Distribution Policy	<p>Distribution will be made on a monthly basis or at such other frequency as the Manager may decide in its absolute discretion.</p> <p>The Fund may distribute from realised income, realised gains, unrealised income and/or unrealised gains to enable the Fund to distribute income on a regular basis in accordance with the distribution policy of the Fund. Any declaration and payment of distribution will have the effect of lowering the NAV of the Fund.</p> <p>In addition, any distribution out of the Fund's capital may amount to a reduction of part of the unit holders' original investment and may also result in reduced future returns to unit holders. When a substantial amount of the original investment is being returned to the unit holders, it has a risk of eroding the capital of the Fund and may, over time, cause the NAV of the Fund to fall. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.</p>	

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

5. Asset Allocation

Asset Type	% of the Fund's NAV
RM-denominated sukuk	A minimum of 30%
Islamic liquid assets such as Islamic money market instruments and Islamic deposits	Up to 70%

6. Key Risks

Specific Risks of the Fund

Profit Rate Risk

Profit rate risk refers to the impact of profit rate changes on the valuation of sukuk, Islamic money market instruments and Islamic deposits. When profit rates rise, sukuk' and Islamic money market instruments' prices generally decline and this may lower the market value of the Fund's investment in sukuk and Islamic money market instruments. The reverse may apply when profit rates fall.

Profit rate fluctuations also affect the Islamic deposits' returns of the Fund. Profit rates offered by the financial institutions will fluctuate according to the overnight rate policy determined by Bank Negara Malaysia and this has direct correlation with the Fund's investment in Islamic deposits. The Fund's future reinvestment in Islamic deposits will benefit from the higher profit rate and in the event of falling profit rates, the Fund's future investment in Islamic deposits will be reinvested at lower profit rates which in turn will reduce the Fund's potential returns.

Credit and Default Risk

Credit risk relates to the creditworthiness of the issuers of the sukuk or Islamic money market instruments, and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the sukuk or Islamic money market instruments. In the case of rated sukuk or Islamic money market instruments, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a sukuk or Islamic money market instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the sukuk or Islamic money market instruments. This could adversely affect the value of the Fund.

This risk is mitigated by investing in sukuk with credit rating of at least "A3" by RAM or an equivalent rating by MARC and carrying out due diligence in the credit assessments of the investments. In the absence of a credit rating for the sukuk, the credit rating of the issuer issuing the sukuk will be used instead.

Islamic deposits that the Fund has placed with financial institutions are also exposed to default risk. If the financial institutions become insolvent, the Fund may suffer capital losses with regards to the capital invested and profit foregone, causing the performance of the Fund to be adversely affected. Placements of Islamic deposits with financial institution will also be made based on prudent selection.

Company Specific Risk

This risk arises when a company is exposed to adverse conditions or negative sentiments such as management issues, deteriorating business fundamentals or loss of competitiveness which is specific to a single company. As a consequence, the price of sukuk issued by such company might fall and subsequently affects the Fund's performance. The impact of a specific company may be reduced as the Fund invests in a wide portfolio of investments consisting of sukuk issued by different companies thereby spreading the element of this risk through diversification.

Shariah Non-compliance Risk

This is the risk of the Fund not conforming to Shariah Investment Guidelines. The Manager and the External Investment Manager would be responsible for ensuring that the Fund is managed and administered in accordance with the Shariah Investment Guidelines. As the Fund can only invest in Shariah-compliant investments, non-compliance may adversely affect the NAV of the Fund when the rectification of such non-compliance results in losses.

Distribution Out of Capital Risk

The Fund may distribute income out of its capital. The declaration and payment of distribution may have the effect of lowering the NAV of the Fund. In addition, distribution out of the Fund's capital may reduce part of the Unit Holders' original investment and may also result in reduced future returns to Unit Holders.

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. bankers, lawyers, Shariah advisers, stockbrokers or independent professional advisers for a better understanding of the risks.

For more details, please refer to section 3 of the prospectus for the general and specific risks of investing in the Fund.

Note: If your investments are made through an institutional unit trust scheme adviser ("Distributor") which adopts the nominee system of ownership, you would not be deemed to be a unit holder under the deed and as a result, your rights as an investor may be limited. Accordingly, the Manager will only recognize the Distributor as a unit holder of the Fund and the Distributor shall be entitled to all the rights conferred to it under the deed.

7. Valuation of Investment

The Fund is valued once at the end of every business day.

As such, the daily price of the Fund for a particular business day will be published on the next business day.

Investors will be able to obtain the unit price of the Fund from www.maybank-am.com.my. Alternatively, the Manager's client servicing personnel can be contacted at 03-2297 7888.

8. Exiting from Investment

Submission of Redemption Request	The cut-off time for redemption of units shall be at 4.00 p.m. on a business day. <i>Note: The Manager's distributors may have an earlier cut-off time for receiving applications in respect of any dealing in units. Please check with the respective distributors for their respective cut-off time.</i>
Payment of Redemption Proceeds	Redemption proceeds will be paid out within three (3) business days from the date the redemption request is received by the Manager. However, in the event of large redemptions on a single business day or in unforeseen circumstances where the Manager has insufficient Islamic liquid assets to pay within the three (3) business days, the redemption proceeds will be paid to the unit holders not exceeding seven (7) business days.
Remittance of Redemption Proceeds	The Manager shall remit the redemption proceeds to the account held in the name of the unit holder(s).

$$\text{Annualised performance return} = (1 + \text{performance return})^{\left(\frac{\text{number of period per year}}{\text{total no. of periods}}\right)} - 1$$
