## PRODUCT SUITABILITY

The Fund is suitable for investors who:

- (i) wish to participate in the potential of the fast-growing China economy; and
- (ii) are willing to accept higher risk in their investments in order to achieve long term\* capital growth.

Note: \* "long term" in this context refers to a period between 5 - 7 years.

## KEY PRODUCT FEATURES

### INVESTMENT OBJECTIVE

The Fund aims to achieve long term\* capital appreciation through investments in securities of companies with high growth potential.

Note: \* "long term" in this context refers to a period between 5 - 7 years.

### INVESTMENT STRATEGY

The Fund will seek to achieve its investment objective through a diversified portfolio of equities and equity-linked securities issued by companies whose businesses are related to/exposed to the People's Republic of China.

The Fund's direct investments in China are those of companies whose securities are listed on the Hong Kong, Shanghai and Shenzhen Stock Exchanges, including China companies that are listed in other non-China markets such as the United States of America, London and Singapore Stock Exchanges. These are companies that have at least 50% of its business operations located in China and/or have at least 50% of its revenues derived from China. The Fund's investments will also include collective investment schemes domiciled in Singapore, Luxembourg, Hong Kong, United Kingdom and United States of America investing primarily in the China markets. Notwithstanding, the Fund may also invest up to 30% of the Fund's net asset value ("NAV") in equities and equities-related securities of non-China companies which have operations in, exposure to, or derive part of their revenue from China, wherever they may be listed.

## KEY PRODUCT FEATURES

The Fund's direct investment in the equities and equity-linked securities issued by companies whose businesses are in China are those companies with a market capitalisation of at least USD 1 billion. Hence the Fund's name 'Big Cap'. The restriction on the market capitalisation is determined at the point of purchase.

The Fund's direct investments are not sector specific and can invest in a broad range of sectors and industries. It seeks to add value by investing in a selective range of opportunities identified by the External Investment Manager as having a strong attraction based on company fundamentals.

In managing the Fund, the External Investment Manager will employ a multi-step investment process, combining a bottom-up investment process that involves rigorous company research with a top-down process to review asset allocation at the sector levels. Sector allocation is derived after analysing macro economic trends and country dynamics. Sector exposure limits are in place to mitigate the risks of the investments. The External Investment Manager believes long-term investment performance can be achieved by employing a rigorous research process that enables them to identify sound and profitable companies that generate superior returns as well as by identifying companies that are undervalued.

The Fund's portfolio will be structured as follows:

Minimum 70% of the Fund's NAV - Investments in equities and equity-linked securities issued by companies whose businesses are in China and are listed on the China markets and/or other markets.

The balance of the Fund's NAV - Investments in liquid assets including money market instruments and deposits.

Subject to the range stipulated above, the asset allocation will be reviewed from time to time depending on the judgment of the External Investment Manager as to the general market and economic conditions. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The risk management strategies and techniques employed by the External Investment Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. equity, fixed income securities and money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of the investment is deemed to have been reduced over a prolonged rise in equity values and the other available investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission Malaysia. Adherence to the permitted investments and restrictions also helps the External Investment Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the External Investment Manager in making their investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the deed of the Fund.

For investments in foreign markets, the External Investment Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review, drawing on its resources and infrastructure as an established global fund manager. Investments will ultimately be made based on risk-reward.

The External Investment Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the External Investment Manager may reallocate up to 100% of the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits, which are defensive in nature.

When appropriate for all classes (except USD Class), the Manager may participate in financial derivatives, which include but is not limited to forwards and swaps, for the purpose of hedging the currency risk exposure (if any) of the various currency classes. The benefit of any upside of currency movement is limited when hedging the various currency class exposures to foreign currency risk as the primary interest is to protect the value of the various currency classes.

## BENCHMARK

90% MSCI China Index (USD) and 10% RHB Bank Berhad's 12-month fixed deposit rate.

## DISTRIBUTION

**DISTRIBUTION POLICY** – Consistent with the Fund's objective which aims to achieve long term\* capital appreciation, distributions will therefore be of secondary importance. Distributions, if any, after deduction of taxation and expenses will be reinvested.

**DISTRIBUTION MODE** - Distribution, if any, after deduction of taxation and expenses (i.e. net distribution), will be reinvested to purchase additional units based on the NAV per unit of the class as at the first Business Day after units of that class are quoted ex-entitlement. Allotment of such units shall be within two (2) weeks thereafter. No sales charge will be imposed for any reinvestment of distribution into the Fund.

*Note: \* "long term" in this context refers to a period between 5 - 7 years.*

## KEY RISKS

As the Fund's equities investments will focus on securities issued by companies whose business are in China, it may be subject to a higher level of risk than an equities portfolio which is not restricted to a particular geographical market. Thus, there is a risk that the Fund will perform poorly during an economic downturn or in the event of adverse news affecting the said market. Further when investing in the China markets, prior approvals are required before investments can be undertaken in these countries. As such, the Fund has obtained from the relevant regulatory authority an investor code for investments in the China markets. As the Fund may invest in foreign markets, it may be subject to further risks, such as currency risk and country risk. Furthermore, share investments are susceptible to the movements of share prices which can rise or fall for a number of reasons such as industry trends, economic factors, changes in a company's operations, management and financial performance as well as market perception of that particular company. The country risk and currency risk are as elaborated below:

**CURRENCY RISK** - Fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may affect the value of the Fund's investments and subsequently the value of the investments of unit holders of the Fund ("Unit Holder(s)"). The impact of the exchange rate movement between the Base Currency and the differing currency of the non-USD classes may result in depreciation of the investor's holdings as expressed in the Base Currency. Hedging may be applied to mitigate the currency risk, if necessary.

**COUNTRY RISK** - In addition to currency risk, the Fund is also subject to country risk. The value of the assets of the Fund may also be affected by the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund may invest. Further, when investing in foreign markets, there are countries which may require prior approvals before investments can take place. For example, if and when the Fund invests in countries such as China, Taiwan, and Hong Kong, where such countries require the application of an investment licence or registration of an investor code before any investment can be made in these countries. As such, if investments in such countries are undertaken, there may be a risk that such registration or licence may be revoked or not renewed by the relevant authority and the Fund's investment in these countries may be affected. The effect on the Fund's investments will depend on the regulatory requirements of the respective countries. For example, if a foreign market requires the Fund to obtain an investment licence which is subject to renewal and if such investment licence is not renewed in a timely manner, this may result in the Fund's investment account in that country being frozen by the regulator resulting in investment activities for the Fund in that country being suspended. To mitigate this, the Manager and/or the External Investment Manager will monitor closely the adherence of investment regulatory requirements in such countries.

*Note: If your investments are made through an institutional unit trust scheme adviser ("IUTA") which adopts the nominee system of ownership, you would not be deemed to be a Unit Holder under the deed of the Fund and as a result, you may not exercise all the rights ordinarily conferred to a Unit Holder (e.g. the right to call for Unit Holders' meetings and the right to vote at a Unit Holders' meeting). Accordingly, the Manager will only recognise the IUTA as a Unit Holder and the IUTA shall be entitled to all the rights conferred to it under the deed of the Fund.*

Minimum Initial Investment	USD 100.00	RM 100.00	RM 100.00	SGD 100.00	AUD 100.00	GBP 100.00	EUR 100.00	RMB 500.00
Minimum Additional Investment	USD 100.00	RM 100.00	RM 100.00	SGD 100.00	AUD 100.00	GBP 100.00	EUR 100.00	RMB 500.00
Minimum Investment Balance	100 units or such other lower quantity as the Manager may from time to time decide.							
Minimum Redemption of Units	Any number of units.							
Frequency of Redemption of Units	No restriction.							
Switching Facility and Frequency of Switching	Available. Unit Holders may switch to units of any unit trust fund under the management of the Manager that are of the same currency units and that allow for switching. The minimum amount for a switch into another fund is RM100.00 or such other amount as the Manager may from time to time decide. There is no restriction as to the number of switches a Unit Holder may perform or the frequency of switching. The minimum investment balance must be at least one hundred (100) units or such other lower quantity as the Manager may from time to time decide after the switch. Following a switching transaction, if the quantity of units held by a Unit Holder in the Fund falls below its minimum investment balance, the Manager can switch the entire investment and forward the proceeds to the fund that the Unit Holder intends to switch into. The Manager however, reserves the right to vary these terms.							
Transfer Facility	Available. Unit Holders may transfer their holdings of units of the Fund to another investor by forwarding the completed form of transfer to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. However, the Manager may refuse to register any partial transfer of units if the registration would result in the transferor or the transferee holding less than the minimum investment balance of one hundred (100) units or such other lower quantity as the Manager may from time to time decide. The Manager may also refuse an entry of transfer during the fourteen (14) days preceding an income distribution date.							
An investor may request for a lower minimum initial investment, lower minimum additional investment, lower minimum investment balance or lower minimum amount for a switch which the Manager may accept at its absolute discretion from time to time. <i>Note: If the Fund is an EPF-MIS approved fund and you invest via EPF-MIS, the minimum initial investment shall be RM1,000.00 (or any other amount as may be determined by EPF).</i>								
Subscription Settlement	Payment must be made in the currency of the class subscribed on subscription date.							
Redemption Settlement	Units of the Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All redemption requests will be processed in accordance with the redemption conditions for the Fund. The redemption monies will be paid within seven (7) Business Days after receipt by the Manager of the request to repurchase. <i>Note: If you have invested via the EPF-MIS, the redemption monies will be credited back into your EPF accounts.</i>							
Cooling-off Period	Unit Holders have the right to request for a refund of their investment within six (6) Business Days which shall be effective from the date of receipt of the application by the Manager, subject to eligibility. <i>Note: If you have invested via the EPF-MIS, the cooling-off period shall be subject to EPF's terms and conditions.</i>							
Business Day	A day on which the stock exchange managed and operated by Bursa Malaysia Securities Berhad and the foreign markets* are open for trading. <i>Note: * foreign markets in which investments of the Fund having in aggregate values amounting to at least 50% of the Fund's NAV are invested therein.</i>							
Dealing Hours	9:00 a.m. to 4:00 p.m. (Malaysia time) on any Business Day or such later time as the Manager may determine provided always that complete applications for the Fund are received before the next valuation point. The Manager may also vary the dealing hours as it may deem appropriate. Investors will be notified on the change of dealing hours via e-mail or notification published on the Manager's website.							
Other Information	<ul style="list-style-type: none"><li>• If no application for units of the relevant class is received by the Manager during the initial offer period of the respective class, the selling price for an application for units of the relevant class received on a Business Day immediately after the initial offer period of the respective class shall be the initial offer price of the respective class.</li><li>• The assets of the Fund are pooled and invested as a single fund and are not segregated in respect of each class.</li><li>• The classes may differ in terms of currency denomination, rate of fees and charges and transaction details. Save for these differences, Unit Holders of each class have the same rights and liabilities under the deed of the Fund.</li><li>• A separate NAV per unit will be calculated for each class. Any gains / losses or expenses from hedging each of the non-USD Class against the Base Currency will be borne by the respective classes.</li><li>• The NAV per unit will be denominated in the currency of the respective class and may differ between classes as a consequence of the various features of each class.</li><li>• US Person is not eligible to subscribe to the units of the Fund. If a Unit Holder is a US Person or subsequently becomes a US Person, the Manager will issue a notice to that US Person requiring him/her to either redeem all the units of the Fund or transfer all the units of the Fund to a non-US Person, within thirty (30) days from the date of the notice. The Manager shall have the right to compulsorily redeem all the units held by the said US Person after thirty (30) days from the date of notice if the US Person fails to redeem or transfer his/her units within the stipulated period.</li><li>• If the Fund is eligible to be invested via the EPF-MIS and you transfer your moneys from your EPF account to invest in the Fund, the investments made by the Fund as well as your investment in the Fund from your EPF account will be subject to the EPF's requirements. **YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.**

## VALUATIONS AND EXITING FROM INVESTMENT

### VALUATION OF ASSETS

The Fund must be valued at least once every Business Day. As the Fund invests in foreign markets which may have different time zones from that of Malaysia, the valuation of the Fund for a Business Day will be conducted by 5.00 p.m. (or such other time as may be determined by the Manager from time to time) on the following day on which the Manager is open for business. Accordingly, the price of the Fund for a particular Business Day will not be published online on the Manager's website on the next day but will instead be published the next following day (i.e. the price will be two (2) days old). This will be specifically indicated on the Manager's website. Investors may obtain the most current computed prices by contacting the Manager directly or visiting the Manager's website, [www.rhbgroup.com](http://www.rhbgroup.com).

### EXITING FROM THIS INVESTMENT

The repurchase price shall be the NAV per unit of the respective class as at the next valuation point of the Fund's relevant Business Day after the request for repurchase of units of the Fund is received by the Manager ("forward pricing"). The Manager does not charge any repurchase charge for this Fund. Units of the Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All redemption requests will be processed in accordance with the redemption conditions for the Fund. The redemption monies will be paid within seven (7) Business Days after receipt by the Manager of the request to repurchase. Where applicable, if you have invested via the EPF-MIS, the redemption monies will be credited back into your EPF accounts.

For partial redemption, the balance of units after the redemption must be at least one hundred (100) units or such other lower quantity as the Manager may from time to time decide (the "minimum investment balance"). There is no restriction on the number of units a Unit Holder can redeem out of the Unit Holder's investments or the frequency of redemptions in a year. If the balance of units held after the redemption is less than the minimum investment balance, the Manager can withdraw the entire investment and forward the proceeds to the Unit Holder.
