1. What is this product about?

- The product is a mortgage loan/credit facility secured against residential or commercial properties. Nonetheless, additional security such as fixed deposits, guarantors etc may be requested depending on the credit assessment.
- The facility may be for the following purposes:-
 - Financing purchase of residential or commercial properties in Malaysia;
 - Refinancing of an existing mortgage loan from another financial institution (eg redemption sum/balance outstanding plus top up facility) in Malaysia;
 - Remortgage of a property free from encumbrances/debt in Malaysia;
 - Redraw or top up facility for existing Maybank mortgage loan customers seeking additional facility for working capital, investment, education, renovation, etc;
- The FlexiLoan is a mortgage facility that gives additional payment flexibility to borrowers. It is a combination of savings, current & loan facilities under one account. With the FlexiLoan, the borrower may pay more into the loan account anytime to save on interest and withdraw the excess payments anytime without incurring additional fees and charges.
- Typically, the maximum financing/facility amount is slightly less than the value of the property pledged and in the case of financing new purchases, the difference between the loan amount and the purchase price (or the open market value, whichever is lower) is to be paid by the customer first before the loan amount is released eg:-

Property/Purchase Price	: RM200,000
Total Loan Amount	: RM180,000 (90% of property/purchase price)
Customer's Portion	: RM20,000 (10% of property/purchase price)

Additional facility is available for capitalization of related expenses eg Mortgage Reducing Term Assurance (MRTA) premium, legal and stamp duty pertaining to the loan documentation, etc, subject to credit assessment and terms and conditions.

- The interest rate charged may be a single or multiple interest rates. It is based on the Standardized Base Rate (SBR) plus an interest spread eg SBR+1.75% and the effective rate will vary in accordance to the periodical changes in the SBR.
- The facility is available in conventional version only.
- Repayment of facility can be broken down into 2 components ie the principal loan sum and the monthly interest charges. Repayment of the principal loan sum is governed by the Drawing Limit. At any one time, the total outstanding balance must be within the Drawing Limit. Flexi Loan features the following 3 drawing limit reduction programmes:-

- Full Reduction Programme** where the Drawing Limit is gradually reduced on monthly basis to zero over the life of the facility.
