The information in relation to the suspension of redemption request risk is hereby inserted:

Suspension of redemption request risk

Having considered the best interests of Unit Holders, the redemption requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the unit trust fund's assets cannot be determined. In such cases, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the unit trust fund for a longer period of time than the original timeline. Hence, their investments will continue to be subject to the risks inherent to the unit trust fund.

18. Amendments to page 87 of the Master Prospectus – “Information In Relation To The Fund – Risk Factors – Specific Risks When Investing In A Bond Fund”

The information in relation to the Shariah status reclassification risk is hereby deleted and replaced with the following:

Shariah status reclassification risk

Applicable only to Eastspring Dana al-Islah

a) Shariah-compliant equity securities

The risk refers to the risk that the currently held Shariah-compliant equity securities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the SC or the Shariah Adviser. If this occurs, the External Investment Manager will take the necessary steps to dispose of such securities.

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:

- (i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the effective date of reclassification of the list of Shariah-compliant securities (“Reclassification”) by the SAC of the SC or date of review (“Review”) by the Shariah Adviser. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the effective date of Reclassification or Review. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the effective date of Reclassification or Review should be channeled to *baitulmal* and/or charitable bodies advised by the Shariah Adviser;
- (ii) to hold such securities if the value of the said securities is below the investment cost on the effective date of Reclassification or Review until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channeled to *baitulmal* and/or charitable bodies advised by the Shariah Adviser; or

- (iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.

b) Sukuk or Islamic money market instruments or Islamic Deposits

This risk refers to the risk of a possibility that the currently held sukuk or Islamic money market instruments or Islamic Deposits invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the External Investment Manager will take the necessary steps to dispose of or withdraw such bond or money market instruments or deposits.

21. Amendments to page 96 of the Master Prospectus – “Information in Relation To the Fund – Specific Risks When Investing In The Target Fund”

The information in relation to “Sustainability risk” and “Miscellaneous risk” are hereby inserted at the end of the section as follows:

Sustainability risk

Applicable only to Eastspring Global Emerging Markets

The Investment Manager takes sustainability risks into account in the management of the Target Fund. A sustainability risk is an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of an investment and the returns of the Target Fund. There is also the risk that new regulations, taxes or industry standards to protect or encourage sustainable businesses and practices may be introduced – such changes may negatively impact issuers that are poorly placed to adapt to new requirements. The regulatory framework applying to sustainable products and sustainable investing is rapidly evolving. As such, the sustainable investing characteristics of the Target Fund and how they are described for investors may be subject to change over time in order to comply with new requirements or applicable regulatory guidance.

Miscellaneous risk

24. Amendments to pages 113 – 117 of the Master Prospectus – “Information In Relation To The Fund – Other Information – Additional Information In Relation To Shariah-Compliant Fund”

The information in relation to point (b) under cleansing process for the Fund is hereby deleted and replaced with the following:

(b) Reclassification of Shariah status of the Funds’ investments

(i) Shariah-compliant equity securities

Reclassification of Shariah status refers to securities which were earlier classified as Shariah-compliant securities but due to failure to meet the set benchmark criteria, are subsequently reclassified as Shariah non-compliant by the SAC of the SC or the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If on the effective date of reclassification of the list of Shariah-compliant securities (“Reclassification”) by the SAC of the SC or date of review (“Review”) by the Shariah Adviser or the Shariah Supervisory Boards of relevant indices, the value of the securities held exceeds or is equal to the investment cost, the Funds which hold such Shariah non-compliant securities must liquidate them. To determine the time frame to liquidate such securities, the Shariah Adviser advises that such securities should be disposed of within one (1) calendar month of Reclassification or Review.

Any dividends received up to the effective date of Reclassification or Review and capital gains arising from the disposal of the said reclassified Shariah non-compliant securities made with respect to the closing price on the effective date of Reclassification or Review can be kept by the Funds. However, any dividends received and excess capital gain derived from the disposal after the effective date of Reclassification or Review at a market price that is higher than the closing price on the effective date of Reclassification or Review shall be channeled to *baitulmal* and/or charitable bodies advised by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

The Funds are allowed to hold the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Funds to keep the dividends received during the holding period until such time when the total amount of the dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Funds are advised to dispose of their holdings. In addition, during the holding period, the Funds are allowed to subscribe to:

- any issue of new securities by a company whose Shariah non-compliant securities are held by the Funds such as rights issues, bonus issues, special issues and warrants [excluding securities whose nature is Shariah non-compliant such as irredeemable convertible unsecured loan stock (ICULS)]; and
- securities of other companies offered by the company whose Shariah non-compliant securities are held by the Funds,

on conditions that the Funds expedite the disposal of the Shariah non-compliant securities. For securities of other companies [as stated in the second bullet above], they must be

Shariah-compliant securities.

(ii) Sukuk or Islamic money market instruments or Islamic Deposits

This refers to the instruments which were earlier classified as sukuk or Islamic money market instruments or Islamic Deposits but due to certain factors such as changes in the issuers' business direction and policy or failure to carry out proper Shariah contracts' transactions, which render the instruments Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such Shariah non-compliant instruments.

If on the reclassification effective date, the value of the Shariah non-compliant instruments held exceeds or is equal to the investment cost, the Funds which holds such Shariah non-compliant instruments must liquidate them. To determine the time frame to liquidate such instruments, the Shariah Adviser advises that such reclassified Shariah non-compliant instruments should be disposed of within one (1) calendar month of reclassification.

Any income received up to the reclassification effective date and capital gains arising from the disposal of the said reclassified Shariah non-compliant instruments made on the reclassification effective date can be kept by the Funds.

However, any income received and excess capital gain derived from the disposal after the reclassification effective date at a price that is higher than the price on the reclassification effective date shall be channeled to *baitulmal* and/or charitable bodies advised by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

The Target Fund maintains a higher overall sustainability score than the MSCI Emerging Markets (Net TR) index, based on the Investment Manager's rating criteria.

The Target Fund does not directly invest in certain activities, industries or group of issuers above the limits listed under "Sustainability Information" on the Target Fund's webpage, accessed via www.schroders.com/en/lu/private-investor/gfc.

Sustainability Criteria

The Investment Manager applies governance and sustainability criteria when selecting investments for the Target Fund.

The Investment Manager performs due diligence on potential holdings, including meetings with management, and assesses the company's governance, environmental and social profile across a range of factors. This process is supported by quantitative analysis provided by Schroders' proprietary sustainability tools, which are key inputs to assess how existing and potential investments for the portfolio are meeting the Target Fund's sustainability criteria. In some cases, companies which fall below the sustainability criteria may still be eligible for investment if, as a result of proprietary analysis and ongoing engagement with management, the Investment Manager believes the company will meet its sustainability criteria within a realistic time horizon.

For a company to be eligible to be held in the Target Fund, it is expected to show a commitment to its stakeholders, including customers, employees, suppliers, shareholders and regulators. The Target Fund selects companies whose businesses demonstrate good governance and aim to treat stakeholders equitably.

The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data and reports. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures.

The Investment Manager ensures that at least:

- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and

- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries, held in the Target Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

29. Amendments to pages 157 – 169 of the Master Prospectus – “Information In Relation To The Target Fund – Permitted Investment & Restrictions and Limits of the Target Fund”

- (i) Paragraphs A(2) and A(3) under investment in transferable securities and liquid assets are hereby deleted;
- (ii) Paragraph D(2) under investment in transferable securities and liquid assets is hereby deleted and replaced with the following:

The Target Fund may acquire no more than (a) 10% of the non-voting shares of any single issuing body, (b) 10% of the value of debt securities of any single issuing body, (c) 10% of the money market investments of the same issuing body. However, the limits laid down in (b) and (c) above may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the money market investments or the net amount of securities in issue cannot be calculated.

The limits set out in paragraph D(1) and (2) above shall not apply to:

- (i) transferable securities and money market instruments issued or guaranteed by an EU member state or its local authorities;
 - (ii) transferable securities and money market instruments issued or guaranteed by any other Eligible State;
 - (iii) transferable securities and money market instruments issued by public international bodies of which one (1) or more EU member states are members; or
 - (iv) shares held in the capital of a company incorporated in a non-EU member state which invests its assets mainly in the securities of issuing bodies having their registered office in that state where, under the legislation of that state, such holding represents the only way in which the Target Fund's assets may invest in the securities of the issuing bodies of that state, provided, however, that such company in its investment policy complies with the limits laid down in Article 43, 46 and 48(1) and 2 of the Law.
- (iii) A new paragraph E(4) is hereby inserted under investment in transferable securities and liquid assets as follows:

The Target Fund may acquire no more than 25% of the units or shares of the same UCITS and/or other UCI. This limit may be disregarded at the time of acquisition if at that time the gross amount of the units or shares in issue cannot be calculated. In case of a UCITS or other UCI with multiple sub-funds, this restriction is applicable by reference to all units or shares issued by the UCITS/UCI concerned, all sub-funds combined.

- (iv) Paragraph (F)(e) under investment in transferable securities and liquid assets is hereby deleted.

- (v) The following paragraphs are hereby inserted immediately after the last paragraph under derivative:

The Target Fund may invest in financial derivative instruments that are traded OTC including, without limitation, total return swaps or other financial derivative instruments with similar characteristics, in accordance with the conditions set out in appendix I of the Target Fund's prospectus and the investment objective and policy of the Target Fund. Such OTC derivatives shall, to the extent capable of being held in custody, be safekept by the depositary. A total return swap is an agreement in which one party (total return payer) transfers the total economic performance of a reference obligation to the other party (total return receiver). Total economic performance includes income from interest and fees, gains or losses from market movements, and credit losses.

Total return swaps entered into by the Target Fund may be in the form of funded and/or unfunded swaps. An unfunded swap means a swap where no upfront payment is made by the total return receiver at inception. A funded swap means a swap where the total return receiver pays an upfront amount in return for the total return of the reference asset and can therefore be costlier due to the upfront payment requirement.

All revenue arising from total return swaps, net of direct and indirect operational costs and fees, will be returned to the Target Fund.

- (vi) Paragraph 1 under agreements on OTC derivatives is hereby deleted and replaced with the following:

The Target Fund may enter into agreements on OTC derivatives. The counterparties to any OTC derivatives transactions, such as total return swaps, or other derivatives, entered into by the Target Fund, are selected from a list of counterparties approved by the management company. The management company will aim to select the best available counterparties for any given markets in accordance with its group internal policy. The counterparties will be institutions which are either credit institutions or investment firms in each case with a registered office in an EU member state, a Group of Ten (G10) country or another country whose prudential rules are considered equivalent by the CSSF for this purpose, which are authorised under the Markets in Financial Instruments Directive (MiFID) directive or a similar set of rules and which are subject to prudential supervision. Such firms will, at trade inception either be rated BBB/Baa2 or above or have been approved by Schroders' Group Agency Credit Risk Committee. The management company monitors the ongoing creditworthiness of all counterparties and the list may be amended. The counterparties will have no discretion over the composition or management of the Target Fund's portfolio or over the underlying of the financial derivative instruments. The identity of the counterparties will be disclosed in the annual report of the Company.

- (vii) Paragraphs 2 and 3 under use of techniques and instruments relating to transferable securities and money market instruments are hereby deleted and replaced with the following:

To the extent permitted by and within the limits prescribed by the regulations and in particular (i) the CSSF Circular 08/356 relating to the use of financial techniques and instruments (as may be amended, supplemented or replaced from time to time) and (ii) the CSSF circular 14/592 relating to European Securities and Markets Authority (ESMA) Guidelines on ETFs and other UCITS issues, the Target Fund may for the purpose of generating additional capital or income or for reducing its costs or risks, enter as purchaser or seller into optional or non-optional repurchase or reverse repurchase transactions and engage in securities lending transactions.

The Company will, for the time being, not engage in securities lending transactions, repurchase or reverse repurchase transactions. Should the Company decide to use such techniques in the future, the Company will update the Target Fund's prospectus accordingly and will comply with the regulations and in particular CSSF Circular 14/592 relating to ESMA guidelines on ETFs and other UCITS issues and Regulation (EU) 2015/2365 of 25 November 2015 on transparency of securities financing transactions and of reuse.

- (viii) Paragraph 1 under reverse repurchase and repurchase agreements is hereby deleted and replaced with the following:

Should the Target Fund engage in reverse repurchase and repurchase agreements, the Target Fund will only enter into reverse repurchase and repurchase agreements with counterparties which are subject to prudential supervision rules considered by the CSSF as equivalent to that laid down in EU law.

- (ix) Paragraph 1 under management of collateral is hereby deleted and replaced with the following:

The risk exposures to a counterparty arising from OTC derivatives transactions and efficient portfolio management techniques shall be combined when calculating the counterparty risk limits provided for in section 1(C) above.

Collateral received for the benefit of the Target Fund may be used to reduce its counterparty risk exposure if it complies with the conditions set out in applicable laws and regulations. Where the Target Fund enters into OTC derivatives transactions and efficient portfolio management techniques, all collateral used to reduce counterparty risk exposure shall comply with the following criteria at all times:

- (A) Any collateral received other than cash shall be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received shall also comply with the provisions in section 1(D) above.
- (B) Collateral received shall be valued on at least a daily basis. Assets that exhibit high price volatility shall not be accepted as collateral unless suitably conservative haircuts are in place.
- (C) Collateral received shall be of high quality.
- (D) The collateral received shall be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- (E) Collateral shall be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Target Fund receives from a counterparty of efficient portfolio management and OTC derivatives transactions a basket of collateral with a maximum exposure to a given issuer of 20% of its net asset value. When the Target Fund is exposed to different counterparties, the different baskets of collateral shall be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation, the Target Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a member state of the EU, one or more of its local authorities, Eligible state or a public international body to which one or more of the local member states of the EU belong. In that case the Target Fund must receive securities from at least six different issues, but securities from any single issue shall not account for more than 30% of the net asset value of the Target Fund.
- (F) Where there is a title transfer, the collateral received shall be held by the depositary or one of its correspondents to which the depositary has delegated the custody of such collateral.

For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral.

- (G) Collateral received shall be capable of being fully enforced by the Target Fund at any time without reference to or approval from the counterparty.
- (H) Non-cash collateral received shall not be sold, re-invested or pledged.
- (I) Cash collateral that isn't received on behalf of currency hedged share classes shall only be:
 - (1) placed on deposit with entities as prescribed in section 1(A)(6) above;
 - (2) invested in high-quality government bonds;
 - (3) used for the purpose of reverse repurchase transactions provided the transactions are with credit institutions subject to prudential supervision and the Fund is able to recall at any time the full amount of cash on accrued basis;
 - (4) invested in short-term money market funds as defined in the "ESMA Guidelines on a Common Definition of European Money Market Funds", issued by ESMA (CESR/10-049) as amended from time to time or in Money Market Funds as defined in MMFR, once applicable.

- (x) The table under haircut policy is hereby deleted and replaced with the following:

Eligible collateral	Remaining maturity	Valuation percentage
Cash	Not applicable	100%
Government bonds	One year or under	98%
	More than one year up to and including five years	96% - 97%
	More than five years up to and including ten years	93% - 95%
	More than ten years up to and including thirty years	93%
	More than thirty years up to and including forty years	90%
	More than forty years up to and including fifty years	87%

- (xi) The information in relation to sustainability risk management and liquidity risk management framework is hereby inserted under risk management process as follows:

Sustainability Risk Management

The investment decision making process for the Target Fund includes the consideration of sustainability risks alongside other factors. A sustainability risk is an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of an investment and the returns of the Target Fund. Sustainability risks could arise within a particular business or externally, impacting multiple business. Sustainability risks that could negatively affect the value of a particular investment might include the following:

- Environmental: extreme weather events such as flooding and high winds; pollution incidents; damage to biodiversity or marine habitats.
- Social: labour strikes; health and safety incidents such as injuries or fatalities; product safety issues.
- Governance: tax fraud; discrimination within a workforce; inappropriate remuneration practices; failure to protect personal data;

- Regulatory: new regulations, taxes or industry standards to protect or encourage sustainable businesses and practices may be introduced.

Different asset classes, investment strategies and investment universes may require different approaches to the integration of such risks in investment decision-making. The Investment Manager will typically analyse potential investments by assessing (alongside other relevant considerations), for example, the overall costs and benefits to society and the environment that an issuer may generate or how the market value of an issuer may be influenced by individual sustainability risks such as a rise in carbon tax. The Investment Manager will also typically consider the relevant issuer's relationships with its key stakeholders – customers, employees, suppliers and regulators - including an assessment of whether those relationships are managed in a sustainable manner and, therefore, whether there are any material risks to the market value of the issuer.

The impact of some sustainability risks may have a value or cost that can be estimated through research or the use of proprietary or external tools. In such cases, it will be possible to incorporate this into more traditional financial analysis. An example of this might be the direct implications of an increase in carbon taxes that are applicable to an issuer, which can be incorporated into a financial model as an increased cost and/or as reduced sales. In other cases, such risks may be more difficult to quantify, and so the Investment Manager may seek to incorporate their potential impact in other ways whether explicitly, for example by reducing the expected future value of an issuer or implicitly, for example by adjusting the weighting of an issuer's securities in the Target Fund's portfolio depending on how strongly it believes a sustainability risk may affect that issuer.

A range of proprietary tools may be used to perform these assessments, along with supplementary metrics from external data providers and the Investment Manager's own due diligence, as appropriate. This analysis informs the Investment Manager's view of the potential impact of sustainability risks on the Target Fund's overall investment portfolio and, alongside other risk considerations, the likely financial returns of the Target Fund.

The management company's risk function provides independent oversight of portfolio exposures from a sustainability perspective. The oversight includes ensuring there is an independent assessment of sustainability risks within investment portfolios and adequate transparency and reporting on sustainability risk exposures.

More details on the management of sustainability risks and the Investment Manager's approach to sustainability are available on the internet site <https://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures>. Please also refer to the risk factor entitled "Sustainability Risks" in appendix II of the Target Fund's prospectus.

Liquidity Risk Management Framework

The management company has established, implemented and consistently applies a liquidity risk management framework which sets out the governance standards and requirements for the oversight of liquidity risk in relation to investment funds. The framework outlines the responsibilities for assessing, monitoring, and providing independent oversight of liquidity risks of the Target Fund. It also enables the management company to monitor the liquidity risks of the Target Fund and to ensure compliance with the internal liquidity parameters so that the Target Fund can normally meet its obligation from share redemptions at the request of shareholders.

Qualitative and quantitative assessments of liquidity risks at a portfolio and security level are performed to ensure that investment portfolios are appropriately liquid and that the portfolios of the Target Fund are sufficiently liquid to honour shareholders' redemption requests. In addition, shareholder concentrations are regularly reviewed to assess their potential impact on anticipated financial obligations of the Target Fund.

The Target Fund is reviewed with respect to liquidity risks.

The management company's assessment of liquidity risks within the Target Fund includes (but is not limited to) consideration of the investment strategy, the dealing frequency, the underlying assets' liquidity (and their valuation) and shareholder base.

A detailed description of the liquidity risks are further described in appendix II of the Target Fund's prospectus.

The board of directors of the Company, or the management company, as appropriate, may also make use, among others, of the following to manage liquidity risk:

- (A) the directors may declare that the redemption of part or all shares of the Target Fund in excess of 10% for which a redemption or switch has been requested will be deferred until the next dealing day and will be valued at the net asset value per share prevailing on that dealing day.
- (B) the Company may suspend the calculation of the next asset value per share of the Target Fund and the issue and redemption of any shares in the Target Fund, as well as the right to switch shares in the Target Fund into shares of a different share class of the Target Fund or into any share class of any other fund.

30. Amendments to page 170 of the Master Prospectus - Information In Relation To The Target Fund – Dilution”

The information in relation to dilution is hereby deleted and replaced with the following:

The Target Fund is single priced and may suffer a reduction in value as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such investments caused by subscriptions, redemptions and/or switches in and out of the Target Fund. This is known as “dilution”. In order to counter this and to protect shareholders' interests, the management company will apply “swing pricing” as part of its daily valuation policy to the extent allowed by applicable law. This will mean that in certain circumstances the management company will make adjustments in the calculations of the net asset values per share, to counter the impact of dealing and other costs to be incurred by the Target Fund in liquidating or purchasing investments on occasions when these are deemed to be significant. The calculation of such adjustments may take into account any provision for the impact of estimated market spreads (bid/offer spread of underlying securities), duties (for example transaction taxes) and charges (for example settlement costs or dealing commission) and other dealing costs related to the acquisition or disposal of investments.

Dilution Adjustment

In the usual course of business the application of a dilution adjustment will be triggered mechanically and on a consistent basis.

Schroders' group pricing committee provides recommendations to the management company on the appropriate level of dilution adjustment and level of threshold that should trigger the application of swing pricing in the Target Fund. The management company remains ultimately responsible for such pricing arrangements.

The need to make a dilution adjustment will depend upon the net value of subscriptions, switches and redemptions received by the Target Fund for each dealing day. The management company therefore reserves the right to make a dilution adjustment where the Target Fund experiences a net cash movement which exceeds a certain threshold.

The management company may also make a discretionary dilution adjustment if, in its opinion, it is in the interest of shareholders to do so.

The dilution adjustment is applied to all subscriptions, redemptions and/or switches in and out of the Target Fund on any given dealing day once the total level of such dealing in the Target Fund on that dealing day has exceeded the applicable threshold referred to above.

Where a dilution adjustment is made, it will increase the net asset value per share when there are net inflows into the Target Fund and decrease the net asset value per share when there are net outflows. The net asset value per share of each share class in the Target Fund will be calculated separately but any dilution adjustment will, in percentage terms, affect the net asset value per share of each share class identically.

As dilution is related to the inflows and outflows of money from the Target Fund it is not possible to accurately predict whether dilution will occur at any future point in time. It is also not possible to accurately predict how frequently the management company will need to make such dilution adjustments.

Swing pricing may vary from fund to fund and in normal market conditions is not expected to exceed 2% of the unadjusted net asset value per share of the Target Fund on any dealing day. However, under unusual or exceptional market conditions (such as significant market volatility, market disruption or significant economic contraction, a terrorist attack or war (or other hostilities), a pandemic or other health crisis, or a natural disaster), the management company may decide, on a temporary basis, to adjust the net asset value of the Target Fund by more than 2% when such a decision is justified as being in the best interests of the shareholders. Any such decision to adjust the net asset value by more than 2% will be published on the following website: www.schroders.lu.

The Company currently applies dilution to the Target Fund.

TAXATION OF THE FUNDS AND UNIT HOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the Seventh Supplementary Master Prospectus in connection with the Funds listed in the **Appendix** ("the Funds").

THIS SEVENTH SUPPLEMENTARY MASTER PROSPECTUS DATED 30 DECEMBER 2022 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019, THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 AND THE SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021.

The taxation of income for both the Funds and the Unit Holders are subject to the provisions of the Malaysian Income Tax Act 1967 ("the Act"). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUNDS

The Funds will be regarded as resident for Malaysian tax purposes since the Trustee of the Funds are resident in Malaysia.

(1) Domestic Investments

(i) General Taxation

Subject to certain exemptions, the income of the Funds consisting of dividends or interest or profit¹ (other than interest and profit¹ which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24 per cent.

Gains on disposal of investments in Malaysia by the Funds will not be subject to Malaysian income tax.

(ii) Dividends and Other Exempt Income

Effective 1 January 2014, all companies would adopt the single-tier system. Hence dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refunds available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

The Funds may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Funds will not be taxable on such exempt income.

Interest or profit¹ or discount income derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the government of Malaysia;
- (b) Debentures² or sukuk, other than convertible loan stocks, approved or authorized by, or lodged with, the Securities Commission Malaysia; and
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

Interest income or profit¹ derived from the following investments is exempt from tax:

- (a) Interest income or profit¹ paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013;

¹ Under section 2(7) of the Income Tax Act 1967, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah.

The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

² Structured products approved by the Securities Commission Malaysia are deemed to be "debenture" under the Capital Markets and Services Act, 2007 and fall within the scope of exemption.

THIS SEVENTH SUPPLEMENTARY MASTER PROSPECTUS DATED 30 DECEMBER 2022 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019, THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 AND THE SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021.

- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest income or profit¹ paid or credited by Malaysia Building Society Berhad³.

The interest income or profit¹ or discount income exempted from tax at the Funds level will also be exempted from tax upon distribution to the Unit Holders.

Exception: -

i. Wholesale money market fund

With effect from 1 January 2019, the exemption shall not apply to interest or profit¹ paid or credited to a unit trust that is a wholesale money market fund.

ii. Retail money market fund ("RMMF")

Based on the Finance Act 2021, the interest income or profit¹ of a RMMF will remain tax exempted under Paragraph 35A, Schedule 6 of the Act. However, resident and non-resident Unit Holders (other than individual Unit Holders), who receive income distributed from interest or profit¹ income of the RMMF which are exempted under Paragraph 35A of Schedule 6, will be subject to withholding tax ("WHT") at the rate of 24 per cent. This new WHT is effective from 1 January 2022 onwards.

The WHT is to be withheld and remitted by the RMMF to the tax authorities within 30 days upon distribution of the income to the Unit Holders.

(2) Foreign Investments

With effect from 1 January 2022, the exemption of foreign-sourced income received in Malaysia is only applicable to a person who is a non-resident.

However, subject to qualifying conditions (also subject to compliance with conditions imposed by the Ministry of Finance as specified in the Inland Revenue Board ("IRB")'s guidelines), the following foreign-sourced income received from 1 January 2022 to 31 December 2026 (5 years) will continue to be exempted from Malaysian income tax:

- Dividend income received by resident companies, limited liability partnerships and resident individuals (in respect of dividend income received through a partnership business in Malaysia).
- All classes of income (excluding a source of income from a partnership business in Malaysia, which is received in Malaysia from outside Malaysia) received by resident individuals.

Based on clarifications from the IRB, foreign-sourced income (e.g. dividends, interest or profit¹, etc.) of a resident Fund which is received in Malaysia will be subject to tax. There will be a transitional period from 1 January 2022 to 30 June 2022 where foreign-sourced income remitted to Malaysia will be taxed at the rate of 3% on gross income. From 1 July 2022 onwards, any foreign-sourced income remitted to Malaysia will be subject to Malaysian income tax at the rate of 24% for a resident Fund.

Such income from foreign investments may be subject to taxes or withholding taxes in the specific foreign country. Subject to meeting the relevant prescribed requirements, the Funds in Malaysia are entitled for double taxation relief on any foreign tax suffered on the income in respect of overseas investment.

Gains on disposal of foreign investments by the Funds will not be subject to Malaysian income tax.

The foreign income subjected to Malaysian tax at the Funds level will also be taxable upon distribution to the Unit Holders. However, the income distribution from the Funds will carry a tax credit in respect of the Malaysian tax paid by the Funds. Unit Holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them.

(3) Hedging Instruments

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into.

Generally, any gain / loss relating to the principal portion will be treated as capital gain / loss. Gains / losses relating to the income portion would normally be treated as revenue gains / losses. The gain / loss on revaluation will only be taxed or claimed upon realisation. Any gain / loss on foreign exchange is treated as capital gain / loss if it arises from the revaluation of the principal portion of the investment.

(4) Income from Malaysia Real Estate Investment Trusts ("REITs")

Effective from 1 September 2018, SST has been reintroduced to replace the Goods and Services Tax (“GST”). Both the Sales Tax Act 2018 and Services Tax Act 2018 have been gazetted on 28 August 2018. The rates for sales tax are nil, 5 per cent, 10 per cent or a specific rate whereas the rate for service tax is at 6 per cent.

Sales tax will be chargeable on taxable goods manufactured in or imported into Malaysia, unless specifically exempted by the Minister. Whereas, only specific taxable services provided by specific taxable persons will be subject to service tax. Sales tax and service tax are single stage taxes. As such, SST incurred would generally form an irrecoverable costs to the business.

In general, the Funds, being collective investment vehicles, will not be caught under the service tax regime.

Certain brokerage, professional, consultancy or management services obtained by the Funds may be subject to service tax at 6 percent. However, fund management services and trust services are excluded from service tax. With effect from 1 January 2019, service tax will apply to any taxable service that is acquired by any business in Malaysia from a non-Malaysian service provider. In this connection, the Funds, being non-taxable person who acquire imported taxable services (if any) will need to declare its imported taxable services through the submission of prescribed declaration, i.e. Form SST-02A to the Royal Malaysian Customs Department (“RMCD”).

- (i) The information in relation to the collective investment scheme risk is hereby inserted as follows:

Collective investment scheme risk

Applicable only to Eastspring Dynamic

Any adverse effect on the collective investment scheme which the Fund is investing in will impact the NAV of the Fund as the NAV of the Fund is dependent on the performance of the respective collective investment scheme.

- (ii) The information in relation to the currency risk is hereby inserted as follows:

Currency risk

Applicable only to Eastspring Dynamic

As the Fund may invest in collective investment scheme with its underlying investments denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the underlying investments of the collective investment scheme are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the underlying investments of the collective investment scheme are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

The impact of the exchange rate movement between the base currency of the Fund and the currencies of the underlying investments of the collective investment scheme may result in a depreciation of the value of the investments as expressed in the base currency of the Fund.

The Fund does not intend to engage in any currency hedging to mitigate the currency risk.

In the event that the Funds wish to invest in foreign equities not covered by DJIM or other approved lists by the Shariah Adviser, the Funds must submit to the Shariah Adviser the latest information pertaining to the issuer’s business activities, its complete financial statements and other related information to enable the Shariah Adviser to carry out Shariah screening. (i) Shariah-compliant equity securities

THIS SIXTH SUPPLEMENTARY MASTER PROSPECTUS DATED 15 DECEMBER 2021 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019, THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019 AND THE FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020.

Reclassification of Shariah status refers to securities which were earlier classified as Shariah-compliant securities but due to failure to meet the set benchmark criteria, are subsequently reclassified as Shariah non-compliant by the SAC of the SC, the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If on the last trading day before the reclassification effective date, the value of the securities held exceeds or is equal to the investment cost, the Funds which hold such Shariah non-compliant securities must liquidate them. To determine the time frame to liquidate such securities, the Shariah Adviser advises that such securities should be disposed of within one (1) calendar month of reclassification.

Any dividends received up to the last trading day before the reclassification effective date and capital gains arising from the disposal of the said reclassified Shariah non-compliant securities made with respect to the closing price on the last trading day before the reclassification effective date can be kept by the Funds. However, any dividends received and excess capital gain derived from the disposal on and after the reclassification effective date at a market price that is higher than the closing price on the last trading day before the reclassification effective date shall be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

The Funds are allowed to hold the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Funds to keep the dividends received during the holding period until such time when the total amount of the dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Funds are advised to dispose of their holdings. In addition, during the holding period, the Funds are allowed to subscribe to:

- any issue of new securities by a company whose Shariah non-compliant securities are held by the Funds such as rights issues, bonus issues, special issues and warrants [excluding securities whose nature is Shariah non-compliant such as irredeemable convertible unsecured loan stock (ICULS)]; and
- securities of other companies offered by the company whose Shariah non-compliant securities are held by the Funds,

on conditions that the Funds expedite the disposal of the Shariah non-compliant securities. For securities of other companies [as stated in the second bullet above], they must be Shariah-compliant securities.

(ii) Sukuk or Islamic money market instruments or Islamic deposits

SHARIAH INVESTMENT GUIDELINES, CLEANSING PROCESS AND ZAKAT FOR THE FUNDS

1. Shariah Investment Guidelines

The following guidelines are adopted by the Shariah Adviser in determining the Shariah status of investments of the Funds:

- The Funds must at all times and all stages of its operation comply with Shariah principles as resolved by the SAC of the SC or in cases where no specific rulings are made by the SAC of the SC, the decisions of the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices.
- The Funds must be raised and operated by the Manager, and finally redeemed by the investors on the basis of contracts which are acceptable in Shariah. The banking facilities and short-term money market instruments used for the Funds have to be Shariah-compliant. Similarly, all the other investment instruments including securities, sukuk, etc. must be Shariah-compliant.
- For Shariah-compliant securities listed on the Bursa Malaysia, the Funds' investments must be strictly confined to those Shariah-compliant securities on the list approved by the SAC of the SC.
- For Islamic money market instruments or sukuk, they shall be based on the data readily available on BNM and the SC websites.
- The SAC of the SC has adopted a standard methodology to determine the Shariah compliance of companies listed on Bursa Malaysia. This methodology takes into consideration both the quantitative and qualitative aspects of the listed companies.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

(a) Quantitative analysis:

The quantitative part is a two-tier benchmark applied to the business activities of the companies and to the financial ratios of the companies. The business activity benchmarks consist of a 5% benchmark and a 20% benchmark.

(i) Business activity benchmarks

For the business activity benchmarks, the revenue or income contribution of Shariah non-compliant business activities to the group revenue or group profit before taxation of the listed companies will be computed and compared against the relevant business activity benchmarks, and must be less than the 5% or the 20% benchmarks.

The 5% benchmark would be applicable to the following business activities:

- Conventional banking and lending;
- Conventional insurance;
- Gambling;
- Liquor and liquor-related activities;
- Pork and pork-related activities;
- Non-halal food and beverages;
- Shariah non-compliant entertainment;
- Interest income¹ from conventional accounts and instruments (including interest income awarded arising from a court judgement or arbitration);
- Dividends¹ from Shariah non-compliant investments;
- Tobacco and tobacco-related activities; and
- Other activities deemed non-compliant according to Shariah principles as determined by the SAC of the SC.

¹ Interest income and dividends from Shariah non-compliant investments will be compared against the group revenue. However, if the main activity of the company is holding of investment, the dividends from Shariah non-compliant investments will be compared against the group revenue and group profit before taxation.

The 20% benchmark would be applicable to the following activities:

- Share trading in Shariah non-compliant securities;
- Stockbroking business other than Islamic stockbroking company;
- Rental received from Shariah non-compliant activities; and
- Other activities deemed non-compliant according to Shariah principles as determined by the SAC of the SC.

(ii) Financial ratio benchmarks

In addition, the financial ratios for cash in conventional accounts and instruments as well as interest-bearing debts over the total assets of the listed companies are also considered in the analysis carried out by the SAC of the SC to determine their Shariah compliance status.

The financial ratios applied are as follows:

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

- **Ratio of cash over total assets**

Cash will only include cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments will be excluded from the calculation.

- **Ratio of debt over total assets**

Debt will only include interest-bearing debt whereas Islamic financing or sukuk will be excluded from the calculation.

Both benchmark ratios, which are intended to measure *riba* and *riba*-based elements within a listed company's balance sheet, must be less than 33%.

(b) Qualitative analysis:

As for qualitative aspect of the Shariah compliance analysis, an additional criterion will be considered namely the public perception or image of the listed company which must be acceptable from the Shariah perspective.

- The SAC of the SC had considered the following criteria for a Special Purpose Acquisition Company (SPAC) to be classified as Shariah-compliant:
 - ❖ The proposed business activity should be Shariah-compliant;
 - ❖ The entire proceeds raised from the initial public offering should be placed in an Islamic account; and
 - ❖ In the event that the proceeds are invested, the entire investment should be Shariah-compliant.
- Shariah-compliant securities include ordinary shares and warrants (issued by the companies themselves). This means that warrants are classified as Shariah-compliant securities provided the underlying shares are also Shariah-compliant. On the other hand, loan stocks and bonds are Shariah non-compliant securities unless they are structured based on SAC of the SC's approved Shariah rulings, concepts and principles.
- For investment in foreign securities, the Funds are only allowed to invest in securities which are on the approved list of Dow Jones Islamic Market Index (DJIM) or other approved lists by the Shariah Adviser. In the event of reclassification of foreign Shariah-compliant securities to be Shariah non-compliant, the Funds are to abide by the rules as laid down by the SAC of the SC and by this Shariah Investment Guidelines. In the event that the Funds wish to invest in foreign securities not covered by DJIM or other approved lists by the Shariah Adviser, the Funds must submit to the Shariah Adviser the latest information pertaining to the issuer's business activities, its complete financial statements and other related information to enable the Shariah Adviser to carry out Shariah screening.
- As for investment in foreign sukuk or any foreign investment instrument, the Funds must submit to the Shariah Adviser all pertinent information including the memoranda and prospectuses, its structures, utilisation of the proceeds, Shariah contracts and Shariah pronouncements by the relevant Shariah advisers advising the sukuk issuance or instrument, for the Shariah Adviser to confirm the Shariah status of the sukuk or instrument.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

- The decision of the Shariah Adviser shall be final.
- To facilitate the purchase and sale of foreign securities, there may be a need to have cash placement in a conventional bank account outside Malaysia. In such circumstances, the conventional account should be non-interest bearing and the sole purpose is only to facilitate purchase and sale of foreign securities.

2. Cleansing Process for the Funds

(a) Wrong investment

(i) Investment in Shariah non-compliant equity securities

The said investment shall be disposed of/withdrawn with immediate effect, if possible; or otherwise within one (1) calendar month of knowing the status of the securities irrespective of market price considerations. In the event that the investment resulted in gain (through capital gain and/or dividend), it has to be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. For the avoidance of doubt, dividends shall include both received before and after disposal of the Shariah non-compliant securities. The Shariah Adviser advises that this cleansing process (i.e. channeling of gain from wrongful investment to *baitulmal* and/or charitable bodies approved by the Shariah Adviser) shall be carried out within two (2) calendar months from the said disposal/withdrawal date. If the disposal of the securities resulted in losses to the Funds, the losses are to be borne by the Manager.

(ii) Investment in other Shariah non-compliant instruments (i.e. fixed income instruments or bonds or money market instruments or deposits)

The said investment shall be disposed of/withdrawn with immediate effect, if possible; or otherwise within one (1) calendar month of knowing the status of the investment. In the event that the investment resulted in Shariah non-compliant income before or after the disposal of the instrument, it has to be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process (i.e. channeling of income from wrongful investment to *baitulmal* and/or charitable bodies approved by the Shariah Adviser) shall be carried out within two (2) calendar months from the said disposal/withdrawal date. If the disposal of the investment resulted in losses to the Funds, the losses are to be borne by the Manager.

(b) Reclassification of Shariah status of the Funds' investments

(i) Shariah-compliant equity securities

Reclassification of Shariah status refers to securities which were earlier classified as Shariah-compliant securities but due to failure to meet the set benchmark criteria, are subsequently reclassified as Shariah non-compliant by the SAC of the SC, the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If on the reclassification effective date, the value of the securities held exceeds or equal to the investment cost, the Funds which hold such Shariah non-compliant securities must liquidate them. To determine the time frame to liquidate such securities, the Shariah Adviser advises that such securities should be disposed of within one (1) calendar month of reclassification.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

Any dividends received up to the reclassification effective date and capital gains arising from the disposal of the said reclassified Shariah non-compliant securities made with respect to the closing price on the reclassification effective day can be kept by the Funds. However, any dividends received and excess capital gain derived from the disposal after the reclassification effective day at a market price that is higher than the closing price on the reclassification effective day shall be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

The Funds are allowed to hold the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Funds to keep the dividends received during the holding period until such time when the total amount of the dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Funds are advised to dispose of their holdings. In addition, during the holding period, the Funds are allowed to subscribe to:

- any issue of new securities by a company whose Shariah non-compliant securities are held by the Funds e.g. rights issues, bonus issues, special issues and warrants [excluding securities whose nature is Shariah non-compliant e.g. irredeemable convertible unsecured loan stock (ICULS)]; and
- securities of other companies offered by the company whose Shariah non-compliant securities are held by the Funds,

on conditions that the Funds expedite the disposal of the Shariah non-compliant securities. For securities of other companies [as stated in the second bullet above], they must be Shariah-compliant securities.

(ii) Sukuk or Islamic money market instruments or Islamic deposits

This refers to the instruments which were earlier classified as Shariah-compliant instruments but due to certain factors such as changes in the issuers' business direction and policy or failure to carry out proper Shariah contracts' transactions, which render the instruments Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of such instruments.

If on the reclassification effective date, the value of the Shariah non-compliant instruments held exceeds or equal to the investment cost, the Funds which holds such Shariah non-compliant instruments must liquidate them. To determine the time frame to liquidate such instruments, the Shariah Adviser advises that such reclassified Shariah non-compliant instruments should be disposed of within one (1) calendar month of reclassification.

Any income received up to the reclassification effective date and capital gains arising from the disposal of the said reclassified Shariah non-compliant instruments made on the reclassification effective day can be kept by the Funds.

However, any income received and excess capital gain derived from the disposal after the reclassification effective day at a price that is higher than the price on the reclassification effective day shall be channeled to *baitulmal* and/or charitable bodies

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

3. Zakat for the Funds

The Funds do not pay zakat on behalf of both Muslim individuals and Islamic legal entities who are investors of the Funds. Thus, investors are advised to pay zakat on their own.

THE SHARIAH ADVISER CONFIRMS THAT THE INVESTMENT PORTFOLIO OF THE FUNDS COMPRISES INSTRUMENTS THAT HAVE BEEN CLASSIFIED AS SHARIAH-COMPLIANT BY THE SAC OF THE SC, THE SAC OF BNM OR THE SHARIAH SUPERVISORY BOARDS OF RELEVANT ISLAMIC INDICES. FOR INSTRUMENTS THAT ARE NOT CLASSIFIED AS SHARIAH-COMPLIANT BY THE SAC OF THE SC, THE SAC OF BNM OR THE SHARIAH SUPERVISORY BOARDS OF RELEVANT ISLAMIC INDICES, THE SHARIAH ADVISER WILL REVIEW AND DETERMINE THE SHARIAH STATUS OF THE SAID INSTRUMENTS.

17. Amendments to page 121 of the Master Prospectus – “Information In Relation To The Fund – Suspension Deferral of Redemptions”

The information in relation to the suspension and deferral of redemptions is hereby added as follows:

Suspension and Deferral of Redemptions

Eastspring Asia Select Income (for the avoidance of doubt, the Eastspring Asia Select Income is not a feeder fund).

The Target Fund relating to Eastspring Asia Select Income namely Eastspring Investments – Dragon Peacock Fund, has a suspension and deferral of redemptions in place to mitigate liquidity risk.

Liquidity risk is the risk that a particular position cannot be easily unwound or offset due to insufficient market depth or market disruption; or that the Target Fund's financial obligations (such as investor redemptions) cannot be met.

The Target Fund will impose suspension and deferral of redemptions if:

- a) the redemption requests received by the Target Fund exceeds 10% of the net asset value of the Target Fund on a particular valuation day; or
- b) under exceptional circumstances as stipulated in "Suspension of the Determination of the Net Asset Value" of this Fifth Supplementary Master Prospectus.

The Target Fund may defer redemption requests received, on a “first in, first out” basis.

If such limitation is imposed, this would restrict the ability of the Fund to redeem from the Target Fund on a particular valuation day. This may affect the Fund's ability to meet Unit Holders' redemption requests, should the Fund also make redemption requests at the same time. However, given that the Fund is only allowed to invest up to 40% of the Fund's NAV in the Target Fund, the Fund will still be able to meet Unit Holders' redemption requests, as the Fund still has at least 1% in liquid assets and is also able to liquidate the fixed income securities in the Fund.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

18. Amendments to page 125 of the Master Prospectus – “Information In Relation To The Target Fund – Eastspring Investments – Dragon Peacock Fund – Investment Objective of the Target Fund”

The information in relation to the investment objective of Eastspring Investments – Dragon Peacock Fund is hereby deleted and replaced with the following:

The Target Fund aims to maximise long-term total returns by investing primarily in equity and equity-related instruments of corporations, which are incorporated in, or listed in, or operating principally from, or carrying on significant business in, or derive substantial revenue from, or whose subsidiaries, related or associated corporations derive substantial revenue from the People's Republic of China (PRC) and the Republic of India (India).

The investments of the Target Fund include, but are not limited to, listed securities in the recognised markets, depository receipts including ADRs and Global Depository Receipts, debt securities convertible into common shares, preference shares and warrants.

The Target Fund may invest up to 20% of its net assets in China-A shares directly through the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect.

19. Amendments to pages 133 – 135 of the Master Prospectus – “Information In Relation To The Target Fund – Eastspring Investments – Dragon Peacock Fund – Risk Management”

The information in relation to the risk management is hereby deleted and replaced with the following:

Liquidity Risk Management

Liquidity risk is the risk that a particular position cannot be easily unwound or offset due to insufficient market depth or market disruption; or that the Target Fund's financial obligations (such as investor redemptions) cannot be met. An inability to unwind a particular investment or portion of the Target Fund's assets may have a negative impact on the value of the Target Fund and to the Target Fund's ability to meet its investment objectives. Additionally, an inability to unwind the Target Fund's assets may have negative implications for investors being able to redeem in a timely fashion, and also to investors who remain invested in the Target Fund.

The Investment Manager of the Target Fund has established a liquidity management policy which enables it to identify, assess, monitor and manage the liquidity risks of the Target Fund and to ensure that the liquidity profile of the investments of the Target Fund will facilitate compliance with the Target Fund's obligation to meet redemption requests. Such policy, combined with the liquidity management tools that may be employed, also seeks to achieve fair treatment of shareholders (including the Fund) and safeguard the interests of remaining shareholders (including the Fund) in case of sizeable redemptions.

The oversight of the liquidity risk management function will be performed by the Investment Risk department of the Investment Manager of the Target Fund, which is functionally independent from the investment management function of the Investment Manager of the Target Fund, to assess the liquidity of the Target Fund's assets under the current and likely future market conditions.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

Liquidity stress testing is performed regularly by the Investment Manager of the Target Fund to assess the Target Fund's estimated liquidation cost when bid-ask spread widens significantly and/or available trading volume reduces significantly. Risk monitoring is reported regularly to risk management function and committee of the Investment Manager of the Target Fund, the Management Company and the directors of the Company. Exceptions on liquidity risk related issues will be escalated to the risk management committee of the Investment Manager of the Target Fund.

The following tools may be employed by the Management Company to manage liquidity risks:

- (a) the Management Company shall not be bound to redeem and convert on any valuation day more than 10% of the net asset value of the Target Fund on such valuation day (subject to the conditions under "Suspension and Deferral of Redemptions" of this Fifth Supplementary Master Prospectus*). If such limitation is imposed, this would restrict the ability of a shareholder (including the Fund) to redeem the shares he intends to redeem on a particular redemption day;
- (b) the Management Company may suspend redemption and/or conversion under exceptional circumstances as described in "Suspension of the Determination of the Net Asset Value" of this Fifth Supplementary Master Prospectus*. During such period of suspension, shareholders (including the Fund) would not be able to redeem and/or convert their shares of the Target Fund;
- (c) the board of directors of the Company may, at its discretion, make a price adjustment to the net asset value per share of the Target Fund (for example, when the Target Fund is experiencing a net outflow of redemptions that requires significant sales of assets or when the Target Fund is experiencing significant levels of net subscriptions relative to its size) to mitigate the effect of dilution. Price adjustment may either be implemented at the Target Fund level or at a share class level, depending on the circumstances. For details, please refer to "Price Adjustment Policy/Swing Pricing" of this master prospectus. As a result of such adjustment, the net asset value per share will be higher or lower than the net asset value per share which otherwise would be if such adjustment has not been made; and
- (d) subject to "Permitted Investments & Investment Restrictions and Limits of the Target Fund", sub-section (17) of this master prospectus, the Target Fund may not borrow more than 10% of its net assets, and then only from financial institutions and on a temporary basis. There can be no assurance that the Target Fund will be able to borrow on favourable term.

** A copy of the full prospectus of the Target Fund is available from Eastspring Investments Berhad on request.*

Financial Derivative Instruments

The Company may use financial derivative instruments as set forth in the Permitted Investments & Investments Restrictions and Limits of the Target Fund above, sub-section (1)(g), for hedging and efficient portfolio management purposes.

The Management Company, on behalf of the Company may, for the Target Fund, for the purpose of efficient portfolio management of the assets of the Target Fund and/or to protect its assets and commitments, employ certain techniques and instruments as set out in this section.

Efficient portfolio management transactions may not include speculative transactions. These transactions must be economically appropriate (this implies that they are realised in a cost-effective way) and be entered into for one or more of the following specific aims:

- the reduction of risks;
- the reduction of cost; or

- the generation of additional capital gain or income for the Target Fund with an appropriate level of risk, taking into account its risk profile and the risk diversification rules laid down in the investment restrictions.

These transactions include but not limited to the following:

- using swap contracts to adjust interest rate risk;
- using currency derivatives to manage currency risk;
- writing covered call options to generate additional income;
- using credit default swaps to manage credit risk;
- market access pending the availability of relevant custody accounts on behalf of the Target Fund;
- using volatility derivatives to adjust volatility risk; and
- using total return swaps or other swap contracts which have similar characteristics as total return swaps.

The relating risks of these transactions must be adequately captured by the risk management process.

The Management Company, on behalf of the Company must ensure that the overall risk associated with derivatives does not exceed the net assets of the Target Fund. The following are taken into account in computing risk: the market value of the underlying instruments, the risk of default, future foreseeable market developments and the period within which the positions are to be liquidated. This also applies to the following two points:

- In the case of investments in derivatives, the overall exposure for the underlying instruments may not exceed the investment limits set forth in the investment restrictions. Investments in index-based derivatives need not be taken into account in the case of the investment limits set forth in the investment restrictions.
- If a derivative has a security or money market instrument as the underlying, it has to be taken into account with regard to compliance with the rules set forth under the investment restrictions.

In no case whatsoever must recourse to transactions involving derivatives or other financial techniques and instruments cause the Management Company, on behalf of the Company to depart from the investment objectives set out in the prospectus of the Target Fund or add substantial supplementary risks in comparison to the Company's general risk policy (as described in the prospectus of the Target Fund).

In addition, the financial derivative instruments must comply with the provisions contained in the investment restrictions.

Should the Management Company on behalf of the Company decide to enter into derivative transactions for purposes other than hedging and/or efficient portfolio management purposes, the investment policy of the Target Fund will be amended accordingly.

Commitment Approach

The method used to calculate the global exposure of the Target Fund is the commitment approach.

The Management Company, on behalf of the Company shall ensure that the Target Fund's global exposure relating to derivative instruments does not exceed the total net value of its portfolio. The

risk exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

Net Derivative Exposure

Effective from 2 December 2019, as the Target Fund is authorized by the Securities and Futures Commission, the net derivative exposure may be up to 50% of the Target Fund's net asset value. The net derivative exposure set out above may be exceeded in such circumstances as permitted under the Code on Unit Trusts and Mutual Funds, handbook, code and/or guideline issued by the Securities and Futures Commission from time to time or permitted by the Securities and Futures Commission from time to time.

The term "net derivative exposure" has the meaning as defined in the Code on Unit Trusts and Mutual Funds and should be calculated in accordance with the requirement and guidance issued by the Securities and Futures Commission, which may be updated from time to time (including but not limited to the "Guide on the Use of Financial Derivative instruments for Unit Trusts and Mutual Funds").

Collateral Policy

The collateral policy of the Company is as follows:

- permitted types of collateral: cash collateral.
- level of collateral: fully collateralised, subject to decisions thresholds as per relevant credit support annex.
- safekeeping of collateral: collateral received is safe-kept with the depositary or third-party delegates of the depositary, as appropriate.
- haircut policy: no haircut.
- re-investment policy: no reinvestment of collateral.

Securities lending transactions, sales with a right of repurchase transactions, reverse repurchase transactions, and/or repurchase transactions

The Management Company will, for and on behalf of the Company and the Target Fund, for the time being, not enter into repurchase and reverse repurchase transactions nor engage in securities lending transactions. Should the Management Company decide to use such techniques and instruments in the future, this can be done so at the Management Company's discretion and the prospectus of the Target Fund will be updated accordingly thereafter, subject to regulatory approval.

20. Amendments to pages 135 – 136 of the Master Prospectus – "Information In Relation To The Target Fund – Eastspring Investments – Dragon Peacock Fund – Pricing Adjustment Policy"

The information in relation to the pricing adjustment policy is hereby deleted and replaced with the following:

PRICE ADJUSTMENT POLICY / SWING PRICING

The actual cost of purchasing or selling assets and investments for the Target Fund may however deviate from the latest available price or net asset value used, as appropriate, in calculating the net

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

asset value per share due to duties and charges and spreads from buying and selling prices of the underlying investments. These costs have an adverse effect on the value of the Target Fund and are known as “dilution”. To mitigate the effects of dilution, the board of directors of the Company may, at its discretion, make a price adjustment to the net asset value per share of the Target Fund.

Shares will in principle be issued, redeemed and converted on the basis of a single price, i.e., the net asset value per share. However – to mitigate the effect of dilution – the net asset value per share may be adjusted for any valuation day in the manner set out below depending on whether or not the Target Fund is in a net subscription position or in a net redemption position for such valuation day to arrive at the applicable adjusted price (the “Adjusted Price”). Where there is no dealing in the Target Fund or class of the Target Fund on any valuation day, the applicable price will be the unadjusted net asset value per share. The board of directors of the Company will retain the discretion in relation to the circumstances under which to make such a price adjustment. As a general rule, the requirement to make a price adjustment will depend on whether the net volume of subscriptions, redemptions or conversions of shares in the Target Fund exceeds a certain threshold, as determined by the board of directors of the Company, that will require significant purchases of assets or sales of assets in order to provide the required liquidity. The board of directors of the Company may make a price adjustment if, in its opinion, the existing shareholders (including the Fund) (in case of subscriptions or conversions) or remaining shareholders (including the Fund) (in case of redemptions or conversions) might otherwise be adversely affected. In particular, the price adjustment may be made where, for example but without limitation:

- a) the Target Fund is in continual decline (i.e. is experiencing a net outflow of redemptions that requires significant sales of assets);
- b) the Target Fund is experiencing significant levels of net subscriptions relative to its size;
- c) the Target Fund is experiencing a net subscription position or a net redemption position on any valuation day that requires significant purchases or sales of assets; and
- d) in any other case where the board of directors of the Company is of the opinion that the interests of shareholders (including the Fund) require the imposition of a price adjustment.

The price adjustment will involve adding to, when the Target Fund is in a net subscription position, and deducting from, when the Target Fund is in a net redemption position, the net asset value per share such figure as the board of directors of the Company considers an appropriate figure to meet duties and charges and spreads. In particular, the net asset value of the Target Fund will be adjusted (upwards or downwards) by an amount which reflects (i) the estimated fiscal charges, (ii) dealing costs that may be incurred by the Target Fund and (iii) the estimated bid/offer spread of the assets in which the Target Fund invests. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the resulting adjustment may be different for net inflows than for net outflows. Adjustments will however be limited to a maximum of 2% of the then applicable net asset value per share. However, under exceptional circumstances the board of directors of the Company may, in the interest of shareholders (including the Fund), decide to increase beyond the maximum swing factor indicated above. In such case the board of directors of the Company would inform the investors.

The Adjusted Price of each class in the Target Fund will be calculated separately but any price adjustment will in percentage terms affect the Adjusted Price of each class in an identical manner. On the occasions when the price adjustment is not made there may be an adverse impact on the total assets of the Target Fund.

THIS FIFTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 OCTOBER 2020 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018, THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018, THE THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 AND THE FOURTH SUPPLEMENTARY MASTER PROSPECTUS DATED 1 AUGUST 2019.

For the avoidance of doubt, price adjustment may either be implemented at the Target Fund level or at a share class level, depending on the circumstances and does not address the specific circumstances of each individual investor transaction.

For a list of sub-funds to which the board of directors of the Company has decided not to apply the price adjustment policy, these will be made public and available at the website of the Management Company (www.eastspring.lu). The Target Fund is currently subject to the price adjustment policy.

21. Amendments to page 136 of the Master Prospectus – “Information In Relation To The Target Fund – Eastspring Investments – Dragon Peacock Fund – Suspension and Deferral of Redemptions”

The information in relation to the suspension and deferral of redemptions is hereby inserted as follows:

Suspension and Deferral of Redemptions

Redemption of shares may be suspended by the Management Company as described in "Suspension of the Determination of the Net Asset Value" of this Fifth Supplementary Master Prospectus.

Furthermore, the Management Company shall not be bound to redeem and convert on any valuation day more than 10% of the net asset value of the Target Fund on such valuation day. The Management Company may defer, on a “first in, first out” basis (i.e. when processing the requests for redemption and/or conversion, the request(s) which is received by The Bank of New York Mellon SA/NV Luxembourg branch, as the central administration agent, with an earlier timestamp shall be redeemed and/or converted first), any requests for redemption and/or conversion on any valuation day when the redemption and/or conversion requests received on a particular valuation day exceeds 10% of the net asset value of the Target Fund. The deferred requests for redemption and/or conversion will continue to be given priority to subsequently received requests and dealt on the next valuation day insofar the aforementioned limit is not exceeded.

22. Amendments to page 136 of the Master Prospectus – “Information In Relation To The Target Fund – Eastspring Investments – Dragon Peacock Fund – Suspension of the Determination of the Net Asset Value”

The information in relation to the suspension of the determination of the net asset value is hereby inserted as follows:

Suspension of the Determination of the Net Asset Value

The Management Company may suspend the determination of the net asset value of the Target Fund and the issue and redemption of the shares in the Target Fund as well as the conversion from and to shares of the Target Fund, in consultation with the depositary, having regard to the best interest of the shareholders (including the Fund) during:

- any period when any of the principal markets or stock exchanges on which a substantial portion of the investments of the Target Fund from time to time is quoted, is closed otherwise than for ordinary holidays, or during which dealings thereon are restricted or suspended;

- the existence of any state of affairs which constitutes an emergency as a result of which disposal or valuation of assets owned by the Target Fund would be impracticable;
- any breakdown in the means of communication normally employed in determining the price or value of any of the investments attributable to the Target Fund or the current prices or values on any market or stock exchange;
- any period when the Company is unable to repatriate funds for the purpose of making payments on the redemption of shares of the Target Fund or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of shares of the Target Fund cannot in the opinion of the directors of the Management Company be effected at normal prices or rates of exchange;
- any period when the Company is being liquidated or as from the date on which notice is given of a meeting of shareholders (including the Fund) at which a resolution to liquidate the Company or the Target Fund is proposed;
- any situation provided for in the 2010 Law and any applicable regulations;
- in the case of a merger, if the board of directors of the Company deems this to be justified for the protection of the shareholders (including the Fund).

Any such suspension shall be published by the Management Company and shall be notified to shareholders (including the Fund) requesting subscription, redemption or conversion of their shares by the Management Company at the time of the filing of their request for such subscription, redemption or conversion.

23. Amendments to pages 175 and 176 of the Master Prospectus – “Fees, Charges and Expenses – Fees and Charges”

The note in relation to the sale charge is hereby deleted and replaced with the following:

Unit Holders who invests through the EPF Members Investment Scheme will be levied a sales charge of up to 0.50% of the NAV per Unit with i-Invest or up to 3.00% of the NAV per Unit with Electronic Member's Investment Option (“e-PPA”) or such other rate that may be determined by the EPF from time to time.

5. Amendments to page 84 of the Master Prospectus – “Information In Relation To The Fund – Risk Factors – General Risks When Investing In A Unit Trust Fund”

The information in relation to liquidity risk is hereby deleted and replaced with the following:

Liquidity risk

Liquidity risk refers to two scenarios. The first scenario is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario is where the investment is thinly traded. This may cause the unit trust fund to dispose the investment at an unfavourable price in the market and may adversely affect investor's investment. Generally, investments in securities of smaller capitalisation companies may expose the fund to greater liquidity risk as compared to investments in securities of larger capitalisation companies. This risk may be mitigated through stringent security selection process.

The information in relation to reclassification of Shariah status risk is hereby deleted and replaced with the following:

Shariah status reclassification risk

Applicable only to Eastspring Dana al-Islah

This risk refers to the risk that the currently held Shariah-compliant securities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the SC or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of such securities. Opportunity loss could occur due to the restriction on the Fund to retain the dividend received and excess capital gains derived from the disposal of the reclassified Shariah non-compliant equities. The value of the Fund also may be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost.

Note: Please refer to Shariah Investment Guidelines for details.

The value of the Fund also may be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost.

9. Amendments to pages 113 – 117 of the Master Prospectus – “Information In Relation To The Fund – Other Information – Additional Information In Relation To Shariah-Compliant Fund”

The information in relation to this section is hereby deleted and replaced with the following:

1. Shariah Investment Guidelines

The following guidelines are adopted by the Shariah Adviser in determining the Shariah status of the Funds:

- The Funds must at all times and all stages of its operation comply with Shariah principles as resolved by the SAC of the SC or in cases where no specific rulings are made by the SAC of the SC, the decisions of the Shariah Adviser.
- The Funds must be raised and operated by the Manager, and finally redeemed by the investor on the basis of the contracts which are acceptable in Shariah. The banking facilities and short-term money market instruments used for the Funds have to be those which comply with Shariah principles. Similarly, all the securities, sukuk, etc. must be those which are Shariah-compliant.
- For Shariah-compliant securities listed on the Bursa Malaysia, the Funds’ investments must be strictly confined to those Shariah-compliant securities on the list approved by the SAC of the SC.
- For Islamic money market instruments and Shariah-compliant securities or sukuk, they shall be based on the data readily available at BNM and the SC websites.

- ▶ The SAC of the SC has adopted a standard methodology to determine the Shariah compliance of companies listed on Bursa Malaysia. This methodology takes into consideration both the quantitative and qualitative aspects of the listed companies.

Quantitative analysis:

The quantitative part is a two-tier benchmark applied to the business activities of the companies and to the financial ratios of the companies. The business activity benchmarks consist of the 5-percent benchmark and the 20-percent benchmark.

(i) Business activity benchmarks

For the business activity benchmarks, the revenue or income contribution of Shariah non-compliant business activities to the group revenue or group profit before taxation of the listed companies will be computed and compared against the relevant business activity benchmarks, namely either the 5% or 20% benchmarks.

The 5% benchmark would be applicable to the following business activities:

- ▶ Conventional banking;
- ▶ Conventional insurance;
- ▶ Gambling;
- ▶ Liquor and liquor-related activities;
- ▶ Pork and pork-related activities;
- ▶ Non-halal food and beverages;
- ▶ Shariah non-compliant entertainment;
- ▶ Interest income¹ from conventional accounts and instruments (including interest income awarded arising from a court judgement or arbitration);
- ▶ Dividends¹ from Shariah non-compliant investments;
- ▶ Tobacco and tobacco-related activities; and
- ▶ Other activities considered non-compliant according to Shariah.

The 20% benchmark would be applicable to the following activities:

- ▶ Share trading;
- ▶ Stockbroking business;
- ▶ Rental received from Shariah non-compliant activities; and
- ▶ Other activities considered non-compliant according to Shariah.

¹ Interest income and dividends from Shariah non-compliant investments will be compared against the group revenue. However, if the main activity of the company is holding of investment, the dividends from Shariah non-compliant investments will be compared against the group revenue and group profit before taxation.

(ii) Financial ratio benchmarks

In addition, the financial ratios for cash in conventional accounts and instruments as well as interest bearing debts over the total assets of the listed companies are also considered in the analysis carried out by the SAC of the SC to determine their Shariah compliance status.

The financial ratios applied are as follows:

► **Ratio of cash over total assets**

Cash will only include cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments will be excluded from the calculation.

► **Ratio of debt over total assets**

Debt will only include interest-bearing debt whereas Islamic debt or financing or sukuk will be excluded from the calculation.

Both benchmark ratios, which are intended to measure *riba* and *riba*-based elements within a listed company's balance sheet, must be below 33%.

Qualitative analysis:

As for qualitative aspect of the Shariah compliance analysis, an additional criterion will be considered:

- The public perception or image of the listed company must be good.

Special Purpose Acquisition Company ("SPAC")

- The Shariah Adviser had considered the following criteria for a SPAC to be classified as Shariah-compliant:
 - The proposed business activity should be Shariah-compliant;
 - The entire proceeds raised from the initial public offering should be placed in an Islamic account; and
 - In the event that the proceeds are invested, the entire investment should be Shariah-compliant.
- Shariah-compliant securities include ordinary shares and warrants (issued by the companies themselves). This means that warrants are classified as Shariah-compliant securities provided the underlying shares are also Shariah-compliant. On the other hand, loan stocks and bonds are Shariah non-compliant securities unless they are structured based on SAC of the SC's approved Shariah rulings, concept and principles.

- ▶ For investment in foreign securities, the Funds are only allowed to invest in securities which are on the approved list of Dow Jones Islamic Index (DJII) or list by other approved Shariah competent authorities. With regards to the issue of delisting of Shariah-compliant securities from DJII or other approved Shariah competent authorities and Shariah non-compliant foreign securities, the Funds are to abide by the same processes as laid down in this Shariah Investment Guidelines. In the rare event that the Funds wish to invest in foreign securities not covered by DJII or other approved Shariah competent authorities, the Funds must submit to the Shariah Adviser the latest information pertaining to business activities, complete financial statements and other related information on the relevant company to enable the Shariah Adviser to carry out stock screening. The decision of the Shariah Adviser shall be final.
- ▶ To facilitate the purchase and sale of foreign securities, there may be a need to have cash placement in a Shariah non-compliant bank account outside Malaysia. In such circumstances, the Shariah non-compliant account should be non-interest bearing and the sole purpose is only to facilitate purchase and sale of foreign securities.

2. Cleansing process for the Funds

(a) Wrong Investment

This refers to Shariah non-compliant investment made by the Manager. The said investment shall be disposed of or withdrawn within a month of knowing the status of the securities irrespective of market price considerations. In the event that the investment resulted in gain (through capital gain and/or dividend or profit), the gain has to be channeled to *baitulmal* and/or any other charitable bodies as advised by the Shariah Adviser. For the avoidance of doubt, dividends shall include both received before and after disposal of the Shariah non-compliant securities. The Shariah Adviser advises that this cleansing process (i.e. channeling of gain from wrong investment to *baitulmal* and/or approved charitable bodies) shall be carried out within two (2) months from the said disposal or withdrawal date. If the disposal of the investment resulted in losses to the Funds, the losses are to be borne by the Manager.

(b) “Shariah-compliant securities” which are subsequently reclassified as “Shariah non-compliant”

These refer to those securities which were earlier classified as Shariah-compliant securities but due to certain reasons such as changes in the companies' business operations and financial positions, are subsequently reclassified as Shariah non-compliant. In this regard, if on the date that this updated list takes effect, the value of the securities held exceeds or equal to the investment cost, the Funds which hold such Shariah non-compliant securities must liquidate them. To determine the time frame to liquidate such securities, the Shariah Adviser advises that such securities should be disposed of within one (1) month. Any dividends received up to the date of announcement/review and capital gain arising from the disposal of the said reclassified Shariah non-compliant securities made with respect to the closing price on the

THIS THIRD SUPPLEMENTARY MASTER PROSPECTUS DATED 2 JANUARY 2019 IS TO BE READ IN CONJUNCTION WITH THE MASTER PROSPECTUS DATED 15 JULY 2017, THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 2 FEBRUARY 2018 AND THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018.

announcement day/review can be kept by the Funds. However, any dividends received and excess capital gain derived from the disposal after the announcement day/review at a market price that is higher than the closing price on the announcement day/review should be channeled to *baitulmal* and/or any other approved charitable bodies as advised by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) months from the above disposal date.

The Fund is allowed to hold the Shariah non-compliant securities if the market price of the said securities is below the investment cost. In addition, during the holding period, the Funds are allowed to subscribe to:

- (a) any issue of new securities by a company whose Shariah non-compliant securities are held by the Funds e.g. rights issues, bonus issues, special issues and warrants [excluding securities whose nature is Shariah non-compliant e.g. irredeemable convertible unsecured loan stock (ICULS)]; and
- (b) securities of other companies offered by the company whose Shariah non-compliant securities are held by the Funds,

on conditions that the Funds expedite the disposal of the Shariah non-compliant securities. For securities of other companies [as stated in (b) above], they must be Shariah-compliant securities.

3. Zakat for the Funds

The Funds do not pay zakat on behalf of its Unit Holders both the Muslim individuals and Islamic legal entities. Thus, Unit Holders are advised to pay zakat on their own.

The Shariah Adviser confirms that the investment portfolio of the Funds comprises instruments which have been classified as Shariah-compliant by the SAC of the SC and, where applicable, the SAC of BNM. As for the instruments which are not classified as Shariah-compliant by the SAC of the SC and, where applicable, the SAC of BNM, the Shariah Adviser has reviewed the said instruments and opined that these instruments are designated as Shariah-compliant.

TAXATION OF THE FUNDS UNDER THE SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 31 OCTOBER 2018 (“Second Supplementary Master Prospectus”) AND UNIT HOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the Second Supplementary Master Prospectus in connection with the Funds listed in the **Appendix** (“the Funds”).

The taxation of income for both the Funds and the Unit Holders are subject to the provisions of the Malaysian Income Tax Act 1967 (“the Act”). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUNDS

The Funds will be regarded as resident for Malaysian tax purposes since the trustee of the Funds are resident in Malaysia.

1. Domestic Investments

(i) General taxation

Subject to certain exemptions, the income of the Funds consisting of dividends, interest income or profit¹ (other than interest income and profit¹ which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24 per cent.

Gains on disposal of investments by the Funds will not be subject to Malaysian income tax.

(ii) Dividends and Other Exempt Income

Effective 1 January 2014, all companies would adopt the single-tier system. Hence dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refunds available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

The Funds may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Funds will not be taxable on such exempt income.

Interest or profit¹ or discount income derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the government of Malaysia;
- (b) Debentures² or sukuk, other than convertible loan stocks, approved or authorized by, or lodged with, the Securities Commission Malaysia; and
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

Interest income or profit¹ derived from the following investments is exempt from tax:

- (a) Interest income or profit¹ paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013³;
- (b) Interest or profit¹ paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002;
- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest income or profit¹ paid or credited by Malaysia Building Society Berhad⁴.

The interest income or profit¹ or discount income exempted from tax at the Funds' level will also be exempted from tax upon distribution to the Unit Holders.

2. Foreign Investments

Income of the Funds in respect of income received from overseas investment is exempt from Malaysian tax by virtue of Paragraph 28 of Schedule 6 of the Act and distributions from such income will be tax exempt in the hands of the Unit Holders. Such income from foreign investments may be subject to foreign taxes or withholding taxes. Any foreign tax suffered on the income in respect of overseas investment is not tax refundable to the Funds.

The foreign income exempted from Malaysian tax at the Funds' level will also be exempted from tax upon distribution to the Unit Holders.

3. Hedging Instruments

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into.

Generally, any gain / loss relating to the principal portion will be treated as capital gain / loss. Gains / losses relating to the income portion would normally be treated as revenue gains / losses. The gain / loss on revaluation will only be taxed or claimed upon realisation. Any gain / loss on foreign exchange is treated as capital gain / loss if it arises from the revaluation of the principal portion of the investment.

4. Income from Malaysia Real Estate Investment Trusts ("REITs")

Income from distribution from REITs will be received net of final withholding tax of 10 per cent. No further tax will be payable by the Funds on the distribution. Distribution from such income by the Funds will also not be subject to further tax in the hands of the Unit Holders.

5. Tax Deductible Expenses

Expenses wholly and exclusively incurred in the production of gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of managers' remuneration, expenses on maintenance of the register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages based on a formula subject to a minimum of 10 per cent and a maximum of 25 per cent of the expenses.

6. Real Property Gains Tax (“RPGT”)

With effect from 1 January 2014, any gains on disposal of real properties or shares in real property companies⁵ would be subject to RPGT as follows:

Disposal time frame	RPGT rates
Within 3 years	30%
In the 4 th year	20%
In the 5 th year	15%
In the 6 th year and subsequent years	5%

7. Sales and Service Tax (“SST”)

Effective from 1 September 2018, SST has been reintroduced to replace the Goods and Services Tax (“GST”). Both the Sales Tax Act 2018 and Services Tax Act 2018 have been gazetted on 28 August 2018. The rates for sales tax are nil, 5 per cent, 10 per cent or a specific rate whereas the rate for service tax is at 6 per cent.

Sales tax will be chargeable on taxable goods manufactured in or imported into Malaysia, unless specifically exempted by the Minister. Whereas, only specific taxable services provided by specific taxable persons will be subject to service tax. Sales tax and service tax are single stage taxes. As such, SST incurred would generally form an irrecoverable costs to the business.

In general, the Funds, being collective investment vehicles, will not be caught under the service tax regime.

Certain professional, consultancy or management services obtained by the Funds may be subject to service tax at 6 percent. However, fund management services and trust services are excluded from service tax.

TAXATION OF UNIT HOLDERS

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Funds to the extent of the distributions received from the Funds. The income distribution from the Funds will carry a tax credit in respect of the tax paid by the Funds. Unit Holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them. No additional withholding tax will be imposed on the income distribution from the Funds.

Corporate Unit Holders, resident⁶ and non-resident, will generally be liable to income tax at 24 per cent on distribution of income received from the Funds. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unit Holders.

Individuals and other non-corporate Unit Holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 1 per cent to 28 per cent⁷. Individuals

and other non-corporate Unit Holders who are not resident in Malaysia will be subject to income tax at 28 per cent. The tax credits attributable to the distribution of income will be utilised against the tax liabilities of these Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

The distribution of exempt income and gains arising from the disposal of investments by the Funds will be exempted from tax in the hands of the Unit Holders.

Any gains realised by Unit Holders (other than those in the business of dealing in securities, insurance companies or financial institutions) on the sale or redemption of the Units are treated as capital gains and will not be subject to income tax. This tax treatment will include in the form of cash or residual distribution in the event of the winding up of the Funds.

Unit Holders electing to receive their income distribution by way of investment in the form of new Units will be regarded as having purchased the new Units out of their income distribution after tax.

Unit splits issued by the Funds are not taxable in the hands of Unit Holders.

We hereby confirm that the statements made in this report correctly reflect our understanding of the tax position under current Malaysian tax legislation. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Funds.

Yours faithfully,
for and on behalf of

Bond/income

‣ **Fund Objective**

The Fund endeavours to provide regular income**.

ANY MATERIAL CHANGES TO THE FUND'S OBJECTIVE WOULD REQUIRE UNIT HOLDERS' APPROVAL.

‣ **Investment Strategy**

The Fund seeks to achieve its objective by investing in bonds such as rated bonds, non-rated bonds and/or bonds rated below investment grade globally including Malaysia. Non-rated bonds are bonds that have not received a credit rating from one or more of the major credit rating agencies. The Fund's investments may also include liquid assets.

The Fund is expected to invest up to 40% of the Fund's NAV in non-rated bonds and/or bonds rated below investment grade, there is a risk that this limit may be exceeded if investment grade bonds held within the portfolio were downgraded to below investment grade. This may result in the Fund being exposed to higher credit risk. In the event the 40% limit is exceeded, the Manager will rectify such breach within a reasonable period of not more than three (3) months by disposing the non-rated bonds and/or bond rated below investment grade to 40% of the Fund's NAV.

The Manager seeks to invest in bonds depending on the country's economic and bond market outlook.

The Fund applies both the top-down and bottom-up investment management approach in deriving its duration, credit and currency allocation strategies. From a top-down perspective, economic and market analysis are carried out to determine the outlook for interest rate markets, as well as credit and currency trends. This is necessarily combined with a bottom-up credit selection process, which is based on research and analysis of credit issuers, to identify value opportunities and to avoid potential default events.

* The Fund aims (i.e. Target) to distribute income at least once a year subject to availability of income.

** Income distributed to a Unit Holder will be reinvested into additional Units unless Unit Holder opts for the distribution to be paid out. Kindly refer to page 101 for more information on the mode of distribution.

The Fund may enter into derivative instruments such as foreign exchange forward contracts, cross currency swaps, credit default swaps, and interest rate swaps but only for the purposes of hedging and efficient portfolio management, and not for speculative purposes.

The Fund will invest in the following foreign markets where the regulatory authority is an ordinary or associate member of the IOSCO which include but not limited to:

The Fund seeks to provide capital appreciation and income* by investing in Shariah-compliant securities in the ASEAN markets.

► **Investment Strategy**

The Fund seeks to achieve its objective by investing in Shariah-compliant equities and equity-related securities, such as rights issues and Shariah-compliant warrants, which are listed on the ASEAN exchanges.

The Fund also invests in domestic and/or foreign sukuk issued by corporations, financial institutions and governments of ASEAN member countries which are traded in the ASEAN markets or listed on the ASEAN exchanges. Corporations and financial institutions which issue sukuk shall have their business incorporated in ASEAN member countries.

The Fund shall invest in domestic sukuk** which is issued by corporations and financial institutions carry a rating of at least BBB3 or P2 by RAM, or its equivalent rating by any other domestic rating agencies whilst foreign sukuk shall carry a rating of at least BB3 or A-3 by Standard & Poor's or its equivalent rating by any other global rating agencies. However, sukuk issued by governments need not be rated. Should the credit rating of the domestic sukuk be downgraded by the rating agencies to below the minimum credit rating, the Manager may dispose the affected domestic sukuk in the market.

** domestic sukuk refers to the following:
(a) sukuk that is issued and offered in Malaysia; or
(b) sukuk that is issued out of Malaysia and offered in Malaysia; and
the issuer is domiciled in Malaysia or out of Malaysia.

The Fund will strategically asset allocate between Shariah-compliant equity and sukuk based on the relative attractiveness of the two asset classes to achieve its dual objective of growth and income. This is done after considering the current phase of the economic cycle, inflation and interest rate trend in the medium-term investment horizon.

The Manager seeks to invest in companies which have a sustainable business model with good management and corporate governance, and trading at prices below the Manager's estimate of fair value. When selecting individual equity, the Manager will consider the following factors, which are not an exhaustive list:

- medium to long-term outlook for the sector;
- competitive strength of the company within the sector;
- management track record and treatment of minority shareholders;
- earnings and cash flow visibility and volatility; and
- share price valuation.

The Fund will also invest in Shariah-compliant equity-related securities investments. Shariah-compliant equity-related securities investments such as rights issues and Shariah-compliant warrants are selected after conducting rigorous fundamental analysis of the Shariah-compliant equities and equity-related securities.

For sukuk investments, the Manager constantly seek to identify value opportunities created by cyclical extremities in interest rate and credit markets, or shifts in investor risk perception which result in the mispricing of assets relative to fundamentals. When selecting individual sukuk, the Manager will consider the following factors, which are not an exhaustive list:

- issuer's industry and business medium-term outlook;
- issuer's financial strength and gearing level;
- issuer's expected future cash flow and ability to pay profits and principal; and
- price and yield-to-maturity.

The Fund is actively managed. However, the frequency of its trading activities will depend on market opportunities and the assessment of the fund manager.

Note: The Fund's focus is on growth.

ANY MATERIAL CHANGES TO THE FUND'S OBJECTIVE WOULD REQUIRE UNIT HOLDERS' APPROVAL.

► **Investment Strategy**

The Fund seeks to achieve its objective by following the investment approach below.

• Value-oriented, bottom-up stock selection

The Manager of the Fund will employ a value-oriented investment style in security selection and investments. This strategy emphasises on bottom-up stock selection and invests in companies on the basis of strong** qualitative and quantitative factors.

• Focused investment approach

The Fund targets to invest up to but not limited to thirty (30) Malaysian stocks that are expected to provide medium to long-term capital appreciation and income* potential. Notwithstanding its focused approach, the number of securities in the Fund may vary according to market and liquidity conditions, securities' valuations, economic and corporate fundamentals and availability of instruments.

Further, the Fund may minimise potential equity downside risk by allocating up to 30% of the Fund's NAV into Malaysian fixed income securities and money market instruments and Deposits. The Manager may also employ derivatives and derivative-related instruments and products (such as forward contracts and swaps) to hedge against stock price declines.

* Income distributed to a Unit Holder will be reinvested into additional Units unless Unit Holder opts for the distribution to be paid out. Kindly refer to page 101 for more information on the mode of distribution.

** strong generally refers to consistent good track record and/or potential growth going forward.

- Unconstrained by Market Barometers

Pursuant to the Fund's objective and strategy, the Manager is not constrained by market benchmarks. In other words, the Manager is 'benchmark-aware' but is not compelled to invest in a stock that is a major constituent of a market barometer like the FTSE Bursa Malaysia KLCI, if the stock does not fulfill the Manager's selection criteria.

This contrasts with relative-return fund managers whose aims are to outperform certain market indicators such as stock market indices. The objective of a relative-return fund manager is to outperform the index, regardless of the general market's direction.

The Fund shall invest in fixed income securities with a minimum credit rating of BBB3 or P2 by RAM, or its equivalent rating by any other domestic rating agencies. ► **Fund Objective**

The Fund aims to provide investors with long-term capital appreciation by investing in Shariah-compliant investments with exposure to the Greater China region.

ANY MATERIAL CHANGES TO THE FUND'S OBJECTIVE WOULD REQUIRE UNIT HOLDERS' APPROVAL.

► **Investment Strategy**

The Fund seeks to achieve its objective by investing primarily in Shariah-compliant equities and equity-related securities of companies based in the Greater China region which potentially offer attractive* long-term value. The Fund will invest in markets where the regulatory authority is an ordinary member of IOSCO. The markets where the Fund will invest in include China, Hong Kong and Taiwan. The Fund will also invest in Shariah-compliant shares of companies listed in Malaysia, Singapore and the United States of America, where such companies have exposure to the Greater China region. The Fund will adopt a bottom up Shariah-compliant investment approach with no benchmark constraint (i.e. the weightage of the stocks of the fund is not constrained by the weightage of the stocks in the benchmark).

The Fund may minimise potential equity downside risk by investing the remainder of the Fund's NAV not invested in Shariah-compliant equities and equity-related securities into Islamic financial instruments which include but not limited to sukuk and Islamic liquid assets.

The Fund shall invest in domestic sukuk with a minimum credit rating of AA3 or P2 by RAM, or its equivalent rating by any other domestic rating agencies whilst foreign sukuk shall carry a minimum credit rating of BB3 or A-3 by Standard & Poor's or its equivalent rating by any other global rating agencies. Should the credit rating of the sukuk be downgraded by the rating agencies to below the minimum credit rating, the Manager may dispose of the affected sukuk in the market.

The Manager may also employ Shariah-compliant derivatives and derivative-related instruments (over-the-counter (OTC)) such as Islamic products based on Arboon contracts,

* attractive generally refers to companies with a good balance of healthy earnings growth trading at reasonable valuations. Valuation can be measured by various measures, such as but not limited to, price/earnings, price/book and discounted cash flows.

murabahah and mudharabah contracts as well as Islamic structured products for efficient portfolio management and hedging purposes only. Net short positions and leverage are not allowed.

The Fund will only invest in Shariah-compliant derivatives that are issued by counterparties with a strong credit rating. A Malaysian counterparty must have a credit rating of at least AA3 or P2 by RAM, or its equivalent rating by any other domestic rating agencies. A foreign counterparty, on the other hand, must have a credit rating of at least A as rated by Standard & Poor's, or its equivalent rating by any other global rating agencies. Should the credit rating of the counterparty be downgraded by the rating agencies to below the minimum credit rating, the Manager will unwind the affected invested Shariah-compliant derivative instrument or hold the Shariah-compliant derivative instrument to maturity if its period to maturity is less than six (6) months.

In relation to Islamic structured products, any credit ratings given to the issuer of the Islamic structured product and the relevant financial institutions may be subject to suspension, downgrade or withdrawal at any time. In the event any of the rating of the issuer of the Islamic structured product falls below the levels required, the Manager shall take necessary actions within 3 months or more as the Manager deem necessary. If required the Manager will consult the Trustee and Shariah adviser. Such actions may include requesting the issuer to unwind, buy-back or close the transaction at a fair value determined on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee. In taking such an action, capital losses and/or expenses may be incurred by the Fund.

As for Shariah-compliant derivatives instruments, the Manager leverage on the synergy of Eastspring Investments affiliates in the Asia region to employ risk management process to ensure accurate and independent assessment of the value of the OTC Shariah-compliant derivatives and to ensure that the Fund's risk exposure relating to Shariah-compliant derivative instruments does not exceed the limits specified herein. The current value of the underlying assets, counterparty risks, market movements and time necessary to liquidate the positions will be taken into consideration.

Currently, EPF Members Investment Scheme does not allow investment in derivatives and structured products. Hence, the Fund is not allow to invest in Shariah-compliant derivatives, derivatives-related instruments and Islamic structured product. However, the Fund may invest in Shariah-compliant derivatives, derivatives-related instruments and Islamic structured product if there is a change in (i) the restrictions imposed on the EPF Members Investment Scheme on investment in derivatives and structured products, and/or (ii) the eligibility of the Fund under EPF Members Investment Scheme.

RISK FACTORS

GENERAL RISKS WHEN INVESTING IN A UNIT TRUST FUND

Market risk

Market risk refers to potential losses that may arise from adverse changes in the market conditions. Market conditions are generally, affected by, amongst others, economic and political stability. If the market which the unit trust fund invests in suffers a downturn or instability due to adverse economic or political conditions, this may adversely impact the market prices of the investments of a unit trust fund.

Liquidity risk

Liquidity risk refers to two scenarios. The first scenario is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario is where the investment is thinly traded. This may cause the unit trust fund to dispose the investment at an unfavorable price in the market and may adversely affect investor's investment. This risk may be mitigated through stringent security selection process.

Inflation risk

This risk refers to the risk that investor's investment in the unit trust fund may not grow or generate income at a rate that keeps pace with inflation, thus reducing investor's purchasing power even though the investment in monetary terms may have increased.

Risk of non-compliance

This risk arises from non-compliance with laws, rules and regulations, prescribed practices and the management company's internal policies and procedures, for example, due to oversight by the management company. Such non-compliance may force the management company to sell down securities of the unit trust fund at a loss to rectify the non-compliance and in turn may adversely affect the value of investors' investment in the unit trust fund. To mitigate this risk, the Manager has put in place internal controls to ensure its continuous compliance with laws, rules and regulations, prescribed practices and the Manager's internal policies and procedures.

Management company risk

The performance of a unit trust fund depends on the experience, expertise and knowledge of the management company. Should there be lack of any of the above qualities by the management company, it may adversely affect the performance of the unit trust fund.

SPECIFIC RISKS WHEN INVESTING IN A MONEY MARKET FUND

Credit or Default risk

This risk refers to the inability of the issuer of the fixed income securities or sukuk held by the Fund to make the coupon or profit or principal payments when due. In the event the issuer defaults in the coupon or profit or principal payments, the value of the Fund will be adversely

affected. The Manager will mitigate the Fund's credit or default risk by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of the issuer.

This risk also refers to the creditworthiness of the financial institutions and their expected ability to make timely payment of interest or profit and/or principal. In the event the financial institutions default in the interest or profit and/or principal payments, the value of the Fund will be adversely affected.

Interest rate risk

Generally, the value of fixed income securities or sukuk will move inversely to interest rate movements. Therefore, the value of fixed income securities or sukuk may fall when interest rates rise and vice versa. Fixed income securities or sukuk of longer duration tend to be more sensitive to interest rate changes. To mitigate interest rate risk, the Manager will manage the duration of the portfolio based on the Manager's view of the trend of future interest rates.

Additionally, interest rate fluctuations will affect the fixed deposit or Islamic deposit returns of the Fund. Interest rates offered by the financial institutions will fluctuate according to the overnight policy rate determined by Bank Negara Malaysia and this has direct impact on the Fund's future placement in fixed deposit or Islamic deposit. The Fund will benefit from higher interest rate and in the event that the interest rate is low, the Fund's returns will also be low.

(Note: the interest rate mentioned above will have an impact on the management of the Fund, regardless whether it is a Shariah-compliant Fund or otherwise. It does not in any way suggest that the Shariah-compliant Fund will invest in conventional financial instruments. All the investments and placements carried out for the Shariah-compliant Fund are in accordance with the Shariah requirements).

SPECIFIC RISKS WHEN INVESTING IN A BOND FUND

Security risk

Applicable only to Eastspring Dana al-Islah

Adverse price movements of a particular Shariah-compliant security invested by the Fund may adversely affect the Fund's NAV. The Manager strives to mitigate the impact of a particular Shariah-compliant security risk through a diversified portfolio of Shariah-compliant securities of different sectors or industries.

Meanwhile investing in Shariah-compliant equity-related securities such as Shariah-compliant warrants, where price movement is dependent on the price movement of the underlying of the Shariah-compliant equity-related securities, the risk is generally higher than their Shariah-compliant equities as these Shariah-compliant equity-related securities are leveraged form of investment. The price of Shariah-compliant equity-related securities generally fluctuates more than the Shariah-compliant equities and consequently may affect the volatility of the Fund's NAV. To mitigate this risk, the Manager will conduct rigorous fundamental analysis of the Shariah-compliant equities and equity-related securities.

Shariah-complaint warrants are financial instruments that give the buyer the right but not the obligation to purchase or sell Shariah-compliant equities at a pre-determined price before the expiry date. Such investments may experience time decay, and the erosion of value accelerates as the instrument advances to its expiry date.

Credit or Default risk

This risk refers to the inability of the issuer of the fixed income securities or sukuk held by the Fund to make the coupon or profit or principal payments when due. In the event the issuer defaults in the coupon or profit or principal payments, the value of the Fund will be adversely affected. The Manager will mitigate the Fund's credit or default risk by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of the issuer.

Interest rate risk

Therefore, the value of fixed income securities or sukuk may fall when interest rates rise and vice versa. Fixed income securities or sukuk of longer duration tend to be more sensitive to interest rate changes. To mitigate interest rate risk, the Manager will manage the duration of the portfolio based on the Manager's view of the trend of future interest rates.

(Note: the interest rate mentioned above will have an impact on the management of the Fund, regardless whether it is a Shariah-compliant Fund or otherwise. It does not in any way suggest that the Shariah-compliant Fund will invest in conventional financial instruments. All the investments carried out for the Shariah-compliant Fund are in accordance with the Shariah requirements).

Counterparty risk

The Fund may place cash deposits, invest in money market instruments, and also enter into derivative contracts for hedging and efficient portfolio management purposes. In the event that the counterparty is not able to fulfil its obligations especially in the event of bankruptcy, this may lead to a loss to the Fund. Counterparty risk may be mitigated by conducting credit evaluation on the counterparty to ascertain the creditworthiness of the counterparty.

Income distribution risk

It should be noted that the distribution of income is not guaranteed. The distribution of income is made from realised gains and/or realised income. As such, the Fund may not be able to distribute income if it does not receive such cash flows.

Reclassification of Shariah status risk

Applicable only to Eastspring Dana al-Islah

This is the risk that Shariah-compliant equities in the Fund may be reclassified to be Shariah non-compliant upon periodic review of the equities by the SAC of the SC. If this occurs, the Manager will adopt the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. The value of the Fund may also be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost.

Note: Please refer to Shariah Investment Guidelines for details.

Ratings downgrade risk

The Fund invests in fixed income securities or sukuk which may be downgraded at any time. If the credit rating of the fixed income securities or sukuk be downgraded by the rating agencies to below the minimum credit rating as stated in the investment strategy of the Funds, the Manager may dispose the affected fixed income securities or sukuk in the market.

Applicable only to Eastspring Global Target Income

The Fund invests in bonds which may be downgraded at any time. If this occurs, there may be adverse price impact on the bonds. However, a downgrade does not necessarily represent a default by the bond issuer. In the event the 40% limit is exceeded, the Manager will rectify such breach within a reasonable period of not more than three (3) months by disposing of the non-rated bonds and/or bonds below investment grade to 40% of the Fund's NAV.

Derivatives risk

Applicable only to Eastspring Global Target Income

The Manager may invest in derivatives for hedging and efficient portfolio management purposes. Derivatives' market values may be subject to wide fluctuations and expose the Fund to potential gains and losses due to mark-to-market value. Some of the risks associated with derivatives are, but not limited to, market risk, management company risk, counterparty risk, and liquidity risk.

To the extent hedging transactions are imperfect, there is no guarantee that it will be possible to remove all currency, interest rate or credit exposures. In the event the hedging strategy does not meet its intended objective, this could have an adverse impact on the NAV of the Fund.

SPECIFIC RISKS WHEN INVESTING IN A BALANCED FUND

Security risk

This is the risk that Shariah-compliant equities in the Fund may be reclassified to be Shariah non-compliant upon periodic review of the equities by the SAC of the SC, the Shariah adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will adopt the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. The value of the Fund may also be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost.

Note: Please refer to Shariah Investment Guidelines for details.

License risk

Applicable only to Eastspring Dinasti Equity

This risk is associated with investments in Shariah-compliant securities listed in a country which requires a license prior to making any investments in the said country. Such license may be revoked or not be renewed should the Manager breach the relevant regulations of the said country. If this occurs, the Fund will have to liquidate all stocks listed on the exchanges in the said country within the stipulated period. The liquidation may be performed at a loss, hence affecting the NAV of the Fund. This risk may be reduced, if the Manager diligently observes and complies with the relevant regulations of the said country.

Shariah-compliant derivative risk

Applicable only to Eastspring Dinasti Equity

The Manager may invest in Shariah-compliant derivatives for hedging and efficient portfolio management purposes. Shariah-compliant derivatives' market values may be subject to wide fluctuations and expose the Fund to potential gains or losses due to mark-to-market value.

Islamic structured products may contain one or more embedded Shariah-compliant derivatives, including Islamic options. The value of such Islamic options depends on a variety of market factors, including improvements in the underlying reference index, the variability or volatility of such index, interest rate, foreign exchange rate and other factors. The value of the option may not necessarily change in constant proportion to changes in the underlying reference index. Further, options by their nature will tend to decline in value over time, assuming that all other market factors remain unchanged. These factors affecting the value of the option will also be reflected in the value of the investments in which it is embedded.

Prepayment and commitment risk

Applicable only to Eastspring Dinasti Equity

Islamic structured products are designed as a hold-to-maturity investment. Therefore, the early redemption amount may be lesser than the principal amount originally invested or part thereof, in the case of partial redemptions. Any request to restructure the Islamic structured products, if agreed by the issuer, is effectively an early redemption by the Fund. The full amount that would have been received is used to invest in a new Shariah-compliant investment on such terms that are applicable to the new investment. Such amount may factor in all accrued profit due (if any), losses due to market movements, break costs and other losses incurred in discharging a related hedging or other arrangements made in the design of the Islamic structured products.

SPECIFIC RISKS WHEN INVESTING IN A FEEDER FUND

Countries or Foreign securities risk

Applicable to Eastspring Global Emerging Markets

The Fund invests in the Target Fund that is domiciled in Luxembourg and also invests in securities listed outside Luxembourg. Any changes in the economic fundamentals, social and political stability, currency movements and foreign investments policies in these foreign countries may have an impact on the prices of the securities that the Target Fund invests in and consequently may also affect the Fund's NAV.

As the Target Fund is registered in the Grand Duchy of Luxembourg, therefore, it is exposed to risks related to Luxembourg. The Target Fund may be affected by risks associated with the possibility of changes in the:

- ▶ financial aspects such as currency controls and regulatory changes, and
- ▶ security factors such as civil war, riots, etc.

All these changes may have an impact on the net asset value of the Target Fund.

Applicable to Eastspring Global Leaders MY and Eastspring Global Basics MY

The Fund invests in the Target Fund that is domiciled in the United Kingdom and also invests in securities listed outside the United Kingdom. Any changes in the economic fundamentals, social and political stability, uncertainty or changes in countries' official currencies, currency movements and foreign investments policies in these foreign countries may increase the volatility in asset

values, liquidity and default risk which may have an impact on the prices of the securities that the Target Fund invests in and consequently may also affect the Fund's NAV.

As the Target Fund is registered in the United Kingdom, therefore, it is exposed to risks related to the United Kingdom. The Target Fund may be affected by risks associated with the possibility of changes in the:

- financial aspects such as currency controls and regulatory changes, and
- security factors such as civil war, riots, etc.

All these changes may have an impact on the net asset value of the Target Fund.

Currency risk

As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

The impact of the exchange rate movement between the base currency of the Fund and the currency of the underlying investments may result in a depreciation of the value of the investments as expressed in the base currency of the Fund.

In the normal course of investment, the Fund does not engage any currency hedging strategy in mitigating the currency risk. The Manager may, however, depending on prevailing market circumstances at a particular point in time, choose to use forward or option contracts for hedging and risk reduction purposes.

SPECIFIC RISKS WHEN INVESTING IN THE TARGET FUND

Security risk

Adverse price movements of a particular security invested by the Target Fund may adversely affect the Target Fund's net asset value. The Investment Manager strives to mitigate the impact of a particular security risk through portfolio diversification, which will help spread the element of risk.

Fund management of Target Fund risk

While the Manager will exercise due skill and care in selecting the Target Fund, it does not have control over the management of the Target Fund and there is no guarantee that the investment objectives will be met. This may result in Unit Holders suffering losses in their investments in the Target Fund.

The Target Fund may change its objectives and become inconsistent with the objective of the Fund. In such instances, the Manager will replace the Target Fund with another collective investment scheme which the Manager considers to be more appropriate in meeting the objective of the Fund. Such change would require Unit Holders' approval.

Errors in Calculation of the net asset value of the Target Fund's risk

There is a possibility there are errors in calculation of the net asset value of the Target Fund. In the event such errors occur, the net asset value of the Target Fund will be affected hence, the Target Fund will comply with the rules set forth in the relevant regulatory provisions applicable to the Target Fund. Compensation, if any, paid by the Target Fund (subject to the laws of the jurisdiction in which such Target Fund is domiciled), will be credited to the Fund as and when compensation is received.

Liquidity risk

Liquidity risk here refers to two scenarios. The first scenario is where the allocated liquidity of the Target Fund is insufficient to meet redemption needs. The second scenario is where the investments in the Target Fund are thinly traded. Should the investments in the Target Fund be thinly traded, this may cause the Target Fund to dispose the investment at an unfavorable price in the market and may adversely affect investors' investment. This risk may be mitigated through stringent security selection process.

Currency risk

This risk is associated with investments denominated in currencies different from the base currency of the Target Fund. As the Target Fund is denominated in US Dollar or EUR, the underlying investments may be denominated in its local currency. The performance of the Target Fund may be affected by movements in the exchange rate between the local currency and the US Dollar or EUR. For example, should the US Dollar or EUR weaken against the local currency, the investments may face currency loss in addition to any capital gains or losses, which will affect the net asset value of the Target Fund.

The Target Fund does not intend to engage any currency hedging to mitigate the currency risk.

Countries or Foreign securities risk

This risk is associated with investments in securities listed or domiciled in countries other than the country of domicile. Any changes in the economic fundamentals, social and political stability, uncertainty or changes in countries' official currencies, currency movements and foreign investments policies in these countries may increase the volatility in asset values, liquidity and default risk which may have an impact on the prices of the securities that the Target Fund invests in and consequently may also affect the net asset value of the Target Fund.

Investments in certain markets may be restricted or controlled. In some countries, direct investments in securities may be prohibited and restricted due to regulatory requirements. These limitations may increase transaction costs and adversely affect a security's liquidity and the price in connection with the security.

The Investment Manager will monitor and observe the developments in these countries where assets of the Target Fund are allocated. In addition, the Investment Manager will also employ a systematic investment process, which includes regular review, to manage and mitigate this risk.

Emerging market risk

Potential investors should be aware that investments in emerging markets may involve a higher degree of risk than investments in developed markets. A portfolio consequently may experience greater price volatility and significantly lower liquidity than a portfolio invested solely in equity securities of issuers located in more developed markets.

Investments in emerging market securities entail significant risks in addition to those customarily associated with investing in securities of issuers in more developed markets, such as:

- (i) low or non-existent trading volume, resulting in a lack of liquidity and increased volatility in prices for such securities, as compared to securities of comparable issuers in more developed markets;
- (ii) uncertain national policies and social, political and economic instability, increases the potential for expropriation of assets, confiscatory taxation, high rates of inflation or unfavorable diplomatic developments;
- (iii) possible fluctuations in exchange rates, differing legal systems and the existence or possible imposition of exchange controls, custodial restrictions or other laws or restrictions applicable to such investments;
- (iv) national policies which may limit a portfolio's investment opportunities such as restrictions on investment in issuers or industries deemed sensitive to national interests; and
- (v) the lack or relatively early development of legal structures governing private and foreign investments and private property. Other risks relating to investments in emerging market issuers include: the availability of less public information on issuers of securities; settlement practices that differ from those in more developed markets may result in delays or may not fully protect a portfolio against the loss or theft of assets; the possibility of nationalisation of a company or industry and expropriation or confiscatory taxation; and the imposition of foreign taxes.

Investments in emerging markets securities may also result in generally higher expenses due to: the costs of currency exchange; higher brokerage commissions in certain emerging markets; and the expense of maintaining securities with foreign custodians. Issuers in emerging markets may not be subject to accounting, auditing and financial reporting standards and requirements comparable to those to which companies in developed markets are subject to. In certain emerging markets, reporting standards vary widely. As a result, traditional investment measurements used in developed markets, such as price/earnings ratios, may not be applicable in certain emerging markets.

The above-mentioned risk could adversely affect the value of investments, and consequently impacting the net asset value of the Target Fund.

Charges to capital risk

The Target Fund's charges and expenses are taken from the capital, in whole or in part, resulting in possible constraint of capital growth.

Restrictions on foreign investment

Some countries prohibit or impose substantial restrictions on investments by foreign entities. There may also be instances where a purchase order subsequently fails because the permissible allocation to foreign investors has been filled, depriving the Target Fund of the ability to make its desired investment at the time.

Initial Public Offerings risk

The Target Fund may invest in initial public offerings, which frequently are smaller companies. Such securities have no trading history and information about these companies may only be available for limited periods. The prices of securities involved in initial public offerings may be subject to greater price volatility than more established securities.

Smaller companies risk

The Target Fund which invests in smaller companies may fluctuate more in value than investments in larger companies. Smaller companies may offer greater opportunities for capital appreciation than larger companies, but may also involve certain special risks. They are more likely than larger companies, to have limited product lines, markets or financial resources, or to depend on a small, inexperienced management group. Securities of smaller companies may, especially during periods where markets are falling, become less liquid and experience short-term price volatility and wide spreads between dealing prices. They may also trade in the OTC market or on a regional exchange, or may otherwise have limited liquidity. Consequently investments in smaller companies may be more vulnerable to adverse developments than those in larger companies and the Target Fund may have more difficulty establishing or closing out its securities positions in smaller companies at prevailing market prices. Also, there may be less publicly available information about smaller companies or less market interest in the securities and it may take longer for the prices of the securities to reflect the full value of the issuers' earning potential or assets.

Technology related company risk

Investments in the technology sector may present a greater risk and a higher volatility than investments in a broader range of securities covering different economic sectors. The equity securities of the companies in which the Target Fund may invest are likely to be affected by world-wide scientific or technological developments and their products or services may rapidly fall into obsolescence. In addition, some of these companies offer products or services that are subject to governmental regulation and may, therefore, be adversely affected by governmental policies. As a result, the investments made by the Target Fund may decrease sharply in value in response to market, research or regulatory setbacks.

Counterparty risk

Applicable only to Eastspring Global Basics MY and Eastspring Global Leaders MY

The Investment Manager will place transactions, hold positions (including derivatives transactions) and deposit cash on deposit with a range of counterparties, there is a risk that a counterparty may default on its obligations or become insolvent, which may put the Target Fund's capital at risk.

THE ABOVE SHOULD NOT BE CONSIDERED TO BE AN EXHAUSTIVE LIST OF THE RISKS WHICH INVESTORS SHOULD CONSIDER BEFORE INVESTING INTO THE FUND. INVESTORS SHOULD BE AWARE THAT AN INVESTMENT IN THE FUND MAY BE EXPOSED TO OTHER RISKS FROM TIME TO TIME. INVESTORS SHOULD CONSULT A PROFESSIONAL ADVISER FOR A BETTER UNDERSTANDING OF THE RISKS.

ADDITIONAL INFORMATION IN RELATION TO SHARIAH-COMPLIANT FUND

1. Shariah Investment Guidelines

The following matters are adopted by IBFIM in determining the Shariah status of the investments of the Funds.

INVESTMENT IN MALAYSIA

Equity:

Reference for investment in local equities and equity related securities is based on the list of Shariah-compliant securities issued by the SAC of the SC twice yearly on the last Friday of May and November which is readily available at the SC's website.

However, for Initial Public Offering ("IPO") companies that have yet to be determined the Shariah status by the SAC of the SC, IBFIM adopted the following analysis as a temporary measure in determining its Shariah status until the SAC of the SC releases the Shariah status of the respective companies.

› **Core Business Activities Analysis**

Companies whose activities are not contrary to the Shariah will be classified as Shariah-compliant securities. On the other hand, companies will be classified as Shariah non-compliant if they are involved in the following core business activities:

- (a) Conventional financial services;
- (b) Gambling and gaming;
- (c) Manufacture or sale of non-halal products or related products (e.g. pork and liquor);
- (d) Manufacture or sale of tobacco-based products or related products;
- (e) Pornography;
- (f) Weaponry;
- (g) Entertainment activities that are not permitted by the Shariah; and
- (h) Other activities deemed non-permissible according to the Shariah.

› **Mixed Business Activities Analysis**

For companies with activities comprising both permissible and non-permissible elements, IBFIM applies two analyses before they can be classified as Shariah-compliant. The analyses are as follows:

(i) Qualitative Analysis

In this analysis, IBFIM will look into aspects of general public perception of the companies' images, core businesses which are considered important and maslahah (beneficial) to the Muslim ummah and the country, the non-permissible elements are very small and involve matters like umum balwa (common plight and difficult to avoid), 'uruf (custom) and rights of the non-Muslim community which are accepted by the Shariah.

(ii) Quantitative Analysis

Companies which passed the above qualitative analysis will be further subject to quantitative analysis. IBFIM deduces the following to ensure that they are lower than the Shariah tolerable benchmarks:

(a) Business Activity Benchmarks

The 5% benchmark would be applicable to the following business activities:

- › Conventional banking;
- › Conventional insurance;
- › Gambling;
- › Liquor and liquor-related activities;
- › Pork and pork-related activities;
- › Non-halal food and beverages;
- › Shariah non-compliant entertainment;
- › Interest income¹ from conventional accounts and instruments (including interest income awarded arising from a court judgement or arbitrator);
- › Dividends² from Shariah non-compliant investments;
- › Tobacco and tobacco-related activities; and
- › Other activities considered non-compliant according to Shariah.

The 20% benchmark would be applicable to the following activities:

- › Hotel and resort operations;
- › Share trading;
- › Stockbroking business;
- › Rental received from Shariah non-compliant activities; and
- › Other activities considered non-compliant according to Shariah.

The contribution of Shariah non-compliant activities to the overall revenue or sales or turnover or income and profit before tax of the companies will be calculated and compared against the relevant business activity benchmarks.

(b) Financial Ratio Benchmarks

The financial ratios¹ applied are as follows:

- › Cash over Total Assets
Cash will only include cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments will be excluded from the calculation.

Note:

¹ Interest income will be compared against the companies' overall revenue/sales/turnover/income.

² Dividends will be compared against the companies' profit before taxation.

- › Debt over Total Assets
Debt will only include interest bearing debt whereas Islamic debt or financing or sukuk will be excluded from the calculation.

Both ratios, which are intended to measure riba and riba-based elements within a companies' balance sheet, must be lower than 33%.

Should any of the above deductions fail to meet the benchmarks, IBFIM will not accord Shariah-compliant status for the companies.

Sukuk and Islamic Money Market Instruments:

IBFIM will verify any sukuk and/or Islamic money market instruments, based on the data available at Bond Info Hub (www.bondinfo.bnm.gov.my) and Fully Automated System for Issuing or Tendering (<https://fast.bnm.gov.my>).

INVESTMENT IN FOREIGN MARKETS

Equity:

› **Core Business Activities Analysis**

Companies whose activities are not contrary to the Shariah will be classified as Shariah-compliant securities. On the other hand, companies will be classified as Shariah non-compliant if they are involved in the following core business activities:

- (a) Conventional financial services;
- (b) Gambling and gaming;
- (c) Manufacture or sale of non-halal products or related products (e.g. pork and liquor);
- (d) Manufacture or sale of tobacco-based products or related products;
- (e) Pornography;
- (f) Weaponry;
- (g) Entertainment activities that are not permitted by the Shariah; and
- (h) Other activities deemed non-permissible according to the Shariah.

› **Mixed Business Activities Analysis**

For companies with activities comprising both permissible and non-permissible elements, IBFIM applies two (2) analyses before they can be classified as Shariah-compliant. The analyses are as follows:

(i) Qualitative Analysis

In this analysis, IBFIM will look into aspects of general public perception of the companies' images, core businesses which are considered important and *maslahah* (beneficial) to the Muslim ummah and the country, the non-permissible elements are very small and involve matters like *umum balwa* (common plight and difficult to avoid), *'uruf* (custom) and rights of the non-Muslim community which are accepted by the Shariah.

(ii) Quantitative Analysis

Companies which passed the above qualitative analysis will be further subject to quantitative analysis. IBFIM deduces the following to ensure that they are lower than the Shariah tolerable benchmarks:

- ▶ Contribution of interest income to the total income is lower than 5% of the total income;
- ▶ Total debt of the companies (including all interest-bearing loans or debentures and their respective payables such as short term or long term debts, short term or long term debentures and all debentures payables) is lower than 30% of the total assets of the companies;
- ▶ Total sum of companies' cash and receivables is lower than 70% of its total assets; and
- ▶ Income generated from other prohibited components from Shariah perspective is lower than 5% of the companies' total income.

Should any of the above deductions fail to meet the benchmarks, IBFIM will not accord Shariah-compliant status for the companies.

Foreign sukuk:

IBFIM will review the information memoranda or prospectuses of the sukuk, its structures, utilisation of proceeds, Shariah contracts, Shariah pronouncements, etc.

2. Cleansing Process for the Fund

(a) Wrong Investment

This refers to Shariah non-compliant investment made by the fund manager. The said investment will be disposed of or withdrawn with immediate effect. In the event that the investment resulted in gain (through capital gain and/or dividend or profit), the gain is to be channeled to baitulmal or any other charitable bodies as advised by the Shariah adviser. If the disposal of the investment results in losses to the Fund, the losses are to be borne by the fund manager.

(b) Reclassification of Shariah Status of the Fund's Investment

Reclassification of Shariah status refers to security which is reclassified as Shariah non-compliant by the SAC of the SC, the Shariah adviser or the Shariah boards of the relevant Islamic Indices. The said security is to be disposed soonest practical, once the total amount of dividends received and the market value of the Shariah non-compliant security held equal the original investment cost.

Any capital gains arising from the disposal of the Shariah non-compliant security made at the time of the announcement can be kept by the Fund. However, any excess capital gains derived from the disposal after the announcement day at a market price that is higher than the closing price on the announcement day is to be channeled to baitulmal or any charitable bodies as advised by the Shariah adviser.

3. Zakat (tithe) for the Fund

The Fund does not pay zakat on behalf of Muslim individuals and Islamic legal entities who are investors of the Fund. Thus, investors are advised to pay zakat on their own.

The Shariah adviser confirms that the investment portfolio of the Funds will comprise instruments that have been classified as Shariah-compliant by the SAC of the SC or the SAC of BNM. For instruments that are not classified as Shariah compliant by the SAC of the SC or the SAC of BNM, they will review and determine the Shariah status of the said instruments in accordance with the ruling issued by the Shariah adviser.

VALUATION OF THE FUND

Valuation Point

The Fund will be valued at least once every Business Day. The Fund adopts a forward pricing basis which means that prices of Units will be calculated based on the NAV of the Fund at the next valuation point after the application to purchase or redeem Units is received by the Manager.

For a Fund with no foreign market investments, the valuation of the Fund is conducted at the close of Bursa Malaysia on the same Business Day. If request for sales or redemptions are received before the cut-off time of 4.00 p.m. on any Business Day, say, Tuesday, the Tuesday's Unit pricing shall apply and will be calculated on Tuesday (if Tuesday is a Business Day). Tuesday's Unit pricing will be published on Wednesday (T+1).

For a Fund with foreign market investments, the valuation of the Fund is conducted after the close of a Business Day but not later than 5.00 p.m. of the following Business Day (T+1) due to the different time zones of foreign markets. Consequently, the daily NAV of the Fund will be published two (2) Business Days later instead of the next Business Day. If application for sales or redemption is received by the Manager before the cut-off time of 4.00 p.m. on any Business Day, say, Tuesday, the Tuesday's Unit pricing shall apply and will be calculated on Wednesday (if Wednesday is a Business Day). Tuesday's Unit pricing will be published on Thursday (T+2).

You may contact the Manager directly or visit the Manager's website, www.eastspringinvestments.com.my to obtain the latest NAV of the Fund.

Bases of Valuation for the Fund

The bases of valuation of the respective assets classes of the Fund are as follows:

► Listed securities or Shariah-compliant securities

In respect of the Fund's investments in listed securities or Shariah-compliant securities, the valuation is based on the market price obtained at the close of the respective stock exchanges. However, if:

- (a) a valuation based on the market price does not represent the fair value of the listed securities or Shariah-compliant securities, for example during abnormal market conditions; or
- (b) no market price is available, including in the event of a suspension in the quotation of listed securities or Shariah-compliant securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee,

then the listed securities or Shariah-compliant securities would be valued at fair value, as determined in good faith by the Manager based on the methods or bases approved by the Trustee after appropriate technical consultation.

► **Unlisted securities or Shariah-compliant securities**

Investments in unlisted securities or Shariah-compliant securities will be valued at fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

► **Unlisted collective investment schemes or Shariah-compliant collective investment schemes**

Investments in unlisted collective investment schemes or Shariah-compliant collective investment schemes will be valued based on the last published price per Unit.

► **Unlisted fixed income securities or Sukuk**

Investments in unlisted fixed income securities or sukuk denominated in Ringgit Malaysia will be valued on a daily basis using fair value prices quoted by a bond pricing agency registered with the SC. An example of such agency is Bond Pricing Agency Malaysia Sdn Bhd. If the Manager is of the view that the price quoted by the bond pricing agency differs from the market price by more than twenty (20) basis points, the Manager may use the market price provided that the Manager records the basis for not using the bond pricing agency price and obtain the necessary internal approvals for not using the bond pricing agency price. The Manager will keep the audit trail of all decisions and basis for adopting the market yield.

Foreign unlisted fixed income securities or sukuk will be valued daily based on fair value by reference to the average indicative yield quoted by three independent and reputable institutions. However, when the Manager is unable to obtain quotations from three independent and reputable institutions due to circumstances where the independent dealers or bankers are not able to provide daily quotes for the foreign unlisted fixed income securities or sukuk, the value shall be determined by reference to the value of such unlisted fixed income securities or sukuk quoted by Thomson Reuters ("Reuters"). Prior to the usage of Reuters, verification from the auditors and approval from the Trustee shall be sought. An audit trail for the basis of adopting Reuters and the approval given for such adoption shall be maintained by the Manager.

Applicable only to Eastspring Global Target Income

Foreign unlisted bonds will be valued daily by using Reuters. Where Reuters prices are not available, these foreign unlisted bonds will be valued at fair value, as determined in good faith by the Manager on the methods or bases approved by the Trustee.

› **Money markets instruments or Islamic money market instruments**

Money market instruments or Islamic money market instruments such as commercial papers or Islamic commercial papers shall be valued at original purchase yields on a daily basis. The original purchase yields refer to the original price at the point of purchase and adjusted for amortisation of premiums or accretion of discounts, and negotiable instruments or Islamic negotiable instruments of Deposits are valued based on the yield provided by the bank or the financial institution that issues the investments.

› **Deposits or Islamic Deposits**

Deposits or Islamic Deposits placed with financial institutions are valued each day by reference to the principal value of such investments and interest or profit accrued thereon, if any, for the relevant period.

› **Derivatives or Shariah-compliant derivatives**

Derivatives or Shariah-compliant derivatives are marked-to-market on a daily basis, where possible. Otherwise, the valuation will be based on fair value as determined in good faith by the Manager on methods or bases that have been verified by the auditor of the Fund and approved by the Trustee.

› **Structured product or Islamic structured product**

Structured product or Islamic structured product is marked-to-market on a daily or weekly basis, where possible using valuation prices quoted by the structured product providers. Otherwise, the valuation will be based on fair value as determined in good faith by the Manager on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

INVESTMENT OBJECTIVE OF THE TARGET FUND

Eastspring Investments – Dragon Peacock Fund

The Target Fund aims to maximise long-term total returns by investing primarily in equity and equity-related instruments of corporations, which are incorporated in, or listed in, or operating principally from, or carrying on significant business in, or derive substantial revenue from, or whose subsidiaries, related or associated corporations derive substantial revenue from the People's Republic of China (PRC) and the Republic of India (India).

The investments of the Target Fund include, but are not limited to, listed securities in the recognised markets, depository receipts including ADRs and Global Depository Receipts, debt securities convertible into common shares, preference shares and warrants.

INVESTMENT STRATEGY OF THE TARGET FUND

Eastspring Investments – Dragon Peacock Fund

The first part of the process is idea generation. This is a systematic starting point where the Investment Manager uses proprietary screens across a wide investment universe of Chinese and Indian companies applying consistent anchors around valuation. This allows the Investment Manager to be equipped to rapidly identify valuation outliers which may become investment candidates. The next stage is the fundamental analysis of these outliers. This fundamental analysis drives the Investment Manager's investment approach and the Investment Manager employs a strong discipline around a single valuation framework. The Investment Manager insists on challenge and debate to test the assumptions and help to achieve a level of conviction in the valuation. The next stage is portfolio construction. In taking active risk the Investment Manager considers the stock by stock relationships in the fund to ensure sufficient diversification. The Investment Manager establishes an explicit link between risk and return which reinforces the Investment Manager's ability to take long-term positions without being forced to close positions in response to excessive volatility. The last stage is review and control. This is a team owned responsibility involving a formal peer review of all strategies which ensures the integrity of the Investment Manager's process.

Adding value through an active asset allocation process

Rather than having a fixed asset allocation regardless of market conditions, the Investment Manager will systematically vary the portfolio's investments in China-related and India-related equities, so as to reflect the prevailing market dynamics and valuations and in so doing, add value to a passive long-term strategic asset mix. The long-term strategic asset mix and maximum tactical tilts are as follows:

- ▶ Long-term Strategic Asset Mix : 50% China-related Equities - 50% India-related Equities.
- ▶ Maximum Tactical Tilts : +/- 25%

The Investment Manager's asset allocation process is based on examining the following factors in both India and China equity markets:

(i) Valuations

- ▶ Market valuations relative to history
- ▶ Absolute valuations (price/book, price/earnings, price/cash flow, dividend yield)
- ▶ Earnings yield versus cash/bond yields and equity risk premium

(ii) Earnings

- ▶ Index earnings forecasts
- ▶ Corporate margins
- ▶ Consensus earnings upgrades/downgrades and earnings revision ratio

(iii) Stock price performance

- ▶ Country performance
- ▶ Index composition
- ▶ Sector performance

 - (ii) issued by an undertaking any securities of which are dealt in on Regulated Markets referred to in paragraphs (a), (b) or (c), or
 - (iii) issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by Community law or by an establishment which is subject to and comply with prudential rules considered by the CSSF to be at least as stringent as those laid down by Community law, or
 - (iv) issued by other bodies belonging to the categories approved by the CSSF provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent of this paragraph (h) and provided that the issuer is a company whose capital and reserves amount at least to ten million euros (EUR 10,000,000.-) and which presents and publishes its annual accounts in accordance with Fourth Directive 78/660/EEC, is an entity which, within a group of companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.

2. However, the Target Fund:

- (a) may invest up to 10% of its net assets in transferable securities and money market instruments other than those referred to in sub-section 1) above;
- (b) may acquire movable and immovable property which is essential for the direct pursuit of the Target Fund's business;
- (c) may not acquire either precious metals or certificates representing them; and
- (d) may hold ancillary liquid assets.

3. Furthermore, the Target Fund may also subscribe for, acquire and/or hold shares issued or to be issued by one or more other sub-funds of the Company, if:

- (a) the target sub-fund does not, in turn, invest in the Target Fund invested in this target sub-fund;
- (b) no more than 10% of the assets of the target sub-fund whose acquisition is contemplated may, pursuant to the Prospectus and the Articles of Incorporation, be invested in shares of other target sub-funds;
- (c) voting rights, if any, attaching to the relevant shares are suspended for as long as they are held by the Target Fund; and
- (d) in any event, for as long as these shares are held by the Target Fund, their value will not be taken into consideration for the purposes of verifying the minimum threshold of the net assets imposed by the 2010 Law.

4. Lastly, the Company may also, to the widest extent permitted by the 2010 Law and all applicable Luxembourg regulations:
 - (a) create a sub-fund qualifying as a feeder UCITS sub-fund or a master UCITS sub-fund;
 - (b) convert any existing sub-fund into a feeder UCITS sub-fund;
 - (c) change the master UCITS of any feeder UCITS sub-fund.

Risk diversification

5. In accordance with the principle of risk diversification, the Target Fund will invest no more than 10% of its net assets in transferable securities or money market instruments issued by the same body. The Target Fund may not invest more than 20% of its assets in deposits made with the same body.
6. The risk exposure to a counterparty of the Target Fund in an OTC derivative transaction may not exceed 10% of its net assets when the counterparty is a credit institution referred to in sub-section (1)(f) above, or 5% of its net assets in any other case.
7. Moreover, the total value of the transferable securities and money market instruments held by the Target Fund in the issuing bodies in each of which it invests more than 5% of its net assets must not exceed 40% of the value of its net assets. This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.
8. Notwithstanding the limits laid down in sub-sections (5) and (6) above, the Target Fund may not combine:
 - (i) investments in transferable securities or money market instruments issued by,
 - (ii) deposits made with and/or,
 - (iii) exposures arising from OTC derivatives transactions undertaken with a single body in excess of 20% of its net assets.
9. The following exceptions can be made:
 - (a) The aforementioned limit of 10% can be raised to a maximum of 25% for certain debt securities if they are issued by credit institution whose registered office is situated in a Member State and which is subject, by virtue of law, to particular public supervision for the purpose of protecting the holders of such debt securities. In particular, the amounts resulting from the issue of such debt securities must be invested, pursuant to the law in assets which sufficiently cover, during the whole period of validity of such debt securities, the liabilities arising there from and which are assigned to the preferential repayment of capital and accrued interest in the case of default by the issuer. If the Target Fund invests more than 5% of its net assets in such debt securities as referred to above and issued by the same issuer, the total value of such investments may not exceed 80% of the value of the Target Fund's net assets.
 - (b) The aforementioned limit of 10% can be raised to a maximum of 35% for transferable securities or money market instruments issued or guaranteed by a Member State, by its local authorities, by another Eligible State or by public international bodies of which one or more Member States are members.

- (c) The transferable securities and money market instruments referred to in exceptions (a) and (b) are not included in the calculation of the limit of 40% laid down in sub-section (7) above.
- (d) The limits stated under sub-sections (5) to (8) and (9)(a) and (b) above, may not be combined and, accordingly, investments in transferable securities or money market instruments issued by the same body or in deposits or derivatives instruments made with this body in accordance with sub-sections (5) to (8) and (9)(a) and (b) above, may not, in any event, exceed a total of 35% of the Target Fund's net assets.
- (e) Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/EEC or in accordance with recognised international accounting rules are regarded as a single body for the purpose of calculating the limits contained in sub-sections (5) to (9).
- (f) The Target Fund may invest in aggregate up to 20% of its assets in transferable securities and money market instruments with the same group.
- (g) Without prejudice to the limits laid down in paragraph 14 below, the limit of 10% laid down in paragraph 5 to 9 is raised to a maximum of 20% for investment in equity and or debt securities issued by the same body when the aim of the investment policy of the Company is to replicate the composition of a certain equity or debt securities index which is recognised by the CSSF, on the following basis:
 - ▶ the composition of the index is sufficiently diversified;
 - ▶ the index represents an adequate benchmark for the market to which it refers; and
 - ▶ it is published in an appropriate manner.

This limit is 35% where that proves to be justified by exceptional market conditions in particular in Regulated Markets where certain transferable securities or money market instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

- 10. When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of the above-mentioned restrictions.
- 11. The Target Fund is authorised to invest in accordance with the principle of risk spreading up to 100% of its net assets in different transferable securities and money market instruments issued or guaranteed by a Member State, its local authorities, an OECD member country, a G-20 member country, or public international bodies of which one or more Member State(s) are members, provided that in such event the Target Fund must hold securities from at least six different issues, but securities from any one issue may not account for more than 30% of the total amount.
- 12. The Target Fund has 6 months from its date of authorisation to achieve compliance with sub-sections (5) to (11) and (13).
- 13. (a) The Target Fund may acquire shares or units of UCITS and/or other UCI referred to in sub-section (1)(e). However, when the Target Fund invests in units of UCITS or other UCIs for more than 10% of its net assets according to sub-section (1)(e)(v), no more than 20% of its net assets can be invested in a single UCITS or other UCI.

For the purposes of applying this investment limit, the Target Fund of a UCI with multiple sub-funds, within the meaning of Article 181 of the 2010 Law, shall be considered as a separate entity, provided that the principle of segregation of commitments of the different sub-funds is ensured in relation to third parties.

Investments made in shares or units of UCI other than UCITS may not exceed, in aggregate, 30% of the net assets of the Target Fund.

When the Target Fund has acquired shares or units of UCITS and/or other UCIs, the assets of the respective UCITS or other UCI do not have to be combined in the view of the limits laid down in sub-sections (5) to (9) (a) to (f).

- (b) When the Target Fund invests in the shares or units of other UCITS and/or other UCIs that are managed, directly or by delegation, by the same management company or by any other company to which the management company is linked by common management or control or by a substantial direct or indirect holding, that management company or other company may not charge any subscription or redemption fees on account of the UCITS' investment in the units of other UCITS and/or other UCI.

When the Target Fund invests a substantial proportion of its assets in other UCITS and/or other UCIs, the maximum level of the management fees that may be charged both to the Target Fund itself and to the other UCITS and/or other UCIs in which it intends to invest will be disclosed in the prospectus of the Target Fund.

- 14. The Company will not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.

- 15. The Company may not acquire more than:

- 10% of non-voting shares of the same issuer,
- 10% of the debt securities issued by the same issuer,
- 25% of the units of the same UCITS and/or other UCI or
- 10% of the money market instruments of the same issuer.

The limits laid down in the second, third and fourth indents may be disregarded at the time of acquisition if at that time the gross amount of debt securities or money market instruments, or the net amount of the securities in issue, cannot be calculated.

- 16. The limits of sub-sections (14) and (15) above are waived as to:

- (a) transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities;
- (b) transferable securities and money market instruments issued or guaranteed by a non-Member State;
- (c) transferable securities and money market instruments issued by public international bodies of which one or more Member States are members;
- (d) shares held in the capital of a company incorporated in a non-Member State and investing its assets mainly in securities of issuers having their registered office in that State, if under the legislation of that State such a holding represents the only way in which the Target Fund can invest in the securities of the issuers of that State. This derogation only applies if the company has an investment policy complying with sub-sections (5) to (9) (a) to (f) as

well as sub-sections (13) to (15) above. If the limits stated in sub-sections (5) to (9) (a) to (f) and (13) above are exceeded, the provisions laid down in (11) and (20) shall apply *mutatis mutandis*;

- (e) shares held by the Target Fund in the capital of one or more subsidiary companies carrying on only the business of management, advice or marketing in the country/state where the subsidiary is located, in regard to the repurchase of units at shareholders' request exclusively on its or their behalf.
17. The Target Fund may not borrow more than 10% of its total net assets, and then only from financial institutions and on a temporary basis. The Target Fund may, however, acquire foreign currency by means of a back to back loan. The Target Fund will not purchase securities while borrowings are outstanding in relation to it, except to fulfil prior commitments and/or exercise subscription rights. However, the Target Fund can borrow up to 10% of its net assets to make possible the acquisition of immovable property essential for the direct pursuit of its business. In this case, these borrowings and those referred to above (temporary borrowings) may not in any case in total exceed 15% of the Target Fund's net assets.
18. The Company may not grant credits or act as guarantor for third parties. This limitation does not prevent the Company to purchase securities that are not fully paid up, nor to lend securities as further described thereunder. This limitation does not apply to margin payments on option deals and other similar transactions made in conformity with established market practices.
19. The Target Fund will not purchase any securities on margin (except that the Target Fund may obtain such short-term credit as may be necessary for the clearance of purchases and sales of securities) or make short sales of securities or maintain a short position. Deposits on other accounts in connection with option, forward or financial futures contracts, are, however, permitted within the limits provided for here below.
20. The board of directors of the Company is authorised to introduce further investment restrictions at any time in the interests of the shareholders, provided these are necessary to ensure compliance with the laws and regulations of those countries in which the Company's shares are offered and sold. In this event, the prospectus of the Target Fund will be updated accordingly.
21. If any of the above limitations are exceeded for reasons beyond the control of the Company and/or the Target Fund or as a result of the exercise of subscription rights attaching to transferable securities or money market instruments, the Company and/or the Target Fund must adopt, as a priority objective, sales transactions for the remedying of that situation, taking due account of the interests of its shareholders.
22. For a sub-fund registered with the Taiwan Securities and Future Commission, the following investment restrictions for derivative (as may be amended from time to time) shall apply:
- (a) The global risk exposure of netted derivatives open position that the sub-fund holds for purpose of increasing investment yield shall not be over 40% of the net assets of the Target Fund;

- (b) The total contract value of the derivatives short position that the sub-fund holds for hedging purposes shall not exceed the total markets value of the hedged assets.

Risk Warning

23. The Company must not neglect the following risks/terms that are linked to the investment in units of other open-ended and closed-ended UCI:
- (a) If the investment is done in another open-ended or closed-ended UCI which is not subject to any permanent control for the protection of the investors, required by the 2010 Law and carried out by a supervisory authority in its home country, there is less protection against possible losses.
 - (b) Due to possible legal, contractual or juridical constraints, the possibility exists that the investments in other open-ended and closed-ended UCI may only be sold with difficulty.
 - (c) In relation to the investment in other open-ended and closed-ended UCI which are not linked to the Company in the manner described under sub-section (13)(b) above, the Company must bear the usual commissions relating to the units of these UCI.

RISK MANAGEMENT

Efficient Portfolio Management

The Company may use financial derivative instruments as set forth in the Permitted Investments & Investments Restrictions and Limits sub-section (1)(g), extensively for hedging and efficient portfolio management purposes. Notwithstanding the above, financial derivative instruments will not be used for investment purposes (i.e. entering into financial derivatives instruments to achieve the investment objectives). Should the Management Company, on behalf of the Company decide to enter into derivative transactions for other purposes than hedging and/or efficient portfolio management, the investment policy of the relevant sub-fund(s) will be amended accordingly.

The Management Company, on behalf of the Company may, for the Target Fund, for the purpose of efficient portfolio management of the assets of the Target Fund and/or to protect its assets and commitments, employ certain techniques and instruments as set in this section.

Efficient portfolio management transactions may not include speculative transactions. These transactions must be economically appropriate (this implies that they are realised in a cost-effective way) and be entered into for one or more of the following specific aims:

- the reduction of risks;
- the reduction of cost; or
- the generation of additional capital gain or income for the fund with an appropriate level of risk, taking into account its risk profile and the risk diversification rules laid down in the investment restrictions.

In addition to the above, the Management Company, on behalf of the Company may, for each Target Fund, use derivatives to facilitate more complex efficient portfolio management techniques. In particular this may involve:

- ▶ using swap contracts to adjust interest rate risk;
- ▶ using currency derivatives to buy or sell currency risk;
- ▶ writing covered call options to generate additional income;
- ▶ using credit default swaps to buy or sell credit risk; and
- ▶ using volatility derivatives to adjust volatility risk

The relating risks of these transactions must be adequately captured by the risk management process.

The Management Company, on behalf of the Company must ensure that the overall risk associated with derivatives does not exceed the net assets of the Target Fund. The following are taken into account in computing risk: the market value of the underlying instruments, the risk of default, future foreseeable market developments and the period within which the positions are to be liquidated. This also applies to the following two points:

- ▶ In the case of investments in derivatives, the overall exposure for the underlying instruments may not exceed the investment limits set forth in the investment restrictions. Investments in index-based derivatives need not be taken into account in the case of the investment limits set forth in the investment restrictions.
- ▶ If a derivative has a security or money market instrument as the underlying, it has to be taken into account with regard to compliance with the rules set forth under the investment restrictions.

In no case whatsoever must recourse to transactions involving derivatives or other financial techniques and instruments cause the Management Company, on behalf of the Company to depart from the investment objectives set out in the prospectus of the Target Fund or add substantial supplementary risks in comparison to the Company's general risk policy (as described in the prospectus of the Target Fund).

In addition, the financial derivative instruments used for efficient portfolio management purposes must comply with the provisions contained in the investment restrictions.

Collateral Policy

The collateral policy of the Company is as follows:

- ▶ permitted types of collateral: cash collateral only (USD).
- ▶ level of collateral: fully collateralised, subject to decisions thresholds as per relevant credit support annex.
- ▶ haircut policy: no haircut.
- ▶ re-investment policy: no reinvestment of collateral.

Commitment Approach

The method used to calculate the global exposure of the Target Fund is the commitment approach.

Securities lending transactions, sales with a right of repurchase transactions, reverse repurchase transactions, and/or repurchase transactions

The Management Company will, for and on behalf of the Company and the Target Fund, for the time being, not enter into repurchase and reverse repurchase transactions and/or repurchase transactions nor engage in securities lending transactions. Should the Management Company decide to use such techniques and instruments in the future, this can be done so at the Management Company's discretion and the prospectus of the Target Fund will be updated accordingly thereafter, subject to regulatory approval.

PRICING ADJUSTMENT POLICY

The actual cost of purchasing or selling assets and investments for the Target Fund may however deviate from the latest available price or net asset value used, as appropriate, in calculating the net asset value per share due to duties and charges and spreads from buying and selling prices of the underlying investments. These costs have an adverse effect on the value of the Target Fund and are known as "dilution". To mitigate the effects of dilution, the board of directors may, at its discretion, make a price adjustment to the net asset value per share of the Target Fund.

Shares will in principle be issued, redeemed and converted on the basis of a single price, i.e., the net asset value per share. However – to mitigate the effect of dilution – the net asset value per share may be adjusted for any valuation day in the manner set out below depending on whether or not the Target Fund is in a net subscription position or in a net redemption position for such valuation day to arrive at the applicable adjusted price (the "Adjusted Price"). Where there is no dealing in the Target Fund or class of the Target Fund on any valuation day, the applicable price will be the unadjusted net asset value per share. The board of directors will retain the discretion in relation to the circumstances under which to make such a price adjustment. As a general rule, the requirement to make a price adjustment will depend on whether the net volume of subscriptions, redemptions or conversions of shares in the Target Fund will require significant purchases of assets or sales of assets in order to provide the required liquidity. The board of directors may make a price adjustment if, in its opinion, the existing shareholders (in case of subscriptions or conversions) or remaining shareholders (in case of redemptions or conversions) might otherwise be adversely affected. In particular, the price adjustment may be made where, for example but without limitation:

- (a) the Target Fund is in continual decline (i.e. is experiencing a net outflow of redemptions that requires significant sales of assets);
- (b) the Target Fund is experiencing significant levels of net subscriptions relative to its size;
- (c) the Target Fund is experiencing a net subscription position or a net redemption position on any valuation day that requires significant purchases or sales of assets; and
- (d) in any other case where the board of directors is of the opinion that the interest of shareholders require the imposition of a price adjustment.

The price adjustment will involve adding to, when the Target Fund is in a net subscription position, and deducting from, when the Target Fund is in a net redemption position, the net asset value per share such figure as the board of directors considers an appropriate figure to meet duties and charges and spreads. In particular, the net asset value of the Target Fund will be adjusted (upwards or downwards) by an amount which reflects (i) the estimated fiscal charges, (ii) dealing costs that may be incurred by the Target Fund and (iii) the estimated bid/offer spread of the assets in which the Target Fund invests. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the resulting adjustment may be different for net inflows than for net outflows. Adjustments will however be limited to a maximum of 2% of the then applicable net asset value per share.

The Adjusted Price of each class in the Target Fund will be calculated separately but any price adjustment will in percentage terms affect the Adjusted Price of each class in an identical manner. On the occasions when the price adjustment is not made there may be an adverse impact on the total assets of the Target Fund.

For the avoidance of doubt, for a given Target Fund, price adjustment may either be implemented at the Target Fund level or at a share class level, depending on the circumstances.

INVESTMENT OBJECTIVE OF THE TARGET FUND

M&G – Global Leaders Fund

The M&G Global Leaders Fund seeks to maximise long term total return (the combination of income and growth of capital). The Target Fund invests in a wide range of global equities issued by companies that the fund manager considers to be, or have the potential to be, leading in their field in terms of improving shareholder value.

M&G – Global Basics Fund

The M&G Global Basics Fund is a global equity fund which invests wholly or mainly in companies operating in basic industries ('primary' and 'secondary' industries) and also in companies that service these industries. The Target Fund may also invest in other global equities. The sole aim of the Target Fund is long-term capital growth.

INVESTMENT STRATEGY OF THE TARGET FUND

M&G – Global Leaders Fund

The fund manager selects shares in companies that he believes to be leading in their field, or have the potential to be leading in their field, in terms of improving shareholder value. Importantly, their prospects are not fully reflected in their share prices.

The approach has three core beliefs: i) management can make a big difference to returns shareholder receive; ii) where management decide to allocate resources and capital is key - companies must concentrate resources on those business activities where they have an advantage relative to other companies and can create value; iii) the above factors are only attractive from an investment perspective if they are not yet reflected in the share price.

Stocks are selected on a bottom-up basis; that is the fund manager focuses on company fundamentals. He tends to avoid imposing top-down views, that is sector, country or currency selections do not drive stockpicking, but they will be taken into account where they impact on a particular stock or the risk profile of the broader portfolio. The fund usually holds between 50 and 80 stocks, with a typical holding period of three to five years.

M&G – Global Basics Fund

The M&G Global Basics Fund employs both a top-down and bottom-up investment process. The fund managers seek to identify sectors or industries which are set to benefit from long-term structural changes or themes. This is achieved through the analysis of global macroeconomics, global demographics and government policies and spending, among other considerations. In this way, they look to avoid investing in companies operating in industries which are structurally challenged.

The bottom-up stock selection process is designed to identify well-run companies trading on attractive valuations and with sustainable growth prospects. The team has a long-term investment horizon, adopting the mentality of a business owner when buying a stock.

The portfolio is constructed in a benchmark-agnostic manner with a focus on diversification and liquidity. It is invested across the market-cap spectrum and is geographically diversified.

PERMITTED INVESTMENTS & INVESTMENT RESTRICTIONS AND LIMITS OF THE TARGET FUNDS

1. General rules of investment

- 1.1 The instrument of incorporation permits the ACD to utilise the investment and borrowing powers permitted by a UCITS scheme which complies with Chapter 5 of COLL. The ACD manages the Target Funds in accordance with the investment and borrowing powers set out below.

ACD means M&G Securities Limited, the Authorised Corporate Director of M&G Investment Funds (1).

COLL refers to the appropriate chapter or rule in the Collective Investment Schemes Sourcebook issued by the FCA as amended or re-enacted from time to time.

SYSC refers to the part of the Handbook in High Level Standards which has the title Senior Management Arrangements, Systems and Controls.

- 1.2 The ACD's investment policy may mean that at times, where it is considered appropriate, the property of the Target Funds will not be fully invested and that prudent levels of liquidity will be maintained.

2 Prudent spread of risk

- 2.1 The ACD must ensure that, taking account of the investment objectives and policy of the Target Funds, the scheme property of the Target Funds aims to provide a prudent spread of risk.

3 Treatment of obligations

- 3.1 Where the COLL Sourcebook allows a transaction to be entered into or an investment to be retained only (for example, investment in warrants and nil and partly paid securities and the general power to accept or underwrite) if possible obligations arising out of the investment transactions or out of the retention would not cause any breach of any limits in COLL 5, it must be assumed that the maximum possible liability of the Company under any other of those rules has also to be provided for.
- 3.2 Where a rule in the COLL Sourcebook permits an investment transaction to be entered into or an investment to be retained only if that investment transaction, or the retention, or other similar transactions, are covered:
- 3.2.1 it must be assumed that in applying any of those rules, each Target Fund must also simultaneously satisfy any other obligation relating to cover; and
- 3.2.2 no element of cover must be used more than once.

4 UCITS schemes: permitted types of scheme property

- 4.1 The scheme property of a Target Fund must, subject to its investment objective and policy and except where otherwise provided by COLL 5, consist solely of any or all of:
 - 4.1.1 transferable securities;
 - 4.1.2 approved money market instruments;
 - 4.1.3 units in collective investment schemes;
 - 4.1.4 derivatives and forward transactions;
 - 4.1.5 deposits; and
 - 4.1.6 movable and immovable property that is necessary for the direct pursuit of the Company's business; in accordance with the rules in COLL 5.2.
- 4.2 The requirements on spread do not apply until the expiry of a period of six months after the date of effect of the authorisation order in respect of the Target Funds (or on which the initial offer commenced if later) provided that the requirement to maintain prudent spread of risk is complied with.
- 4.3 It is not intended that any Target Fund will have an interest in any immovable property or tangible movable property.

5 Transferable securities

- 5.1 A transferable security is an investment falling within article 76 (Shares etc), article 77 (Instruments creating or acknowledging indebtedness), article 77A (alternative debenture), article 78 (Government and public securities), article 79 (Instruments giving entitlement to investments) and article 80 (Certificates representing certain securities) of the Regulated Activities Order.
- 5.2 An investment is not a transferable security if the title to it cannot be transferred, or can be transferred only with the consent of a third party.
- 5.3 In applying paragraph 5.2 to an investment which is issued by a body corporate, and which is an investment falling within articles 76 (Shares, etc), 77 (Instruments creating or acknowledging indebtedness) or article 77A (alternative debenture), of the Regulated Activities Order, the need for any consent on the part of the body corporate or any members or debenture holders of it may be ignored.
- 5.4 An investment is not a transferable security unless the liability of the holder of it to contribute to the debts of the issuer is limited to any amount for the time being unpaid by the holder of it in respect of the investment.

6 Investment in transferable securities

- 6.1 A Target Fund may invest in a transferable security only to the extent that the transferable security fulfils the following criteria:
 - 6.1.1 the potential loss which the Target Fund may incur with respect to holding the transferable security is limited to the amount paid for it;
 - 6.1.2 its liquidity does not compromise the ability of the ACD to comply with its obligation to redeem units at the request of any qualifying shareholder (see COLL 6.2.16R(3));
 - 6.1.3 reliable valuation is available for it as follows:
 - 6.1.3.1 in the case of a transferable security admitted to or dealt in an eligible market, where there are accurate, reliable and regular prices which are either market prices or prices made available by valuation systems independent from issuers;

- 6.1.3.2 in the case of a transferable security not admitted to or dealt in on an eligible market, where there is a valuation on a periodic basis which is derived from information from the issuer of the transferable security or from competent investment research;
 - 6.1.4 appropriate information is available for it as follows:
 - 6.1.4.1 in the case of a transferable security admitted to or dealt in on an eligible market, where there is regular, accurate and comprehensive information available to the market on the transferable security or, where relevant, on the portfolio of the transferable security;
 - 6.1.4.2 in the case of a transferable security not admitted to or dealt in on an eligible market, where there is regular and accurate information available to the ACD on the transferable security or, where relevant, on the portfolio of the transferable security;
 - 6.1.5 it is negotiable; and
 - 6.1.6 its risks are adequately captured by the risk management process of the ACD.
- 6.2 Unless there is information available to the ACD that would lead to a different determination, a transferable security which is admitted to or dealt in on an eligible market shall be presumed:
 - 6.2.1 not to compromise the ability of the ACD to comply with its obligation to redeem shares at the request of any qualifying shareholder; and
 - 6.2.2 to be negotiable.
- 6.3 Not more than 5% in value of a Target Fund is to consist of warrants.

7 Closed end funds constituting transferable securities

- 7.1 A unit in a closed end fund shall be taken to be a transferable security for the purposes of investment by a Target Fund, provided it fulfils the criteria for transferable securities set out in section 6 (investment in transferable securities), and either:
 - 7.1.1 where the closed end fund is constituted as an investment company or a unit trust:
 - 7.1.1.1 it is subject to corporate governance mechanisms applied to companies; and
 - 7.1.1.2 where another person carries out asset management activity on its behalf, that person is subject to national regulation for the purpose of investor protection; or
 - 7.1.2 where the closed end fund is constituted under the law of contract:
 - 7.1.2.1 it is subject to corporate governance mechanisms equivalent to those applied to companies; and
 - 7.1.2.2 it is managed by a person who is subject to national regulation for the purpose of investor protection.

8 Transferable securities linked to other assets

- 8.1 A Target Fund may invest in any other investment which shall be taken to be a transferable security for the purposes of investment by a Target Fund provided the investment:
 - 8.1.1 fulfils the criteria for transferable securities set out in section 6 (investment in transferable securities) above; and
 - 8.1.2 is backed by or linked to the performance of other assets, which may differ from those in which a Target Fund can invest.
- 8.2 Where an investment in 8.1 contains an embedded derivative component (see COLL 5.2.19R(3A)), the requirements of COLL 5 with respect to derivatives and forwards will apply to that component.

9 Approved Money Market Instruments

- 9.1 An approved money market instrument is a money market instrument which is normally dealt in on the money market, is liquid and has a value which can be accurately determined at any time.
- 9.2 A money market instrument shall be regarded as normally dealt in on the money market if it:
 - 9.2.1 has a maturity at issuance of up to and including 397 days;
 - 9.2.2 has a residual maturity of up to and including 397 days;
 - 9.2.3 undergoes regular yield adjustments in line with money market conditions at least every 397 days; or
 - 9.2.4 has a risk profile, including credit and interest rate risks, corresponding to that of an instrument which has a maturity as set out in 9.2.1 or 9.2.2 or is subject to yield adjustments as set out in 9.2.3.
- 9.3 A money market instrument shall be regarded as liquid if it can be sold at limited cost in an adequately short time frame, taking into account the obligation of the ACD to redeem units at the request of any qualifying shareholder (see COLL 6.2.16R(3)).
- 9.4 A money market instrument shall be regarded as having a value which can be accurately determined at any time if accurate and reliable valuations systems, which fulfill the following criteria, are available:
 - 9.4.1 enabling the ACD to calculate a net asset value in accordance with the value at which the instrument held in the portfolio could be exchanged between knowledgeable willing parties in an arm's length transaction; and
 - 9.4.2 based either on market data or on valuation models including systems based on amortised costs.
- 9.5 A money market instrument that is normally dealt in on the money market and is admitted to or dealt in on an eligible market shall be presumed to be liquid and have a value which can be accurately determined at any time unless there is information available to the ACD that would lead to a different determination.

10 Transferable securities and money market instruments generally to be admitted or dealt in on an eligible market

- 10.1 Transferable securities and approved money market instruments held within a Target Fund must be:
 - 10.1.1 admitted to or dealt on an eligible market (as described in paragraph 11.3); or
 - 10.1.2 dealt on an eligible market as described (in paragraph 11.3.2).
 - 10.1.3 for an approved money market instrument not admitted to or dealt in on an eligible market within 12.1; or
 - 10.1.4 recently issued transferable securities provided that:
 - 10.1.4.1 the terms of issue include an undertaking that application will be made to be admitted to an eligible market; and
 - 10.1.4.2 such admission is secured within a year of issue.
- 10.2 However, a Target Fund may invest no more than 10% of the scheme property in transferable securities and approved money market instruments other than those referred to in 10.1

11 Eligible markets regime: purpose

- 11.1 To protect investors the markets on which investments of the Target Funds are dealt in or traded on should be of an adequate quality ("eligible") at the time of acquisition of the investment and until it is sold.
- 11.2 Where a market ceases to be eligible, investments on that market cease to be approved securities. The 10% restriction on investing in non approved securities applies and exceeding this limit because a market ceases to be eligible will generally be regarded as an inadvertent breach.
- 11.3 A market is eligible for the purposes of the rules if it is:
 - 11.3.1 a regulated market; or
 - 11.3.2 a market in an EEA State which is regulated, operates regularly and is open to the public; or
 - 11.3.3 any market within 11.4.
- 11.4 A market not falling within paragraph 11.3 is eligible for the purposes of Chapter 5 of the Regulations if:
 - 11.4.1 the ACD, after consultation and notification with the depositary, decides that market is appropriate for investment of or dealing in the scheme property;
 - 11.4.2 the market is included in a list in the prospectus; and
 - 11.4.3 the depositary has taken reasonable care to determine that:
 - (a) adequate custody arrangements can be provided for the investment dealt in on that market; and
 - (b) all reasonable steps have been taken by the ACD in deciding whether that market is eligible.
- 11.5 In paragraph 11.4, a market must not be considered appropriate unless it is regulated, operates regularly, is recognised as a market or exchange or as a self-regulatory organisation by an overseas regulator, is open to the public, is adequately liquid and has adequate arrangements for unimpeded transmission of income and capital to or for the order of investors.

- 11.6 The eligible markets for each Target Fund are set out in appendix 3 of the Target Fund's prospectus.

12 Money market instruments with a regulated issuer

- 12.1 In addition to instruments admitted to or dealt in on an eligible market, a Target Fund may invest in an approved money market instrument provided it fulfils the following requirements:
 - 12.1.1 the issue or the issuer is regulated for the purpose of protecting investors and savings; and
 - 12.1.2 the instrument is issued or guaranteed in accordance with section 13 (issuers and guarantors of money market instruments).
- 12.2 The issue or the issuer of a money market instrument, other than one dealt in on an eligible market, shall be regarded as regulated for the purpose of protecting investors and savings if:
 - 12.2.1 the instrument is an approved money market instrument;
 - 12.2.2 appropriate information is available for the instrument (including information which allows an appropriate assessment of the credit risks related to investment in it), in accordance with section 14 (appropriate information for money market instruments); and
 - 12.2.3 the instrument is freely transferable.

13 Issuers and guarantors of money market instruments

- 13.1 A Target Fund may invest in an approved money market instrument if it is:
 - 13.1.1 issued or guaranteed by any one of the following:
 - 13.1.1.1 a central authority of an EEA State or, if the EEA State is a federal state, one of the members making up the federation;
 - 13.1.1.2 a regional or local authority of an EEA State;
 - 13.1.1.3 the European Central Bank or a central bank of an EEA State;
 - 13.1.1.4 the EU or the European Investment Bank;
 - 13.1.1.5 a non-EEA State or, in the case of a federal state, one of the members making up the federation;
 - 13.1.1.6 a public international body to which one or more EEA States belong; or
 - 13.1.2 issued by a body, any securities of which are dealt in on an eligible market; or
 - 13.1.3 issued or guaranteed by an establishment which is:
 - 13.1.3.1 subject to prudential supervision in accordance with criteria defined by European Community law; or
 - 13.1.3.2 subject to and complies with prudential rules considered by the FCA to be at least as stringent as those laid down by European Community law.
- 13.2 An establishment shall be considered to satisfy the requirement in 13.1.3.2 if it is subject to and complies with prudential rules, and fulfils one or more of the following criteria:
 - 13.2.1 it is located in the EEA;
 - 13.2.2 it is located in an OECD country belonging to the group of ten;
 - 13.2.3 it has at least investment grade rating;

- 13.2.4 on the basis of an in-depth analysis of the issuer, it can be demonstrated that the prudential rules applicable to that issuer are at least as stringent as those laid down by European Community law.

14 Appropriate information for money market instruments

- 14.1 In the case of an approved money market instrument within 13.1.2 or issued by a body of the type referred to in COLL 5.2.10E(G); or which is issued by an authority within 13.1.1.2 or a public international body within 13.1.1.6 but is not guaranteed by a central authority within 13.1.1.1, the following information must be available:
- 14.1.1 information on both the issue or the issuance programme, and the legal and financial situation of the issuer prior to the issue of the instrument, verified by appropriately qualified third parties not subject to instructions from the issuer;
 - 14.1.2 updates of that information on a regular basis and whenever a significant event occurs; and
 - 14.1.3 available and reliable statistics on the issue or the issuance programme.
- 14.2 In the case of an approved money-market instrument issued or guaranteed by an establishment within 13.1.3, the following information must be available:
- 14.2.1 information on the issue or the issuance programme or on the legal and financial situation of the issuer prior to the issue of the instrument;
 - 14.2.2 updates of that information on a regular basis and whenever a significant event occurs; and
 - 14.2.3 available and reliable statistics on the issue or the issuance programme, or other data enabling an appropriate assessment of the credit risks related to investment in those instruments.
- 14.3 In the case of an approved money market instrument:
- 14.3.1 within 13.1.1.1, 13.1.1.4 or 13.1.1.5; or
 - 14.3.2 which is issued by an authority within 13.1.1.2 or a public international body within 13.1.1.6 and is guaranteed by a central authority within 13.1.1.1; information must be available on both the issue or the issuance programme, and on the legal and financial situation of the issuer prior to the issue of the instrument.

15 Spread: general

- 15.1 This rule on spread does not apply to government and public securities.
- 15.2 For the purposes of this requirement companies included in the same group for the purposes of consolidated accounts as defined in accordance with Directive 83/349/EEC or in the same group in accordance with international accounting standards are regarded as a single body.
- 15.3 Not more than 20% in value of the scheme property is to consist of deposits with a single body.
- 15.4 Not more than 5% in value of the scheme property is to consist of transferable securities issued by any single body.
- 15.5 The limit of 5% in paragraph 15.4 is raised to 10% in respect of up to 40% in value of the scheme property. Covered bonds need not to be taken into account for the purpose of applying the limit of 40%.

- 15.6 The limit of 5% in 15.4 is raised to 25% in value of the scheme property in respect of covered bonds, provided that when a Target Fund invests more than 5% in covered bonds issued by a single body, the total value of covered bonds held must not exceed 80% in value of the scheme property.
- 15.7 In applying paragraphs 15.4 and 15.5 certificates representing certain securities are treated as equivalent to the underlying security.
- 15.8 The exposure to any one counterparty in an OTC derivatives transaction must not exceed 5% in value of the scheme property; this limit being raised to 10% where the counterparty is an approved bank.
- 15.9 Not more than 20% in value of the scheme is to consist of transferable securities and approved money market instruments issued by the same group (as referred to in paragraph 15.2).
- 15.10 Subject to section 23 (Concentration) in applying the limits in paragraphs 15.4, 15.5, 15.7 and 15.9, and subject to 15.6, not more than 20% in value of the scheme property is to consist of any combination of two or more of the following:
 - 15.10.1 transferable securities (including covered bonds) or approved money market instruments issued by; or
 - 15.10.2 deposits made with; or
 - 15.10.3 exposures from OTC derivatives transactions made with; a single body.

16 Counterparty risk and issuer concentration

- 16.1 The ACD must ensure that counterparty risk arising from an OTC derivative is subject to the limits set out in paragraphs 15.8 and 15.10 above.
- 16.2 When calculating the exposure of a Target Fund to a counterparty in accordance with the limits in paragraph 15.8 the ACD must use the positive mark-to-market value of the OTC derivative contract with that counterparty.
- 16.3 The ACD may net the OTC derivative positions of a Target Fund with the same counterparty, provided they are able legally to enforce netting agreements with the counterparty on behalf of the Target Fund.
- 16.4 The netting agreements in paragraph 16.3 above are permissible only with respect to OTC derivatives with the same counterparty and not in relation to any other exposures the Target Fund may have with that same counterparty.
- 16.5 The ACD may reduce the exposure of scheme property to a counterparty of an OTC derivative through the receipt of collateral. Collateral received must be sufficiently liquid so that it can be sold quickly at a price that is close to its pre-sale valuation.
- 16.6 The ACD must take collateral into account in calculating exposure to counterparty risk in accordance with the limits in paragraph 15.8 when it passes collateral to an OTC counterparty on behalf of a Target Fund.
- 16.7 Collateral passed in accordance with paragraph 16.6 may be taken into account on a net basis only if the ACD is able legally to enforce netting arrangements with this counterparty on behalf of that Target Fund.
- 16.8 The ACD must calculate the issuer concentration limits referred to in section 15 on the basis of the underlying exposure created through the use of OTC derivatives pursuant to the commitment approach.
- 16.9 In relation to the exposure arising from OTC derivatives as referred to in paragraph 15.10 the ACD must include any exposure to OTC derivative counterparty risk in the calculation.

17 Spread: Government and public securities

- 17.1 The above restrictions do not apply to government and public securities. The restrictions in relation to such securities are set out below ("such securities").
- 17.2 Where no more than 35% in value of the scheme property is invested in such securities issued by any one body, there is no limit on the amount which may be invested in such securities or in any one issue.
- 17.3 Subject to its investment objective and policy, a Target Fund may invest more than 35% in value of the scheme property in such securities issued by any one body provided that:
 - 17.3.1 the ACD has before any such investment is made consulted with the depositary and as a result considers that the issuer of such securities is one which is appropriate in accordance with the investment objectives of the authorised fund;
 - 17.3.2 no more than 30% in value of the scheme property consists of such securities of any one issue;
 - 17.3.3 the scheme property includes such securities issued by that or another issuer, of at least six different issues;
 - 17.3.4 the disclosures required by the FCA have been made.
- 17.4 The rules in paragraph 17.3 apply to the Target Fund only where that Target Fund's investment objective and policy specifically states more than 35% of the scheme property of that Target Fund is or may be invested in certain securities (which are listed in the investment objective and policy).
- 17.5 In relation to such securities:
 - 17.5.1 issue, issued and issuer include guarantee, guaranteed and guarantor; and
 - 17.5.2 an issue differs from another if there is a difference as to repayment date, rate of interest, guarantor or other material terms of the issue.
- 17.6 Notwithstanding paragraph 16.1 above, and subject to paragraphs 17.2 and 17.3, in applying the 20% limit in 15.10 with respect to a single body, government and public securities issued by that body shall be taken into account.

18 Investment in collective investment schemes

- 18.1 Up to 5% in value of the property of a Target Fund may be invested in units or shares in one or more:
 - 18.1.1 UCITS schemes; or
 - 18.1.2 certain recognised schemes, as defined in s272 the Financial Services and Markets Act 2000, subject in each case that certain conditions are met and in particular that the second scheme has terms which prohibit more than 10% in value of the scheme property consisting of units in collective investment schemes.
- 18.2 Subject to the rules in COLL 5.2.15R and the value stated in 18.1 above, investments in collective investment schemes may be in schemes which are managed or operated by (or, in the case of companies incorporated under the OEIC Regulations, have as their authorised corporate director) the ACD or an associate of the ACD.
- 18.3 A Target Fund may invest in or dispose of shares in another sub-fund of the company (the second sub-fund) provided that the second sub-fund does not hold shares in any other sub-fund in the company.

19 Investment in nil and partly paid securities

A transferable security or an approved money market instrument on which any sum is unpaid falls within a power of investment only if it is reasonably foreseeable that the amount of any existing and potential call for any sum unpaid could be paid by the Target Funds, at the time when payment is required, without contravening the rules in Chapter 5 of COLL.

20 Risk Management

- 20.1 The ACD must use a risk management process, enabling it to monitor and measure at any time the risk of a Target Fund's positions and their contribution to the overall risk profile of the Target Fund.
- 20.2 The following details of the risk management process must be regularly notified by the ACD to the FCA and at least on an annual basis:
 - 20.2.1 a true and fair view of the types of derivatives and forward transactions to be used within a Target Fund together with their underlying risks and any relevant quantitative limits; and
 - 20.2.2 the methods for estimating risks in derivative and forward transactions.

21 Investment in deposits

The Company may invest in deposits only with an approved bank and which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months.

22 Significant influence

- 22.1 The Company must not acquire transferable securities issued by a body corporate and carrying rights to vote (whether or not on substantially all matters) at a general meeting of that body corporate if:
 - 22.2 immediately before the acquisition, the aggregate of any such securities held by the Target Funds gives the Target Funds power significantly to influence the conduct of business of that body corporate; or
 - 22.3 the acquisition gives the Company that power.
- 22.4 For the purpose of paragraph 22.3, the Company is to be taken to have power significantly to influence the conduct of business of a body corporate if it can, because of the transferable securities held by it, exercise or control the exercise of 20% or more of the voting rights in that body corporate (disregarding for this purpose any temporary suspension of voting rights in respect of the transferable securities of that body corporate).

23 Concentration

The Company:

- 23.1 must not acquire transferable securities (other than debt securities) which:
 - 23.1.1 do not carry a right to vote on any matter at a general meeting of the body corporate that issued them; and
 - 23.1.2 represent more than 10% of those securities issued by that body corporate;
- 23.2 must not acquire more than 10% of the debt securities issued by any single body;
- 23.3 must not acquire more than 25% of the units in a collective investment scheme;
- 23.4 must not acquire more than 10% of the approved money market instruments issued by any single body; and
- 23.5 need not comply with the limits in paragraphs 23.2 to 23.4 if, at the time of acquisition, the net amount in issue of the relevant investment cannot be calculated.

24 Use of derivatives - efficient portfolio management

- 24.1 The Company may use its property to enter into derivatives transactions but only for the purposes of efficient portfolio management ("EPM") as set out in this section 24 and may enter into any transaction to hedge (i.e. with the purpose of preserving the value of an asset or assets of a Target Fund).
- 24.2 A transaction in a derivative must:
 - 24.2.1 have the underlying consisting of any or all of the following to which the scheme is dedicated:
 - 24.2.1.1 transferable securities permitted under section 10 (transferable securities and money market instruments generally to be admitted or dealt in on an eligible market);
 - 24.2.1.2 approved money market instruments permitted under section 10 (transferable securities and money market instruments generally to be admitted or dealt in on an eligible market) above;
 - 24.2.1.3 deposits permitted under section 21 (investment in deposits) ;
 - 24.2.1.4 derivatives permitted under this rule;
 - 24.2.1.5 collective investment scheme units permitted under section 19 (investment collective investment schemes) above;
 - 24.2.1.6 financial indices which satisfy the criteria set out at COLL 5.2.20AR (financial indices underlying derivatives);
 - 24.2.1.7 interest rates;
 - 24.2.1.8 foreign exchange rates; and
 - 24.2.1.9 currencies; and
 - 24.2.2 the transaction must be covered in accordance with paragraph 25 below; and
 - 24.2.3 the exposure to the underlying assets must not exceed the limits set out in sections 15 and 17.
- 24.3 Permitted EPM transactions (excluding stock lending arrangements) are transactions in derivatives (i.e. options, futures or contracts for differences) dealt in or traded on an approved derivatives market; off exchange futures, options or contracts for differences resembling options; or synthetic futures in certain circumstances. The Company may enter into approved derivatives transactions on derivatives markets which are eligible. Eligible derivatives markets are those which the ACD after consultation with the depositary has decided are appropriate for the purpose of investment of or dealing in the scheme property with regard to the relevant criteria set out in the Regulations and the guidance on eligible markets issued by the FCA as amended from time to time.
- 24.4 The eligible derivatives markets for the Company are set out in appendix 3 of the Target Funds' prospectus.
- 24.5 New eligible derivatives markets may be added to a Target Fund in accordance with the Regulations and only after the ACD has revised the prospectus accordingly.
- 24.6 Any forward transactions must be with an approved counterparty (eligible institutions, money market institutions etc). A derivative or forward transaction which would or could lead to delivery of scheme property to the depositary in respect of the company may be entered into only if such scheme property can be held by the Company, and the ACD reasonably believes that delivery of the property pursuant to the transactions will not lead to a breach of the Regulations.

- 24.7 There is no limit on the amount of the scheme property which may be used for EPM but the transactions must satisfy three broadly based requirements:
- 24.7.1 A transaction must reasonably be believed by the ACD to be economically appropriate to the efficient portfolio management of the Company. This means that transactions undertaken to reduce risk or cost (or both) must alone or in combination with other EPM transactions diminish a risk or cost of a kind or level which it is sensible to reduce and transactions undertaken to generate additional capital or income must confer a benefit on the Company or the Target Funds.
- 24.8 EPM may not include speculative transactions.
- 24.9 The purpose of an EPM transaction for the Company must be to achieve one of the following aims in respect of the Company or a Target Fund:
- ▶ reduction of risk
 - ▶ reduction of cost
 - ▶ the generation of additional capital or income
- 24.9.1 Reduction of risk allows for the use of the technique of cross-currency hedging in order to switch all or part of the Company's or Target Funds' exposure away from a currency the ACD considers unduly prone to risk, to another currency. This aim also permits the use of stock index contracts to change the exposure from one market to another, a technique known as 'tactical asset allocation'.
- 24.9.2 Reduction of cost allows for the use of futures or options contracts, either on specific stocks or on an index, in order to minimise or eliminate the effect of changing prices of stocks to be bought or sold.
- 24.9.3 The aims of reduction of risk or cost, together or separately, allow the ACD on a temporary basis to use the technique of tactical asset allocation. Tactical asset allocation permits the ACD to undertake a switch in exposure by use of derivatives, rather than through sale and purchase of the scheme property. If an EPM transaction for the Company relates to the acquisition or potential acquisition of transferable securities, the ACD must intend that the Company should invest in transferable securities within a reasonable time and the ACD shall thereafter ensure that, unless the position has itself been closed out, that intention is realised within that reasonable time.
- 24.9.4 The generation of additional capital or income for the Company or Target Funds with no or an acceptably low level of risk means the ACD reasonably believes that the Company or Target Funds is certain (or certain barring events which are not reasonably foreseeable) to derive a benefit. The generation of additional capital or income may arise out of taking advantage of price imperfections or from the receipt of a premium for writing of covered call or covered put options (even if the benefit is obtained at the expense of the foregoing of yet greater benefit) or pursuant to stock lending as permitted by the Regulations. The relevant purpose must relate to scheme property; scheme property (whether precisely identified or not) which is to be or is proposed to be acquired for the Company; and anticipated cash receipts of the Company, if due to be received at some time and likely to be received within one month.

24.10 Each EPM transaction must be fully covered 'individually' by scheme property of the right kind (i.e. in the case of exposure in terms of property, appropriate transferable securities or other property; and, in the case of exposure in terms of money, cash, near-cash instruments, borrowed cash or transferable securities which can be sold to realise the appropriate cash). It must also be covered 'globally' (i.e. after providing cover for existing EPM transactions there is adequate cover for another EPM transaction within the scheme property - there can be no gearing). Scheme property and cash can be used only once for cover and, generally, scheme property is not available for cover if it is the subject of a stock lending transaction. The EPM lending transaction in a back to back currency borrowing (i.e. borrowing permitted in order to reduce or eliminate risk arising by reason of fluctuations in exchange rates) does not require cover.

25 Requirement to covers sales

25.1 No agreement by or on behalf of a Target Fund to dispose of property or rights may be made unless the obligation to make the disposal and any other similar obligation could immediately be honoured by the Target Fund by delivery of property or the assignment (or, in Scotland, assignation) of rights, and the property and rights above are owned by the Target Fund at the time of the agreement. This requirement does not apply to a deposit.

26 Stock lending

26.1 As an extension of EPM explained above, the Company or the depositary at the request of the Company, may enter into certain repo contracts or stock lending arrangements in respect of the Company or a Target Fund. The Company or the depositary delivers securities which are the subject of the stock lending arrangement in return for an agreement that securities of the same kind and amount should be redelivered to the Company or the depositary at a later date. The Company or the depositary at the time of delivery receives collateral to cover the risk of the future redelivery not being completed. There is no limit on the value of the property of the Company which may be the subject of stock lending arrangements.

26.2 Repo contracts and stock lending arrangements must be an arrangement of the kind described in Section 263B of the Taxation of Chargeable Gains Act 1992. The arrangements must also comply with the requirements of the Regulations.

27 Cover for derivatives

27.1 The ACD must ensure that its global exposure to derivatives and forward transactions held in the Target Funds does not exceed the net asset value of the scheme property.

28 Daily calculation of global exposure

28.1 The ACD must calculate the global exposure of a Target Fund on at least a daily basis.

28.2 For these purposes exposure must be calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

29 Calculation of global exposure

- 29.1 The ACD must calculate the global exposure of any Target Funds it manages either as:
 - 29.1.1 the incremental exposure and leverage generated through the use of derivatives and forward transactions, which may not exceed 100% of the net asset value of the scheme property of a Target Fund, by way of the commitment approach; or
 - 29.1.2 the market risk of the scheme property of a Target Fund, by way of the value at risk approach.
- 29.2 The ACD must ensure that the method selected above is appropriate, taking into account:
 - 29.2.1 the investment strategy pursued by the Target Fund;
 - 29.2.2 the types and complexities of the derivatives and forward transactions used; and
 - 29.2.3 the proportion of the scheme property comprising derivatives and forward transactions.
- 29.3 Where a Target Fund employs techniques and instruments including repo contracts or stock lending transactions in accordance with section 26 (Stock Lending) in order to generate additional leverage or exposure to market risk, the ACD must take those transactions into consideration when calculating global exposure.
- 29.4 For the purposes of paragraph 29.1, value at risk means a measure of the maximum expected loss at a given confidence level over the specific time period.

30 Valuation of OTC derivatives

- 30.1 For the purposes of paragraph 4.1.4, the ACD must:
 - 30.1.1 establish, implement and maintain arrangements and procedures which ensure appropriate, transparent and fair valuation of the exposures of a fund to OTC derivatives; and
 - 30.1.2 ensure that the fair value of OTC derivatives is subject to adequate, accurate and independent assessment.
- 30.2 Where the arrangements and procedures referred to in paragraph 30.1.1 involve the performance of certain activities by third parties, the ACD must comply with the requirements in SYSC 8.1.13 R (Additional requirements for a management company) and COLL 6.6A.4 R (4) to (6) (Due diligence requirements of authorised fund managers of UCITS schemes).
- 30.3 The arrangements and procedures referred to in this rule must be:
 - 30.3.1 adequate and proportionate to the nature and complexity of the OTC derivative concerned; and
 - 30.3.2 adequately documented.

31 Commitment approach

- 31.1 Where the ACD uses the commitment approach for the calculation of global exposure, it must:
 - 31.1.1 ensure that it applies this approach to all derivative and forward transactions (including embedded derivatives as referred to in paragraph 24 (Use of Derivatives), whether used as part of the Target Funds' general investment policy, for the purposes of risk reduction or for the purposes of Efficient Portfolio Management in accordance with paragraph 26 (Stock lending); and

- 31.1.2 convert each derivative or forward transaction into the market value of an equivalent position in the underlying asset of that derivative or forward (standard commitment approach).
- 31.2 The ACD may apply other calculation methods which are equivalent to the standard commitment approach.
- 31.3 For the commitment approach, the ACD may take account of netting and hedging arrangements when calculating global exposure of a Target Fund, where these arrangements do not disregard obvious and material risks and result in a clear reduction in risk exposure.
- 31.4 Where the use of derivatives or forward transactions does not generate incremental exposure for the Target Funds, the underlying exposure need not be included in the commitment calculation.
- 31.5 Where the commitment approach is used, temporary borrowing arrangements entered into on behalf of the Target Funds in accordance with its general power to borrow need not form part of the global exposure calculation.
- 31.6 The ACD uses the commitment approach to calculate the global exposure for the Target Funds.

32 Underwriting

- 32.1 Underwriting and sub-underwriting contracts and placings may also, subject to certain conditions set out in the Regulations, be entered into for the account of the Company or Target Funds.

33 Borrowing Powers

- 33.1 The ACD may, on the instructions of the Company and subject to the Regulations, borrow money from an eligible institution or an approved bank for the use of the Company on the terms that the borrowing is to be repayable out of the scheme property.
- 33.2 Borrowing must be on a temporary basis, not persistent and in any event must not exceed three months without the prior consent of the depositary, which may be given only on such conditions as appear appropriate to the depositary to ensure that the borrowing does not cease to be on a temporary basis.
- 33.3 The ACD must ensure that borrowing does not, on any business day, exceed 10% of the value of the scheme property.
- 33.4 These borrowing restrictions do not apply to 'back to back' borrowing for currency hedging purposes.

DILUTION

The actual cost of purchasing or selling investments for the Target Fund may deviate from the mid-market value used in calculating the price of shares in the Target Fund due to dealing costs such as broking charges, taxes, and any spread between the buying and selling prices of the underlying investments. These dealing costs can have an adverse effect on the value of the Target Fund, known as “dilution”. The Regulations allow the cost of dilution to be met directly from the Target Fund’s assets or to be recovered from investors on the purchase or redemption of shares in the Target Fund inter alia by means of a dilution adjustment to the dealing price, and this is the policy which has been adopted by the ACD. The ACD shall comply with COLL 6.3.8R in its application of any such dilution adjustment. The ACD’s policy is designed to minimise the impact of dilution on the Target Fund.

The dilution adjustment for the Target Fund will be calculated by reference to the estimated costs of dealing in the underlying investments of that Target Fund, including any dealing spreads, commissions and transfer taxes. The need to apply a dilution adjustment will depend on the relative volume of sales (where they are issued) to redemptions (where they are cancelled) of shares. The ACD may apply a dilution adjustment on the issue and redemption of such shares if, in its opinion, the existing shareholders (for sales) or remaining shareholders (for redemptions) might be adversely affected, and if in applying a dilution adjustment, so far as practicable, it is fair to all shareholders and potential shareholders. In specie transfers will not be taken into account when determining any dilution adjustment and any incoming portfolio will be valued on the same basis as the Target Fund is priced (i.e. offer plus notional dealing charges, mid, or bid less notional dealing charges). When a dilution adjustment is not applied there may be a dilution of the assets of the Target Fund which may constrain the future growth of the Target Fund.

The ACD may alter its current dilution adjustment policy by giving shareholders at least 60 days’ notice and amending the prospectus before the change takes effect.

Based on experience, the ACD would typically expect to make a dilution adjustment on most days, and this would ordinarily be of the magnitude shown in the table below. The ACD reserves the right to adjust the price by a lesser amount but will always make such an adjustment in a fair manner solely to reduce dilution and not for the purpose of creating a profit or avoiding a loss for the account of the ACD or an associate. It should be noted that as dilution is related to inflows and outflows of monies and the purchase and sale of investments it is not possible to predict accurately if and when dilution will occur and to what extent.

Dilution adjustment table

Typical dilution adjustment for the following Target Funds would be:

M&G Global Basics Fund	+ 0.30% / -0.18%
M&G Global Leaders Fund	+ 0.15% / -0.12%

Positive dilution adjustment figures indicate a typical increase from mid price when the Target Fund is experiencing net issues. Negative dilution adjustment figures indicate a typical decrease from mid price when the Target Fund is experiencing net redemptions. Figures are based on the historic costs of dealing in the underlying investments of the Target Fund for twelve months to 31 May 2016, including any spreads, commissions and transfer taxes.

- (9) In addition, the Company may invest a maximum of 10% of the net asset value of any fund in transferable securities or money market instruments other than those referred to under A(1) to A(4) and A(8) above.

- (10) Under the conditions and within the limits laid down by the Law, the Company may, to the widest extent permitted by the Luxembourg laws and regulations (i) create any fund qualifying either as a feeder UCITS (a "Feeder UCITS") or as a master UCITS (a "Master UCITS"), (ii) convert any existing fund into a Feeder UCITS, or (iii) change the Master UCITS of any of its Feeder UCITS.

A Feeder UCITS shall invest at least 85% of its assets in the units of another Master UCITS. A Feeder UCITS may hold up to 15% of its assets in one or more of the following:

- ▶ ancillary liquid assets in accordance with paragraph B below;
- ▶ derivatives, which may be used only for hedging purposes;

For the purposes of compliance with section 3 below, the Feeder UCITS shall calculate its global exposure related to derivatives by combining its own direct exposure under the above paragraph, (b) with either:

the Master UCITS actual exposure to derivative in proportion to the Feeder UCITS investment into the Master UCITS; or

the Master UCITS potential maximum global exposure to derivative provided for in the Master UCITS management regulations or instruments of incorporation in proportion to the Feeder UCITS investment into the Master UCITS.

- (B) The Target Fund may hold ancillary liquid assets. Liquid assets used to back-up derivative are not considered as ancillary liquid assets.
- (C) (1) The Target Fund may invest no more than 10% of its net asset value in transferable securities or money market instruments issued by the same issuing body (and in the case of structured financial instruments embedding derivative, both the issuer of the structured financial instruments and the issuer of the underlying securities). The Target Fund may not invest more than 20% of its net assets in deposits made with the same body. The risk exposure to a counterparty of a fund in an OTC derivative transaction may not exceed 10% of its net assets when the counterparty is a credit institution referred to in paragraph 1(A)(6) above or 5% of its net assets in other cases.

- (2) Furthermore, where the Target Fund holds investments in transferable securities and money market instruments of any issuing body which individually exceed 5% of the net asset value of the Target Fund, the total value of all such investments must not account for more than 40% of the net asset value of the Target Fund.

This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.

Notwithstanding the individual limits laid down in paragraph (C)(1), a fund may not combine:

- investments in transferable securities or money market instruments issued by,
- deposits made with, and/or
- exposures arising from OTC derivative transactions undertaken with a single body in excess of 20% of its net assets.

- (3) The limit of 10% laid down in paragraph (C)(1) above shall be 35% in respect of transferable securities or money market instruments which are issued or guaranteed by an EU member state, its local authorities or by an Eligible State or by public international bodies of which one or more EU member states are members.

- (4) The limit of 10% laid down in paragraph (C)(1) above shall be 25% in respect of debt securities which are issued by highly rated credit institutions having their registered office in an EU member state and which are subject by law to a special public supervision for the purpose of protecting the holders of such debt securities, provided that the amount resulting from the issue of such debt securities are invested, pursuant to applicable provisions of the law, in assets which are sufficient to cover the liabilities arising from such debt securities during the whole period of validity thereof and which are assigned to the preferential repayment of capital and accrued interest in the case of a default by such issuer.

If the Target Fund invests more than 5% of its assets in the debt securities referred to in the sub-paragraph above and issued by one issuer, the total value of such investments may not exceed 80% of the net asset value of the Target Fund.

- (5) The transferable securities and money market instruments referred to in paragraphs (C)(3) and (C)(4) are not included in the calculation of the limit of 40% referred to in paragraph (C)(2).

The limits set out in paragraphs (C)(1), (C)(2), (C)(3) and (C)(4) above may not be aggregated and, accordingly, the value of investments in transferable securities and money market instruments issued by the same body, in deposits or derivative made with this body, effected in accordance with paragraphs (C)(1), (C)(2), (C)(3) and (C)(4) may not, in any event, exceed a total of 35% of the net asset value of the Target Fund.

Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with directive 2013/34/EU or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the limits contained in this paragraph (C).

The Target Fund may cumulatively invest up to 20% of its net assets in transferable securities and money market instruments within the same group.

- (6) Without prejudice to the limits laid down in paragraph (D), the limits laid down in this paragraph (C) shall be 20% for investments in shares and/or bonds issued by the same body when the aim of the Target Fund's investment policy is to replicate the composition of a certain stock or bond index which is recognised by the CSSF, provided
- the composition of the index is sufficiently diversified,
 - the index represents an adequate benchmark for the market to which it refers,
 - it is published in an appropriate manner.

The limit laid down in the sub-paragraph above is raised to 35% where it proves to be justified by exceptional market conditions in particular in Regulated Markets where certain transferable securities or money market instruments are highly dominant provided that investment up to 35% is only permitted for a single issuer.

- (7) Where the Target Fund has invested in accordance with the principle of risk spreading in transferable securities or money market instruments issued or guaranteed by an EU member state, by its local authorities or by an Eligible State or by public international bodies of which one or more EU member states are members, the Company may invest 100% of the net asset value of the Target Fund in such securities provided that the Target Fund must hold securities from at least six different issues and the value of securities from any one issue must not account for more than 30% of the net asset value of the Target Fund.

Subject to having due regard to the principle of risk spreading, the Target Fund need not comply with the limits set out in this paragraph (C) for a period of 6 months following the date of its launch.

- (D) (1) The Company may not normally acquire shares carrying voting rights which would enable the Company to exercise significant influence over the management of the issuing body.
- (2) The Target Fund may acquire no more than (a) 10% of the non-voting shares of any single issuing body, (b) 10% of the value of debt securities of any single issuing body, (c) 10% of the money market instruments of the same issuing body, and/or (d) 25% of the units of the same UCI. However, the limits laid down in (b), (c) and (d) above may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the money market instruments or the net amount of securities in issue cannot be calculated.

The limits set out in paragraph (D)(1) and (2) above shall not apply to:

- (i) transferable securities and money market instruments issued or guaranteed by an EU member state or its local authorities;
- (ii) transferable securities and money market instruments issued or guaranteed by any other Eligible State;

- (i) transferable securities and money market instruments issued by public international bodies of which one or more EU member states are members; or
 - (ii) shares held in the capital of a company incorporated in a non-EU member state which invests its assets mainly in the securities of issuing bodies having their registered office in that state where, under the legislation of that state, such holding represents the only way in which the Target Fund's assets may invest in the securities of the issuing bodies of that state, provided, however, that such company in its investment policy complies with the limits laid down in Articles 43, 46 and 48 (1) and (2) of the Law.
- (E) No Target Fund may invest more than 10% of its net assets in units of UCITS or other UCIs, unless otherwise specified in appendix III of the Target Fund prospectus and funds identified as Feeder UCITS as provided for in the investment objective and policy in appendix III of the Target Fund prospectus. In addition, except for funds identified as Feeder UCITS, the following limits shall apply:
 - (1) If the Target Fund is allowed to invest more than 10% of its net assets in units of UCITS and/or UCIs, the Target Fund may not invest more than 20% of its net assets in units of a single UCITS or other UCI. Investments made in units of UCIs other than UCITS may not, in aggregate, exceed 30% of the net assets of a sub-fund.
 - (2) When the Target Fund invests in the units of other UCITS and/or other UCIs linked to the Company by common management or control, or by a direct or indirect holding of more than 10% of the capital or the voting rights, or managed by a management company linked to the Investment Manager, no subscription or redemption fees may be charged to the Company on account of its investment in the units of such other UCITS and/or UCIs. In respect of a fund's investments in UCITS and other UCIs linked to the Company as described in the preceding paragraph, there shall be no management fee charged to that portion of the assets of the Target Fund. The Company will indicate in its annual report the total management fees charged both to the Target Fund and to the UCITS and other UCIs in which the Target Fund has invested during the relevant period.
 - (3) The underlying investments held by the UCITS or other UCIs in which the Target Fund invests do not have to be considered for the purpose of the investment restrictions set forth under section 1(C) above.
- (F) A fund (the "Investing Fund") may subscribe, acquire and/or hold securities to be issued or issued by one or more funds (each, a "target fund") without the Company being subject to the requirements of the law of 10 August 1915 on commercial companies, as amended, with respect to the subscription, acquisition and/or the holding by a company of its own shares, under the condition however that:
 - (a) the target fund(s) do(es) not, in turn, invest in the Investing Fund invested in this (these) target fund(s); and
 - (b) no more than 10% of the assets that the target fund(s) whose acquisition is contemplated may be invested in units of other target funds; and

- (c) voting rights, if any, attaching to the shares of the target fund(s) are suspended for as long as they are held by the Investing fund concerned and without prejudice to the appropriate processing in the accounts and the periodic reports; and
- (d) in any event, for as long as these securities are held by the Investing fund, their value will not be taken into consideration for the calculation of the net assets of the Company for the purposes of verifying the minimum threshold of the net assets imposed by the Law; and
- (e) there is no duplication of management/subscription or repurchase fees between those at the level of the Investing Fund having invested in the target fund(s), and this (these) target fund(s).

2. Investment in Other Assets

- (A) The Company will neither make investments in precious metals, commodities or certificates representing these. In addition, the Company will not enter into derivative on precious metals or commodities. This does not prevent the Company from gaining exposure to precious metals or commodities by investing into financial instruments backed by precious metals or commodities, or financial instruments whose performance is linked to precious metals or commodities.
- (B) The Company will not purchase or sell real estate or any option, right or interest therein, provided the Company may invest in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein.
- (C) The Company may not carry out uncovered sales of transferable securities, money market instruments or other financial instruments referred to in sections 1(A)(5), (7) and (8).
- (D) The Company may not borrow for the account of any fund, other than amounts which do not in aggregate exceed 10% of the net asset value of the fund, and then only as a temporary measure. For the purpose of this restriction back to back loans are not considered to be borrowings.
- (E) The Company will not mortgage, pledge, hypothecate or otherwise encumber as security for indebtedness any securities held for the account of any fund, except as may be necessary in connection with the borrowings mentioned in paragraph (D) above, and then such mortgaging, pledging, or hypothecating may not exceed 10% of the net asset value of each fund. In connection with swap transactions, option and forward exchange or futures transactions the deposit of securities or other assets in a separate account shall not be considered a mortgage, pledge or hypothecation for this purpose.
- (F) The Company may acquire securities in which it is permitted to invest in pursuit of its investment objective and policy through underwriting or sub-underwriting.
- (G) The Company will on a fund by fund basis comply with such further restrictions as may be required by the regulatory authorities in any country in which the shares are marketed.

3. Derivative

As specified in section 1(A)(7) above, the Company may in respect of the Target Fund invest in derivative.

The Company shall ensure that the global exposure of the Target Fund relating to derivative does not exceed the total net assets of the Target Fund. The Target Fund's overall risk exposure shall consequently not exceed 200% of its total net assets. In addition, this overall risk exposure may not be increased by more than 10% by means of temporary borrowings (as referred to in section 2(D) above) so that it may not exceed 210% of the Target Fund's total net assets under any circumstances.

The global exposure relating to derivative is calculated taking into account the current value of the underlying assets, the counterparty risk, foreseeable market movements and the time available to liquidate the positions. This shall also apply to the following sub-paragraphs.

The Target Fund may invest, as a part of its investment policy and within the limits laid down in section 1(A)(7) and section 1(C)(5), in derivative provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in sections 1(C)(1) to (7).

When the Target Fund invests in index-based derivative compliant with the provisions of sections 1(C)(1) to (7), these investments do not have to be combined with the limits laid down in section 1(C). The frequency of the review and rebalancing of the composition of the underlying index of such derivative varies per index and could be daily, weekly, monthly, quarterly or annually. The rebalancing frequency will have no impact in terms of costs in the context of the performance of the investment objective of the Target Fund.

When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of these restrictions. Transferable securities or money market instruments backed by other assets are not deemed to embed a derivative.

The Target Fund may use derivative for investment purposes and for hedging purposes, within the limits of the regulations. Under no circumstances shall the use of these instruments and techniques cause the Target Fund to diverge from its investment policy or objective. The risks against which the Target Fund could be hedged may be, for instance, market risk, foreign exchange risk, interest rates risk, credit risk, volatility or inflation risks.

Agreements on OTC derivatives

The Target Fund may enter into agreements on OTC derivatives. The counterparties to any OTC derivative transactions, such as total return swaps or other derivative with similar characteristics, entered into by a fund, are selected from a list of authorised counterparties established with the management company. The counterparties will be first class institutions which are either credit institutions or investment firm, which are subject to prudential supervision. The list of authorised counterparties may be amended with the consent of the management company. The identity of the counterparties will be disclosed in the annual report of the Company.

Since the counterparties with which the Target Fund enters into total return swaps do not assume any discretion over the Target Fund's investments (including the reference assets, if any), no approval of the counterparties is required for any transactions relating to the investments of the Target Fund.

Unless specified otherwise in appendix III of the Target Fund prospectus, the global exposure relating to derivative will be calculated using a commitment approach. Funds applying a Value-at-Risk (VaR) approach to calculate their global exposure will contain an indication thereto in appendix III of the Target Fund prospectus.

Global exposure

The Target Fund's global exposure is limited to the total net value of its portfolio.

Commitment Approach

Under the commitment approach, derivative positions are converted into equivalent positions in the underlying asset, using market price or future price or notional value when more conservative.

VaR approach

VaR reports will be produced and monitored on a daily basis based on the following criteria:

- 1 month holding period;
- 99% unilateral confidence interval;
- at least a one year effective historical observation period (250 days) unless market conditions require a shorter observation period; and
- parameters used in the model are updated at least quarterly.

Stress testing will also be applied at a minimum of once per month.

VaR limits are set using an absolute or relative approach.

Absolute VaR approach

The absolute VaR approach is generally appropriate in the absence of an identifiable reference portfolio or benchmark, for example with absolute return funds. Under the absolute VaR approach a limit is set as a percentage of the net asset value of the Target Fund. The absolute VaR limit of the Target Fund has to be set at or below 20% of its net asset value of the Target Fund. This limit is based upon a 1 month holding period and a 99% unilateral confidence interval.

Relative VaR approach

The relative VaR approach is used for the Target Fund where a VaR benchmark reflecting the investment strategy which the Target Fund is pursuing is defined. Under the relative VaR approach a limit is set as a multiple of the VaR of a benchmark or reference portfolio. The relative VaR limit of the Target Fund has to be set at or below twice the VaR of the Fund's VaR benchmark. Information on the specific VaR benchmark used is disclosed in appendix III of the Target Fund prospectus.

4. Use of Techniques and Instruments relating to Transferable Securities and Money Market Instruments

Techniques and instruments (including, but not limited to, securities lending or repurchase and reverse repurchase agreements) relating to transferable securities and money market instruments may be used by the Target Fund for the purpose of efficient portfolio management and where this is in the best interest of the Target Fund and in line with its investment objective and investor profile.

To the extent permitted by and within the limits prescribed by the regulations, the Target Fund may for the purpose of generating additional capital or income or for reducing its costs or risks, enter as purchaser or seller into optional or non-optional repurchase or reverse purchase transactions and engage in securities lending transactions.

The Company will, for the time being, not enter into repurchase and reverse repurchase agreements nor engage in securities lending transactions. Should the Company decide to use such techniques and instruments in the future, the Company will update the prospectus accordingly and will comply with the regulations and in particular CSSF Circular 14/592.

Securities lending

Should the Company engage in securities lending, the Target Fund will only engage in securities lending transactions with first class institutions specialising in these types of transactions and which are subject to prudential supervision considered by the CSSF to be equivalent to that laid down in EU law.

The Target Fund must ensure that it is able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered.

In respect of securities loans, the Target Fund will ensure that its counterparty delivers and each day maintains collateral of at least the market value of the securities lent. Such collateral must be in the form of cash or securities that satisfy the requirements of the regulations. Such collateral shall comply with the requirements set out in section 5 “Management of Collateral” below.

Reverse repurchase and repurchase agreements

Should the Company engage in reverse repurchase and repurchase agreements, the Target Fund will only enter into reverse repurchase and repurchase agreements with counterparties which are subject to prudential supervision rules considered by the CSSF as equivalent to that laid down in EU law.

The Target Fund that enters into a reverse repurchase agreement shall ensure that it is able at any time to recall the full amount of cash or to terminate the reverse repurchase agreement.

The Target Fund that enters into a repurchase agreement shall ensure that it is able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered.

Fixed-term repurchase and reverse repurchase agreement that do not exceed seven days shall be considered as arrangements on terms that allow the assets to be recalled at any time by the Fund.

The Target Fund shall ensure that the level of its exposure to repurchase and reverse repurchase agreements is such that it is able to comply at all times with its redemption obligations.

5. Management of collateral

The risk exposures to a counterparty arising from OTC derivative transactions and efficient portfolio management techniques shall be combined when calculating the counterparty risk limits provided for in section 1(C) above. Where the Target Fund enters into OTC derivative transactions and efficient portfolio management techniques, all collateral used to reduce counterparty risk exposure shall comply with the following criteria at all times:

- (A) Any collateral received other than cash shall be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received shall also comply with the provisions in section 1(D) above.
- (B) Collateral received shall be valued on at least a daily basis. Assets that exhibit high price volatility shall not be accepted as collateral unless suitably conservative haircuts are in place.
- (C) Collateral received shall be of high quality.
- (D) The collateral received shall be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- (E) Collateral shall be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Target Fund receives from a counterparty of efficient portfolio management and over-the-counter derivatives transactions a basket of collateral with a maximum exposure to a given issuer of 20% of the Target Fund net asset value. When the Target Fund is exposed to different counterparties, the different baskets of collateral shall be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation, the Target Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a member state, one or more of its local authorities, eligible state or a public international body to which one or more of its local member states belong. In that case the Target Fund must receive securities from at least six different issues, but securities from any single issue shall not account for more than 30% of the net asset value of the Target Fund.
- (F) Where there is a little transfer, the collateral received shall be held by the depository. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral.

- (G) Collateral received shall be capable of being fully enforced by the Target Fund at any time without reference to or approval from the counterparty.
- (H) Non-cash collateral received shall not be sold, re-invested or pledged.
- (I) Cash collateral that isn't received on behalf of currency hedged share classes shall only be:
- (1) placed on deposit with entities as prescribed in section 1(A)(6) above;
 - (2) invested in high-quality government bonds;
 - (3) used for the purpose of reverse repurchase transactions provided the transactions are with credit institutions subject to prudential supervision and the Target Fund is able to recall at any time the full amount of cash on accrued basis;
 - (4) invested in short-term money market funds as defined in the "ESMA" Guidelines on a Common Definition of European Money Market Funds".

Re-invested cash collateral shall be diversified in accordance with the diversification requirements applicable to non-cash collateral.

Collateral policy

Collateral received by the Target Fund shall predominantly be limited to cash and government bonds.

Haircut policy

The following haircuts for collateral in OTC transactions are applied by the management company (the management company reserves the right to vary this policy at any time in which case the prospectus of the Target Fund will be updated accordingly):

Eligible collateral	Remaining maturity	Valuation percentage
Cash	Not applicable	100%
Government bonds	One year or under	98%
	More than one year up to and including five years	97%
	More than five years up to and including ten years	95%
	More than ten years up to and including thirty years	93%
	More than thirty years up to and including forty years	90%
	More than forty years up to and including fifty years	87%

6. Risk management process

The Company will employ a risk management process which enables it with the Investment Manager to monitor and measure at any time the risk of the positions, the use of efficient portfolio management techniques, the management of collateral and their contribution to the overall risk profile of the Target Fund. The Company or the Investment Manager will employ, if applicable, a process for accurate and independent assessment of the value of any OTC derivatives.

Upon request of an investor, the management company will provide supplementary information relating to the quantitative limits that apply in the risk management of the Target Fund, to the methods chosen to this end and to the recent evolution of the risks and yield of the main categories of instruments. This supplementary information includes the VaR levels set for the Target Fund using such risk measure.

The risk management framework is available upon request from the Company's registered office.

7. Miscellaneous

- (A) The Company may not make loans to other persons or act as a guarantor on behalf of third parties provided that for the purpose of this restriction the making of bank deposits and the acquisition of such securities referred to in paragraphs 1(A)(1), (2), (3) and (4) or of ancillary liquid assets shall not be deemed to be the making of a loan and that the Company shall not be prevented from acquiring such securities above which are not fully paid.
- (B) The Company need not comply with the investment limit percentages when exercising subscription rights attached to securities which form part of its assets.
- (C) The management company, the Investment Managers, the distributors, depository and any authorised agents or their associates may have dealings in the assets of the Company provided that any such transactions are effected on normal commercial terms negotiated at arm's length and provided that each such transaction complies with any of the following:
 - (1) a certified valuation of such transaction is provided by a person approved by the directors of the management company as independent and competent;
 - (2) the transaction had been executed on best terms, on and under the rules of an organised investment exchange;
 - (3) or where neither (1) or (2) is practical;
 - (4) where the directors of the management company are satisfied that the transaction has been executed on normal commercial terms negotiated at arm's length.

DILUTION

The Target Fund is single priced and may suffer a reduction in value as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such investments caused by subscriptions, redemptions and/or switches in and out of the Target Fund. This is known as “dilution”. In order to counter this and to protect shareholders’ interests, the management company will apply “swing pricing” as part of its daily valuation policy. This will mean that in certain circumstances the management company will make adjustments in the calculations of the net asset value per share, to counter the impact of dealing and other costs on occasions when these are deemed to be significant.

Dilution Adjustment

In the usual course of business the application of a dilution adjustment will be triggered mechanically and on a consistent basis.

The need to make a dilution adjustment will depend upon the net value of subscriptions, switches and redemptions received by the Target Fund for each dealing day. The management company therefore reserves the right to make a dilution adjustment where the Target Fund experiences a net cash movement which exceeds a threshold set by the directors from time to time of the previous dealing day’s total net asset value.

The management company may also make a discretionary dilution adjustment if, in its opinion, it is in the interest of existing shareholders to do so.

Where a dilution adjustment is made, it will increase the net asset value per share when there are net inflows into the Target Fund and decrease the net asset value per share when there are net outflows. The net asset value per share of each share class in the Target Fund will be calculated separately but any dilution adjustment will, in percentage terms, affect the net asset value per share of each share class identically.

As dilution is related to the inflows and outflows of money from the Target Fund it is not possible to accurately predict whether dilution will occur at any future point in time. Consequently it is also not possible to accurately predict how frequently the management company will need to make such dilution adjustments.

Because the dilution adjustment for the Target Fund will be calculated by reference to the costs of dealing in the underlying investments of that Target Fund, including any dealing spreads, which can vary with market conditions, this means that the amount of the dilution adjustment can vary over time but will not exceed 2% of the relevant net asset value.

The directors of the company are authorised to apply other appropriate valuation principles for the assets of the Target Fund and/or the assets of a given share class if the aforesaid valuation methods appear impossible or inappropriate due to extraordinary circumstances or events.

HOW TO REDEEM UNITS

A Unit Holder may redeem all or some of the Units held on any Business Day by completing a transaction form.

Redemption application should be made before the cut-off time of 4.00 p.m. on any Business Day except for Eastspring Cash Management, Eastspring Institutional Income and Eastspring Islamic Income where the redemption application should be made before the cut-off time of 11.00 a.m. on any Business Day.

In the event the Manager receives redemption request exceeding 30% of the Fund's NAV, the Manager may implement the special redemption mechanism. This special redemption mechanism is applicable to Eastspring Investments Master Trust, Eastspring Investments Islamic Trust and Eastspring Islamic Income. Please refer to the special redemption mechanism as stipulated in the Approvals and Conditions section.

The Units will be redeemed at the NAV per Unit calculated at the next valuation point (i.e. forward pricing) after the redemption application is received by the Manager. The cut-off time will be determined based on the stamped time and date made at the Manager's head office and branch offices.

When the redemption application is received after the cut-off time as stated above, the redemption application will be deemed to have been received on the next Business Day. The Manager reserves the right to vary the terms and conditions of redemption mode from time to time, which shall be communicated to you in writing.

Upon confirming your redemption of Units, you will receive a *confirmation advice*.

Any correspondence and cheques will ONLY be sent to you at the correspondence address that is registered by the Manager as provided by you in your application form.

For investments made under the EPF Members Investment Scheme, redemption proceeds will be paid to the EPF to credit into your EPF account.

In the event if the Units carry more than one Unit Holder's name, i.e. "Joint Application", redemption application will be signed by all the joint holders. If the application specifies "Either Applicant to sign", any one Unit Holder who is registered as a joint holder will have the authority to sign the redemption application. In all cases, redemption proceeds will be paid to the principal account holder or in the names of both account holders in the register of Unit Holder.

The Manager shall despatch the redemption proceeds to you within ten (10) calendar days (except for Eastspring Cash Management, Eastspring Islamic Income and Eastspring Institutional Income where redemption proceeds shall be despatched within four (4) Business Days) via E-payment according to your bank account details stated in the form from the date the Manager receives the duly completed transaction form. If you redeem immediately after the purchase of Units, the Manager shall have the right to withhold the redemption application until sufficient time has elapsed to ensure that the amount remitted by you (for purchase of Units) is realised and credited to the Manager's principal bank account.

COOLING-OFF PERIOD & COOLING-OFF RIGHT

The cooling-off right is only given to an individual investor who is investing in any of the unit trust funds managed by the Manager for the first time but shall not include the following persons:

- ▶ the Manager's staff; and
- ▶ a person registered with a body approved by the SC to deal in unit trusts.

The cooling-off right allows Unit Holder the opportunity to reverse an investment decision which could have been unduly influenced by certain external elements or factors.

The refund to the Unit Holder pursuant to the exercise of his cooling-off right shall be the sum of:

- (a) the NAV per Unit on the day the Units were first purchased; and
- (b) the sales charge and GST originally imposed on the day the Units were purchased.

The cooling-off period shall be within six (6) Business Days which shall be effective from the date the Manager receives the duly completed transaction form.

You may exercise your cooling-off right on any Business Day by giving written notice to the Manager.

Cooling-off application should be made before the cut-off time of 4.00 p.m. on any Business Day except for Eastspring Cash Management, Eastspring Institutional Income and Eastspring Islamic Income where cooling-off application should be made before the cut-off time of 11.00 a.m. on any Business Day.

The cut-off time will be determined based on the stamped time and date made at the Manager's head office and branch offices.

When a cooling-off application is received after the cut-off time as stated above, the cooling-off application will be deemed to have been received on the next Business Day. The Manager reserves the right to vary the terms and conditions of cooling-off mode from time to time, which shall be communicated to you in writing.

Upon confirming your cooling-off of Units, you will receive a *confirmation advice*.

Cooling-off proceeds will only be paid to the Unit Holder once the Manager has received cleared funds for the original investment. Such proceeds shall be refunded to you within ten (10) calendar days from the date the Manager receives the duly completed transaction form.

No cooling-off period for the investment under EPF Members Investment Scheme.

SWITCHING BETWEEN FUNDS

A Unit Holder is allowed to switch Units held in the Fund into another fund denominated in the same currency by completing a transaction form.

Switching of Units is effectively a request to redeem all or partial units in one fund, and investing the net proceeds into another fund managed by the Manager. Switching from a Shariah-compliant fund to a conventional fund is not encouraged for Muslim Unit Holder.

The minimum switching is 1,000 Units or all Units in a Unit Holder's account. If the Units in a Unit Holder's account is less than the minimum holding of Units after a switching application is made, all Units in the Fund the Unit Holder holds will be switched automatically. However, the minimum switching (in or out) for Eastspring Cash Management and Eastspring Islamic Income is 10,000 Units.

Switching application should be made before the cut-off time of 4.00 p.m. on any Business Day except for Eastspring Cash Management and Eastspring Islamic Income where switching application should be made before the cut-off time of 11.00 a.m. on any Business Day.

The Units will be switched at NAV per Unit calculated at the next valuation point (i.e. forward pricing) after the switching application is received by the Manager. The cut-off time will be determined based on the stamped time and date made at the Manager's head office and branch offices.

When a switching application is received after the cut-off time stated above, the switching application will be deemed to have been received on the next Business Day. The Manager reserves the right to vary the terms and conditions of switching mode from time to time, which shall be communicated to you in writing.

The Manager reserves the right to charge the differential sales charge between the two (2) funds.

The table below sets out the switching between funds with different sales charge.

Switching from existing fund	Switching to intended fund	
	Fund with NO sales charge	Fund with sales charge
Fund with sales charge	Switch at NAV per Unit of the Fund.	Switch at NAV per Unit of the Fund, the differential sales charge between the two (2) Funds shall be borne by the Unit Holder.
Fund with NO sales charge		Note: If a switch is made into the Units of the Fund from other fund with a higher sales charge imposed, no sales charge will be imposed on the Unit Holder.

The table below sets out as a guide when the Unit Holder switches out of a fund into another fund managed by the Manager. All switches will be transacted on the same day except the following:

Switch out	Switch in	Switch out date	Switch in date
Local equity funds	Money market funds	T day	T + 1 day
Offshore equity funds	Money market funds	T day	T + 4 days
Money market funds	Money market funds	T day	T + 1 day

Upon confirming your switching of Units, you will receive a *confirmation advice*.

Switching from a Shariah-compliant fund to a conventional fund is not encouraged for Muslim Unit Holders.

TRANSFER OF UNITS

A Unit Holder may transfer some of his Units held in the Fund to another Unit Holder by completing a transaction form.

A transfer is subject to the minimum balance and terms and conditions applicable for the Fund. However, both the transferor and transferee should maintain the minimum holding of Units for the Fund after a transfer is made.

Transfer application should be made before the cut-off time of 4.00 p.m. on any Business Day. The cut-off time will be determined based on the time and date stamp made at the Manager's head office and branch offices.

When a transfer application is received after the cut-off time stated above, the transfer application will be deemed to have been received on the next Business Day. Upon confirming your transfer of Units, you will receive a *confirmation advice*.

SUSPENSION OF SALE AND REDEMPTION OF UNITS

Pursuant to clause 10.22 of the Guidelines, the Trustee should suspend the dealing in Units of the Fund:

- (a) where a request is made by the Manager to cancel Units to satisfy a redemption request in which the Trustee considers that it is not in the best interests of the Unit Holder to permit the assets of the Fund's property to be sold or that the assets of the Fund's property cannot be liquidated at an appropriate price or on adequate terms; or
- (b) due to exceptional circumstances, where there is good and sufficient reason to do so, considering the interests of the Unit Holder or potential Unit Holder(s).

11. APPROVALS AND CONDITIONS

The Manager has obtained the approval from the SC for certain approvals and conditions from the SC's Guidelines for the following Fund:

Eastspring Investments Islamic Trust

On 19 December 2001 (for the Eastspring Investments Islamic Trust, except Eastspring Dana Wafi) and 12 April 2004 (for the Eastspring Dana Wafi) have obtained approval from the SC for a variation to clause 11.7.3 of the Guidelines issued in 1997 (for the Eastspring Investments Islamic Trust, except Eastspring Dana Wafi) and clause 11.07(3) of the Guidelines issued on 1 April 2003 (for the Eastspring Dana Wafi) which stipulates that the payment of redemption monies to a Unit Holder should be made within ten (10) days of a redemption request. The Manager is allowed to pay redemption proceeds within fifteen (15) days upon receipt of the redemption request by the Manager if the value of the redemption request on any Business Day exceeds 30% of the Funds' NAV.

Eastspring Investments Master Trust

On 6 February 2001 (for Eastspring Investments Master Trust, except Eastspring Cash Management) and 10 March 2003 (for the Eastspring Cash Management) have obtained approval from the SC for a variation to clause 11.7.3 of the Guidelines issued in 1997 which stipulates that the payment of redemption monies to a Unit Holder should be made within ten (10) days of a redemption request. If the value of the redemption request on any Business Day exceeds 30% of the Fund's NAV, the Manager is allowed to pay redemption proceeds within fourteen (14) days in respect of the Eastspring Small-cap, Eastspring Growth, Eastspring Balanced and Eastspring Bond and within fifteen (15) days in respect of the Eastspring Cash Management.

Eastspring Investments Master Trust, Eastspring Investments Islamic Trust and Eastspring Institutional Income

On 6 February 2001 (for the Eastspring Investments Master Trust, except Eastspring Cash Management), 19 December 2001 (for the Eastspring Investments Islamic Trust, except Eastspring Dana Wafi) and 10 March 2003 (for the Eastspring Cash Management) have obtained approval from the SC for a variation to clause 11.7.5 of the Guidelines issued in 1997.

On 12 April 2004 (for the Eastspring Dana Wafi) and 27 January 2005 (for the Eastspring Institutional Income) have obtained approval from the SC for a variation to clause 11.07(5) of the Guidelines issued on 1 April 2003.

These two clauses stipulates that any dealing in Units of the Fund should be at a price that is the NAV per Unit of the Fund as at the next valuation point after the request for sale or repurchase of Units is received by the Manager (forward price). The above variation is allowed to calculate the repurchase price of the Units of the Funds should the redemption request exceed 30% of the Fund's NAV on any one Business Day.

The Manager may decide to implement a special mechanism for redemption or switching of Units, in which event the redemption monies will be calculated based on the buying price as and when assets are liquidated which is in proportion to the total redemption requests receive. The Manager may decide to implement this mechanism only when market conditions are such

that it would not be possible to liquidate assets of the Fund at reasonable prices beneficial to the Fund without prejudicing the whole investment portfolio. Other factors that may also affect our decision are, amongst others, as follows:

- liquidity of the particular investment;
- aggregate prices to dispose of;
- amount of assets to dispose of; and
- other investment limits and restrictions of the Fund.

The following example illustrates the redemption process if a Unit Holder has requested for redemption of 1,000,000 units in the event a large amount of redemption requests are received (more than 30% of the Fund's NAV).

Assuming that the total redemption request by all Unit Holders on a Business Day is 10 million units, the proportion of the Unit Holder's redemption request would be 10% against total redemption requests received. The Manager shall dispose of the assets of the Fund over several days to meet the huge redemption requests, hence there will be several repurchase prices being computed. However, the basis of computing the daily NAV of the Fund and the repurchase price remains the same as illustrated on page 182.

Assuming the liquidation of assets takes three (3) days to complete, below are the details on computation of the Unit Holders' redemption proceeds based on several repurchase prices.

Business Day	Total Cash Available for Redemptions	Repurchase Price per Unit	Total Units Available for Redemptions	Your Redemption Quantum (Up to 10% of Total Units Available for Redemption)	Your Redemption Proceed
	(a)	(b)	(c)	(d)	(b) x (d)

In making an investment transaction for the Fund, the Manager is obliged not to make improper use of our position in managing the Fund to gain, directly or indirectly, any advantage for the Manager or for any other person or to cause detriment to your interests. If the interests of the directors or the investment committee members conflict with the interests of the Fund, they will not be allowed to participate in the decision-making process in respect of the matter. Additionally, the Manager's, directors, investment committees and employees have to disclose their personal dealings to the compliance unit, which monitors such dealings.

3. Where the Manager appoints Deutsche Bank (Malaysia) Berhad ("DBMB") to perform its back office functions (e.g. fund accounting and valuation); and
4. Where the Trustee has delegated its custodian functions for the Fund to DBMB.

The Trustee will rely on the Manager to ensure that any related party transactions, dealings, investments and appointments are on terms which are the best that are reasonably available for or to the Fund and are on an arm's length basis as if between independent parties.

While the Trustee has internal policies intended to prevent or manage conflicts of interests, no assurance is given that their application will necessarily prevent or mitigate conflicts of interests. The Trustee's commitment to act in the best interests of the Unit Holders of the Fund does not preclude the possibility of related party transactions or conflicts.

TAXATION OF THE FUNDS OFFERED UNDER THE MASTER PROSPECTUS DATED 15 JULY 2017 ("Master Prospectus") AND UNIT HOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the Master Prospectus in connection with the offer of Units in the Funds listed in the **Appendix** ("the Funds").

The taxation of income for both the Funds and the Unit Holders are subject to the provisions of the Malaysian Income Tax Act 1967 ("the Act"). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUNDS

The Funds will be regarded as resident for Malaysian tax purposes since the Trustees of the Funds are resident in Malaysia.

1. Domestic Investments

(i) General taxation

Subject to certain exemptions, the income of the Funds consisting of dividends, interest income or profit¹ (other than interest income and profit¹ which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24 per cent.

Gains on disposal of investments by the Funds will not be subject to Malaysian income tax.

(ii) Dividends and Other Exempt Income

Effective 1 January 2014, all companies would adopt the single-tier system. Hence dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refunds available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

The Funds may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Funds will not be taxable on such exempt income.

Interest or profit¹ or discount income derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the government of Malaysia;
- (b) Debentures² or sukuk, other than convertible loan stocks, approved or authorised by, or lodged with, the SC; and
- (c) Bon Simpanan Malaysia issued by BNM.

Interest income or profit¹ derived from the following investments is exempt from tax:

- (a) Interest income or profit¹ paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013³;
- (b) Interest or profit¹ paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002;
- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest income or profit¹ paid or credited by Malaysia Building Society Berhad⁴.

The interest income or profit¹ or discount income exempted from tax at the Funds' level will also be exempted from tax upon distribution to the Unit Holders.

2. Foreign Investments

Income of the Funds in respect of income received from overseas investment is exempt from Malaysian tax by virtue of Paragraph 28 of Schedule 6 of the Act and distributions from such income will be tax exempt in the hands of the Unit Holders. Such income from foreign investments may be subject to foreign taxes or withholding taxes. Any foreign tax suffered on the income in respect of overseas investment is not tax refundable to the Funds.

The foreign income exempted from Malaysian tax at the Funds' level will also be exempted from tax upon distribution to the Unit Holders.

3. Hedging Instruments

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into.

Generally, any gain/loss relating to the principal portion will be treated as capital gain/loss. Gains/losses relating to the income portion would normally be treated as revenue gains/losses. The gain/loss on revaluation will only be taxed or claimed upon realisation. Any gain/loss on foreign exchange is treated as capital gain/loss if it arises from the revaluation of the principal portion of the investment.

4. Income from Malaysia Real Estate Investment Trusts ("REITs")

Income from distribution from REITs will be received net of final withholding tax of 10 per cent. No further tax will be payable by the Funds on the distribution. Distribution from such income by the Funds will also not be subject to further tax in the hands of the Unit Holders.

5. Tax Deductible Expenses

Expenses wholly and exclusively incurred in the production of gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of Managers' remuneration, expenses on maintenance of the register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages based on a formula subject to a minimum of 10 per cent and a maximum of 25 per cent of the expenses. The above expenses will include the relevant irrecoverable Goods and Services Tax ("GST") incurred by the Funds.

6. Real Property Gains Tax ("RPGT")

With effect from 1 January 2014, any gains on disposal of real properties or shares in real property companies⁵ would be subject to RPGT as follows:

Disposal time frame	RPGT RATES
Within 3 years	30%
In the 4 th year	20%
In the 5 th year	15%
In the 6 th year and subsequent years	5%

7. Goods and Services Tax

GST has been implemented on 1 April 2015 at the rate of 6 per cent to replace the existing sales tax and service tax. Based on the guideline⁶ issued, the Funds, being collective investment vehicle, will be making exempt supplies. Hence, the Funds are not required to be registered for GST purposes. However, the Funds will incur expenses such as management fees, trustee fees and other administrative charges which will be subject to 6 per cent GST. The 6 per cent input tax incurred on such expenses will not be claimable by the Funds and represents a cost to the Funds.

TAXATION OF UNIT HOLDERS

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Funds to the extent of the distributions received from the Funds. The income distribution from the Funds will carry a tax credit in respect of the tax paid by the Funds. Unit Holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them. No additional withholding tax will be imposed on the income distribution from the Funds.

Corporate Unit Holders, resident⁷ and non-resident, will generally be liable to income tax at 24 per cent on distribution of income received from the Funds. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unit Holders.

Individuals and other non-corporate Unit Holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 1 per cent to 28 per cent. Individuals and other non-corporate Unit Holders who are not resident in Malaysia will be subject to income tax at 28 per cent. The tax credits attributable to the distribution of income will be utilised against the tax liabilities of these Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

The distribution of exempt income and gains arising from the disposal of investments by the Funds will be exempted from tax in the hands of the Unit Holders.

Any gains realised by Unit Holders (other than those in the business of dealing in securities, insurance companies or financial institutions) on the sale or redemption of the Units are treated as capital gains and will not be subject to income tax. This tax treatment will include in the form of cash or residual distribution in the event of the winding up of the Funds.

Unit Holders electing to receive their income distribution by way of investment in the form of new Units will be regarded as having purchased the new Units out of their income distribution after tax.

Unit splits issued by the Funds are not taxable in the hands of Unit Holders.

The issuance of Units by the Funds is an exempt supply. The selling or redemption of the Units is also an exempt supply and therefore is not subject to GST. Any fee based charges related to buying of the Units such as sales or service charge or switching fees will be subject to GST at a standard rate of 6 per cent.

We hereby confirm that the statements made in this report correctly reflect our understanding of the tax position under current Malaysian tax legislation. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Funds.

Yours faithfully,

for and on behalf of

16. UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

1. The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.
2. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
3. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal installments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your loan.
4. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.

Acknowledgement of Receipt of Risk Disclosure Statement

I acknowledge that I have received a copy of this Unit Trust Loan Financing Risk Disclosure Statement and understand its contents.

Such disclosure may be sent by the Manager, its delegates or related corporations, or any other entity as the Manager deems fit.

If the Manager requires any further information or documents for the purposes of its disclosure to an Authority, the Manager may request and a Unit Holder shall provide the Manager with such further information or documents within such time as may be reasonably required by the Manager.

Notwithstanding the above, if such disclosure becomes mandatory under the relevant laws in Malaysia, the Manager shall be entitled to make such disclosure to the Authority without the prior consent of, or any notification to, a Unit Holder.

the Manager will continue to request for such information or document from the Unit Holder by letter, email, telephone or any other manner which the Manager may deem appropriate. Such information or document is required to ensure that the Manager complies with or adheres to the Applicable Requirements and protects the interests of the Fund.

Notice on Personal Data Protection

UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a Unit Trust Fund with Borrowed Money is More Risky than Investing with Your Own Savings

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

1. The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.
2. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
3. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your loan.

4. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.

UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a Unit Trust Fund with Borrowed Money is More Risky than Investing with Your Own Savings

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

1. The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.
2. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
3. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your loan.

4. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.

GENERAL INFORMATION ON PAYMENT

1. If payment is made by EPF's Members Investment Scheme, please fill in the KWSP 9N form and send back to us with this Transaction Form.
2. If payment is made by Online Transfer, please provide a copy of the online transfer receipt together with this Transaction Form.
3. Third party cheques and third party online transfers are not allowed.
4. Upon the implementation of Goods and Services Tax ("GST") effective from 1 April 2015, all fees, charges and expenses charged to the fund will be subjected to 6% GST and will be borne by investors, unless stated otherwise.

DIRECT DEBIT

Direct Debit is a collection model that directly debits your bank account by giving authorisation to Eastspring to initiate the transactions. You are to complete the Direct Debit Authorisation Form authorising Eastspring Investments Berhad to debit account at a certain amount and on a specified date. This is a FREE facility provided to Eastspring investors.

The participating banks are:

• Bank Islam • Bank of America (M) Berhad • Bank Kerjasama Rakyat • CIMB Bank • Citibank • Deutsche Bank • Hong Leong Bank • HSBC Bank • JP Morgan Chase Bank • Maybank • OCBC Bank • Public Bank • RHB Bank • Standard Chartered Bank

The above list is non-exhaustive, as the service provider will review the list from time to time.

Eastspring requires one (1) month to process and enrol your application with the bank. Therefore, you are advised to submit the complete application one month prior to the deduction date. For example, if you wish to commence deduction starting from 28 June 2011, the complete application should be submitted to Eastspring by 27 May 2011. However, the deduction effective date will depend on the date Eastspring receives the complete application as well as the bank processed date.

Investments pricing will be calculated based on the date Eastspring receives the money, which is before the 4.00 p.m. cut off time regardless of your deduction date.
