PRODUCT DISCLOSURE SHEET

Kindly read and understand this Product Disclosure Sheet before you apply and decide to accept the Multi Asset Investment Account-i Global Healthcare. Be sure to also read the general terms and conditions.

**PRODUCT NAME:
 MULTI ASSET INVESTMENT
 ACCOUNT - i
 (“MAIA”) GLOBAL HEALTHCARE
 Date: 22 April 2021**

BRIEF INFORMATION ON THE PRODUCT

What is this product about?

Applicable Shariah Contract	<ul style="list-style-type: none"> Mudarabah. This is a contract between the capital provider (rabbul mal) and an entrepreneur (mudarib) under which the rabbul mal provides capital to be invested in a Mudarabah venture that is managed by the mudarib. Any profit generated from the venture is shared between the rabbul mal and the mudarib according to a mutually agreed Profit Sharing Ratio (“PSR”) whilst financial losses are borne by the rabbul mal provided that such losses are not due to the mudarib’s misconduct (ta’adi), negligence (taqsir) or breach of specific terms (mukhalafah al-shurut).
Type of Investment	<ul style="list-style-type: none"> This is an unrestricted investment account known as Multi Asset Investment Account (“MAIA”) Global Healthcare, where the customers provide Maybank Islamic Berhad (“Bank”) with general mandate to make the ultimate investment decisions in Shariah compliant assets without any particular restrictions, which may potentially provide customers with higher returns. MAIA Global Healthcare will be invested in a combined allocation into marketable securities (Global Healthcare equities) and financing assets (“FA”) to achieve yield enhancement and reduction of volatility.
Parties Involved, Roles and Responsibilities	<p>Parties involved in this investment are the customer as the Investment Account Holder (“IAH”) (rabbul mal) and the Bank as the entrepreneur (mudarib), where:</p> <ul style="list-style-type: none"> The customers will place their money in MAIA Global Healthcare. MAIA Global Healthcare is then invested by the Bank and its appointed investment manager(s) into a portfolio of assets. The profits generated from the investment are to be distributed to the customers and the Bank based on an agreed PSR. Please refer to the “Profit Distribution Frequency” section below for details. This investment is tied to the performance of the underlying assets, and the principal and returns are not guaranteed by the Bank. The financial losses associated with the investment (if any) are to be borne by the customers whilst the Bank may suffer losses in term of costs and time.

PRODUCT SUITABILITY	
Who is this product suitable for?	
Type of Customer	<ul style="list-style-type: none"> All segments, individuals and non-individuals.
Objective	<ul style="list-style-type: none"> MAIA Global Healthcare's objective is to preserve capital while providing stable returns through low to moderate risk investments.
Early Redemption	<ul style="list-style-type: none"> Partial redemption is not allowed. Early redemption is subject to an exit fee of 2.0% of the NAV of the IAH's investment in the MAIA Global Healthcare.
Reinvestment	<ul style="list-style-type: none"> Reinvestment is not allowed.

KEY PRODUCT FEATURES	
What am I investing in?	
Investment Strategy	<ul style="list-style-type: none"> MAIA Global Healthcare is Maybank Islamic Berhad's balanced investment that aims to provide the IAH with returns via investments in a combined allocation into marketable securities (Global Healthcare equities) and the Bank's financing assets to achieve yield enhancement and reduction of volatility.
Manager	<ul style="list-style-type: none"> The investments in the financing assets will be managed by Maybank Islamic Berhad. The investments in equities will be managed by the Bank's appointed investment manager(s) based on the Bank's internal screening process which emphasizes on the investment manager(s)' capabilities in managing collective investment schemes with similar investment strategy.
Custodian	<ul style="list-style-type: none"> Maybank Trustees Berhad who is acting as a custodian on behalf of the IAH's funds.
Upfront Arranger's Fee	<ul style="list-style-type: none"> 1.50% of any amount placed in the MAIA Global Healthcare by the IAH.

a) Performance and Backtesting
MAIA Global Healthcare:

Returns vs Benchmark

	2016	2017	2018	2019	2020	Average
Gross Profit rate to IAH (% p.a.)	6.90%	5.95%	6.05%	12.25%	13.25%	8.88%
Benchmark Returns (% p.a.)	5.78%	5.63%	5.80%	5.68%	4.98%	5.57%

- Simulated performance data represents the gross profit rate (before management fee and arranger fee), based on yield generated by MAIA Global Healthcare.
- Past performance is not reflective of future performance.
- Source: Bloomberg and Malayan Banking Berhad.

b) Scenario Testing

The returns presented above was calculated based on the historical track record of underlying assets) i.e 50% Bank's financing assets and 50% Global Healthcare Equities. The test is based on different potential equity returns as per below:

Scenario Assumptions

Best case = Based on average annual return since 2016 for the Portfolio.

Base case = 8.0% p.a equity returns and 2.5% p.a yield for FA at 50:50 asset allocation, respectively

Worst = 0% p.a. equity returns and yield of 2.5% for FA, at 100% allocation to FA.

MAIA Global Healthcare Performance (%) over 18 months			
	Best	Base	Worst
Gross Yield (%)	12.375	7.875	3.75
Distributable Income to IAH (net of Management and Custodian Fee)	12.30	7.80	3.68
PSR	99:1	99:1	99:1
*Net Distributable Income to IAH	12.18	7.72	3.64
**Net Returns to IAH	10.68	6.22	2.14

* Before Arranger Fee.

** Net of Arranger Fee.

RISKS DISCLOSURE STATEMENT

What are the key risks associated with MAIA Global Healthcare?

Notwithstanding that the Bank shall emphasize on safe and minimal risk investment strategy to ensure preservation of capital and optimisation of profit, customers should be aware of the various risk factors associated with Mudarabah Investment Accounts as follows:

1. Risk of capital loss - any investment carries the risk of reduction in the value of purchasing power. Hence, the Bank and its appointed investment manager(s) will only invest MAIA Global Healthcare in diversified assets with low to moderate risk attributes and apply sound investment management standards.
2. Market Risk - Invested assets are subjected to fluctuations in market rates, which may impact the overall income performance of MAIA Global Healthcare. This risk shall be managed by the Bank and its appointed investment manager (s) in accordance with sound investment management standard.
3. Credit Risk - This risk may arise when substantial amount of assets for MAIA Global Healthcare goes into default. This shall be managed by the Bank by prudent selection of diversified asset portfolios and close monitoring of the performance of the selected assets.
4. Investment Decision Risk - This risk applies in the event the allocation of assets to be invested is not aligned with the market movement. Hence, careful selection and strict governance shall be applied by the Bank and its appointed investment manager(s) in the decision-making process.
5. Regulatory Non-Compliance Risk - Such situation occurs when the investment fails to adhere to the investment parameters set forth by the relevant regulators. The risk shall be managed by the Bank and its investment manager(s) in accordance with its overall policies and procedures.
6. Shariah Non-Compliance Risk - Failure to comply with the Shariah rulings of Shariah Advisory Council of Bank Negara Malaysia (“BNM”) may result in a breach. Such occurrence shall be closely supervised by the Shariah Committee of the Bank.
7. Country Risk - Political and economic stability of the country may influence the growth and performance of the investment asset.
8. Industry/Sector Risk - Every industry/sector is exposed to various risk elements. As such, diversification and careful selection of such industry/sector are critical to the Bank in managing such risk.
9. Security Specific Risk - Prices of a particular security may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such security will adversely affect MAIA Global Healthcare’s NAV.
10. Company specific risk - Specific risks to Shariah-compliant securities issued by a company apply as there are adverse conditions or negative sentiments which a company can be uniquely exposed to, be it from the view of management issues, deteriorating business fundamentals or losing competitiveness. As a consequence, the price of Shariah-compliant securities issued by such company might fall and subsequently affect MAIA Global Healthcare’s performance. The impact of a specific company may be reduced as MAIA invests in a wide portfolio of investments consisting of Shariah-compliant securities issued by different companies thereby spreading the element of this risk through diversification.
11. Profit rate risk - This refers to the risk that the investment value of the MAIA Global Healthcare may generally be reduced due to a rise in future profit rates. Profit rate risk is particularly borne by profit-bearing assets, such as a Shariah-compliant money market instrument. In the event that a profit-bearing asset is held till maturity, the profit rate changes will not affect the yields of the profit-bearing asset. However, investors should be aware that whether MAIA will hold any profit-bearing asset until maturity will depend on actual

and expected changes in profit rates.

The Manager attempts to mitigate the profit rate risk of MAIA Global Healthcare by managing the duration structure of the profit-bearing assets according to the Manager's view of the future profit rate trend. When profit rates are expected to increase, MAIA Global Healthcare will switch to profit-bearing assets with shorter duration and are less sensitive to profit rate changes.

12. Reclassification of Shariah Compliant Security to Shariah Non-Compliant Security - There is a risk that a currently held security will be reclassified as Shariah non-compliant upon review by the Securities Commission of Malaysia. If this occurs, in the case that the manager disposes the security after the announcement date, any capital gains arising from the disposal of the Shariah non-compliant security is to be channelled to any charitable bodies advised by the Shariah Committee. Thus, MAIA Global Healthcare will not benefit from any capital gains from the security after the reclassification of the security.
13. Liquidity Risk - Liquidity risk arises from the lack of ease which an investment can be traded at or near its fair value, depending on the volume traded on the market. It may occur when MAIA Global Healthcare holds a security which is thinly traded, or when MAIA Global Healthcare experiences large redemptions which in turn, would require the selling of securities at a point in time when prices are unfavorable due to for example, insufficient buyers in the market at the actual or desired price. This risk is mitigated by diversifying the investment in a wide range of securities and avoiding securities with poor liquidity.
14. Financing Risk - The value of the MAIA Global Healthcare fluctuates according to the value of the underlying investment portfolio. The IAH should assess and understand the inherent risk of investing with borrowed money which should include (i) the ability to service the financing payments and the increase in profit rates on the financing payments and (ii) the ability to provide additional collateral should the value of the underlying investment portfolio falls beyond a certain level.

“You are advised to carefully consider all risk factors before making an investment decision”

FEES AND CHARGES

What are the fee and charges involved?

- Upfront Arranger's Fee: 1.50% of any amount placed in the MAIA by the IAH.
- Early redemption is subject to an exit fee of 2.0% of the NAV of the IAH's investment in the MAIA.
