### 1. What is Maybank Global Sustainable Equity-I Fund?

The Fund is Maybank Asset Management Sdn Bhd's Shariah-compliant equity fund. The Fund seeks to achieve income and capital growth by investing primarily in a portfolio of Shariah-compliant equities.

### 2. Fund Suitability

The Fund is suitable for investors who:

- have long term investment horizon;
- seek potential long term capital growth and income; and
- seek opportunity to invest in a diversified portfolio of global Shariah-compliant equities which complies with the Manager's sustainability criteria.

### 3. Investment Objective

The Fund seeks to achieve income and capital growth by investing primarily in a portfolio of Shariah-compliant equities.

### 4. Key Product Features

<b>Fund Type</b>	Income and growth.
<b>Fund Category</b>	Shariah-compliant equity.
<b>Performance Benchmark</b>	<p>The Dow Jones Islamic Market World Index. <i>(Information on the benchmark can be obtained from Bloomberg)</i></p> <p><i>Note: The risk profile of the Fund is different from the risk profile of the performance benchmark.</i></p>
<b>Investment Strategy</b>	<p>The Fund invests, directly or indirectly, in global Shariah-compliant equities (including Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts), global Shariah-compliant equity related securities (including Shariah-compliant warrants), Islamic money market instruments and Islamic deposits.</p> <p>The Fund may also invest in Islamic Real Estate Investment Trusts ("Islamic REITs").</p> <p>The Fund will invest in markets where the regulatory authorities are ordinary or associate members of the International Organization of Securities Commissions ("IOSCO").</p> <p>The Fund seeks to adopt a unique investment approach that integrates both Shariah principles as well as principles of sustainable investing in a complementary manner.</p> <p>As the Fund is a qualified SRI fund, the investments of the Fund will be subject to the following Environmental, Social and Governance (ESG) integration methodology, including the selection, retention and realisation of the Fund's investments:</p> <p><u>Screening</u></p> <p>The external investment manager (EIM), upon advice and in consultation with the investment adviser, will:</p> <p>(i) invest in global Shariah-compliant equities, and Islamic REITs that aim to deliver the intended outcomes of Shariah principles through their business conduct, practices and offerings;</p>

	<p>(ii) abide by responsible investing practices that take into account environmental, social and governance (ESG) factors to better manage risk and generate sustainable long term returns; and</p> <p>(iii) invest in a high conviction portfolio of global Shariah-compliant equities of corporations and Islamic REITs which demonstrate positive sustainability characteristics, i.e. managing the business for the long term, recognising its responsibilities towards multiple stakeholders such as its clients, employees, suppliers and the environment. The EIM believes that such corporations and Islamic REITs are well-placed to maintain their growth and returns over the long term. Such corporations and Islamic REITs, when aligned with other drivers of growth, can result in sustainable long term earnings growth and investment returns that may be under appreciated by the market.</p> <p>The EIM will, based on the advice of the investment adviser, adopt the following strategy to ensure that the corporations which the Fund invests in are in line with the sustainability considerations adopted by the Fund and the overall impact of the investments of the Fund is not inconsistent with any other sustainability considerations:</p> <p>(i) proprietary, forward looking and dynamic view of risk based on the investment adviser's assessment of a corporation's fundamentals;</p> <p>(ii) all investee corporations and Islamic REITs are scored across the same fundamental risk categories which provides a transparent and debatable view of risk and to ensure portfolio risk consistently reflects conviction;</p> <p>(iii) scrutinises the corporations' specific ESG characteristics through the process described above to ensure that the ESG factors contributing to stock risk and potential returns are properly identified and monitored;</p> <p>(iv) monitors a number of principal adverse indicators for the Fund across a number of environmental and social metrics but does not target specific indicators beyond those related to climate change where they seek to achieve a lower carbon profile relative to the benchmark index; and</p> <p>(v) monitor news flow, data and disclosures to ensure the assessment of ESG remains current.</p> <p>The EIM will ensure that at least 2/3 of the Fund's net asset value (NAV) remains in ESG Shariah-compliant investments at all times.</p> <p>If the Fund breaches the aforesaid minimum asset allocation, the EIM will within a reasonable period of not more than 3 months from the date of the breach take all necessary steps and actions to rectify the breach. However, if the corporations or Islamic REITs that the Fund invests in show persistent deterioration in their ESG factors and/or sustainability characteristics, the EIM will, in consultation with the investment adviser, seek to dispose of the Fund's investments in such corporation or Islamic REITs within an appropriate timeframe not exceeding 3 months from the date such investment no longer qualifies as an ESG security, subject to the underlying liquidity of the security.</p> <p>Please refer to section 3 of the prospectus for further details on the screening process of the Fund.</p> <p>The Fund is actively managed. However, the frequency of its trading activities will depend on market opportunities and the assessment of the EIM.</p> <p>The Fund will use Islamic derivatives such as Islamic currency forwards for hedging purposes to manage the currency risk of the classes not denominated in USD.</p>

**Notes:**

\* Shariah-compliant equities include Shariah-compliant American Depositary Receipts and Shariah-compliant Global Depositary Receipts while Shariah-compliant equity related securities include Shariah-compliant warrants.

*\*\* Islamic liquid assets comprise of Islamic money market instruments and Islamic deposits.*

## **6. Key Risks**

### **Specific Risks of the Fund**

#### Stock Specific Risk

Prices of a particular Shariah-compliant stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such Shariah-compliant stock will adversely affect the Fund's NAV.

#### Investment in Islamic REITs

Investing in Islamic REITs involves many of the same risks associated with direct ownership of real estate, including but not limited to possible declines in real estate's value, increase in interest rates and real estate borrowing costs, changes in property taxes, higher operating expenses, and damages from natural or man-made disasters and fall in market rental rates. Any adverse price movements of such Islamic REITs will adversely affect the Fund's NAV.

#### Currency Risk

As the base currency of the Fund is denominated in USD and the currency denomination of the classes may be denominated in other than USD, the classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the class (other than USD Class and USD (Institutional) Class) will affect the unit holder's investments in those classes (other than USD Class and USD (Institutional) Class). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the class (other than USD Class and USD (Institutional) Class) may result in a depreciation of the unit holder's holdings as expressed in the base currency of the Fund.

In order to manage currency risk, the Manager may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective class.

Currency hedging may reduce the effect of the exchange rate movement for the class being hedged (other than USD Class and USD (Institutional) Class) but it does not entirely eliminate currency risk between the class and the base currency of the Fund. The unhedged portion of the class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the class. Unit holders should note that if the exchange rate moves favourably, the class (other than USD Class and USD (Institutional) Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged class.

#### Profit Rate Risk

Profit rate risk refers to the impact of profit rate changes on the valuation of Islamic money market instruments. When profit rates rise, Islamic money market instruments prices generally decline and this may lower the market value of the Fund's investment in Islamic money market instruments. The reverse may apply when profit rates fall.

In order to mitigate profit rate risk, the Manager will need to manage the Islamic money market instruments portfolio by taking into account the profit rate and time to maturity of the Islamic money market instruments.

#### Country Risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of units to fall.

**Over-the-counter (“OTC”) Counterparty Risk**

OTC counterparty risk is the risk associated with the other party to an OTC Islamic derivative transaction not meeting its obligations. If the counterparty to the OTC Islamic derivative transaction is unable to meet or otherwise defaults on its obligations (for example, due to bankruptcy or other financial difficulties), the Fund may be exposed to significant losses greater than the cost of the Islamic derivatives. The risk of default of a counterparty is directly linked to the creditworthiness of that counterparty. Should there be a downgrade in the credit rating of the OTC Islamic derivatives’ counterparty, the Manager will evaluate the situation and reassess the creditworthiness of the counterparty. The Manager will take the necessary steps in the best interest of the Fund.

**Reclassification of Shariah Status Risk**

This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the Shariah Advisory Council of the Securities Commission Malaysia, the Shariah adviser of the Fund or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. The value of the Fund also may be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost. Please refer to “Shariah Investment Guidelines” in the prospectus for details on the treatment of gains and losses as a result of the reclassification of Shariah non-compliant equities.

**Shariah-compliant Warrants Risk**

The Fund may also invest in Shariah-compliant equity related securities equivalent to shares such as Shariah-compliant warrants. The price of Shariah-compliant warrants is typically linked to the underlying stocks. However, the price and performance of such Shariah-compliant warrants will generally fluctuate more than the underlying stocks because of the greater volatility of the warrants market. Generally, as the Shariah-compliant warrants have a limited life, they will depreciate in value as they approach their maturity date, assuming that all other factors remain unchanged. Shariah-compliant warrants that are not exercised at maturity will become worthless and will negatively affect the NAV of the Fund.

**Risk of Investing in Emerging Markets**

The Fund may invest in emerging markets which exhibit lower levels of capital market development when compared to those of developed markets. Given the fast changing investment landscape of emerging markets, areas such as accounting standards, legal and business environment in emerging markets may be less organised when compared to developed markets, increasing the risks of investing in emerging markets. Generally, investment returns in emerging markets are expected to be more volatile than those in developed markets, resulting in potentially higher investment risk that may affect the Fund’s returns. In addition to conducting investment research, such emerging markets risks may be mitigated by diversifying the Fund’s exposures across various markets and geographic regions.

**Sustainability Risk**

As a qualified SRI fund, the investments of the Fund will be subject to ESG integration methodology which may result in the Fund foregoing opportunities to buy certain Shariah-compliant securities when it might otherwise be advantageous to do so, and/or selling Shariah-compliant securities which are no longer in line with the sustainability characteristics adopted by the Fund when it might be disadvantageous to do so. The Fund may use one or more third party ESG research data providers and/or internal analysis provided by the investment adviser. In assessing the eligibility and the continuous monitoring of the investee company are in line with ESG considerations, there is a dependence upon information and data from third party ESG research data providers and internal analysis provided by the investment adviser, which may be incomplete, inaccurate or unavailable. As a result, there is a risk to incorrectly assess a Shariah-compliant security or an investee company. To manage and mitigate sustainability risk, the Manager, in consultation with the investment adviser, will apply the ESG screening process as set

out under the heading “Investment Policy and Strategy” in chapter 3 of the prospectus to global corporations and Islamic REITs.

*Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. bankers, lawyers, Shariah advisers, stockbrokers or independent professional advisers for a better understanding of the risks.*

*For more details, please refer to section 3 in the prospectus for the general and specific risks of investing in the Fund.*

*Note: If your investments are made through an institutional unit trust scheme adviser (“Distributor”) which adopts the nominee system of ownership, you would not be deemed to be a unit holder under the deed and as a result, your rights as an investor may be limited. Accordingly, the Manager will only recognize the Distributor as a unit holder of the Fund and the Distributor shall be entitled to all the rights conferred to it under the deed.*

## 7. Valuation of Investment

The Fund is valued once every business day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than the end of next business day.

As such, the daily price of the Fund for a particular business day will not be published on the next business day but will instead be published 2 business days later (i.e., the price will be 2 days old).

Investors will be able to obtain the unit price of the Fund from [www.maybank-am.com.my](http://www.maybank-am.com.my). Alternatively, the Manager’s client servicing personnel can be contacted at 03-2297 7888.

## 8. Exiting from Investment

Submission of Redemption Request	The cut-off time for redemption of units shall be at <b>4.00 p.m.</b> on a business day. <i>Note: The Manager’s distributors may set an earlier cut-off time for receiving applications in respect of any dealing in units. Please check with the respective distributors for their respective cut-off time.</i>
Payment of Redemption Proceeds	Redemption proceeds will be paid out within seven (7) business days from the date the redemption request is received by the Manager.
Remittance of Redemption Proceeds	The Manager shall remit the redemption proceeds to the account held in the name of the unit holder(s).

## 9. Fund Performance

### 1. The average total returns of the Fund

Note: Basis of calculation and assumption made in calculating the returns:

$$\text{Performance return} = \frac{\text{NAV } t - \text{NAV } t-1}{\text{NAV } t-1}$$

$$\text{Annualised performance return} = (1 + \text{performance return})^{\left(\frac{\text{number of period per year}}{\text{total no. of periods}}\right)} - 1$$

NAV *t* refers to NAV at the end of the period.

NAV *t-1* refers to NAV at the beginning of the period.
