1. WHAT IS THIS PRODUCT ABOUT?

An Islamic share margin facility which enables Equity Investment Centre (EIC) customers* to finance their share trading activities in acceptable quoted Shariah-approved counters listed in Bursa Malaysia Berhad. The Bank will provide the financing facility based on the collateral you have pledged for this Facility. Credit funds in margin account (for individual accounts) will earn indicative profit rate of Premier *Mudharabah* Account (PMA-i) rate.

*This financing is open to Malaysian, Singaporean and Bruneian.

2. WHAT IS THE SHARIAH CONTRACT APPLICABLE?

The Shariah Contract applied is Murabahah (cost plus profit) via Tawarruq arrangement. It is a method of sale of which its acquisition cost and its marked-up price are disclosed where customer pays the price over an agreed period of time. The underlying asset for the sale transaction between the Customer and the Bank will be a specific tradable Shariah compliant commodity.

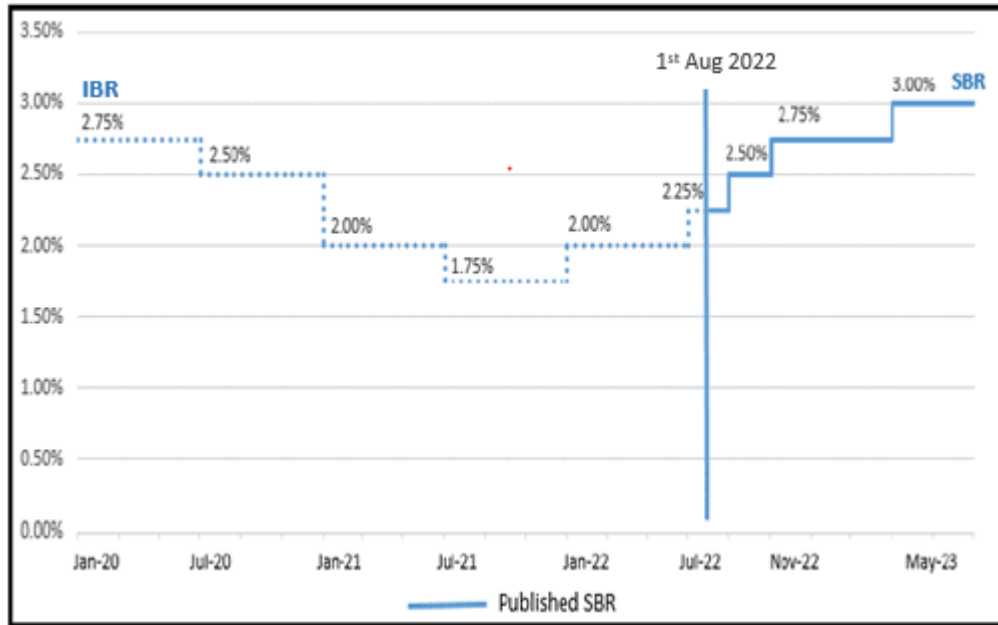

- a) In accordance to financing under the Community Murabahah, the Bank acquires/purchases a specific Shariah compliant commodity from a third party (Commodity Trader 1) upon request made by the Customer.
- b) The Bank then sells the said commodity to the Customer at the Bank’s Sale Price which comprised of the facility amount plus profit margin to be paid on deferred payment basis within the agreed tenure.
- c) The Customer then appoints the Bank as its agent to perform the commodity sale transaction to a third party for cash.
- d) The Bank, acting as an agent to the Customer then sells the commodity to a third party (Commodity Trader 2) at a price equivalent to the facility amount or limit.
- e) Proceeds of sale of the commodity will be disbursed to the Customer, vendors or stakeholders subject to the term and conditions of the facility.

For Commodity Murabahah trading purposes, the Bank shall at all times be your non-exclusive Agent to undertake the required Commodity Murabahah transactions related to the facility.

3. WHAT IS STANDARDISED BASE RATE (SBR)?

The SBR is a common reference rate for all commercial banks with effect from 1st August 2022 in the pricing of new retail financing pegged to Islamic Base Rates, refinancing of existing retail financing, and the renewal of revolving retail financing from 1st August 2022. The SBR is pegged to the Overnight Policy Rate (OPR) (ie SBR = OPR) and all existing Base Financing Rate (BFR) and Islamic Base Rate (IBR) in turn are pegged to the SBR. In other words, SBR, IBR and BFR will be adjusted in tandem with the changes in the OPR as determined by the Monetary Policy Committee (MPC) of Bank Negara Malaysia.

9. WHAT ARE THE RISK INVOLVED?

As the profit rate of this product is pegged to the Standardised Base Rate (SBR), an increase in profit rate may result in higher monthly charges. We may remove a counter from our list of eligible investments. If this happens, it can result in a margin call. You should carefully consider your personal investment objectives, your financial situation, and your tolerance for risk before pursuing such an investment /trading strategy as there is potential loss on the capital and collateral pledged due to counter/market movements. The use of leverage can lead to losses as well as gain.

10. CAN I CLAIM THE MONETARY LOSS FROM THE COMPENSATION FUND OF THE RELEVANT STOCK EXCHANGE ("COMPENSATION FUND")??

The compensation fund does not extend to investors who have suffered monetary loss as a result of a defalcation, or fraudulent misuse of moneys or other property, by a director, officer, employee or representative of a registered person. You may however lodge a complaint with Maybank Customer Feedback Management if you have suffered losses as a result of any act of our employees.
