than quoted prices included those within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices). Examples of Level 2 financial instruments include over-the-counter ("OTC") derivatives, corporate and other government bonds and iliquid equities.

(c) Level 3: Valuation techniques for which significant inputs are not based on observable market data

Refers to financial instruments where fair value is measured using significant unobservable market inputs. The valuation technique is consistent with the Level 2. The chosen valuation technique incorporates the Group's and the Bank's own assumptions and data. Examples of Level 3 instruments include corporate bonds in illiquid markets, private equity investments and loans and advances priced primarily based on internal credit assessment.

The following table shows the Group's and the Bank's financial assets and liabilities that are measured at fair value analysed by level within the fair value hierarchy as at 30 September 2017 and 31 December 2016.

#### 30. Fair value of financial instruments (Cont'd)

#### Valuation techniques

The valuation techniques used for the financial and non-financial instruments that are not determined by reference to quoted prices (Level 1), are described below:

#### Financial assets at fair value through profit or loss

The fair values of financial assets and financial investments are determined by reference to prices quoted by independent data providers and independent broker quotations.

#### **Derivative financial instruments**

The fair values of the Group's and of the Bank's derivative financial instruments are derived using discounted cash flows analysis, option pricing and benchmarking models.
