7. AMENDMENTS TO RHB KIDSAVE TRUST

- (a) A new Section 1.3.1A Fund Type is hereby inserted immediately after Section 1.3.1 Fund Category on page 17 of the Master Prospectus:

1.3.1A Fund Type

Growth and Income.

- (b) Section 1.3.5 Investment Strategy on pages 17 to 18 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.3.5 Investment Strategy

This Fund seeks to achieve its investment objective through a policy of diversified investment in equities and fixed income securities (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB ratings by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment and fixed income collective investment schemes), money market instruments, cash and deposits with financial institutions. Specific risks associated with such securities and investments are as elaborated in section 2.2.

This Fund will generally adopt a 50% equities and 50% fixed income securities asset allocation strategy. Given this balanced asset mix, the fixed income portion of the Fund's portfolio could provide a buffer to mitigate the adverse effect on the Fund's portfolio arising from volatile price movements in the stock market whilst the equity portion of the Fund would enable the Fund to enjoy part of the appreciation from growth in the stock market. However, the actual percentage of assets invested in equities and fixed income securities will vary from time to time, depending on the judgement of the Manager as to the general market and

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 28 APRIL 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017 AND THE SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019.

economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. In reviewing this asset allocation strategy, the Fund's asset mix would normally range from 40% to 60% in equities and from 40% to 60% in fixed income securities to reflect the market conditions but subject always to a minimum allocation of 40% in equities and 40% in fixed income securities. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. equity, fixed income securities, money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with any financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments and (where applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions. In its reallocation, the level of equity investments would not fall below 20% of the Net Asset Value.

The performance of this Fund cannot be compared directly with any specific publicly available benchmark such as the FBM KLCI, the FTSE Bursa Malaysia EMAS Index nor the RHB Bank Berhad's 12-month fixed deposit rate as the Fund is a balanced fund where investment in equities and fixed income securities are each restricted to a maximum of 60%. As such, a benchmark comprising 50% of the performance of the FBM KLCI and 50% of the RHB Bank Berhad's 12-month fixed deposit rate[^] is used for comparative purpose which is reflective of the Fund's underlying investments. For ease of reference, investors may refer to local newspapers for these indicators. Unit Holders can obtain information on the composite benchmark from the Manager upon request. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

[^] *the performance benchmark of the Fund has been replaced from 50% of the performance of the FBM KLCI and 50% of the 12-month KLIBOR to 50% of the performance of the FBM KLCI and 50% of the RHB Bank Berhad's 12-month fixed deposit rate with effect from the date of this Second Supplementary Master Prospectus due to the discontinued publication of the 12-month KLIBOR with effect from 1 January 2023.*

- (c) Section 1.3.7 Collective Investment Schemes, on page 18 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.3.7 Collective Investment Schemes

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the collective investment scheme is authorised or recognised by the Securities Commission, or is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines. The Fund's investments in collective investment schemes (if any) shall always be subject to the restrictions stipulated in Section 1.3.13 (f), (g), (n) and (r).

- (d) Section 1.3.8 Financial Derivatives, on page 19 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.3.8 Financial Derivatives

The Manager may participate in futures contracts and other financial derivatives, when appropriate. The category of financial derivatives to be participated in shall be stock index futures contracts, stock index options contracts, single stock futures contracts, interest rate futures contracts, bond futures contracts or any other categories and/or types of futures contracts or financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in financial derivatives is to hedge the portfolio from any unexpected price or interest rate movement in the underlying market and also the portfolio's exposure to foreign currency as well as to hedge against any opportunity loss arising from its

uninvested cash. The benefit of any upside of price or interest rate movement in the underlying market or the currency movement is limited as the primary interest is to protect the value of the portfolio and to manage risks in relation to the benchmark. When participating in such instruments, the Manager will monitor the financial derivatives' valuation and credit ratings of the financial institutions as counterparty to the financial derivatives, where applicable and take appropriate actions to mitigate any risk associated with such financial derivatives. This may extend to unwinding of the financial derivatives in the event where there is a need to terminate current position due to reversal in market movement, redemptions in Units or upon downgrade of the credit ratings of the financial institutions. Commitment approach is used to calculate the Fund's net market exposure. It is calculated as the sum of the (a) absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements; (b) absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC financial derivatives. The Fund's investment holding in financial derivatives (if any) shall always be subject to the restrictions stipulated in Section 1.3.13 (e), (o), (p) and (q).

- (e) Section 1.3.9 Structured Products, on page 19 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.3.9 Structured Products

The Manager may also invest in structured products where the Manager expects those investments to complement the objective and enhance the performance of the Fund.

- (f) The first paragraph of Section 1.3.10 Foreign Securities, on page 19 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

The Manager may invest up to 30% of the Net Asset Value in securities of Eligible Market.

- (g) Section 1.3.13 Permitted Investments and Restrictions, on pages 20 to 21 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

Income.

- (b) Section 1.6.5 Investment Strategy on pages 32 to 33 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.6.5 Investment Strategy

This Fund seeks to achieve its investment objective by investing substantially all of its assets in fixed income securities (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB ratings by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment and fixed income collective investments schemes), money market instruments, cash and deposits with any financial institutions. At least 60% of Net Asset Value will be invested in bonds. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities. Specific risks associated with such securities and investments are as elaborated in section 2.2.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. fixed income securities and money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to these permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The performance of this Fund is benchmarked against the RHB Bank Berhad's 12-month fixed deposit rate^{^^}. The benchmark selected is reflective of the Fund's investment objective. For ease of reference, investors may refer to RHB Bank Berhad's website, www.rhbgroup.com, for this indicator. It should be noted that the risk of investing in this Fund is different from the risk of investing in a bank's fixed deposit account. In addition, investors of the Fund assume higher risk compared to a depositor of the RHB Bank Berhad's 12-month fixed deposit.

^^ the performance benchmark of the Fund has been replaced from Maybank's 12-month fixed deposit rate to RHB Bank Berhad's 12-month fixed deposit rate with effect from the date of this Second Supplementary Master Prospectus due to the Manager's intention to standardize the source of the fixed deposit rate from Maybank's to RHB Bank Berhad's.

12. AMENDMENTS TO RHB GROWTH AND INCOME FOCUS TRUST

- (a) A new Section 1.8.1A Fund Type is hereby inserted immediately after Section 1.8.1 Fund Category on page 41 of the Master Prospectus:

1.8.1A Fund Type

Growth and income.

- (b) Section 1.8.5 Investment Strategy on pages 41 to 42 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.8.5 Investment Strategy

This Fund seeks to achieve its investment objective through a policy of diversified investment in equities and quality fixed income securities. Specific risks associated with securities and investments are as elaborated in section 2.2.

This Fund's portfolio will comprise a blend of carefully selected investments in securities of companies with market capitalization of not more than RM750 million ("small cap securities"), quality fixed income securities (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB ratings by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment and fixed income collective investment schemes), money market instruments, cash and deposits with financial institutions, but subject always to a minimum allocation of 30% in small cap securities and 30% in fixed income securities, money market instruments, cash and deposits with financial institutions.

In reviewing this asset allocation strategy, the Fund's asset mix would normally range from 30% -70% in small cap securities and 30% - 70% in fixed income securities, money market instruments, cash and deposits with financial institutions. Accordingly, this Fund will be able to have a maximum exposure to the equities market of up to 70% through investments in small cap securities whilst maintaining a minimum of 30% in fixed income securities to provide stability through diversification of the asset class. Similarly, this Fund can also invest up to 70% of its investments in fixed income securities whilst maintaining the minimum of 30% in small cap securities to diversify the portfolio and to provide capital growth. The restriction on market capitalisation mentioned above is determined at the point of purchase.

Given this asset mix, the Fund will be able to tap into varied market conditions in order to capitalise on any market opportunities. The actual percentage of assets invested in equities and fixed income securities will therefore vary from time to time, depending on the judgement of the Manager as to the general market and

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 28 APRIL 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017 AND THE SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019.

economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. Thus, although this Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of this Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. equity, fixed income securities, money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with any financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments and (where applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions. In its reallocation, the level of equity investments would not fall below 10% of the Net Asset Value.

The performance of this Fund cannot be compared directly with any specific publicly available benchmark such as the FBM Fledgling Index nor the 12-month fixed deposit rate offered by financial institutions as the Fund's investments in equities and fixed income securities are restricted to a maximum of 70% each. As such, a benchmark comprising 50% of the performance of the FBM Fledgling Index and 50% of the RHB Bank Berhad's 12-month fixed deposit rate^{^^} is used for comparative purposes. The composite benchmark selected best reflects the Fund's underlying investments. For ease of reference, investors may refer to local newspapers or the Bursa Malaysia website at www.bursamalaysia.com for the index indicator and the RHB Bank Berhad's website at www.rhbgroup.com for the fixed deposits rates. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark. Unit Holders can obtain information on the composite benchmark from the Manager upon request.

^{^^} the performance benchmark of the Fund has been replaced from 50% of the performance of the FBM Fledgling Index and 50% of the Maybank's 12-month fixed deposit rate to 50% of the performance of the FBM Fledgling Index and 50% of the RHB Bank Berhad's 12-month fixed deposit rate with effect from the date of this Second Supplementary Master Prospectus due to the Manager's intention to standardize the source of the fixed deposit rate from Maybank's to RHB Bank Berhad's.

- (c) Section 1.8.7 Collective Investment Schemes, on page 43 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.8.7 Collective Investment Schemes

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the collective investment scheme is authorised or recognised by the Securities Commission, or is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines. The Fund's investments in collective investment schemes (if any) shall always be subject to the restrictions stipulated in Section 1.8.13 (f), (g), (n) and (r).

- (d) Section 1.8.8 Financial Derivatives, on page 43 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.8.8 Financial Derivatives

The Manager may participate in futures contracts and other financial derivatives, when appropriate. The category of financial derivatives to be participated in shall be stock index futures contracts, stock index options contracts, interest rates futures contracts, bonds futures contracts or any other categories and/or types of futures contracts or financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in financial derivatives is to hedge the portfolio from any unexpected price or interest rate movement in the underlying market and also the portfolio's exposure to foreign currency as well as to hedge against any opportunity loss arising from its uninvested cash. The benefit of any upside of price or interest rate movement in the underlying market or currency movement is limited as the primary interest is

to protect the value of the portfolio and to manage risks in relation to the benchmark. When participating in such instruments, the Manager will monitor the financial derivatives' valuation and credit ratings of the financial institutions as counterparty to the financial derivatives, where applicable and take appropriate actions to mitigate any risk associated with such financial derivatives. This may extend to unwinding of the financial derivatives in the event where there is a need to terminate current position due to reversal in market movement, redemptions in Units or upon downgrade of the credit ratings of the financial institutions. Commitment approach is used to calculate the Fund's net market exposure. It is calculated as the sum of the (a) absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements; (b) absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC financial derivatives. The Fund's investment holding in financial derivatives (if any) shall always be subject to the restrictions stipulated in Section 1.8.13 (e), (o), (p) and (q).

- (e) Section 1.8.9 Structured Products, on page 43 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.8.9 Structured Products

The Manager may also invest in structured products where the Manager expects those investments to complement the objective and enhance the performance of the Fund.

- (f) The first paragraph of Section 1.8.10 Foreign Securities, on page 43 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

The Manager may invest up to 30% of the Net Asset Value in securities of Eligible Market.

16. AMENDMENTS TO RHB DANA HAZEEM

- (a) A new Section 1.13.1A Fund Type is hereby inserted immediately after Section 1.13.1 Fund Category on page 61 of the Master Prospectus:

1.13.1A Fund Type

Growth and income.

- (b) Section 1.13.5 Investment Strategy, on pages 61 to 63 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

1.13.5 Investment Strategy

This Fund seeks to achieve its investment objective through a diversified portfolio of Shariah-compliant investments comprising Shariah-compliant equities, sukuk, Islamic money market instruments, Islamic deposits with financial institutions and Islamic collective investment schemes.

This Fund will generally adopt a balanced asset allocation strategy of 50% in Shariah-compliant equities and 50% in non-equity Shariah-compliant investments which are defensive in nature comprising sukuk, Islamic money market instruments and Islamic deposits with financial institutions (collectively known as "Non-Equity Shariah-Compliant Investments"). Investments in Shariah-compliant equities and Non-Equity Shariah-Compliant Investments may also be made via Islamic collective investment schemes.

Given this balanced asset mix, the Fund will be cushioned from wild swings in the equity market while still able to enjoy part of the appreciation from growth in the equity investments of the Fund. However, the actual percentage of assets invested in Shariah-compliant equities and Non-Equity Shariah-Compliant Investments will vary from time to time, depending on the judgement of the Manager as to the general market and economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. In reviewing this asset allocation strategy, the Fund's asset mix would normally range from 40% to 60% in Shariah-compliant equities and from 40% to 60% in Non-Equity Shariah-Compliant Investments to reflect the market conditions but subject always to a minimum allocation of 40% in Shariah-compliant equities and 40% in Non-Equity Shariah-Compliant Investments. Although the Fund is expected to be actively managed, the frequency of its trading strategy will very much depend on market opportunities.

When making investments, the Manager may invest up to 30% of the Net Asset Value in foreign markets. The Fund will invest in Shariah-compliant securities / instruments listed on or traded in Asia Pacific ex Japan markets (such as Australia, China, Hong Kong SAR, India, Indonesia, New Zealand, Philippines, Singapore, Vietnam, South Korea, Sri Lanka, Taiwan and Thailand) including Shariah-compliant securities / instruments of Asia Pacific ex Japan companies that are listed on or traded in non-Asia Pacific ex Japan markets (such as the New York Stock Exchange and the London Stock Exchange).

The fund's investments in Shariah-compliant equities comprise of equity and equity related securities of companies listed on the local and/or foreign markets which, in the Manager's opinion, will have good growth potential and/or the ability to provide good dividend yield over a long term period. In seeking investments in companies of good growth potential, the Fund will look to companies with sales or earnings growth that are stronger than the industry average and/or the country's Gross Domestic Product (GDP) growth, whereas

INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 28 APRIL 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017 AND THE SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019.

“good dividend yield” refers to yield that is above the average industry dividend yield in the country of investment, and “long term” refers to a period of between 5 - 7 years.

The Fund’s investments in sukuk may comprise of sukuk issued by corporations, financial institutions, supra-nationals, local or foreign governments and their agencies. Sukuk issued by Malaysian incorporated companies must carry a rating of at least BBB at the point of purchase by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment. Foreign sukuk issued by corporations and financial institutions must carry a rating of BB or higher at the point of purchase by any Global Rating Agencies or its equivalent rating by a reputable rating establishment whereas sukuk issued by supra-nationals, governments and their agencies need not be rated.

The Fund’s investments in Islamic money market instruments may comprise of Islamic money market instruments issued by the government which amongst others comprise of Government Investment Issues (GII), Islamic accepted bills, Bank Negara monetary notes-i, Islamic negotiable instruments, cagamas sukuk and other government Islamic papers whereas Islamic money market instruments issued by Malaysian incorporated companies are those issued by such companies which carry a rating of at least P3 by any Domestic Rating Agencies or its equivalent rating by a reputable rating establishment at the point of purchase.

Placements of Islamic deposits with any financial institution are placements such as in General Investment Account (GIA) or Islamic fixed deposits.

The Fund’s investments may also comprise of Islamic collective investment schemes which are consistent with the underlying investments of the Fund.

The Fund’s portfolio will be structured as follows:

40% - 60% of Net Asset Value

- Investments in Shariah-compliant equity and equity related securities of companies that have dividend and/or growth potential.

40% - 60% of Net Asset Value

- Investments in Non-Equity Shariah-Compliant Investments.

The actual asset allocation will be reviewed from time to time depending on economic and market conditions.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of the Fund’s investments in terms of its exposure to various industries, sectors and countries. Further, as the Fund is a balanced fund with minimum investment of 40% of Net Asset Value in Shariah-compliant equities and 40% of Net Asset Value in Non-Equity Shariah-Compliant Investments, the Fund is able to alleviate the risks associated with single asset class investments such as an all Shariah-compliant equities investment or an investment wholly invested in Non-Equity Shariah-Compliant Investments such as a sukuk fund. This therefore reduces the risk associated or peculiar to a particular asset class. Generally, the assets of the Fund will be invested over the long term with disposal of the Shariah-compliant investments where necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available Shariah-compliant investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to these permitted investments and restrictions also helps the Manager to risk-manage the Fund’s portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund’s principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund’s Shariah-compliant equities investments into other asset classes which are defensive in nature such as sukuk, Islamic money market instruments and non-equity Islamic collective investment schemes or just make placements in Islamic deposits with any financial institutions. In its reallocation, the level of Shariah-compliant equities investments would not fall below 20% of the Net Asset Value.

The performance of this Fund cannot be compared directly with any specific publicly available benchmark such as the FTSE Bursa Malaysia EMAS Shariah Index or the RHB Bank Berhad’s 12-month Commodity Murabahah Deposit-i rate as the Fund is a balanced fund where investment in Shariah-compliant equities and Non-Equity Shariah-Compliant Investments are each restricted to a maximum of 60% of Net Asset Value. As such, a benchmark comprising 50% of the performance of the FTSE Bursa Malaysia EMAS Shariah Index and 50% of the RHB Bank Berhad’s 12-month Commodity Murabahah Deposit-i rate ^{^^^^} is used for comparative purposes. For ease of reference, investors may refer to local newspapers or the Bursa Malaysia website at www.bursamalaysia.com for the index indicator and the RHB Bank Berhad’s website at www.rhbgroup.com for the 12-month Commodity Murabahah Deposit-i rate. risk profile of the Fund is different from the risk profile of the benchmark. Unit Holders can obtain information on the composite benchmark from the Manager upon request.

~~~~~ the performance benchmark of the Fund has been replaced from 50% of the performance of the FTSE Bursa Malaysia EMAS Shariah Index and 50% of the Maybank Islamic Berhad's 12-month Islamic fixed deposit rate to 50% of the performance of the FTSE Bursa Malaysia EMAS Shariah Index and 50% of the RHB Bank Berhad's 12-month Commodity Murabahah Deposit-i rate with effect from the date of this Second Supplementary Master Prospectus due to the Manager's intention to standardize the source of the fixed deposit rate from Maybank's to RHB Bank Berhad's.

- (c) Section 1.13.7 Islamic Collective Investment Schemes, on page 63 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

#### **1.13.7 Islamic Collective Investment Schemes**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the Islamic collective investment scheme is authorised or recognised by the Securities Commission, or is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines. The Fund's investments in Islamic collective investment schemes (if any) shall always be subject to the restrictions stipulated in Section 1.13.13 (f), (g), (n) and (r).

- (d) Section 1.13.8 Islamic Financial Derivatives, on page 64 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

#### **1.13.8 Islamic Financial Derivatives**

The Manager may participate in Islamic futures contracts and other Islamic financial derivatives, when appropriate. The category of Islamic financial derivatives to be participated in shall be the stock index futures contracts, the stock index options contracts, the single stock futures contracts, the sukuk futures contracts, or any other categories and/or types of Islamic futures contracts or Islamic financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in Islamic financial derivatives is to hedge the portfolio from any unexpected price or interest rate movement in the underlying market and also the portfolio's exposure to foreign currency volatility. Such participation in Islamic financial derivatives shall commence only if the underlying financial instrument complies with Shariah requirements. The benefit of any upside of price or interest rate movement in the underlying market or currency movement is limited. The purpose is to protect the value of the portfolio. When participating in such instruments, the Manager will monitor the Islamic financial derivatives' valuation and credit ratings of the financial institutions as counterparty to the Islamic financial derivatives, where applicable and take appropriate actions to mitigate any risk associated with such Islamic financial derivatives. This may extend to unwinding of the Islamic financial derivatives in the event where there is a need to terminate current position due to reversal in market movement, redemption in Units or upon downgrade of the credit ratings of the financial institutions. Commitment approach is used to calculate the Fund's net market exposure. It is calculated as the sum of the (a) absolute value of the exposure of each individual Islamic financial derivative not involved in netting or hedging arrangements; (b) absolute value of the net exposure of each individual Islamic financial derivative after netting or hedging arrangements; and (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC Islamic financial derivatives. The Fund's investment holding in Islamic financial derivatives (if any) shall always be subject to the restrictions stipulated in Section 1.13.13 (e), (o), (p) and (q).

- (e) Section 1.13.9 Islamic Structured Products, on page 64 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

#### **1.13.9 Islamic Structured Products**

The Manager may invest in Islamic structured products where the Manager expects those investments to complement the objective and enhance the performance of this Fund.

- (f) The first paragraph of Section 1.13.10 Foreign Shariah-compliant Securities, on page 64 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

The Manager may invest up to 30% of the Net Asset Value in Shariah-compliant securities of Eligible Market provided the securities are reviewed and designated as Shariah-compliant by the Shariah Adviser. The Fund will invest in Shariah-compliant securities/instruments listed on or traded in Asia Pacific ex Japan markets (such as Australia, China, Hong Kong SAR, India, Indonesia, New Zealand, Philippines, Singapore, Vietnam, South Korea, Sri Lanka, Taiwan and Thailand) including Shariah-compliant securities/instruments of Asia Pacific ex Japan companies that are listed on or traded in non-Asia Pacific ex Japan markets (such as the New York Stock Exchange and the London Stock Exchange) and/or Shariah-compliant securities / instruments issued and/or guaranteed by governments or quasi-government agencies.

The Fund must be valued at least once every Business Day. However, certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia.

Accordingly, for Funds investing solely in the local market, the valuation of the respective Funds for a Business Day will be conducted at the close of Bursa Malaysia for that Business Day. Thus, the daily price of the Fund for a particular Business Day will be published online on the Manager’s website on the next day, with the exception of **CASH**, whose price shall be the Net Asset Value per Unit as at the valuation point of the Fund immediately preceding the Fund’s relevant Business Day when the request for Units of the Fund is received by the Manager (“historical pricing”). [Please refer section 5.2 (Computation of Purchase of Units – **CASH**)].

For Funds which have investments in foreign markets, the valuation of the respective Funds for a Business Day will be conducted by 5.00 pm (or such other time as may be determined by the Manager from time to time) on the following day on which the Manager is open for business.

Accordingly, the price of the Fund for a particular Business Day will not be published online on the Manager’s website on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated on the Manager’s website.

#### Illustration (for Funds investing in foreign markets)

When markets are closed for trading on 18 April 2023 (Tuesday), the valuation date will be the next day on which the Manager is open for business, i.e. 19 April 2023 (Wednesday). Thus, the publication date for the price as at 18 April 2023 (Tuesday) will be on 20 April 2023 (Thursday) on the Manager’s website.

Investors may obtain the most current computed price by contacting the Manager directly or visiting the Manager’s website, [www.rhbgroup.com](http://www.rhbgroup.com) [please refer to section 5.5 (g) (Availability of Information on Investment)].

In undertaking any of the Fund’s investments, the Manager will ensure that all the assets of the respective Funds will be valued at fair value and at all times in compliance with the relevant laws (including approved accounting standards).

Accordingly, where applicable:

- (i) Listed securities / Shariah-compliant securities
- (ii) Listed securities / Shariah-compliant securities will be valued daily based on the last done market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.

However, if: -

- (a) a valuation based on the market price does not represent the fair value of the listed securities / Shariah-compliant securities, for example during abnormal market conditions; or
- (b) no market price is available, including in the event of a suspension in the quotation of the listed securities / Shariah-compliant securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee,

then the listed securities / Shariah-compliant securities would be valued at fair value, as determined in good faith by the Manager based on the methods or bases approved by the Trustee after appropriate technical consultation.

- (iii) Unlisted fixed income securities / sukuk

Investments in unlisted fixed income securities / sukuk denominated in Ringgit Malaysia will be valued on a daily basis by reference to the prices quoted by a bond pricing agency (BPA) registered with the Securities Commission. However, where quotations are not available, such unlisted fixed income securities / sukuk will generally be valued on a weekly basis or as and when appropriate, by reference to the average indicative yield quoted by three independent and reputable financial institutions in OTC market at the close of trading. These institutions include investment banks and commercial banks dealing in fixed income securities / sukuk.

**INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 28 APRIL 2023 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017 AND THE SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019.**

Investments in foreign unlisted fixed income securities / sukuk are valued daily using the Bloomberg Generic Price (BGN) provided by Bloomberg. Where BGN prices are not available on any Business Day, these fixed income securities / sukuk will be valued by reference to the average indicative yield quoted by three independent and reputable financial institutions.

In a case where the Manager is of the view that the price quoted by BPA or the BGN price for a specific unlisted fixed income security / sukuk differs from the market price (i.e., the Manager's view of the market yield) by more than 20 basis points, the Manager may use the market price, provided that the Manager records its basis for using a non BPA price or non BGN price, obtains necessary internal approvals to use the non BPA price or non BGN price and keeps an audit trail of all decisions and basis for adopting its own view of the market price.

However, when the Manager, after taking all reasonable efforts, is unable to obtain quotations from BPA or any BGN price or quotations from three independent and reputable financial institutions due to circumstances such as extreme market conditions, such unlisted fixed income securities / sukuk (denominated in Ringgit Malaysia and denominated in foreign currencies) will be valued according to an alternative method determined in good faith by the Manager, which has been verified by the auditor of the Fund and approved by the Trustee provided that the Manager records its basis for using the alternative method, obtains necessary internal approvals to use the alternative method and keeps an audit trail of all decisions and basis for adopting the alternative method. Any alternative method shall be consistently applied unless advised otherwise by the auditors of the Fund and the Trustee.

(iv) Unlisted securities / Shariah-compliant unlisted securities

Investments in unlisted securities / Shariah-compliant unlisted securities will be valued at the cost price of each investment until the securities / Shariah-compliant securities of the investee companies are successfully listed on a recognised stock exchange, upon which quoted prices will be available and valuation will be based on the last done market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.

(v) Collective investment schemes / Islamic collective investment schemes

Collective investment schemes / Islamic collective investment schemes which are quoted on an approved exchange shall be valued in the same manner as listed securities as described above. When investing in unlisted collective investment schemes / Islamic collective investment schemes, the value shall be determined by reference to the last published repurchase price per unit for that unlisted collective investment scheme / Islamic collective investment schemes.

(vi) Financial derivatives / Islamic financial derivatives

Financial derivatives / Islamic financial derivatives positions will be 'marked-to-market' at the close of each trading day.

(vii) Deposits / Islamic deposits

Deposits / Islamic deposits placed with financial institutions will be valued each day by reference to the principal value of such investments and the interest / profits accrued thereon for the relevant period.

(viii) Money market instruments / Islamic money market instruments

Money market instruments / Islamic money market instruments that are held for collecting contractual cash flow purpose i.e. commercial papers / Islamic commercial papers and money market placements / Islamic money market placements which have a remaining term to maturity of not more than 90 days at the time of acquisition will be measured on an ongoing basis at amortised cost. The risk of using amortised cost is the mismatch between the fair value and book value of a money market instrument / an Islamic money market instrument. The Manager will monitor closely and consider prompt action to discontinue the use of amortised cost method and adopt the fair value as the valuation for money market instrument / Islamic money market instrument in the event the variance is above 3%.

Money market instruments / Islamic money market instruments other than the aforesaid will be valued on a daily basis by reference to the fair value prices quoted by a BPA registered with the Securities Commission.

(ix) Foreign exchange translation of foreign investments into Ringgit Malaysia for a particular Business Day is determined based on the bid rate quoted by Bloomberg or Reuters at 4.00 p.m. (United Kingdom time) or such other time as may be prescribed from time to time by the relevant laws.

(x) Any other investments / Shariah-compliant investments as may be held by the Fund will be valued based on fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

Similarly, Units of a Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. All redemption requests will be processed in accordance with the redemption conditions for the Funds.

The redemption monies will be paid within seven (7) Business Days after receipt by the Manager of the request to repurchase. Where applicable, if you have invested via the EPF-MIS, the redemption monies will be credited back into your EPF accounts.

For partial redemption, the balance of Units of a Fund after the redemption must be at least one hundred (100) Units or such other lower quantity as the Manager may from time to time decide (the "minimum investment balance"). There is no restriction on the minimum number of Units a Unit Holder can redeem out of the Unit Holder's investments or the frequency of redemptions in a year. The cooling-off right refers to the right of an individual investor to obtain a refund of his investment if he so requests within the cooling-off period. The cooling-off right is only given to an individual investor, other than those listed below, who is investing in any unit trust funds managed by the Manager for the first time:

- (i) a staff of the Manager; and/or
- (ii) a person registered with a body approved by the Securities Commission to deal in unit trust funds.

The refund to the investor pursuant to the exercise of his cooling-off right must be as follows:

- a) the Net Asset Value per Unit at the point of exercise of the cooling-off right (“market price”), if the Net Asset Value per Unit on the day the Units were purchased (“original price”) is higher than the market price; or
- b) the original price, if the market price is higher than the original price.

If the market price is higher than the original price paid by the investor, the Manager may agree to pay the investor the excess amount, provided that such amount is not paid out of the Funds or the assets of the Funds.

The Manager must also refund the sales charge originally imposed on the day the Units were purchased.

The cooling-off period shall be within six (6) Business Days which shall be effective from the date of receipt of the application by the Manager. Where applicable, if you have invested via the EPF-MIS, the cooling-off period shall be subject to EPF’s terms and conditions.

The cooling-off right allows investors the opportunity to reverse an investment decision which could have been unduly influenced by certain external elements or factors.

Withdrawal proceeds will only be paid to the investors once the Manager has received cleared funds for the original investment. For investors who paid by cheque, the refund will be made upon clearance of the cheque. The Manager shall refund the investor in cash within seven (7) Business Days of receiving the cooling-off notice. Where applicable, if you have invested via the EPF-MIS, the refund will be credited back into your EPF accounts

Unit Holders may switch to units of any unit trust fund under the management of the Manager that are of the same currency and that allows for switching by forwarding the completed form of request to switch to the Manager's registered/principal office or any of its branches, or to any of its participating IUTAs and any other authorised distributors before their respective cut-off times on any Business Day. The minimum amount for a switch into another fund is RM100.00 or such other amount as the Manager may from time to time decide. There is no restriction as to the number of switches a Unit Holder may perform or the frequency of switching. The minimum investment balance must be at least one hundred (100) Units or such other lower quantity as the Manager may from time to time decide after the switch. Following a switching transaction, if the quantity of Units held by a Unit Holder in the Fund falls below its minimum investment balance, the Manager can switch the entire investment and forward the proceeds to the fund that the Unit Holder intends to switch into. The Manager however, reserves the right to vary these terms.

#### **CASH**

Switching is not applicable for this Fund.

The Manager may also refuse an entry of transfer during the fourteen (14) days preceding an income distribution date.

- (b) The information on “Rights of Unit Holders” in Section 6.1.2 on page 108 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

#### 6.1.2 Rights of Unit Holders

Unit Holders shall have the right in respect of the Funds in which they hold Units, amongst others, to the following:

- (a) to receive distributions of the Funds, to participate in any increase in the value of the Units and to enjoy such other rights and privileges as set out in the Deeds;
- (b) to call for Unit Holders’ meetings, and to vote for the removal of the Trustee or the Manager through a special resolution as provided for in the Deeds;
- (c) to exercise the cooling-off right, if applicable; and
- (d) to receive annual reports, semi-annual reports or any other reports of the Funds.

No Unit Holder shall be entitled to require the transfer to him of any assets of the Funds or be entitled to interfere with or question the exercise by the Trustee, or the Manager on the Trustee’s behalf, of the rights of the Trustee as the registered owner of such assets.

Note: If your investments are made through an IUTA which adopts the nominee system of ownership, you would not be deemed to be a Unit Holder under the Deeds and as a result, you may not exercise all the rights ordinarily conferred to a Unit Holder (e.g. the right to call for Unit Holders’ meetings and the right to vote at a Unit Holders’ meeting). Accordingly, the Manager will only recognise the IUTA as a Unit Holder and the IUTA shall be entitled to all the rights conferred to it under the Deeds.

- (c) The first paragraph on “Maximum Annual Trustee Fee” in Section 6.2.3 on page 111 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

The maximum annual trustee fee the Trustee is permitted to charge each Fund is at the rate below:

Any reference to interest in the Act shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

Subject to certain exemptions, the income of the Funds in respect of investment income derived from or accruing in Malaysia are liable to income tax at the rate of 24% effective Year of Assessment ("YA") 2016.

The Funds may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia was previously exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Based on the Finance Act 2021, income derived by a resident unit trust from foreign sources and received in Malaysia from 1 January 2022 onwards will be subject to Malaysian income tax. A transitional tax rate of 3% is accorded on the gross amount of the foreign income received in Malaysia from 1 January 2022 to 30 June 2022. From 1 July 2022, the prevailing tax rate of 24% will apply to the chargeable income computed in respect of the foreign source income remitted into Malaysia by the Funds.

Where the same foreign income has been taxed in both Malaysia and the foreign country, a tax credit in the form of bilateral relief under a Double Tax Agreement ("DTA") or unilateral relief under the domestic law (if there is no available DTA or a limited DTA which does not provide such relief) may be given in respect of such income, subject to conditions.

Gains from the realisation of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income or profits earned by the Funds from the following are exempt from tax:-

- any savings certificates issued by the Government; or

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013<sup>N1</sup>; or
- any development financial institution regulated under the Development Financial Institutions Act 2002<sup>N1</sup>; or
- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority<sup>N2</sup>.

Discounts earned by the Funds from the following are also exempt from tax: -

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Funds' expenses such as manager's remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage ("permitted expenses") are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Single tier Malaysian dividends received by the Funds are exempt from tax and expenses in relation to such dividend income are disregarded.

#### ***Real Property Gains Tax ("RPGT")***

Gains on disposal of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

#### ***Sales Tax and Service Tax***

The Goods and Services Tax ("GST") has been replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and subsidiary legislation, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Funds such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Funds are only deriving income from such activities, the Funds are not liable to be registered for service tax.

However, certain expenses incurred by the Funds such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. The service tax incurred by the Funds is a cost to the Funds and is not recoverable, unlike the GST input tax which was claimable under the GST regime.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

#### **Taxation of Unit Holders**

##### ***Income Tax***

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Funds, to the extent that this is distributed to them. The income distribution from the Funds may carry with it applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Funds. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders.

Corporate unit holders, resident or non-resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016), on distributions of income from the Funds to the extent of an amount equivalent to their share of the total taxable income of the Funds. Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 17% on chargeable income of up to RM600,000, effective from YA 2020. This

<sup>N1</sup> Effective from 1 January 2019, the exemption shall not apply to the interest paid or credited to a unit trust that is a wholesale fund which is a money market fund.

<sup>N2</sup> Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions. Based on the Finance Act 2021, income tax exemption shall also not apply to interest paid or credited by a special purpose vehicle to a company pursuant to the issuance of asset-backed securities lodged with the Securities Commission or approved by the Labuan Financial Services Authority from 1 January 2022 where the company and the person who established the special purpose vehicle solely for the issuance of the asset-backed securities are in the same group.

concessionary income tax rate is given only to corporate unit holders having gross business income for the relevant year of assessment of not more than RM50 million, in addition to the share capital requirement. For chargeable income in excess of RM600,000, the tax rate of 24% is still applicable.

However, the said tax rate of 17% on chargeable income of up to RM600,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Based on the Finance Bill 2023, it is proposed that the tax rate of 17% will be reduced to 15% for chargeable income of up to RM150,000, while the tax rate for chargeable income from RM150,001 up to RM600,000, will remain unchanged at 17%. For chargeable income in excess of RM600,000, the tax rate of 24% will apply. The proposed changes will come into effect from YA 2023.

In addition to the current conditions as mentioned above, it is proposed that the preferential tax rate would not apply if more than 20% of the paid-up capital in respect of ordinary shares of the company at the beginning of the basis period for a YA is directly or indirectly owned by a company or companies incorporated outside Malaysia or an individual or individuals who are not Malaysian citizens. The proposed condition is effective from YA 2024.

Based on the Finance Act 2021, a corporate tax rate of 33% (“Cukai Makmur”) will be levied on corporate unit holders with chargeable income exceeding RM100 million. Corporate unit holders with chargeable income below RM100 million will still be taxed at tax rate of 24%. However, the chargeable income in respect of foreign source income received in Malaysia from 1 July 2022 is exempted from the application of Cukai Makmur, computed based on a prescribed formula. The Cukai Makmur is effective for YA 2022 only.

The tax rate of 33% on chargeable income exceeding RM100 million would not apply to corporate unit holders in Malaysia that qualify for the preferential tax rate of 17% on chargeable income of up to RM600,000.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 30% with effect from YA 2020.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, are subject to Malaysian income tax at the rate of 30% with effect from YA 2020. Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdiction.

The distribution of single-tier Malaysian dividends and tax exempt income by the Funds will not be subject to tax in the hands of the unit holders in Malaysia. Units split by the Funds will also be exempt from tax in Malaysia in the hands of the unit holders.

However, based on the Finance Act 2021, the income distributed to a unit holder other than an individual, out of the interest income exempt from tax of the RHB Cash Management Fund 2 which is a retail money market fund which is paid or credited by a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013, or any development financial institution regulated under the Development Financial Institutions Act 2002, will be subjected to tax. This is effective from 1 January 2022. Further, a new withholding tax mechanism is applicable on the above distribution. The income distributed to the unit holder other than an individual will be subject to withholding tax at the rate of 24% and the tax deducted can be utilised to set off against the tax payable by a tax resident unit holder. Withholding tax deducted on the income distributed to a non-individual unit holder who is not a tax resident in Malaysia will be regarded as a final tax. This is also effective from 1 January 2022.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfer or redemption of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

#### ***Service Tax***

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, certain expenses such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. The HIRE Act also contained legislation requiring U.S. persons to report, depending on the value, their foreign financial accounts and foreign assets.
- RHBAM MY and its related companies and affiliates are subject to and required to, or have agreed to comply with FATCA ("FATCA Reporting Requirement"). In view of this, RHBAM MY is required to collect information about each of its customers under the FATCA Reporting Requirement. If you are a U.S. Person, we may need to give the Inland Revenue Board of Malaysia ("IRBM") your account information, which may then be shared with the U.S. IRS.

It sets out the financial account information to be exchanged, the financial institutions required to report, the different types of accounts and taxpayers covered, as well as common due diligence procedures to be followed by financial institutions.
- RHBAM MY and its related companies and affiliates are required to comply with the CRS Rules ("CRS Reporting Requirement") In view of this RHBAM MY is required to collect information about your tax residence(s) under applicable tax regulations. If you are not a tax resident of Malaysia, we may need to give the IRBM your account information, which may then be shared with other tax authorities of the CRS Participating countries.
- Each jurisdiction has its own rules for defining tax residences, and jurisdiction have provided information on how to determine if you are resident in a jurisdiction on the following website: - <http://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/>
- RHBAM MY are not allowed to give tax advice. Please consult your tax adviser if you require assistance in determining your tax residence(s).
- "Participating Jurisdiction" means a jurisdiction with which an agreement is in place pursuant to which it will provide the information required on the automatic exchange of financial account information set out in the CRS.
- "Reportable Jurisdiction" is a jurisdiction with which an obligation to provide financial account information is in place.
- "Tax Resident" refers to the definition of tax residence by each participating jurisdiction as provided on [<https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/#id.en.347760>]. In general, you will find that tax residence is the country/jurisdiction in which you live. Special circumstances may cause you to be resident elsewhere or resident in more than one country/jurisdiction at the same time (dual residency).
- For more information on tax residence, please consult your tax adviser or the information at the OECD automatic exchange of information portal mentioned above.
- "TIN" (including "functional equivalent") means Taxpayer Identification Number or a functional equivalent in the absence of a TIN. A TIN is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an Entity and used to identify the individual or Entity for the purposes of administering the tax laws of such jurisdiction. Further details of acceptable TINs can be found at the following link [<https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-identification-numbers>]. Some jurisdictions do not issue a TIN. However, these jurisdictions often utilize some other high integrity number with an equivalent level of identification (a "functional equivalent"). Examples of that type of number include, for Entities, a Business/company registration code/number.

RHBAM MY shall send e-mail notification to the Customer in relation to the residual units sell-off.
- 11.0 UT LOAN FINANCING RISK DISCLOSURE STATEMENT
- Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-
- a. The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
  - b. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
  - c. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
  - d. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
  - e. This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the T&C before you decide to take the loan. If you have doubts in respect of any aspect of this UT Loan Financing Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

### FOREIGN ACCOUNT TAX COMPLIANCE ACT ("FATCA") AND COMMON REPORTING STANDARD ("CRS")

"Foreign Account Tax Compliance Act (FATCA)" which was passed as part of the Hiring Incentives to Restore Employment (HIRE) Act, generally requires that foreign financial Institutions and certain other non-financial foreign entities report on the foreign assets held by their U.S. account holders or be subject to withholding on withholdable payments. The HIRE Act also contained legislation requiring U.S. persons to report, depending on the value, their foreign financial accounts and foreign assets.

RHBAM MY and its related companies and affiliates are subject to and required to, or have agreed to comply with FATCA ("FATCA Reporting Requirement"). In view of this, RHBAM MY is required to collect information about each of its customers under the FATCA Reporting Requirement. If you are a U.S. Person, we may need to give the Inland Revenue Board of Malaysia ("IRBM") your account information, which may then be shared with the U.S. IRS.

"Common Reporting Standard (CRS)" means the Standard for Automatic Exchange of Financial Account Information ("AEOI") in Tax Matters and was developed in response to the G20 request and approved by the Organisation for Economic Co-operation and Development (OECD) Council on 15 July 2014, calls on jurisdictions to obtain information from their financial institutions and automatically exchange that information with other jurisdictions on an annual basis. It sets out the financial account information to be exchanged, the financial institutions required to report, the different types of accounts and taxpayers covered, as well as common due diligence procedures to be followed by financial institutions.

RHBAM MY and its related companies and affiliates are required to comply with the CRS Rules ("CRS Reporting Requirement") In view of this RHBAM MY is required to collect information about your tax residence(s) under applicable tax regulations. If you are not a tax resident of Malaysia, we may need to give the IRBM your account information, which may then be shared with other tax authorities of the CRS Participating countries.

Each jurisdiction has its own rules for defining tax residences, and jurisdiction have provided information on how to determine if you are resident in a jurisdiction on the following website: - <http://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/>

RHBAM MY are not allowed to give tax advice. Please consult your tax adviser if you require assistance in determining your tax residence(s).

"Participating Jurisdiction" means a jurisdiction with which an agreement is in place pursuant to which it will provide the information required on the automatic exchange of financial account information set out in the CRS.

"Reportable Jurisdiction" is a jurisdiction with which an obligation to provide financial account information is in place.

"Tax Resident" refers to the definition of tax residence by each participating jurisdiction as provided on <https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/#id.en.347760>. In general, you will find that tax residence is the country/jurisdiction in which you live. Special circumstances may cause you to be resident elsewhere or resident in more than one country/jurisdiction at the same time (dual residency).

For more information on tax residence, please consult your tax adviser or the information at the OECD automatic exchange of information portal mentioned above.

- "TIN" (including "functional equivalent") means Taxpayer Identification Number or a functional equivalent in the absence of a TIN. A TIN is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an Entity and used to identify the individual or Entity for the purposes of administering the tax laws of such jurisdiction. Further details of acceptable TINs can be found at the following link [https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-identification-numbers]. Some jurisdictions do not issue a TIN. However, these jurisdictions often utilize some other high integrity number with an equivalent level of identification (a "functional equivalent"). Examples of that type of number include, for Entities, a Business/company registration code/number.
- "US Person" refers to a US Person as defined in Section 7701 (a) (30) of the Internal Revenue Code and includes an individual who is a citizen or resident of the US.

- 11.0 UT LOAN FINANCING RISK DISCLOSURE STATEMENT
- Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-
- a. The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
  - b. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
  - c. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
  - d. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
  - e. This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the T&C before you decide to take the loan. If you have doubts in respect of any aspect of this UT Loan Financing Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

**LOAN FINANCING RISK DISCLOSURE STATEMENT**

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-

- (i) The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
- (ii) You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- (iii) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
- (iv) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
- (v) This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take the loan. If you have doubts in respect of any aspect of this Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

#### **5. INVESTMENT OBJECTIVE OF RHB SMALL CAP OPPORTUNITY UNIT TRUST**

Section 1.2.4 Investment Objective, on page 12 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

##### **1.2.4 Investment Objective**

The Fund aims to achieve long term\* capital growth by investing in small capitalisation companies.

Any material change to the investment objective of this Fund requires the Unit Holders' approval.

\*Note: "long term" in this context refers to a period of between 5 – 7 years.

#### **6. INVESTMENT STRATEGY OF RHB SMALL CAP OPPORTUNITY UNIT TRUST**

Section 1.2.5 Investment Strategy, on pages 12 to 13 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

##### **1.2.5 Investment Strategy**

This Fund seeks to achieve its investment objective by investing:

- 70%-95% of its NAV in securities of small capitalisation companies; and

**INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017.**

- the balance of the NAV shall be invested in liquid assets including money market instruments, deposits and collective investment schemes investing in money market instruments and deposits.

*Note: Small market capitalisation means companies with market capitalisation of up to RM5 billion (or its equivalent in foreign currencies) at the point of acquisition or such other prevailing market value as may be determined by the Manager from time to time.*

Subject to the range stipulated above, the asset allocation will be reviewed from time to time depending on the judgement of the Manager as to the general market and economic conditions. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. equity and money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in equity value and other available equity investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as collective investment schemes, money market instruments and deposits with any financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments (structured deposits) and (where applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions. In its reallocation, the level of equity investments would normally not be below 20% of its NAV.

The performance of this Fund is benchmarked against the FBM Small Cap Index<sup>^</sup> or such other equivalent index as may be substituted by Bursa Malaysia which is reflective of the Fund's underlying investments. For ease of reference, investors may refer to major newspapers for this indicator. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

<sup>^</sup> *the performance benchmark of the Fund has been replaced from FBM Fledging Index to FBM Small Cap Index with effect from 12 April 2019.*

## 7. LIQUID ASSETS OF RHB SMALL CAP OPPORTUNITY UNIT TRUST

Section 1.2.11 Liquid Assets, on page 14 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

The Manager in structuring this Fund's portfolio will maintain a minimum liquid assets level of 5% of the NAV for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. However, this does not preclude the Manager from lowering or raising the liquid assets level from the stipulated level to allow the Manager to react to the prevailing market conditions and to manage investment risks when circumstances warrant it.

This Fund shall not borrow in connection with its activities or lend any of its cash or investments unless permitted by the relevant laws pertaining to unit trust funds. However, the Fund may borrow cash on a temporary basis (i.e. not more than one (1) month) from financial institutions to meet redemption requests. Such borrowing shall not exceed ten (10) percent of the NAV at the time the borrowing is incurred.

## 8. VALUATION OF ASSETS

The item (vii) of the last paragraph in section 3 on page 85 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

Money market instruments / Islamic money market instruments will be valued based on the accretion of discount or amortisation of premium on a yield to maturity basis. Commercial papers / Islamic commercial papers will be valued on a daily basis by reference to the fair value prices quoted by a BPA registered with the Securities Commission.

## 9. SALES CHARGE

Section 4.1(a) on pages 85 to 90 of the Master Prospectus is hereby deleted in its entirety and replaced with the following:

Where applicable an investor can expect differing sales charge or transaction fee to be levied when buying units of the Fund from the various distribution channels and within each distribution channel, subject to the maximum sales charge or transaction fee stipulated herein. This is due to the different levels of services provided by each distribution channel and/or the size of the investment undertaken.

From the sales charge or transaction fee received from investors for each of the respective Funds, the Manager pays no more than the entire sales charge or transaction fee as mentioned above as selling commission to its distributors for that particular Fund.

This is considered as a withdrawal of investment from one Fund and an investment into any of the unit trust funds under the management of the Manager that allows switching of units. A switching fee will be imposed on Unit Holders switching between funds under management (that allow switching). A switching fee<sup>1</sup> of RM25.00 will be imposed and deducted from the redemption amount of the units to be switched for a switch between funds that impose a similar sales charge or a switch to a fund that impose a lower sales charge. Unit Holders switching to a fund that imposes a higher sales charge will pay the difference in sales charge which is deductible from the redemption amount of the units to be switched.

The Manager however, reserves the right to vary this fee or to vary the terms of the switching facility. Units of the Fund to be switched into shall be purchased at the Net Asset Value per Unit of that Fund as at the next valuation point of the Fund's relevant Business Day after the form of request to switch is received by the Manager ("forward pricing").

**Taxation of the Funds**

***Income Tax***

The Funds are unit trusts for Malaysian tax purposes. The taxation of the Funds is therefore governed principally by Sections 61 and 63B of the Income Tax Act, 1967 (“the Act”).

Any reference to interest in the Act shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

Subject to certain exemptions, the income of the Funds in respect of investment income derived from or accruing in Malaysia are liable to income tax at the rate of 24% effective Year of Assessment (“YA”) 2016.

Gains from the realisation of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income earned by the Funds from the following are exempt from tax:-

- any savings certificates issued by the Government; or
- securities or bonds issued or guaranteed by the Government; or

**INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017.**

- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013<sup>N1</sup>; or
- any development financial institution regulated under the Development Financial Institutions Act 2002<sup>N1</sup>; or
- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority<sup>N2</sup>.

The Funds may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Discounts earned by the Funds from the following are also exempt from tax:-

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Funds' expenses such as manager's remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage ("permitted expenses") are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Single tier Malaysian dividends received by the Funds are exempt from tax and expenses in relation to such dividend income are disregarded.

### ***Real Property Gains Tax ("RPGT")***

Gains on disposal of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

### ***Sales Tax and Service Tax***

The Goods and Services Tax ("GST") is replaced by Sales Tax and Service Tax effective from 1 September 2018.

---

<sup>N1</sup> Effective from YA 2017, in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with the criteria as set out in the relevant guidelines of the Securities Commission. The Finance Act 2018 has been gazetted on 27 December 2018 with the amendment that the current tax exemption on interest income derived from Malaysia and paid or credited by a licensed bank or financial institution to a wholesale money market fund is now entirely withdrawn. The above amendment is effective from 1 January 2019.

<sup>N2</sup> Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions.

**INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017.**

Under the Sales Tax Act 2018, Service Tax Act 2018 and the subsidiary legislations, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Funds such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Funds are only deriving income from such activities, the Funds are not liable to be registered for service tax.

However, certain expenses incurred by the Funds such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. The service tax incurred by the Funds is a cost to the Funds and is not recoverable, unlike the GST input tax which is claimable under the GST regime.

Based on the Finance Act 2018 which has been gazetted on 27 December 2018 the imposition and scope of service tax is now widened to include any imported taxable services. This is effective from 1 January 2019.

## **Taxation of Unit Holders**

### ***Income Tax***

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Funds, to the extent that this is distributed to them. The income distribution from the Funds may carry with its applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Funds. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders. No other withholding tax will be imposed on the income distribution of the Funds.

Corporate unit holders, resident or non resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016) on distributions of income from the Funds to the extent of an amount equivalent to their share of the total taxable income of the Funds. Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 17% (effective from YA 2019) on chargeable income of up to RM500,000. For chargeable income in excess of RM500,000, the tax rate of 24% is still applicable.

However, the said tax rate of 17% on chargeable income of up to RM500,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Pursuant to Income Tax (Exemption) (No. 2) Order 2017 [P.U.(A) 117], a tax exemption equivalent to a reduction in the prevailing corporate tax rate from 1% to 4% will be effectively given for YA 2017 and YA 2018 based on percentage increase in the chargeable business income for the relevant YA as compared to the immediately preceding YA, subject to meeting the stipulated conditions.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 28% with effect from YA 2016.

**INVESTORS ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THIS SUPPLEMENTARY MASTER PROSPECTUS DATED 12 APRIL 2019 WHICH IS TO BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 3 AUGUST 2017.**

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, will be subject to Malaysian income tax at the rate of 28% with effect from YA 2016. Non resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

The distribution of single-tier Malaysian dividends and tax exempt income by the Funds will not be subject to tax in the hands of the unit holders in Malaysia. Distribution of foreign income will also be exempt in the hands of the unit holders.

Units split by the Funds will be exempt from tax in Malaysia in the hands of the unit holders.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfers or redemptions of the unit are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

### ***Sales Tax and Service Tax***

GST is replaced by Sales Tax and Service Tax effective from 1 September 2018.

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

Based on the Finance Act 2018 which has been gazetted on 27 December 2018 the imposition and scope of service tax is now widened to include any imported taxable services. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

Ong Guan Heng  
*Executive Director*

## DEFINITION AND INTERPRETATION

- **"Controlling Person"** are the natural person(s) who exercise control over an entity. Where that entity is treated as a Passive Non-Financial Entity ("Passive NFE") then a Financial Institution is required to determine whether or not these Controlling Persons are Reportable Persons. This definition corresponds to the term "beneficial owner" described in Recommendation 10 and the Interpretative Note on Recommendation 10 of the Financial Action Task Force Recommendations (as adopted in February 2012).

In the case of a trust, the Controlling Person(s) are the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, or any other natural person(s) exercising ultimate effective control over the trust (including through a chain of control or ownership). Under the CRS the settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) of beneficiaries, are always treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the activities of the trust.

Where the settlor(s) of a trust is an Entity then the CRS requires Financial Institutions to also identify the Controlling Persons of the settlor(s) and when required report them as Controlling Persons of the trust.

In the case of a legal arrangement other than a trust, Controlling Person(s) means persons in equivalent or similar positions.

- **"Entity"** means a legal person or a legal arrangement, such as corporation, organisation, partnership, trust or foundation.
- **"Participating Jurisdiction"** means a jurisdiction with which an agreement is in place pursuant to which it will provide the information required on the automatic exchange of financial account information set out in the Common Reporting Standard.
- **"Reportable Jurisdiction"** is a jurisdiction with which an obligation to provide financial account information is in place.
- **"Tax Resident"** refers to the definition of tax residence by each participating jurisdiction as provided on <https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/#d.en.347760>. In general, you will find that tax residence is the country/jurisdiction in which you live. Special circumstances may cause you to be resident elsewhere or resident in more than one country/jurisdiction at the same time (dual residency). For more information on tax residence, please consult your tax adviser or the information at the OECD automatic exchange of information portal mentioned above.

- **"TIN"** (including "functional equivalent") means Taxpayer Identification Number or a functional equivalent in the absence of a TIN. A TIN is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an Entity and used to identify the individual or Entity for the purposes of administering the tax laws of such jurisdiction. Further details of acceptable TINs can be found at the following link <https://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-identification-numbers>.

Some jurisdictions do not issue a TIN. However, these jurisdictions often utilize some other high integrity number with an equivalent level of identification (a "functional equivalent"). Examples of that type of number include, for Entities, a Business/company registration code/number.

- **"US Person"** refers to a US Person as defined in Section 7701 (a) (30) of the Internal Revenue Code and includes an individual who is a citizen or resident of the US.
- **"Trustee"** refers to the Trustee of the Fund as stated in the Master Prospectus(es) / Prospectus(es) and its Supplementary(ies) (if any).

### LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-

- The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
- You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.
- Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
- This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take the loan. If you have doubts in respect of any aspect of this Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

### 1. FUND INFORMATION

#### 1.1 RHB Equity Trust

##### 1.1.1 Fund Category

Equity fund.

##### 1.1.2 Financial Year End

31 December.

##### 1.1.3 Name of Trustee

HSBC (Malaysia) Trustee Berhad.

##### 1.1.4 Investment Objective

This Fund aims to provide investors with capital growth through investments in stocks with high growth potential over a medium to long term\* period.

Any material change to the investment objective of this Fund requires the Unit Holders' approval.

\*Note: "medium to long term" in this context refers to a period of between 3 – 7 years.

##### 1.1.5 Investment Strategy

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

90% - 98% of Net Asset Value

- Investments in securities of companies that have good growth potential. In managing these investments, the Fund may invest up to 50% of the Net Asset Value in Asia ex-Japan markets.

2% - 10% of Net Asset Value

- Investments in liquid assets including bonds, money market instruments and deposits with financial institutions.

Subject to the range stipulated above, the asset allocation will be reviewed from time to time depending on the judgement of the Manager as to the general market and economic conditions. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities. Specific risks associated with such securities and investments are as elaborated in section 2.2.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk, will always take into consideration the reference benchmark as well as its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on the risk-reward principle.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors, countries and asset classes and/or type of investments (i.e. equity, fixed income, money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full

growth potential of an investment is deemed to have been reduced over a prolonged rise in equity value and other available equity investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to these permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with any financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments (structured deposits) and (where applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions. In its reallocation, the level of equity investments would normally not be below 20% of the Net Asset Value.

The performance of this Fund cannot be compared directly with any specific publicly available benchmark such as the FBM KLCI or the MSCI AC Asia Ex-Japan Index as the Fund may invest up to 50% of its Net Asset Value in securities of foreign markets. As such, a benchmark comprising 70% of the performance of the FBM KLCI and 30% of the MSCI AC Asia Ex-Japan Index is used for comparative purposes as it best reflects the Fund's underlying investments. For ease of reference, investors may refer to local newspapers, Bloomberg L.P or the MSCI website ([www.msci.com](http://www.msci.com)) for these indicators. Unit Holders can obtain information on the composite benchmark from the Manager upon request. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

### **1.1.6 Investment in Unlisted Securities**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. Such investments shall not include:

- (a) Equities not listed for trading in a stock market of a stock exchange but have been approved for such listing and offered directly to the Fund by the issuer;
- (b) Debentures traded on an organised over-the-counter ("OTC") market; and
- (c) Structured products.

The Fund's investments in unlisted securities (if any) shall always be subject to the restriction stipulated in section 1.1.13 (a).

### **1.1.7 Collective Investment Schemes**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the target fund is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines on Unit Trust Funds issued by the Securities Commission. The Fund's investments in collective investment schemes (if any) shall always be subject to the restrictions stipulated in section 1.1.13 (g) and (m).

### **1.1.8 Financial Derivatives**

The Manager may participate in futures contracts and other financial derivatives, when appropriate. The category of financial derivatives to be participated in shall be stock index futures contracts,

stock index options contracts, single stock futures contracts, forwards and swaps or any other categories and/or types of futures contracts or financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in financial derivatives is basically to hedge the portfolio from any unexpected price movement in the underlying market and also the portfolio's exposure to foreign currency as well as to hedge against any opportunity loss arising from its uninvested cash. The benefit of any upside of price movement in the underlying market or currency movement is limited as the primary interest is to protect the value of the portfolio and to manage risks in relation to the benchmark. Nonetheless, the Fund may also invest in financial derivatives for investment purpose to enhance the returns of the Fund. If the Fund were to invest in over-the-counter ("OTC") derivatives, the Manager will monitor the credit rating of the counterparty issuing the derivatives and dispose off the derivatives should the rating of the said derivative counterparty fall below the credit rating of A by RAM Rating Services Berhad or its equivalent rating by a reputable rating establishment. If the Fund does invest in derivatives, there may be a likelihood that the NAV per unit of the Fund may be subject to high volatility. The Fund's investments in financial derivatives (if any) shall always be subject to the restrictions stipulated in section 1.1.13 (f) and (i).

### **1.1.9 Structured Products**

The Manager may also invest in structured products where the Manager expects those investments to complement the objective and enhance the performance of this Fund. The Fund's investments in structured products (if any) shall always be subject to the restrictions stipulated in section 1.1.13 (f) and (h).

### **1.1.10 Foreign Securities**

The Fund may invest up to 50% (or such other percentage as may be permitted by the relevant authorities from time to time) of the Net Asset Value in securities of foreign markets where its regulatory authority is a member of the International Organization of Securities Commissions ("IOSCO").

The Fund will invest in securities/instruments listed on or traded in Asia ex Japan markets (such as Singapore, South Korea, Hong Kong, Thailand, Taiwan, Indonesia, China and India) including securities/instruments of Asia ex Japan companies that are listed on or traded in non-Asian markets (such as the New York Stock Exchange and the London Stock Exchange).

When investing in foreign markets which require prior permission or approval such as in the form of an investment licence or investor code or investor registration, the Fund has/will obtain such necessary permission or approval in order to invest in such markets.

In undertaking these foreign investments, the Manager may invest directly in equities and/or bonds, and/or may invest through other collective investment schemes (provided the investment mandate of the scheme complements the Fund's investment objective and other conditions as set out in section 1.1.7), where appropriate.

### **1.1.11 Liquid Assets**

The Manager in structuring this Fund's portfolio will maintain a minimum liquid assets level of 2% of the Net Asset Value for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. However, this does not preclude the Manager from lowering or raising the liquid assets level from the stipulated level to allow the Manager to react to the prevailing market conditions and to manage investment risks when circumstances warrant it.

This Fund shall not borrow in connection with its activities or lend any of its cash or investments unless permitted by the relevant laws pertaining to unit trust funds. However, the Fund may borrow cash on a temporary basis (i.e. not more than one month) from financial institutions to meet

redemption requests. Such borrowing shall not exceed ten (10) per cent of the Net Asset Value at the time the borrowing is incurred.

#### **1.1.12 Distribution Policy**

Consistent with the Fund's objective to achieve capital growth, distributions will therefore be of secondary importance. Distributions, if any, after deduction of taxation and expenses, are generally declared annually and will be reinvested.

#### **1.1.13 Permitted Investments and Restrictions**

This Fund may invest in securities traded on Bursa Malaysia or any other market considered as an Eligible Market, unlisted securities, collective investment schemes, securities/instruments in foreign markets, financial derivatives, structured products, liquid assets (including money market instruments and deposits with any financial institutions), participate in the lending of securities, and any other investments permitted by the Securities Commission from time to time.

- c) The value of the Fund's investments in transferable securities (i.e. equities, debentures and warrants) and money market instruments issued by any single issuer must not exceed fifteen (15) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.

- g) The value of the Fund's investments in units/shares of any collective investment scheme must not exceed twenty (20) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- h) The value of the Fund's investments in structured products issued by any single counter-party must not exceed fifteen (15) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time. This single counter-party limit may be exceeded if the counter-party has a minimum long-term rating that indicates very strong capacity for timely payment of financial obligations provided by any domestic or

global rating agency and the structured product has a capital protection feature. When this applies, the calculation of the aggregate value to determine compliance with item (f) should exclude the value of investments in structured product.

- i) The value of the Fund's OTC financial derivatives transactions with any single counter-party must not exceed ten (10) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time; and the Fund's exposure to the underlying assets (vide the derivatives) must not exceed the Fund's investment spread limits as stipulated in (b), (c), (d), (e), (f), (g) and (h) above. In addition, the Fund's net market exposure owing to its financial derivatives position must not exceed the Net Asset Value.
- j) The Fund's investments in transferable securities (other than debentures) must not exceed ten (10) per cent of the securities issued by any single issuer, or any other limit as may be prescribed by the Securities Commission from time to time.

- m) The Fund's investments in collective investment schemes must not exceed twenty five (25) per cent of the units/shares in any one collective investment scheme, or any other limit as may be prescribed by the Securities Commission from time to time.

The limits and restrictions mentioned herein must be complied with at all times based on the most up-to-date value of the Fund's investments. However, a 5% allowance in excess of the limits or restrictions is permitted where the limits or restrictions is breached through an appreciation or depreciation of the Net Asset Value (whether as a result of an appreciation or depreciation of the investments or as a result of repurchase of units of the Fund or payment made from the Fund). The Manager will not make any further acquisitions to which the relevant limit is breached, and the Manager will within a reasonable period of not more than three (3) months from the date of the breach take all necessary steps and actions to rectify the breach. Such limits and restrictions however, do not apply to securities / instruments that are issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

In addition to the limits and restrictions mentioned above which apply to this particular Fund, the Manager has further imposed an internal restriction on certain Funds under its management whereby the total holding by those Funds of any class of security of any single issuer should not exceed in aggregate ten (10) per cent of the security issued. This Fund is subject to the said internal restriction. Any increase beyond this percentage requires the approval of the members of the Fund's investment committee.

### **1.2.6 Investment in Unlisted Securities**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. Such investments shall not include:

- (a) Equities not listed for trading in a stock market of a stock exchange but have been approved for such listing and offered directly to the Fund by the issuer;
- (b) Debentures traded on an organised over-the-counter ("OTC") market; and
- (c) Structured products.

The Fund's investments in unlisted securities (if any) shall always be subject to the restriction stipulated in section 1.2.13 (a).

### **1.2.7 Collective Investment Schemes**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the target fund is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines on Unit Trust Funds issued by the Securities Commission. The Fund's investments in collective investment schemes (if any) shall always be subject to the restrictions stipulated in section 1.2.13 (g) and (m).

### **1.2.8 Financial Derivatives**

The Manager may participate in futures contracts and other financial derivatives, when appropriate. The category of financial derivatives to be participated in shall be stock index futures contracts, stock index options contracts, single stock futures contracts, forwards and swaps, or any other categories and/or types of futures contracts or financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in financial derivatives is basically to hedge the portfolio from any unexpected price movement in the underlying market and also the portfolio's exposure to foreign currency as well as to hedge against any opportunity loss arising from its uninvested cash. The benefit of any upside of price movement in the underlying market or

currency movement is limited as the primary interest is to protect the value of the portfolio and to manage risks in relation to the benchmark. Nonetheless, the Fund may also invest in financial derivatives for investment purpose to enhance the returns of the Fund. If the Fund were to invest in over-the-counter (“OTC”) derivatives, the Manager will monitor the credit rating of the counterparty issuing the derivatives and dispose off the derivatives should the rating of the said derivative counterparty fall below the credit rating of A by RAM Rating Services Berhad or its equivalent rating by a reputable rating establishment. If the Fund does invest in derivatives, there may be a likelihood that the NAV per unit of the Fund may be subject to high volatility. The Fund’s investments in financial derivatives (if any) shall always be subject to the restrictions stipulated in section 1.2.13 (f) and (i).

### **1.2.9 Structured Products**

The Manager may also invest in structured products where the Manager expects those investments to complement the objective and enhance the performance of this Fund. The Fund’s investment in structured product (if any) shall always be subject to the restrictions stipulated in section 1.2.13 (f) and (h).

### **1.2.10 Foreign Securities**

The Manager may invest up to 30% of the Net Asset Value in securities of foreign markets where its regulatory authority is a member of the International Organization of Securities Commissions (“IOSCO”).

The Fund will invest in securities/instruments listed on or traded in Asia Pacific ex Japan markets (such as Australia, China, Hong Kong SAR, India, Indonesia, New Zealand, Philippines, Singapore, Vietnam, South Korea, Sri Lanka, Taiwan and Thailand) including securities/instruments of Asia Pacific ex Japan companies that are listed on or traded in non-Asia Pacific ex Japan markets (such as the New York Stock Exchange and the London Stock Exchange) and/or securities/instruments issued and/or guaranteed by governments or quasi-government agencies.

When investing in foreign markets which require prior permission or approval such as in the form of an investment licence or investor code or investor registration, the Fund has/will obtain such necessary permission or approval in order to invest in such markets.

In undertaking these foreign investments, the Manager may invest directly in equities and/or fixed income securities, and/or may invest through other collective investment schemes (provided the investment mandate of the scheme complements the Fund's investment objective and other conditions as set out in section 1.2.7), where appropriate.

### **1.2.11 Liquid Assets**

The Manager in structuring this Fund’s portfolio will maintain a minimum liquid assets level of 2% of the Net Asset Value for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. However, this does not preclude the Manager from lowering or raising the liquid assets level from the stipulated level to allow the Manager to react to the prevailing market conditions and to manage investment risks when circumstances warrant it.

This Fund shall not borrow in connection with its activities or lend any of its cash or investments unless permitted by the relevant laws pertaining to unit trust funds. However, the Fund may borrow cash on a temporary basis (i.e. not more than one (1) month) from financial institutions to meet redemption requests. Such borrowing shall not exceed ten (10) per cent of the Net Asset Value at the time the borrowing is incurred.

### 1.2.12 Distribution Policy

Consistent with the Fund's objective to achieve capital growth, distributions will therefore be of secondary importance. Distributions, if any, after deduction of taxation and expenses, are generally declared annually and will be reinvested.

### 1.2.13 Permitted Investments and Restrictions

This Fund may invest in securities traded on Bursa Malaysia or any other market considered as an Eligible Market, unlisted securities, collective investment schemes, financial derivatives, structured products, liquid assets (including money market instruments and deposits with any financial institutions), participate in the lending of securities, and any other investments permitted by the Securities Commission from time to time.

The acquisition of such permitted investments is subject to the following restrictions:

- a) The value of the Fund's investments in unlisted securities must not exceed ten (10) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- b) The value of the Fund's investments in ordinary shares issued by any single issuer must not exceed ten (10) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- c) The value of the Fund's investments in transferable securities (i.e. equities, debentures and warrants) and money market instruments issued by any single issuer must not exceed fifteen (15) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- d) The value of the Fund's placement in deposits with any single financial institution must not exceed twenty (20) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- e) The value of the Fund's investments in transferable securities and money market instruments issued by any group of companies must not exceed twenty (20) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- f) The aggregate value of the Fund's investments in transferable securities, money market instruments, deposits, over-the-counter ("OTC") financial derivatives and structured products issued by or placed with, as the case may be any single issuer/institution must not exceed twenty five (25) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- g) The value of the Fund's investments in units/shares of any collective investment scheme must not exceed twenty (20) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- h) The value of the Fund's investments in structured products issued by any single counter-party must not exceed fifteen (15) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time. This single counter-party limit may be exceeded if the counter-party has a minimum long-term rating that indicates very strong capacity for timely payment of financial obligations provided by any domestic or global rating agency and the structured product has a capital protection feature. When this applies, the calculation of the aggregate value to determine compliance with item (f) should exclude the value of investments in structured products.

- i) The value of the Fund's OTC financial derivatives transactions with any single counter-party must not exceed ten (10) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time; and the Fund's exposure to the underlying assets (vide the derivatives) must not exceed the Fund's investment spread limits as stipulated in (b), (c), (d), (e), (f), (g) and (h) above. In addition, the Fund's net market exposure owing to its financial derivatives position must not exceed the Net Asset Value.
- j) The Fund's investments in transferable securities (other than debentures) must not exceed ten (10) per cent of the securities issued by any single issuer, or any other limit as may be prescribed by the Securities Commission from time to time.
- k) The Fund's investments in debentures must not exceed twenty (20) per cent of the debentures issued by any single issuer, or any other limit as may be prescribed by the Securities Commission from time to time.
- l) The Fund's investments in money market instruments must not exceed ten (10) per cent of the instruments issued by any single issuer, or any other limit as may be prescribed by the Securities Commission from time to time. Such limit does not apply to money market instruments that do not have a pre-determined issue size.
- m) The Fund's investments in collective investment schemes must not exceed twenty five (25) per cent of the units/shares in any one collective investment scheme, or any other limit as may be prescribed by the Securities Commission from time to time.

The limits and restrictions mentioned herein must be complied with at all times based on the most up-to-date value of the Fund's investments. However, a 5% allowance in excess of the limits or restrictions is permitted where the limits or restrictions is breached through an appreciation or depreciation of the Net Asset Value (whether as a result of an appreciation or depreciation of the investments, or as a result of repurchase of units of the Fund or payment made from the Fund). The Manager will not make any further acquisitions to which the relevant limit is breached, and the Manager will within a reasonable period of not more than three (3) months from the date of the breach take all necessary steps and actions to rectify the breach. Such limits and restrictions however, do not apply to securities/instruments that are issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

In addition to the limits and restrictions mentioned above which apply to this particular Fund, the Manager has further imposed an internal restriction on certain Funds under its management whereby the total holding by those Funds of any class of security of any single issuer should not exceed in aggregate ten (10) per cent of the security issued. This Fund is subject to the said internal restriction. Any increase beyond this percentage requires the approval of the members of the Fund's investment committee.

**1.3 RHB KidSave Trust**

**1.3.1 Fund Category**

Balanced fund.

**1.3.2 Financial Year End**

31 March.

**1.3.3 Name of Trustee**

HSBC (Malaysia) Trustee Berhad.

**1.3.4 Investment Objective**

This Fund aims to maximise total returns through a combination of long term\* growth of capital and current income^ consistent with the preservation of capital#.

Any material change to the investment objective of this Fund requires the Unit Holders' approval.

Note: \* "long term" in this context refers to a period of between 5 – 7 years.

^ The income is in the form of units. Please refer to the Fund's distribution mode.

# Although the Fund aims to preserve its value, the Fund is not a capital guaranteed fund or a capital protected fund.

**1.3.5 Investment Strategy**

This Fund seeks to achieve its investment objective through a policy of diversified investment in equities and fixed income securities (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB ratings by RAM Rating Services Berhad or its equivalent rating by any other rating establishment and fixed income collective investment schemes), money market instruments, cash and deposits with financial institutions. Specific risks associated with such securities and investments are as elaborated in section 2.2.

This Fund will generally adopt a 50% equities and 50% fixed income securities asset allocation strategy. Given this balanced asset mix, the fixed income portion of the Fund's portfolio could provide a buffer to mitigate the adverse effect on the Fund's portfolio arising from volatile price movements in the stock market whilst the equity portion of the Fund would enable the Fund to enjoy part of the appreciation from growth in the stock market. However, the actual percentage of assets invested in equities and fixed income securities will vary from time to time, depending on the judgement of the Manager as to the general market and economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. In reviewing this asset allocation strategy, the Fund's asset mix would normally range from 40% to 60% in equities and from 40% to 60% in fixed income securities to reflect the market conditions but subject always to a minimum allocation of 40% in equities and 40% in fixed income securities. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or

type of investments (i.e. equity, fixed income, money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with any financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments (structured deposits) and (where applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions. In its reallocation, the level of equity investments would not fall below 20% of the Net Asset Value.

The performance of this Fund cannot be compared directly with any specific publicly available benchmark such as the FBM KLCI, the FTSE Bursa Malaysia EMAS Index nor the Kuala Lumpur Interbank Offered Rate (KLIBOR) as the Fund is a balanced fund where investment in equities and fixed income securities are each restricted to a maximum of 60%. As such, a benchmark comprising 50% of the performance of the FBM KLCI and 50% of the 12-month KLIBOR is used for comparative purpose which is reflective of the Fund's underlying investments. For ease of reference, investors may refer to local newspapers for these indicators. Unit Holders can obtain information on the composite benchmark from the Manager upon request. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

If the Fund does invest in derivatives, there may be a likelihood that the NAV per unit of the Fund may be subject to high volatility. When investing in foreign markets which require prior permission or approval such as in the form of an investment licence or investor code or investor registration, the Fund has/will obtain such necessary permission or approval in order to invest in such markets.

In undertaking these foreign investments, the Manager may invest directly in equities and/or fixed income securities, and/or may invest through other collective investment schemes (provided the investment mandate of the scheme complements the Fund's investment objective and other conditions as set out in section 1.3.7), where appropriate.

**1.3.11 Liquid Assets**

The Manager in structuring this Fund's portfolio will maintain a minimum liquid assets level of 2% of the Net Asset Value for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. However, this does not preclude the Manager from lowering or raising the

liquid assets level from the stipulated level to allow the Manager to react to the prevailing market conditions and to manage investment risks when circumstances warrant it.

### **1.4 RHB KLCI Tracker Fund**

#### **1.4.1 Fund Category**

Equity / Index Tracking fund.

#### **1.4.2 Financial Year End**

31 March.

#### **1.4.3 Name of Trustee**

HSBC (Malaysia) Trustee Berhad.

#### **1.4.4 Investment Objective**

This Fund aims to provide investment results that closely correspond to the performance of the Kuala Lumpur Composite Index or such other index as may be replaced by Bursa Malaysia Securities Berhad.

Any material change to the investment objective of this Fund requires the Unit Holders' approval.

Note: Effective 6 July 2009, Bursa Malaysia Securities Berhad replaced the KLCI with the FBM KLCI.

#### **1.4.5 Investment Strategy**

This Fund seeks to achieve its investment objective by investing all or substantially all of the Fund's assets in the FBM KLCI component stocks in substantially the same weightings as they appear in the FBM KLCI.

The FBM KLCI is an index that provides a performance benchmark for the Malaysian equity market by reflecting the performance of listed companies that are representative of the major sectors in the Malaysian economy. The FBM KLCI is an index of the thirty (30) largest companies listed on the Main Market by full market capitalisation that meet the eligibility requirements of the FTSE Bursa Malaysia Ground Rules. The FBM KLCI index is calculated by FTSE based on its own specific calculation methodology and rules. Therefore, any error or non-adherence to these calculation methodology and rules may affect the accuracy and/or completeness of the FBM KLCI Index computation. Investors may obtain more information about the FBM KLCI's calculation methodology and rules from Bursa Malaysia's website: [www.bursamalaysia.com](http://www.bursamalaysia.com).

Generally, the Fund will invest in all of the thirty (30) component stocks of the FBM KLCI. To the extent consistent with achieving its investment objective, the Fund may also participate in FBM KLCI futures. Although this Fund is passively managed, the investments in the Fund will be rebalanced from time to time to reflect any changes to the composition of or the weightings of shares in the FBM KLCI. Accordingly, a daily analysis of the portfolio is conducted to ensure that:

- Tracking errors are within expectations;
- Stocks continue to be within the perimeters of the FBM KLCI component stocks;
- Investment weightings are within the tolerance limit, otherwise rebalancing of the portfolio is required; and
- Cash is properly hedged.

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

90% - 99.5% of Net Asset Value

- Investments in the FBM KLCI component stocks.

0% - 10% of Net Asset Value

- Participation in financial derivatives.

0.5% - 10% of Net Asset Value

- Investments in liquid assets including money market instruments and deposits with any financial institutions.

Specific risks associated with such securities and investments are as elaborated in section 2.2.

Tracking errors against the benchmark FBM KLCI may occur due to the necessity of the Fund to set aside some liquid funds which would otherwise be invested to achieve 100% weightage. Another contributing factor to the tracking errors are the fees and expenses payable by the Fund and transaction costs incurred in rebalancing the portfolio. As such, the risk management strategies and techniques employed by the Manager include the use of financial derivatives to replicate the benchmark FBM KLCI and the constant rebalancing of the portfolio. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The performance of this Fund is therefore benchmarked against the FBM KLCI which the Fund seeks to track. For ease of reference, investors may refer to local newspapers for this indicator.

### **1.4.6 Collective Investment Schemes**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the target fund is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines on Unit Trust Funds issued by the Securities Commission. The Fund's investments in collective investment schemes (if any) shall always be subject to the restrictions stipulated in section 1.4.12 (e) and (f).

### **1.4.7 Financial Derivatives**

The Manager intends to participate in futures contracts and other financial derivatives, when appropriate. The category of financial derivatives to be participated in shall be stock index futures contracts, stock index options contracts, single stock futures contracts, or any other categories and/or types of futures contracts or financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in financial derivatives will be used to replicate the benchmark FBM KLCI and also to minimise potential tracking error against the benchmark due to the necessity of the Fund to set aside some liquid funds which would otherwise be invested to achieve 100% weightage. The primary interest is to enhance correlation with the benchmark FBM KLCI. The Fund's net market exposure owing to its financial derivatives position must not exceed the Net Asset Value.

### **1.4.8 Foreign Securities**

The Manager will not invest in foreign securities as it is inconsistent with the objective of this Fund.

**1.4.9 Liquid Assets**

The Manager in structuring this Fund's portfolio will maintain a minimum liquid assets level of 0.5% of the Net Asset Value for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. However, this does not preclude the Manager from lowering or raising the liquid assets level from the stipulated level to allow the Manager to react to the prevailing market conditions and to manage investment risks when circumstances warrant it.

This Fund shall not borrow in connection with its activities or lend any of its cash or investments unless permitted by the relevant laws pertaining to unit trust funds. However, the Fund may borrow cash on a temporary basis (i.e. not more than one month) from financial institutions to meet redemption requests. Such borrowing shall not exceed ten (10) per cent of the Net Asset Value at the time the borrowing is incurred.

**1.5 RHB Dana Islam**

**1.5.1 Fund Category**

Equity fund (Shariah-compliant).

**1.5.2 Financial Year End**

31 March.

**1.5.3 Name of External Investment Manager**

RHB Islamic International Asset Management Berhad.

**1.5.4 Name of Trustee**

HSBC (Malaysia) Trustee Berhad.

**1.5.5 Investment Objective**

This Fund aims to provide investors with above average capital growth over a medium to long term period\* by investing in a carefully selected portfolio of stocks which complies with the Shariah principles.

Any material change to the investment objective of this Fund requires the Unit Holders' approval.

\*Note: "medium to long term" in this context refers to a period of between 3 – 7 years.

**1.5.6 External Investment Manager**

In managing this Fund, the Manager has delegated the investment management function of the Fund to RHB Islamic International Asset Management Berhad who will manage the assets of this Fund in accordance with the investment objective of the Fund, the Deed, subject to the Capital Markets and Services Act 2007 and the Guidelines on Unit Trust Funds issued and updated from time to time by the Securities Commission, as well as the internal policies and procedures of the Manager.

**1.5.7 Investment Strategy**

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

90% - 98% of Net Asset Value

- Investments in Shariah-compliant equity and equity related securities of companies that have good growth potential.

2% - 10% of Net Asset Value

- Investments in Shariah-compliant liquid assets comprising of cash and Islamic deposits with financial institutions, Islamic accepted bills, sukuk, cagamas sukuk, Government Investment Issues and any other Shariah-compliant instrument capable of being converted into cash within seven (7) days.

Subject to the range stipulated above, the asset allocation will be reviewed from time to time depending on the judgement of the External Investment Manager as to the general market and economic conditions. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities. Specific risks associated with such Shariah-compliant securities and investments are as elaborated in section 2.2.

For investments in foreign markets, the External Investment Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the External Investment Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. Shariah-compliant equity, sukuk, Islamic money market instruments). Islamic financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the Shariah-compliant investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in Shariah-compliant equity values, and other available Shariah-compliant equity investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to these permitted investments and restrictions also helps the External Investment Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the External Investment Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The External Investment Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. However, any position if taken, will always comply with Shariah requirements. In such circumstances, the External Investment Manager may reallocate the Fund's Shariah-compliant equity investments into other asset classes such as sukuk, Islamic money market instruments and Islamic deposits with any financial institutions<sup>^</sup>, which are defensive in nature and comply with Shariah requirements. In its reallocation, the level of Shariah-compliant equity investments would normally not be below 20% of the Net Asset Value.

<sup>^</sup> These are Islamic deposits that are not embedded with or linked to financial derivative instruments (structured deposits) and (where applicable) these are current accounts, short term Islamic money market deposits and short term Islamic deposits with financial institutions.

The performance of this Fund is benchmarked against the FTSE Bursa Malaysia EMAS Shariah Index which reflects the Fund's Shariah-compliant investments and also the broad Shariah-compliant equities mandate. For ease of reference, investors may refer to the local newspapers for this indicator. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

### **1.5.8 Investment in Unlisted Shariah-compliant Securities**

The External Investment Manager will only make such investments where the External Investment Manager expects those investments to complement the objective and enhance the performance of this Fund. Such investments shall not include:

- (a) Shariah-compliant equities not listed for trading in a stock market of a stock exchange but have been approved for such listing and offered directly to the Fund by the issuer;
- (b) sukuk traded on an organised over-the-counter ("OTC") market; and
- (c) Islamic structured products.

The Fund's investments in unlisted Shariah-compliant securities (if any) shall always be subject to the restriction stipulated in section 1.5.14 (a).

**1.5.9 Islamic Collective Investment Schemes**

The External Investment Manager will only make such investments where the External Investment Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the External Investment Manager will only make such investments if the target fund is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines on Unit Trust Funds issued by the Securities Commission. The Fund's investments in Islamic collective investment schemes (if any) shall always be subject to the restrictions stipulated in section 1.5.14 (g) and (m).

**1.5.10 Islamic Financial Derivatives**

The External Investment Manager may participate in Shariah-compliant currency forwards, swaps and other Islamic financial derivatives, when appropriate. The Fund's participation in Islamic financial derivatives is basically to hedge the portfolio from any unexpected price movement in the underlying market and also the portfolio's exposure to foreign currency. Such participation in Islamic financial derivatives shall commence only if the underlying financial instrument complies with Shariah requirements. The benefit of any upside of price movement in the underlying market or currency movement is limited as the primary interest is to protect the value of the portfolio. If the Fund were to participate in over-the-counter ("OTC") Islamic financial derivatives, the External Investment Manager will monitor the credit rating of the counterparty issuing the Islamic financial derivatives and dispose off the Islamic financial derivatives should the rating of the said Islamic financial derivative counterparty fall below the credit rating of A by RAM Rating Services Berhad or its equivalent rating by a reputable rating establishment. The Fund's participation in Islamic financial derivatives (if any) shall always be subject to the restriction stipulated in section 1.5.14 (f) and (i).

**1.5.11 Foreign Shariah-compliant Securities**

The External Investment Manager may invest up to 30% of the Net Asset Value in Shariah-compliant securities of foreign markets provided the securities are reviewed and designated as Shariah-compliant by the Shariah Adviser and the foreign market to be invested in is a foreign market where its regulatory authority is a member of the International Organization of Securities Commissions ("IOSCO") and/or securities / instruments issued and/or guaranteed by governments or quasi-government agencies.

The Fund will invest in Shariah-compliant securities / instruments listed on or traded in Asia Pacific ex Japan markets (such as Australia, China, Hong Kong SAR, India, Indonesia, New Zealand, Philippines, Singapore, Vietnam, South Korea, Sri Lanka, Taiwan and Thailand) including Shariah-compliant securities / instruments of Asia Pacific ex Japan companies that are listed on or traded in non-Asia Pacific ex Japan markets (such as the New York Stock Exchange and the London Stock Exchange) and/or Shariah-compliant securities / instruments issued and/or guaranteed by governments or quasi government agencies.

When investing in foreign markets which require prior permission or approval such as in the form of an investment license or investor code or investor registration, the Fund has/will obtain such necessary permission or approval in order to invest in such markets.

In undertaking these foreign investments, the External Investment Manager may invest directly in Shariah-compliant equities and/or sukuk, and/or may invest through other Islamic collective investment schemes (provided the investment mandate of the scheme complements the Fund's investment objective and other conditions as set out in section 1.5.9), where appropriate.

**1.5.12 Shariah-compliant Liquid Assets**

The External Investment Manager in structuring this Fund's portfolio will maintain a minimum Shariah-compliant liquid assets level of 2% of the Net Asset Value for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. However, this does not preclude the External Investment Manager from lowering or raising the Shariah-compliant liquid assets level from the stipulated level to allow the External Investment Manager to react to the prevailing market conditions and to manage investment risks when circumstances warrant it.

This Fund shall not source for financing in connection with its activities or provide financing on any of its cash or Shariah-compliant investments unless permitted by the relevant laws pertaining to unit trust funds. However, the Fund may seek an Islamic financing facility on a temporary basis (i.e. not more than one (1) month) from financial institutions to meet redemption requests. Such financing facility shall not exceed ten (10) per cent of the Net Asset Value at the time the facility is incurred.

**1.5.13 Distribution Policy**

Consistent with the Fund's objective to achieve capital growth, distributions will therefore be of secondary importance. Distributions, if any, after deduction of taxation and expenses, are generally declared annually and will be reinvested.

**1.5.14 Permitted Investments and Restrictions**

This Fund may invest or participate in Shariah-compliant securities traded on the Bursa Malaysia or any other market considered as an Eligible Market, unlisted Shariah-compliant securities, Islamic collective investment schemes, Islamic financial derivatives, Islamic structured products, Shariah-compliant liquid assets (including Islamic money market instruments and Islamic deposits with any financial institutions), participate in the lending of Shariah-compliant securities that complies with Shariah requirements, and any other Shariah-compliant investments permitted by the SACSC and/or the Shariah Adviser from time to time. The acquisition of such permitted investments is subject to the following restrictions:

- c) The value of the Fund's Shariah-compliant investments in transferable Shariah-compliant securities (i.e. Shariah-compliant equities, sukuk and Shariah-compliant warrants) and Islamic money market instruments issued by any single issuer must not exceed fifteen (15) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.
- d) The value of the Fund's placement in Islamic deposits with any single financial institution must not exceed twenty (20) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.

exceed twenty (20) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.

- f) The aggregate value of the Fund's Shariah-compliant investments or participation in transferable Shariah-compliant securities, Islamic money market instruments, Islamic deposits, over-the-counter ("OTC") Islamic financial derivatives and Islamic structured products issued by or placed with, as the case may be any single issuer/institution must not exceed twenty five (25) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.

- h) The value of the Fund's Shariah-compliant investments in Islamic structured products issued by any single counter-party must not exceed fifteen (15) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time. This single counter-party limit may be exceeded if the counter-party has a minimum long-term rating that indicates very strong capacity for timely payment of financial obligations provided by any domestic or global rating agency and the Islamic structured product has a capital protection feature. When this applies, the calculation of the aggregate value to determine compliance with item (f) should exclude the value of investments in Islamic structured products.

The limits and restrictions mentioned herein must be complied with at all times based on the most up-to-date value of the Fund's Shariah-compliant investments. However, a 5% allowance in excess of the limits or restrictions is permitted where the limits or restrictions is breached through an appreciation or depreciation of the Net Asset Value (whether as a result of an appreciation or depreciation of the Shariah-compliant investments, or as a result of repurchase of units of the Fund or payment made from the Fund). The performance of this Fund is benchmarked against the 12-month fixed deposit rate published by Maybank. The benchmark selected is reflective of the Fund's investment objective. For ease of

reference, investors may refer to Maybank's website, [www.maybank2u.com.my](http://www.maybank2u.com.my) for this indicator. #### **1.6.6 Collective Investment Schemes**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the target fund is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines on Unit Trust Funds issued by the Securities Commission. The Fund's participation in financial derivatives is basically to hedge the portfolio from any unexpected interest rate movement in the underlying fixed income market and also the portfolio's exposure to foreign currency as well as to hedge against any opportunity loss arising from its uninvested cash. The benefit of any upside of interest rate movement in the underlying fixed income market or currency movement is limited as the primary interest is to protect the value of the portfolio. Nonetheless, the Fund may also invest in financial derivatives for investment purposes to enhance the returns of the Fund. If the Fund were to invest in over-the-counter ("OTC") derivatives, the Manager will monitor the credit rating of the counterparty issuing the derivatives and dispose off the derivatives should the rating of the said derivative counterparty fall below the credit rating of A by RAM Rating Services Berhad or its equivalent rating by a reputable rating establishment. If the Fund does invest in derivatives, there may be a likelihood that the NAV per unit of the Fund may be subject to high volatility. The Fund's investments in financial derivatives (if any) shall always be subject to the restrictions stipulated in section 1.6.12 (f) and (j).

#### **1.6.8 Structured Products**

This single counter-party limit may be exceeded if the counter-party has a minimum long-term rating that indicates very strong capacity for timely payment of financial obligations provided by any domestic or global rating agency and the structured product has a capital protection feature. When this applies, the calculation of the aggregate value to determine compliance with item (f) should exclude the value of investment in structured products.
- j) The value of the Fund's OTC financial derivatives transactions with any single counter-party must not exceed ten (10) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time; and the Fund's exposure to the underlying assets (vide the derivatives) must not exceed the Fund's investment spread limits as stipulated in (a), (b), (c), (e), (f), (g) and (i). In addition, the Fund's net market exposure owing to its financial derivatives positions must not exceed the Net Asset Value.

The limits and restrictions mentioned herein must be complied with at all times based on the most up-to-date value of the Fund's investments. However, a 5% allowance in excess of the limits or restrictions is permitted where the limits or restrictions is breached through an appreciation or depreciation of the Net Asset Value (whether as a result of an appreciation or depreciation of the investments, or as a result of repurchase of units of the Fund or payment made from the Fund). The Manager will not make any further acquisitions to which the relevant limit is breached, and the Manager will within a reasonable period of not more than three (3) months from the date of the breach take all necessary steps and actions to rectify the breach. Such limits and restrictions however, do not apply to securities / instruments that are issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

**1.7 RHB Emerging Opportunity Unit Trust**

**1.7.1 Fund Category**

Equity fund.

**1.7.2 Financial Year End**

31 March.

**1.7.3 Name of Trustee**

HSBC (Malaysia) Trustee Berhad.

**1.7.4 Investment Objective**

This Fund aims to achieve superior long term\* capital appreciation through investments in companies with high growth potential.

Any material change to the investment objective of this Fund requires the Unit Holders' approval.

\*Note: "long term" in this context refers to a period of between 5 -7 years.

**1.7.5 Investment Strategy**

This Fund seeks to achieve its investment objective by structuring a portfolio as follows:

95% - 98 % of Net Asset Value

- Investments in securities of companies with market capitalisation of not more than RM1.50 billion.

2% - 5% of Net Asset Value

- Investments in liquid assets including bonds, money market instruments and deposits with financial institutions.

The above mentioned restriction on market capitalisation is determined at the point of purchase. Subject to the range stipulated above, the asset allocation will be reviewed from time to time depending on the judgement of the Manager as to the general market and economic conditions. Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities. Specific risks associated with such securities and investments are as elaborated in section 2.2.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of this Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. equity, fixed income, money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in equity value and other available equity investments may present cheaper valuations and potential higher returns. The Fund

also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with any financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments (structured deposits) and (where applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions. In its reallocation, the level of equity investments would normally not be below 20% of the Net Asset Value.

The performance of this Fund is benchmarked against the FBM Small Cap Index. The benchmark selected is reflective of the Fund's underlying investments. For ease of reference, investors may refer to local newspapers for this indicator. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark.

### **1.7.6 Investment in Unlisted Securities**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. Such investments shall not include:

- (a) Equities not listed for trading in a stock market of a stock exchange but have been approved for such listing and offered directly to the Fund by the issuer;
- (b) Debentures traded on an organised over-the-counter (OTC) market; and
- (c) Structured products.

The Fund's investments in unlisted securities (if any) shall always be subject to the restriction stipulated in section 1.7.13 (a).

### **1.7.7 Collective Investment Schemes**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the target fund is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines on Unit Trust Funds issued by the Securities Commission. The Fund's investments in collective investment schemes (if any) shall always be subject to the restrictions stipulated in section 1.7.13 (g) and (m).

### **1.7.8 Financial Derivatives**

The Manager may participate in futures contracts and other financial derivatives, when appropriate. The category of financial derivatives to be participated in shall be stock index futures contracts, stock index options contracts, single stock futures contracts or any other categories and/or types of futures contracts or financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in financial derivatives is basically to hedge the portfolio from any unexpected price movement in the underlying market and also the portfolio's exposure to foreign currency as well as to hedge against any opportunity loss arising from its uninvested cash. The benefit of any upside of price movement in the underlying market or currency movement is limited as the primary interest is to protect the value of the portfolio and to manage risks in relation to the

benchmark. Nonetheless, the Fund may also invest in financial derivatives for investment purpose to enhance the returns of the Fund. If the Fund were to invest in over-the-counter (“OTC”) derivatives, the Manager will monitor the credit rating of the counterparty issuing the derivatives and dispose off the derivatives should the rating of the said derivative counterparty fall below the credit rating of A by RAM Rating Services Berhad or its equivalent rating by a reputable rating establishment. If the Fund does invest in derivatives, there may be a likelihood that the NAV per unit of the Fund may be subject to high volatility. The Fund’s investments in financial derivatives (if any) shall always be subject to the restrictions stipulated in section 1.7.13 (f) and (i).

#### **1.7.9 Structured Products**

The Manager may also invest in structured products where the Manager expects those investments to complement the objective and enhance the performance of this Fund. The Fund’s investment in structured product (if any) shall always be subject to the restrictions stipulated in section 1.7.13 (f) and (h).

#### **1.7.10 Foreign Securities**

The Manager may invest up to 30% of the Net Asset Value in securities of foreign markets where its regulatory authority is a member of the International Organization of Securities Commissions (“IOSCO”).

The Fund will invest in securities / instruments listed on or traded in Asia Pacific ex Japan markets (such as Australia, China, Hong Kong SAR, India, Indonesia, New Zealand, Philippines, Singapore, Vietnam, South Korea, Sri Lanka, Taiwan and Thailand) including securities / instruments of Asia Pacific ex Japan companies that are listed on or traded in non-Asia Pacific ex Japan markets (such as the New York Stock Exchange and the London Stock Exchange) and/or securities / instruments issued and/or guaranteed by governments or quasi-government agencies.

When investing in foreign markets which require prior permission or approval such as in the form of an investment licence or investor code or investor registration, the Fund has/will obtain such necessary permission or approval in order to invest in such markets.

In undertaking these foreign investments, the Manager may invest directly in equities and/or fixed income securities, and/or may invest through other collective investment schemes (provided the investment mandate of the scheme complements the Fund's investment objective and other conditions as set out in section 1.7.7), where appropriate.

#### **1.7.11 Liquid Assets**

The Manager in structuring this Fund’s portfolio will maintain a minimum liquid assets level of 2% of the Net Asset Value for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. However, this does not preclude the Manager from lowering or raising the liquid assets level from the stipulated level to allow the Manager to react to the prevailing market conditions and to manage investment risks when circumstances warrant it.

This Fund shall not borrow in connection with its activities or lend any of its cash or investments unless permitted by the relevant laws pertaining to unit trust funds. However, the Fund may borrow cash on a temporary basis (i.e. not more than one month) from financial institutions to meet redemption requests. Such borrowing shall not exceed ten (10) per cent of the Net Asset Value at the time the borrowing is incurred.

**1.7.12 Distribution Policy**

Consistent with the Fund's objective to achieve capital growth, distributions will therefore be of secondary importance. Distributions, if any, after deduction of taxation and expenses, are generally declared annually and will be reinvested.

**1.7.13 Permitted Investments and Restrictions**

This Fund may invest in securities traded on the Bursa Malaysia or any other market considered as an Eligible Market, unlisted securities, collective investment schemes, financial derivatives, structured products, liquid assets (including money market instruments and deposits with any financial institutions), participate in the lending of securities, and any other investments permitted by the Securities Commission from time to time.

This single counter-party limit may be exceeded if the counter-party has a minimum long-term rating that indicates very strong capacity for timely payment of financial obligations provided by any domestic or global rating agency and the structured product has a capital protection feature. When this applies, the calculation of the aggregate value to determine compliance with item (f) should exclude the value of investment in structured products.

- i) The value of the Fund's OTC financial derivatives transactions with any single counter-party must not exceed ten (10) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time; and the Fund's exposure to the underlying assets (vide the derivatives) must not exceed the Fund's investment spread limits as stipulated in (b), (c), (d), (e), (f), (g) and (h) above. Mixed asset fund.

#### 1.8.2 Financial Year End

31 December.

#### 1.8.3 Name of Trustee

HSBC (Malaysia) Trustee Berhad.

#### 1.8.4 Investment Objective

This Fund aims to achieve maximum total returns through a combination of long term\* growth of capital and current income^.

Any material change to the investment objective of this Fund requires the Unit Holders' approval.

Note: \* "long term" in this context refers to a period of between 5 – 7 years.

^ The income is in the form of units. Please refer to the Fund's distribution mode.

#### 1.8.5 Investment Strategy

This Fund seeks to achieve its investment objective through a policy of diversified investment in equities and quality fixed income securities. Specific risks associated with securities and investments are as elaborated in section 2.2.

This Fund's portfolio will comprise a blend of carefully selected investments in securities of companies with market capitalization of not more than RM750 million ("small cap securities"), quality fixed income securities (comprising amongst others of convertible debt securities, redeemable debt securities, bonds/securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB ratings by RAM Rating Services Berhad or its equivalent rating by any other rating establishment and fixed income collective investment schemes), money market instruments, cash and deposits with financial institutions, but subject always to a minimum allocation of 30% in small cap securities and 30% in fixed income securities, money market instruments, cash and deposits with financial institutions.

In reviewing this asset allocation strategy, the Fund's asset mix would normally range from 30% - 70% in small cap securities and 30% - 70% in fixed income securities, money market instruments, cash and deposits with financial institutions. Accordingly, this Fund will be able to have a maximum exposure to the equities market of up to 70% through investments in small cap securities whilst maintaining a minimum of 30% in fixed income securities to provide stability through diversification of the asset class. Similarly, this Fund can also invest up to 70% of its investments in fixed income securities whilst maintaining the minimum of 30% in small cap securities to diversify the portfolio and to provide capital growth. The restriction on market capitalisation mentioned above is determined at the point of purchase.

Given this asset mix, the Fund will be able to tap into varied market conditions in order to capitalise on any market opportunities. The actual percentage of assets invested in equities and fixed income securities will therefore vary from time to time, depending on the judgement of the Manager as to the general market and economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. Thus, although this Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of this Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. equity, fixed income, money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with any financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments (structured deposits) and (where applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions. In its reallocation, the level of equity investments would not fall below 10% of the Net Asset Value.

The performance of this Fund cannot be compared directly with any specific publicly available benchmark such as the FBM Fledgling Index nor the 12-month fixed deposit rate offered by financial institutions as the Fund's investments in equities and fixed income securities are restricted to a maximum of 70% each. As such, a benchmark comprising 50% of the performance of the FBM Fledgling Index and 50% of the 12-month fixed deposit rate published by Maybank is used for comparative purposes. The composite benchmark selected best reflects the Fund's underlying investments. For ease of reference, investors may refer to local newspapers or the Bursa Malaysia website at [www.bursamalaysia.com](http://www.bursamalaysia.com) for the index indicator and the Maybank website at [www.maybank2u.com.my](http://www.maybank2u.com.my) for the fixed deposits rates. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark. Unit Holders can obtain information on the composite benchmark from the Manager upon request.

In undertaking these foreign investments, the Manager may invest directly in equities and/or fixed income securities, and/or may invest through other collective investment schemes (provided the investment mandate of the scheme complements the Fund's investment objective and other conditions as set out in section 1.8.7), where appropriate.

### 1.8.11 Liquid Assets

The Manager in structuring this Fund's portfolio will maintain a minimum liquid assets level of 2% of the Net Asset Value for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. **1.9 RHB Thematic Growth Fund****1.9.1 Fund Category**

Mixed asset fund.

**1.9.2 Financial Year End**

31 December.

**1.9.3 Name of Trustee**

HSBC (Malaysia) Trustee Berhad.

**1.9.4 Investment Objective**

This Fund aims to provide investors with medium to long term\* capital appreciation through investments in securities of Malaysian companies that will benefit from evolving domestic and/or global trends.

Any material change to the investment objective of this Fund requires the Unit Holders' approval.

\*Note: "medium to long term" in this context refers to a period of between 3 - 7 years.

**1.9.5 Investment Strategy**

This Fund will focus on a minimum of three (3) themes from the evolving domestic and/or global trends identified by the Manager as having strong potential to outperform the benchmark return of 8.00% growth per annum in Net Asset Value of a unit. Hence, the name "Thematic Growth".

The Manager views Malaysia as dynamic, with a high-growth and rapidly expanding economy, undergoing long term structural changes. Depending on which stage of the economic cycle we are in, the Manager will look for the appropriate themes which the Manager will seek to take advantage of. For example, during periods of economic slowdown, the Manager will look for defensive themes such as high dividend yielding stocks and companies with sustainable earnings growth. Other themes would also include counter-cyclical sectors as well as mergers & acquisitions. Conversely, during economic up-cycles, the Manager will look for growth stocks, possibly in export oriented sectors (e.g., manufacturing, technology and electronics) as well as consumer discretionary like properties, automobiles and other luxury goods. The Manager's strategy is to identify the said themes in its early phase to capitalise on its growth. After identifying the most promising themes, the Manager will proceed to select companies with strong fundamentals and attractive valuations. Undervalued securities are uncovered through intensive and independent fundamental research.

Within a theme, the focus is generally on companies with

- a) sustainable business model;
- b) ability to expand locally and/or regionally;
- c) ability to deliver above average growth;
- d) consistently strong underlying profitability;
- e) reasonable valuations; and
- f) strong balance sheet.

The Manager will rebalance the asset allocation and stock selection and reposition the Fund accordingly to reap the benefits of the change in market dynamics, economic cycle and specific factors influencing each sector.

This Fund's portfolio will be structured as follows:

Up to 98% of Net Asset Value

- Investments in equity and equity-related securities of Malaysian companies that will benefit from evolving domestic and/or global trends.

2% - 100% of Net Asset Value

- Investments in fixed income securities, money market instruments, cash and deposits with financial institutions.

Hence, the Fund will generally have an equity exposure of up to 98% of its Net Asset Value to generate returns to the Fund. However, the Manager may lower the equity exposure of the Fund in favour of fixed income securities such as government bonds and corporate debt securities which include money market instruments in order to help achieve the benchmark return and/or to help preserve capital<sup>#</sup>. Accordingly, the Fund's exposure to fixed income securities may increase up to 100% of the Net Asset Value.

Note: <sup>#</sup>Although the Fund aims to preserve its value, the Fund is not a capital guaranteed fund or a capital protected fund.

Although the Fund is actively managed, how active or the frequency of its trading strategy will depend on market opportunities. Specific risks associated with such securities and investments are as elaborated in section 2.2.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. equity, fixed income securities and money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available investments may present attractive valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The performance of this Fund is benchmarked against the targeted 8.00% growth per annum in Net Asset Value of a unit over the medium to long term. An absolute return benchmark is chosen as there is no suitable benchmark which can fairly reflect the Fund's investment strategy.

**This is not a guaranteed return and is only a measurement of the Fund's performance. The Fund may not achieve the aforesaid 8% per annum growth rate in any particular financial year but targets to achieve this growth over the medium to long term.**

### 1.9.6 Investment in Unlisted Securities

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. Such investments shall not include:

- (a) Equities not listed for trading in a stock market of a stock exchange but have been approved for such listing and offered directly to the Fund by the issuer;
- (b) Debentures traded on an organised over-the-counter (OTC) market; and
- (c) Structured products.

The Fund's investments in unlisted securities (if any) shall always be subject to the restriction stipulated in section 1.9.13 (a).

**1.9.7 Collective Investment Schemes**

The Manager will only make such investments where the Manager expects those investments to complement the objective and enhance the performance of this Fund. In addition, the Manager will only make such investments if the target fund is registered/authorised/approved by the relevant regulatory authority in its home jurisdiction as the case may be and which operates within the general investment principles of the Guidelines on Unit Trust Funds issued by the Securities Commission. The Fund's investments in collective investment schemes (if any) shall always be subject to the restrictions stipulated in section 1.9.13 (g) and (m).

**1.9.8 Financial Derivatives**

The Manager may participate in futures contracts and other financial derivatives, when appropriate. The category of financial derivatives to be participated in shall be stock index futures contracts, stock index options contracts, single stock futures contracts, interest rate futures contracts, bond futures contracts or any other categories and/or types of futures contracts or financial derivatives that may be allowable by the relevant authorities from time to time. The Fund's participation in financial derivatives is basically to hedge the portfolio from any unexpected price or interest rate movement in the underlying market as well as to hedge against any opportunity loss arising from its uninvested cash. The benefit of any upside of price or interest rate movement in the underlying market is limited as the primary interest is to protect the value of the portfolio and to manage risks in relation to the benchmark. Nonetheless, the Fund may also invest in financial derivatives for investment purpose to enhance the returns of the Fund. If the Fund were to invest in over-the-counter ("OTC") derivatives, the Manager will monitor the credit rating of the counterparty issuing the derivatives and dispose of the derivatives should the rating of the said derivative counterparty fall below the credit rating of A by RAM Rating Services Berhad or its equivalent rating by a reputable rating establishment. If the Fund does invest in derivatives, there may be a likelihood that the NAV per unit of the Fund may be subject to high volatility. The Fund's investments in financial derivatives (if any) shall always be subject to the restrictions stipulated in section 1.9.13 (f) and (i).

**1.9.9 Structured Products**

The Manager may also invest in structured products where the Manager expects those investments to complement the objective and enhance the performance of this Fund. The Fund's investments in structured products (if any) shall always be subject to the restrictions stipulated in section 1.9.13 (f) and (h).

**1.9.10 Foreign Securities**

This Fund will not invest in foreign securities as the Fund seeks to achieve its investment objective through investing in domestic securities.

**1.9.11 Liquid Assets**

The Manager in structuring the Fund's portfolio will maintain a minimum liquid assets level of 2% of the Net Asset Value for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. However, this does not preclude the Manager from lowering or raising the liquid assets level from the stipulated level to allow the Manager to react to the prevailing market conditions and to manage investment risks when circumstances warrant it.

This Fund shall not borrow in connection with its activities or lend any of its cash or investments unless permitted by the relevant laws pertaining to unit trust funds. However, the Fund may borrow cash on a temporary basis (i.e. not more than one month) from financial institutions to meet

redemption requests. Such borrowing shall not exceed ten (10) per cent of the Net Asset Value at the time the borrowing is incurred.

### **1.9.12 Distribution Policy**

Consistent with the Fund's objective which aims to achieve medium to long term\* capital appreciation, distributions will therefore be of secondary importance. Distributions, if any, after deduction of taxation and expenses will be reinvested.

\*Note: "medium to long term" in this context refers to a period of between 3 - 7 years.

- i) The value of the Fund's OTC financial derivatives transactions with any single counter-party must not exceed ten (10) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time; and the Fund's exposure to the underlying assets (vide the derivatives) must not exceed the Fund's investment spread limits as stipulated in (b), (c), (d), (e), (f), (g) and (h) above. In addition, the Fund's net market exposure owing to its financial derivatives position must not exceed the Net Asset Value.
- j) The Fund's investments in transferable securities (other than debentures) must not exceed ten (10) per cent of the securities issued by any single issuer, or any other limit as may be prescribed by the Securities Commission from time to time.

However, a 5% allowance in excess of the limits or restrictions is permitted where the limits or restrictions is breached through an appreciation or depreciation of the Net Asset Value (whether as a result of an appreciation or depreciation of the investments, or as a result of repurchase of units of the Fund or payment made from the Fund). The Manager will not make any further acquisitions to which the relevant limit is breached, and the Manager will within a reasonable period of not more than three (3) months from the date of the breach take all necessary steps and actions to rectify the breach. Such limits and restrictions however, do not apply to securities/instruments that are issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

**1.10 RHB Malaysia Dividend Fund**

**1.10.1 Fund Category**

Equity fund.

**1.10.2 Financial Year End**

31 March.

**1.10.3 Name of Trustee**

HSBC (Malaysia) Trustee Berhad.

**1.10.4 Investment Objective**

This Fund aims to provide investors with capital growth and recurring income<sup>^</sup> in the medium to long term\* through investments in securities of and securities relating to Malaysian companies which offer attractive yields and sustainable dividend payments.

Any material change to the investment objective of this Fund requires the Unit Holders' approval.

Note: <sup>^</sup> The income is in the form of units. Please refer to the Fund's distribution mode.

\* "medium to long term" in this context refers to a period between 3 - 7 years.

**1.10.5 Investment Strategy**

The Fund aims to achieve its objective through investments in companies that focus on shareholder value in the form of sustainable dividend returns or have the potential to offer dividend yields combined with the prospect for growth.

Hence, the Manager's strategy is to identify companies that offer or have the potential to offer dividend yields and whose cash flow generated by business and management activities are expected to support such dividend payment. The Manager may also invest in growth or recovery stocks which have the potential to adopt a strong dividend payout policy.

The Fund will also invest in fixed income securities where the potential returns from these securities are favourable as compared to equities. The Fund's investment in fixed income securities will be that of debt securities issued by corporations, financial institutions and government (comprising amongst others of convertible debt securities, redeemable debt securities, bonds / securities that are issued and/or guaranteed by the government or quasi-government agencies, corporate bonds carrying at least BBB ratings by RAM Rating Services Berhad or its equivalent rating by any other rating establishment) as well as fixed income collective investment scheme, money market instruments, cash and deposits with financial institutions.

The Manager employs fundamental and bottom-up valuation analysis as an integral part of their investment process. This includes evaluation of company management, products & services, competitive positioning, operating outlook, earnings prospects, risk factors and corporate governance standards, looking at discounted cashflow models, comparative multiples (eg. price earnings ratio, price to book value) and profitability measures (eg. returns on equity).

This Fund's portfolio will be structured as follows:

70% to 98% of Net Asset Value

- Investment in equity and equity-related securities of Malaysian companies which offer attractive yields<sup>#</sup> and sustainable dividend payments.

Although the Fund is actively managed, how active or the frequency of its trading strategy will depend on market opportunities. Specific risks associated with such securities and investments are as elaborated in section 2.2.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and asset classes and/or type of investments (i.e. equity, fixed income securities and money market instruments). Financial derivatives may also be used for hedging purposes where appropriate. Generally, the assets of the Fund will be invested over a medium to long term period with disposal of the investments when necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to the permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate up to 100% of the Fund's equity investments into other asset classes such as fixed income securities, money market instruments and deposits with financial institutions, which are defensive in nature. These are deposits that are not embedded with or linked to financial derivative instruments (structured deposits) and (where applicable) these are current accounts, short term money market deposits and short term deposits with financial institutions.

The performance of this Fund is benchmarked against FTSE Bursa Malaysia Emas Index which best reflects the Fund's investment universe i.e. the Main Market of Bursa Malaysia and which complements its investment strategy. However, the Fund may borrow cash on a temporary basis (i.e. not more than one month) from financial institutions to meet redemption requests. Such borrowing shall not exceed ten (10) per cent of the Net Asset Value at the time the borrowing is incurred.

*Investment in this Fund is not the same as placement in a deposit with a financial institution. There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in this Fund.*

**1.12.7 Distribution Policy**

Consistent with the Fund's objective to provide reasonable returns, the Fund will distribute a substantial portion of its returns to the Unit Holders. Distributions, if any, after deduction of taxation, if any and expenses are generally declared annually. However, this does not preclude the Manager from increasing the frequency of distribution, if deemed appropriate to do so.

**1.12.8 Permitted Investments and Restrictions**

This Fund may only invest in or place deposits with financial institutions with a maturity period of not more than 365 days.

The acquisition of such permitted investment is subject to the following restriction:

- a) The value of the Fund's placement in deposits with any single financial institution must not exceed twenty (20) per cent of the Net Asset Value, or any other limit as may be prescribed by the Securities Commission from time to time.

The limit and restriction mentioned herein must be complied with at all times based on the most up-to-date value of the Fund's investments. However, a 5% allowance in excess of the limits or restrictions is permitted where the limits or restrictions is breached through an appreciation or depreciation of the Net Asset Value (whether as a result of an appreciation or depreciation of the investments or as a result of repurchase of units of the Fund or payment made from the Fund). The Manager will not make any further placements to which the limit is breached, and the Manager will within a reasonable period of not more than three (3) months from the date of the breach, take all necessary steps and actions to rectify the breach.

Balanced fund (Shariah-compliant).

**1.13.2 Financial Year End**

**1.13.4 Investment Objective**

The Fund aims to maximise total returns through a combination of long term\* growth of capital and current income^ consistent with the preservation of capital#.

Any material change to the investment objective of this Fund requires the Unit Holders' approval.

Note: \* "long term" in this context refers to a period of between 5 - 7 years.

^ The income is in the form of units. Please refer to the Fund's distribution mode.

# Although the Fund aims to preserve its value, the Fund is not a capital guaranteed fund or a capital protected fund.

**1.13.5 Investment Strategy**

This Fund seeks to achieve its investment objective through a diversified portfolio of Shariah-compliant investments comprising Shariah-compliant equities, sukuk, Islamic money market instruments, Islamic deposits with financial institutions and Islamic collective investment schemes.

This Fund will generally adopt a balanced asset allocation strategy of 50% in Shariah-compliant equities and 50% in non-equity Shariah-compliant investments which are defensive in nature comprising sukuk, Islamic money market instruments and Islamic deposits with financial institutions (collectively known as "Non-Equity Shariah-Compliant Investments"). Investments in Shariah-compliant equities and Non-Equity Shariah-Compliant Investments may also be made via Islamic collective investment schemes.

Given this balanced asset mix, the Fund will be cushioned from wild swings in the equity market while still able to enjoy part of the appreciation from growth in the equity investments of the Fund. However, the actual percentage of assets invested in Shariah-compliant equities and Non-Equity Shariah-Compliant Investments will vary from time to time, depending on the judgement of the Manager as to the general market and economic conditions, trends and yields, interest rates and changes in fiscal and monetary policies. In reviewing this asset allocation strategy, the Fund's asset mix would normally range from 40% to 60% in Shariah-compliant equities and from 40% to 60% in Non-Equity Shariah-Compliant Investments to reflect the market conditions but subject always to a minimum allocation of 40% in Shariah-compliant equities and 40% in Non-Equity Shariah-Compliant Investments. Although the Fund is expected to be actively managed, the frequency of its trading strategy will very much depend on market opportunities.

When making investments, the Manager may invest up to 30% of the Net Asset Value in foreign markets. The Fund will invest in Shariah-compliant securities / instruments listed on or traded in Asia Pacific ex Japan markets (such as Australia, China, Hong Kong SAR, India, Indonesia, New Zealand, Philippines, Singapore, Vietnam, South Korea, Sri Lanka, Taiwan and Thailand) including Shariah-compliant securities / instruments of Asia Pacific ex Japan companies that are listed on or

traded in non-Asia Pacific ex Japan markets (such as the New York Stock Exchange and the London Stock Exchange).

The Fund's investments in Shariah-compliant equities comprise of equity and equity related securities of companies listed on the local and/or foreign markets which, in the Manager's opinion, will have good growth potential and/or the ability to provide good dividend yield over a long term period. In seeking investments in companies of good growth potential, the Fund will look to companies with sales or earnings growth that are stronger than the industry average and/or the country's Gross Domestic Product (GDP) growth, whereas "good dividend yield" refers to yield that is above the average industry dividend yield in the country of investment, and "long term" refers to a period of between 5 - 7 years.

The Fund's investments in sukuk may comprise of sukuk issued by corporations, financial institutions, supra-nationals, local or foreign governments and their agencies. Sukuk issued by Malaysian incorporated companies must carry a rating of at least BBB at the point of purchase by RAM Rating Services Berhad or its equivalent rating by any other reputable rating establishment. Foreign sukuk issued by corporations and financial institutions must carry a rating of BB or higher at the point of purchase by Standard & Poor's or its equivalent rating by any other reputable rating establishment whereas sukuk issued by supra-nationals, governments and their agencies need not be rated.

The Fund's investments in Islamic money market instruments may comprise of Islamic money market instruments issued by the government which amongst others comprise of Government Investment Issues (GII), Islamic accepted bills, Bank Negara monetary notes-i, Islamic negotiable instruments, cagamas sukuk and other government Islamic papers whereas Islamic money market instruments issued by Malaysian incorporated companies are those issued by such companies which carry a rating of at least P3 by RAM Rating Services Berhad or its equivalent rating by any other reputable rating establishment at the point of purchase.

Placements of Islamic deposits with any financial institution are placements such as in General Investment Account (GIA) or Islamic fixed deposits.

The Fund's investments may also comprise of Islamic collective investment schemes which are consistent with the underlying investments of the Fund.

The Fund's portfolio will be structured as follows:

40% - 60% of Net Asset Value

- Investments in Shariah-compliant equity and equity related securities of companies that have dividend and/or growth potential.

40% - 60% of Net Asset Value

- Investments in Non-Equity Shariah-Compliant Investments.

The actual asset allocation will be reviewed from time to time depending on economic and market conditions.

For investments in foreign markets, the Manager in managing the principal risks such as country risk and currency risk will always take into consideration its evaluation of the historical developments and its prior experience in such markets. Such practice will be managed through active management and constant review of the economic and political developments of the countries invested. Investments will ultimately be made based on risk-reward.

The risk management strategies and techniques employed by the Manager include diversification of the Fund's investments in terms of its exposure to various industries, sectors and countries. Further, as the Fund is a balanced fund with minimum investment of 40% of NAV in Shariah-compliant equities and 40% of NAV in Non-Equity Shariah-Compliant Investments, the Fund is able to

alleviate the risks associated with single asset class investments such as an all Shariah-compliant equities investment or an investment wholly invested in Non-Equity Shariah-Compliant Investments such as a sukuk fund. This therefore reduces the risk associated or peculiar to a particular asset class. Generally, the assets of the Fund will be invested over the long term with disposal of the Shariah-compliant investments where necessary to control risk as well as to optimise capital gains. This is especially so when the full growth potential of an investment is deemed to have been reduced over a prolonged rise in market value and other available Shariah-compliant investments may present cheaper valuations and potential higher returns. The Fund also complies with the permitted investments and restrictions imposed by the Securities Commission. Adherence to these permitted investments and restrictions also helps the Manager to risk-manage the Fund's portfolio in terms of diversification. Moreover, the Manager in making its investment decisions shall at all times comply with the investment restrictions of the Fund and requirements as set out in the Deed.

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager may reallocate the Fund's Shariah-compliant equities investments into other asset classes which are defensive in nature such as sukuk, Islamic money market instruments and non-equity Islamic collective investment schemes or just make placements in Islamic deposits with any financial institutions. In its reallocation, the level of Shariah-compliant equities investments would not fall below 20% of the Net Asset Value.

The performance of this Fund cannot be compared directly with any specific publicly available benchmark such as the FTSE Bursa Malaysia EMAS Shariah Index or the Maybank Islamic Berhad 12-month Islamic fixed deposit as the Fund is a balanced fund where investment in Shariah-compliant equities and Non-Equity Shariah-Compliant Investments are each restricted to a maximum of 60% of Net Asset Value. As such, a benchmark comprising 50% of the performance of the FTSE Bursa Malaysia EMAS Shariah Index and 50% of the Maybank Islamic Berhad 12-month Islamic fixed deposit is used for comparative purposes. For ease of reference, investors may refer to local newspapers or the Bursa Malaysia website at [www.bursamalaysia.com](http://www.bursamalaysia.com) for the index indicator and the Maybank Islamic Berhad's website at [www.maybank2u.com.my](http://www.maybank2u.com.my) for the Islamic fixed deposits rates. Investor should note that the risk profile of the Fund is different from the risk profile of the benchmark. Unit Holders can obtain information on the composite benchmark from the Manager upon request.

The Fund's participation in Islamic financial derivatives is basically to hedge the portfolio from any unexpected price or interest rate movement in the underlying market and also the portfolio's exposure to foreign currency volatility. Such participation in Islamic financial derivatives shall commence only if the underlying financial instrument complies with Shariah requirements. The benefit of any upside of price or interest rate movement in the underlying market or currency movement is limited. The purpose is to protect the value of the portfolio. When participating in such instruments, the Manager will monitor the derivative valuation and credit ratings of the financial institutions as counterparty to the instruments, where applicable and take appropriate actions to mitigate any risk associated with such instruments. This may extend to unwinding of derivative instruments in the event where there is a need to terminate current position due to reversal in market movement, redemption in units or upon downgrade of the credit ratings of the financial institutions. The Fund's participation in Islamic financial derivatives (if any) shall always be subject to the restrictions stipulated in section 1.13.13 (f) and (i).

When investing in foreign markets which require prior permission or approval such as in the form of an investment licence or investor code or investor registration, the Fund has/will obtain such necessary permission or approval in order to invest in such markets.

In undertaking these foreign investments, the Manager may invest directly in Shariah-compliant equities and/or sukuk, and/or may invest through other Islamic collective investment schemes (provided the investment mandate of the scheme complements the Fund's investment objective and other conditions as set out in section 1.13.7), where appropriate.

**1.13.11 Shariah-compliant Liquid Assets**

The Manager in structuring this Fund's portfolio will maintain a minimum Shariah-compliant liquid assets level of 2% of the Net Asset Value for the purpose of meeting redemptions and to enable the proper and efficient management of the Fund. However, this does not preclude the Manager from lowering or raising the Shariah-compliant liquid assets level from the stipulated level to allow the

Manager to react to the prevailing market conditions and to manage investment risks when circumstances warrant it.

This Fund shall not source financing in connection with its activities or provide financing on any of its cash or Shariah-compliant investments unless permitted by the relevant laws pertaining to unit trust funds. However, the Fund may seek an Islamic financing facility on a temporary basis (i.e. not more than one (1) month) from financial institutions to meet redemption requests. Our investment philosophy describes the approach that the investment team will adhere to when constructing an equity or fixed income portfolio. The fund managers invest in well-managed companies with strong balance sheets that possess competitive advantages that should enable them to outperform their peers over economic cycles. The fund managers are active investors that make high conviction security selection decisions, but at the same time do not take unnecessary or excessive risks nor take speculative positions. The fund managers seek to outperform their peers and beat their benchmark by buying mispriced or cheap securities. Following our disciplined sell strategy, they would then exit positions when our target price is reached. Concurrently, the fund managers understand the Funds’ risk profile and act within each individual Fund’s mandate.

In addition to the investment approach stated above, the Funds' investments in Shariah-compliant stocks and sukuk are also screened to ensure they meet stipulated financial filters and are not involved in activities prohibited under Shariah. The prohibited core activities that must be avoided includes:

- (a) financial services based on riba (interest);
- (b) gambling and gaming activities;
- (c) production, processing and sale of alcoholic beverages and non-halal food or related products;
- (d) conventional insurance activities;
- (e) entertainment activities that are non-permissible according to Shariah;
- (f) manufacture or sale of tobacco-based products or related products;
- (g) stockbroking or share trading in Shariah non-compliant securities; and/or
- (h) any further restriction as determined from time to time by the SACSC and/or the Shariah Adviser for Malaysian investments, and as determined from time to time by the Shariah Adviser for investments in foreign markets.

Investments in sukuk or Islamic money market instruments are selected from issuances that are structured based on Shariah principles.

The Funds' investments shall be guided by the Shariah Investment Guidelines as described below. Upon monthly review of the portfolio by the Shariah Adviser, any investments that do not comply with the requirements of the guidelines shall be divested in accordance with what has been prescribed below.

**Shariah Investment Guidelines adopted by the Shariah Adviser**

The following matters are adopted by the Shariah Adviser in determining the Shariah status of equity investments of the Fund.

**1. Investment in Malaysia****Equity:**

Reference for investment in local securities is based on the list of Shariah-compliant securities issued by the SACSC twice yearly on the last Friday of May and November which is readily available at the Securities Commission's website.

However, for the Shariah status of Initial Public Offering ("IPO") companies that have yet to be determined by the SACSC, the Shariah Adviser adopted the following analysis in determining the Shariah status of these companies. The status determined by the Shariah Adviser is taken on a temporary basis until the Shariah status of that particular IPO

---

company is determined in the subsequent release of the “List of Shariah-compliant Securities” issued by SACSC.

### Quantitative Analysis

The Shariah Adviser adopts a two-tier quantitative approach which applies the business activity benchmark and the financial ratio benchmark in determining the Shariah status of the securities. Hence, the securities will be classified as Shariah-compliant if they are within the business activity benchmark and the financial ratio benchmark. If any of these benchmarks are exceeded, the Shariah Adviser will not accord a Shariah-compliant status for such equities.

#### Business activities benchmark

The contribution of Shariah non-compliant activities to the overall revenue and profit before taxation of the company will be computed and compared against the relevant business activities benchmark as follows:

(a) The 5% benchmark would be applicable to the following businesses or activities:

- (i) conventional banking;
- (ii) conventional insurance;
- (iii) gambling;
- (iv) liquor and liquor-related activities;
- (v) pork and pork-related activities;
- (vi) non-halal food and beverages;
- (vii) Shariah non-compliant entertainment;
- (viii) interest income from conventional accounts and instruments (including dividends from investment in Shariah non-compliant instruments and interest income awarded arising from a judgment by a court or arbitrator);
- (ix) tobacco and tobacco-related activities; and
- (x) other activities deemed non-compliant according to Shariah.

For the abovementioned businesses or activities, the contribution of Shariah non-compliant businesses or activities to the overall revenue or profit before taxation of the company must be less than 5%.

(b) The 20% benchmark would be applicable to the following activities:

- (i) share trading;
- (ii) stockbroking business;
- (iii) rental received from Shariah non-compliant activities; and
- (iv) other activities deemed non-compliant according to Shariah.

For the abovementioned businesses or activities, the contribution of Shariah non-compliant businesses or activities to the overall revenue or profit before taxation of the company must be less than 20%.

#### Financial ratio benchmark

For the financial ratios benchmark, the Shariah Adviser takes into account the following:

(a) Cash over total assets must be lower than 33%

Cash will only include cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments will be excluded from the calculation.

- 
- (b) Debt over total assets must be lower than 33%  
Debt will only include interest-bearing debt whereas financing or sukuk will be excluded from the calculation.

Generally, determination of the financial ratio benchmark is based on available information of the company.

#### Qualitative Analysis

Companies which have passed the above quantitative test will be further subjected to qualitative screening before the equities of such companies can be classified as Shariah-compliant. In this secondary analysis, the Shariah Adviser will look into aspects of the general public perception of the respective companies' image, core businesses which are considered important and *maslahah* (beneficial) to the Muslim *ummah* (nation) and the country, the non-permissible elements are very small and involve matters such as *umum balwa* (common plight and difficult to avoid), *'uruf* (custom) and rights of the non-Muslim community which are accepted by the Shariah.

#### **Sukuk and Islamic money market instruments:**

The selection of these instruments for investments will be based on the instruments' lists readily available at the website of Securities Commission and/or Bank Negara Malaysia.

## **2. Investment in foreign markets:**

### **Equity:**

#### Quantitative Analysis

The Shariah Adviser takes into account the following parameters in determining the Shariah status of the listed companies.

- (1) Shariah non-compliant income of the companies arising from the following business activities must not exceed certain designated benchmarks\*:
  - (a) Conventional financial services;
  - (b) Gambling and gaming;
  - (c) Manufacture or sale of non-halal products or related products (e.g. pork and liquor);
  - (d) Manufacture or sale of tobacco-based products or related products;
  - (e) Pornography;
  - (f) Weaponry;
  - (g) Entertainment activities that are not permitted by the Shariah; and
  - (h) Other activities deemed non-permissible according to the Shariah.
  
- (2) The financial ratios of the following must not exceed certain benchmarks\*:
  - (a) Interest income over total income;
  - (b) Total debts including all interest-bearing loans/debentures and their respective payables such as short term/long term debts, short term/long term debentures and all debentures payables divided by total assets;
  - (c) Total sum of company's cash divided by total assets; and
  - (d) Total account receivables including trade receivables divided by total assets.

\* These benchmarks may vary in accordance with the development of Islamic finance and the jurisdiction of respective screening authorities or the Islamic indices that are

---

being referred to. Should any of the deductions fail to satisfy the benchmarks, the Shariah Adviser will not accord a Shariah-compliant status for such equities.

- (3) The Shariah Adviser may also consider adopting foreign stocks listed on other Islamic indices recognised by the Shariah Adviser as Shariah-compliant stocks or Shariah-compliant stocks screened using methodologies accepted by the Shariah Adviser.

#### Qualitative Analysis

Companies which have passed the above quantitative test will be further subjected to qualitative screening before the equities of such companies can be classified as Shariah-compliant. In this secondary analysis, the Shariah Adviser will look into aspects of the general public perception of the respective companies' image, core businesses which are considered important and *maslahah* (beneficial) to the Muslim *ummah* (nation) and the country, the non-permissible elements are very small and involve matters such as *umum balwa* (common plight and difficult to avoid), *'uruf* (custom) and rights of the non-Muslim community which are accepted by the Shariah.

#### **Foreign sukuk:**

For foreign sukuk, the Shariah Adviser would accept resolutions and/or rulings as decided by the respective Shariah advisors for the instruments. Prospectus or information memorandum of the sukuk and resolutions and/or rulings and/or pronouncements by the respective Shariah advisors for the instruments must be presented to the Shariah Adviser for notification and due diligence.

### **3. Divestment of Shariah non-compliant Securities**

- (a) Wrong investment

This refers to Shariah non-compliant investments made by the Manager. The said investment will be disposed or withdrawn within one month upon becoming aware of the status of the investments. In the event the investment results in gain (through capital gain and/or dividend), the gain is to be channelled to *baitulmal* or any other charitable bodies as advised by the Shariah Adviser. If the disposal of the investment results in a loss to the Fund, the loss is to be borne by the Manager.

- (b) Reclassification of Shariah status of the Funds' investment

Where a security is reclassified as Shariah non-compliant by the SACSC, the Shariah Adviser or the Shariah boards of the relevant Islamic Indices, such security will be disposed as soon as practicable, i.e. in the event that on the announcement date or on an effective review date determined by the Shariah Adviser, the market price of the securities exceed or is equal to the original investment cost. For re-classified securities where the market price is below the original investment cost, these securities can still be kept by the Funds but it must be disposed once the total amount of dividends received and the market value of that security is equal to the original investment costs.

Any capital gains arising from the disposal of the Shariah non-compliant security made at the time of the announcement can be kept by the Funds. However, any excess capital gains derived from the disposal after the announcement day or after the effective review date at a market price that is higher than the closing price on the announcement day or on the effective review date is to be channelled to *baitulmal* and/or any charitable bodies as advised by the Shariah Adviser.

#### 4. Zakat for the Fund

The Funds do not pay *zakat* on behalf of Muslim individuals and Islamic legal entities who are investors of the Funds. Thus, investors are advised to pay *zakat* on their own.

## 2. RISK FACTORS

### 2.1 General Risks of Investing in Unit Trusts

The following are general risks involved in investing in the Funds:

#### General Risks

- a) **Management Risk**  
Inadequate expertise of a management company in dealing with the day-to-day management of a Fund will jeopardize the investment of Unit Holders through the risk of reduced returns and in some cases the Unit Holders may also lose the capital invested in the Fund.
- b) **Inflation/Purchasing Power Risk**  
The purchasing power of Unit Holders' money may not keep pace with inflation. Inflation reduces the purchasing power of money. There is a risk that the value of Unit Holders' money invested in the Fund and the value of any returns thereof will be reduced by inflation.
- c) **Redemption Risk**  
The ability of a Fund to honour requests for redemption in a timely manner is subject to the Fund's holding of adequate liquid assets and/or its ability to borrow on a temporary basis as permitted by the relevant laws. For Shariah-compliant Funds, the Fund may seek an Islamic financing facility to honour such redemption requests.
- d) **Loan Financing Risk**  
Investors should assess the inherent risk of investing with borrowed money or through financing facility which should include the following:
  - i) the ability to service the loan repayments or financing instalments and the effect of increase in interest rates or profit rates on the loan repayments or financing instalments; and
  - ii) (in a case where units of the Funds are used as collateral to the loan or financing) the ability to provide additional collateral should the unit prices of the respective Funds fall beyond a certain level.

Shariah-compliant unit trust fund's investors are advised to seek Islamic financing to finance their acquisition.

[Please see Unit Trust Loan Financing Risk Disclosure Statement in the application form]
- e) **Risk of Non-Compliance**  
The risk arises should the Manager not follow the provisions set out in the respective Deeds or the law that governs the Fund or its own internal procedures, whether by oversight or by omission, or if the Manager acts fraudulently or dishonestly. Such non-compliance may result in the Fund being mismanaged and may affect the Unit Holders' investment.
- f) **Returns are not Guaranteed**  
There is no guarantee on the investment returns to Unit Holders. Unlike fixed deposits which carry a specific rate of return, the Fund does not provide a fixed rate of return.

---

## **Investments Risks**

- a) **Counterparty Risk**  
The Funds' placements of cash or deposits or Islamic deposits with financial institutions are subject to the risk of the counterparty. Counterparty risk refers to the possibility that the financial institutions where cash placements or deposits placements or Islamic deposits placements are made will not be able to make timely payments of interest or profit and/or principal repayment on demand or prior to the maturity date. This may lead to a default in the payment of principal and/or interest or profit and ultimately a reduction in the value of a Fund.
- b) **Fund Management Risk**  
The selection of securities of a Fund or placement of cash or deposits or Islamic deposits which make up the assets of the Fund is a subjective process and depends on the expertise of the fund manager in carrying out the investment management function of the Fund. The securities selected or deposits or Islamic deposits placed by the Manager may perform better or worse than the overall market, or as compared to similar portfolios managed by our competitors.
- c) **Liquidity Risk\***  
This refers to the ease with which a security can be sold at or near its fair value depending on the volume traded on the market. Should a security become illiquid, it may be sold at a discount to its fair value, thus lowering the value of the Fund's investments and subsequently the value of Unit Holders' investments.

\* This risk will apply to fixed income securities, sukuk and equities.

### **For Funds with foreign market exposure:**

- a) **Currency Risk**  
Where a percentage of the value of the Fund is invested in foreign currency or assets denominated in a foreign currency, the Fund may be exposed to currency risk. Fluctuation in foreign exchange rates will affect the value of the Fund's foreign investments when converted into local currency and subsequently the value of Unit Holders' investments. This risk can be mitigated through investing in a wide range of foreign currency denominated asset thus diversifying the risk of single currency exposure. Hedging may be applied to mitigate the currency risk, if necessary.
- b) **Country Risk**  
In addition to currency risk, the Fund is also subject to country risk, for example, the value of the assets of the Fund may also be affected by the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund may invest. Further, when investing in foreign markets, there are countries which may require prior approvals before investment can take place. For example, if and when the Fund invests in countries such as China, Taiwan, South Korea, India and Vietnam, such countries require the application of an investment licence or registration of an investor code before any investment can be made in these countries. As such, if investments in such countries are undertaken, there may be a risk that such registration or license may be revoked or not renewed by the relevant authority and the Fund's investments in these countries may be affected. The effect on the Fund's investments will depend on the regulatory requirements of the respective countries. For example, if a foreign market requires the Fund to obtain an investment licence which is subject to renewal and if such investment licence is not renewed in a timely manner, this may result in the Fund's investment account in that country being frozen by the regulator resulting in investment activities for the Fund in that country being suspended. To mitigate this, the Manager will monitor closely the adherence of investment regulatory requirements in such countries.

---

### **For Funds participating or investing in derivatives:**

a) **Derivative Risk**

If a Fund participates in financial derivative or Islamic financial derivative instruments as an investment or for hedging purposes, it will be subject to risks associated with such investments or hedging position. As hedging activities are meant to protect a Fund from currency, interest rate and price volatility, hence the benefit of any upside of currency or interest rate or securities' price movement is limited. Whilst participation in Islamic financial derivatives shall commence only for the purpose of hedging and only if the structure of the Islamic financial derivatives as well as the underlying financial instruments comply with Shariah requirements, investments or participation in financial derivative or Islamic financial derivative instruments may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the investment or hedging positions. If no provision is made for the required margin within the prescribed time, the Fund's investments or hedging position may be liquidated at a loss. Therefore, it is essential that such investments or participations in financial derivative or Islamic financial derivative instruments are monitored closely. If and when the Manager invests in financial derivative or participates in Islamic financial derivative, the Manager will monitor the financial derivative or Islamic financial derivative positions for the Fund. In addition, investment in financial derivative or participation in Islamic financial derivative is also subject to the possibility that the counterparty to the financial derivative or Islamic financial derivative may fail or default in its obligations under the financial derivative or Islamic financial derivative contract. Such failure or default by the counterparty whether in the payment of principal and/or interest or profit or any gain from the financial derivative or Islamic financial derivative transaction may ultimately lead to a reduction in the value of the Fund. Investing in financial derivatives may also result in a likelihood of high volatility of the NAV per unit of the Fund.

## **2.2 Specific Risks when Investing in the Funds**

The following are specific risks involved in investing in the Funds:

### **Equity Trust**

As this Fund may invest up to 50% of its Net Asset Value in foreign markets, it may be subject to further risks, such as currency risk and country risk [see section 2.1 (Investments Risks)], when compared to a portfolio which concentrates its holdings in a single market or economy. Furthermore, share investments are susceptible to the movements of share prices which can rise or fall for a number of reasons, such as industry trends, economic factors, changes in a company's operations, management and financial performance as well as market perception of that particular company. Other risks associated with investments in equities are as follows:

a) **Market Risk**

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances, which may be a local or global event can affect the markets where the Fund is invested in or global markets and subsequently the value of the Fund's investments.

b) **Particular Securities Risk**

The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the units of the Fund. Not all companies issuing these securities are successful. The success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities will cause the Fund's unit price to rise or fall accordingly.

---

## **SCOUT**

As this Fund invests only in small to medium sized companies, it may therefore be subject to a higher level of risk than a portfolio diversifying its holdings to include larger sized companies. Moreover, the acquisition or disposal of securities of small to medium size companies may require a longer time period as there are generally less ready buyers or sellers as compared to the securities of larger, more established companies. Hence there is a risk that securities may not be sold at or near fair value depending on the volume traded on the market. Furthermore, as the size of the Fund grows larger, there may be insufficient securities of small to medium sized companies as a larger number of these securities is required to be acquired or disposed before there is any impact on the Fund. Other risks associated with investments in equities are as follows:

### **a) Market Risk**

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances, which may be a local or global event can affect the markets where the Fund is invested in or global markets and subsequently the value of the Fund's investments.

### **b) Particular Securities Risk**

The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the units of the Fund. Not all companies issuing these securities are successful. The success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities will cause the Fund's unit price to rise or fall accordingly.

## **KIDSAVE**

### **a) Market Risk**

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances, which may be a local or global event can affect the markets where the Fund is invested in or global markets and subsequently the value of the Fund's investments.

### **b) Particular Securities Risk**

The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the units of the Fund. Not all companies issuing these securities are successful. The success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities will cause the Fund's unit price to rise or fall accordingly.

### **c) Interest Rate Risk**

Prices of fixed income securities and debentures generally move in opposite direction with interest rates. When interest rates rise, prices of fixed income securities and debentures will generally fall. This rise in interest rates will cause the investor to face the risk of capital loss. However, when interest rates fall, prices of fixed income securities and debentures will generally increase, thus investors will see capital gains.

### **d) Credit/Default Risk**

This refers to the creditworthiness of the fixed income securities and debentures issuer and its expected ability to repay debt. Default happens when the issuer is not able to make timely coupon payments and/or repay or pay the principal in a timely manner thus lowering the value of the Fund's investments and subsequently the value of Unit Holders' investments.

---

## **Tracker**

As this Fund tracks the performance of the FBM KLCI, it may be subject to the Bursa Malaysia market volatility and therefore pose a higher level of risk than a portfolio diversifying its holdings across several markets and economies. Changes in the Net Asset Value are unlikely to exactly replicate changes in the FBM KLCI. This amongst others, is due to the fees and expenses payable by the Fund and transaction costs incurred in adjusting the composition of or the weighting of the Fund's investments because of changes in the FBM KLCI. Other risks associated with investments in equities are as follows:

### **a) Market Risk**

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances, which may be a local or global event can affect the markets where the Fund is invested in or global markets and subsequently the value of the Fund's investments.

### **b) Particular Securities Risk**

The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the units of the Fund. Not all companies issuing these securities are successful. The success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities will cause the Fund's unit price to rise or fall accordingly.

In addition, as the Manager will participate in financial derivatives for the purpose of achieving the Fund's investment objective, there are certain tracking risks involved. Such risks may include an imperfect correlation between price movements of the financial derivatives with price movements of the Fund's investments.

Further, the risk of loss in trading financial derivatives is potentially great, due to both low margin deposits required, and the extremely high degree of leverage involved in futures derivatives pricing. As a result, a relatively small price movement in a financial derivative may result in immediate and substantial loss (or gain) to the Fund.

## **Dana Islam**

As this Fund invests only in securities of companies whose principal activities comply with Shariah requirements, it may be subject to a higher level of risk than a portfolio diversifying its holdings across several markets and economies. Furthermore, there is an inherent risk, the reclassification of Shariah status risk, where the currently held Shariah-compliant securities in the Fund may be re-designated to be Shariah non-compliant securities in the periodic review of the securities by the SACSC, the Shariah Adviser, or the Shariah boards of the relevant Islamic indices. If this occurs, the value of the Fund may be adversely affected where the Manager will take the necessary steps to dispose of such securities. Any capital gains arising from the disposal of the Shariah non-compliant securities made at the time of the announcement can be kept by the Fund. However, any excess capital gains derived from the disposal after the announcement day at the market price that is higher than the closing price on the announcement day should be channelled to baitulmal or charitable bodies as advised by the Shariah Adviser. Other risks associated with investments in Shariah-compliant equity are as follows:

### **a) Market Risk**

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances, which may be a local or global event can affect the markets where the Fund is invested in or global markets and subsequently the value of the Fund's investments.

### **b) Particular Securities Risk**

The fluctuation in the performance of each individual security that the Fund invests in will affect

---

the price of the units of the Fund. Not all companies issuing these securities are successful. The success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities will cause the Fund's unit price to rise or fall accordingly.

### **Income Fund**

As this Fund invests primarily in fixed income securities, certain risks are therefore peculiar to this Fund. They are:

a) Interest Rate Risk

Prices of fixed income securities and debentures generally move in opposite direction with interest rates. When interest rates rise, prices of fixed income securities and debentures will generally fall. This rise in interest rate would cause the investor to face the risk of capital loss. But when interest rates fall, prices of fixed income securities and debentures would generally increase, therefore, investors would see capital gains.

b) Credit/Default Risk

This refers to the creditworthiness of the fixed income securities and debentures issuer and its expected ability to repay debt. Default happens when the issuer is not able to make timely coupon payments and/or repay or pay the principal in a timely manner thus lowering the value of the Fund's investments and subsequently the value of Unit Holders' investments.

c) Liquidity Risk

Liquidity is the ability to convert an investment portfolio to cash without suffering a noticeable loss in value. The Malaysian fixed income securities and debentures market is not as liquid as the equity market and this may affect the price of any fixed income securities and debentures.

d) Inflation/Purchasing Power Risk

Inflation can be defined as increases of the price level of goods and services and is commonly reported using the consumer price index as a measure. Inflation is one of the major risks to investors and results in uncertainty over the future value of the investments. Inflation reduces purchasing power of money. In an inflationary environment, fixed income securities are exposed to higher inflation risks than equities due to its fixed returns nature as compared to equities whose returns are variable.

### **EOUT**

As this Fund invests only in small to medium size companies, it may therefore be subject to a higher level of risk than a portfolio diversifying its holdings to include larger sized companies. Moreover, the acquisition or disposal of securities of small to medium size companies may require a longer time period as there are generally less ready buyers or sellers as compared to the securities of larger, more established companies. Hence there is a risk that securities may not be sold at or near fair value depending on the volume traded on the market. Furthermore, as the size of the Fund grows larger, there may be insufficient securities of small to medium sized companies as a larger number of these securities is required to be acquired or disposed before there is any impact on the Fund. Other risks associated with investments in equities are as follows:

a) Market Risk

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. b) Particular Securities Risk

The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the units of the Fund. Not all companies issuing these securities are successful. The

---

success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities will cause the Fund's unit price to rise or fall accordingly.

### **GIFT**

As this Fund will have an asset mix of securities of companies with market capitalisation of not more than RM750 million ("small cap securities") and fixed income securities, money market instruments, cash and deposits with financial institutions, certain risks peculiar to the Fund are:

#### **a) Liquidity Risk of Underlying Investments**

Liquidity is the ability to convert an investment portfolio to cash without suffering a noticeable loss in value. The Malaysian fixed income securities and debentures market is not as liquid as the equity market and this may affect the price of any fixed income securities and debentures. Likewise, when investing in small to medium size companies, the acquisition or disposal of securities of these companies may require a longer time period as there are generally less ready buyers or sellers as compared to the securities of larger, more established companies.

#### **b) Interest Rate Risk**

Prices of fixed income securities and debentures generally move in opposite direction with interest rates. When interest rates rise, prices of fixed income securities and debentures will generally fall. This rise in interest rates will cause the investor to face the risk of capital loss. However, when interest rates fall, prices of fixed income securities and debentures will generally increase, thus investors will see capital gains.

#### **c) Credit/Default Risk**

This refers to the creditworthiness of the fixed income securities and debentures issuer and its expected ability to repay debt. Default happens when the issuer is not able to make timely coupon payments and/or repay or pay the principal in a timely manner thus lowering the value of the Fund's investments and subsequently the value of Unit Holders' investments.

#### **d) Inflation/Purchasing Power Risk**

Inflation can be defined as increases in the price level of goods and services and is commonly reported using the consumer price index as a measure. Inflation is one of the major risks to investors and results in uncertainty over the future value of the investments. Inflation reduces purchasing power of money. In an inflationary environment, fixed income securities are exposed to higher inflation risks than equities due to its fixed returns nature as compared to equities whose returns are variable.

These circumstances, which may be a local or global event can affect the markets where the Fund is invested in or global markets and subsequently the value of the Fund's investments.

#### **b) Particular Securities Risk**

The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the units of the Fund. Not all companies issuing these securities are successful. The success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities will cause the Fund's unit price to rise or fall accordingly.

---

## **TGF**

As this Fund's dynamic mandate allows it to generally have an equity exposure of up to 98% of its Net Asset Value or an exposure to fixed income securities of up to 100% of its Net Asset Value, the risks peculiar to this Fund are:

### a) Market Risk

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances, which may be a local or global event can affect the markets where the Fund is invested in or global markets and subsequently the value of the Fund's investments.

### b) Particular Securities Risk

The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the units of the Fund. Not all companies issuing these securities are successful. The success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities comprising the Fund's portfolio will cause the unit price of the Fund to rise or fall accordingly.

### c) Interest Rate Risk

Prices of fixed income securities and debentures generally move in opposite direction with interest rates. When interest rates rise, prices of fixed income securities and debentures will generally fall. This rise in interest rates will cause the investor to face the risk of capital loss. However, when interest rates fall, prices of fixed income securities and debentures will generally increase, thus investors will see capital gains.

### d) Credit/Default Risk

This refers to the creditworthiness of the fixed income securities and debentures issuer and its expected ability to repay debt. Default happens when the issuer is not able to make timely coupon payments and/or repay or pay the principal in a timely manner thus lowering the value of the Fund's investments and subsequently the value of Unit Holders' investments.

## **MDIV**

As this Fund invests in a portfolio mix mainly of equity and equity-related securities which offer attractive yields and sustainable dividend payments and fixed income securities, money market instruments and deposits with financial institutions or liquid assets, certain specific risks peculiar to this Fund are:

### a) Market Risk

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances, which may be a local or global event can affect the markets where the Fund is invested in or global markets and subsequently the value of the Fund's investments.

### b) Particular Securities Risk

The fluctuation in the performance of each individual security that the Fund invests in will affect the price of the units of the Fund. Not all companies issuing these securities are successful. The success or failure of the companies will cause its securities value to rise or fall. Valued collectively, the performance of individual securities comprising the Fund's portfolio will cause the unit price of the Fund to rise or fall accordingly.

### c) Interest Rate Risk

Prices of fixed income securities and debentures generally move in opposite direction with interest rates. When interest rates rise, prices of fixed income securities and debentures will generally fall. This rise in interest rates will cause the investor to face the risk of capital loss. However, when interest rates fall, prices of fixed income securities and debentures will generally increase, thus

---

investors will see capital gains.

d) **Credit/Default Risk**

This refers to the creditworthiness of the fixed income securities and debentures issuer and its expected ability to repay debt. Default happens when the issuer is not able to make timely coupon payments and/or repay or pay the principal in a timely manner thus lowering the value of the Fund's investments and subsequently the value of Unit Holders' investments.

**CASH**

As this Fund invests its assets in a portfolio of deposits with financial institutions, certain risks are therefore peculiar to this Fund. They are:

a) **Credit/Default Risk**

This refers to the creditworthiness of the financial institutions and its expected ability to make timely payment of interest and principal. Default happens when the financial institutions are not able to make timely payments of interest and principal.

b) **Inflation/Purchasing Power Risk**

Inflation can be defined as increases in the price level of goods and services and is commonly reported using the consumer price index as a measure. Inflation is one of the major risks to investors and results in uncertainty over the future value of the investments. Inflation reduces purchasing power of money. In an inflationary environment, fixed rate deposits are exposed to higher inflation risks than equities due to its fixed returns nature as compared to equities whose return are variable.

c) **Interest Rate Risk**

Interest rate risk is crucial in this Fund since deposits portfolio management depends on forecasting interest rate movements. Interest rate changes could affect the Fund's potential returns from future placements in deposits if the strategy taken by the fund manager differs from the actual outlook of the interest rates market. In an environment of falling interest rates, the Fund's future placement in deposits would be reinvested at lower interest rates which in turn will reduce the potential returns of the Fund. This risk will be mitigated via shorter or longer tenured deposits depending on the Manager's view of the future interest rate trend, which is based on its continuous fundamental research and analysis.

**DEPOSITS**

As the Fund will invest its assets in a portfolio of deposits placed with financial institutions, certain risks are therefore peculiar to this Fund. They are:

a) **Credit/Default Risk**

This refers to the creditworthiness of the financial institutions and its expected ability to make timely payment of interest and principal. Default happens when the financial institutions are not able to make timely payments of interest and/or repay or pay the principal in a timely manner thus lowering the value of the Fund's investments and subsequently the value of Unit Holders' investment.

b) **Inflation/Purchasing Power Risk**

Inflation can be defined as increases of the price level of goods and services and is commonly reported using the consumer price index as a measure. Inflation is one of the major risks to investors and results in uncertainty over the future value of the investments. Inflation reduces purchasing power of money. In an inflationary environment, fixed rate deposits are exposed to higher inflation risks than equities due to its fixed returns nature as compared to equities whose returns are variable.

---

c) Interest Rate Risk

Interest rate risk is crucial in this Fund since deposits portfolio management depends on forecasting interest rate movements. Interest rate changes could affect the Fund's potential returns from future placements in deposits if the strategy taken by the fund manager differs from the actual outlook of the interest rates market. In an environment of falling interest rates, the Fund's future placement in deposits would be reinvested at lower interest rates which in turn will reduce the potential returns of the Fund. This risk will be mitigated via shorter or longer tenured deposits depending on the Manager's view of the future interest rate trend, which is based on its continuous fundamental research and analysis.

**Dana Hazeem**

As this Fund generally invests 50% of Net Asset Value in Shariah-compliant equities and 50% of Net Asset Value in Non-Equity Shariah-Compliant Investments, it will therefore be subject to the following risks:

a) Market Risk

Market risk is a risk that arises when the prices of investments in the marketplace are affected by circumstances such as political or economic events. These circumstances, which may be a local or global event can affect the markets where the Fund is invested in or global markets and subsequently the value of the Fund's investments.

b) Particular Security Risk

The Fund's portfolio may comprise of Shariah-compliant equities, sukuk, Islamic money market instruments, Islamic deposits placed with financial institutions and Islamic collective investment schemes. The fluctuation in the performance of each individual Shariah-compliant security that the Fund invests in will affect the price of the units of the Fund. Valued collectively, the performance of individual Shariah-compliant securities comprising the Fund's portfolio will cause the unit price of the Fund to rise or fall accordingly.

c) Reclassification of Shariah Status Risk

This risk refers to the risk that the currently held Shariah-compliant securities in the Fund may be reclassified to be Shariah non-compliant in the periodic review of the securities by the SACSC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices.

If this occurs, the External Investment Manager will take the necessary steps to dispose such securities in accordance with the Shariah Guidelines stipulated by the Shariah Adviser. The value of the Fund may be adversely affected as there may be opportunity loss to the Fund due to the Fund not being allowed to retain all or part of the excess capital gains derived from the disposal of the Shariah non-compliant securities. Please see Shariah Investment Guidelines adopted by the Shariah Adviser, section 1.16 (b) on the reclassification of Shariah status of the Funds' investment.

d) Interest Rate Risk

This Fund is also subject to interest rate risk. It does not in any way suggest that the Fund will invest in conventional financial instruments. All the investments carried out for the Fund are in accordance with Shariah requirements. This risk refers to the effect of interest rate changes on the market value of the sukuk portion of the portfolio. In the event of rising interest rates, demand for sukuk will generally decrease and vice versa. Meanwhile, sukuk with longer maturities and lower profit rates are more sensitive to interest rate changes.

e) Credit/Default Risk

This refers to the creditworthiness of the sukuk issuer and its expected ability to pay the principal and/or profit due. Default happens when the issuer is not able to make timely profit payments and/or pay the principal in a timely manner thus affecting the value of the Fund's investments and subsequently the value of Unit Holders' investments.

\*Funds with mandates investing in foreign markets

The Fund must be valued at least once every Business Day. However, certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia.

Accordingly, for Funds investing solely in the local market, the valuation of the respective Funds for a Business Day will be conducted at the close of Bursa Malaysia for that Business Day. Thus, the daily price of the Fund for a particular Business Day will be published in the major newspapers on the next day, with the exception of **CASH**, whose price shall be the Net Asset Value per unit as at the valuation point of the Fund immediately preceding the Fund's relevant Business Day when the request for units of the Fund is received by the Manager ("historical pricing"). [Please refer section 5.2 (Computation of Purchase of Units – **CASH**)].

For Funds which have investments in foreign markets, the valuation of the respective Funds for a Business Day will be conducted before 5.00 pm on the following day in which the Manager is open for business, when the closing prices of the foreign markets for that Business Day would be available.

As such, the daily price of the Fund for a particular Business Day will not be published in the local newspapers on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated in the major newspapers.

#### Illustration (for Funds investing in foreign markets)

For the market close of 9 August 2017 (Wednesday), the valuation date will be the next day in which the Manager is open for business, that is, 10 August 2017 (Thursday). Thus, the local newspapers publication date for the price as at 9 August 2017 (Wednesday) will be on 11 August 2017 (Friday).

Investors may however obtain the most current computed prices by contacting the Manager directly or visiting our website, **www.rhbgroup.com** [please refer to section 5.5 (g) (Availability of Information on Investment)].

In undertaking any of the Fund's investments, the Manager will ensure that all the assets of the respective Funds will be valued appropriately, that is, at market value, failing which, such assets will be valued at fair value and at all times in compliance with the relevant laws including approved accounting standards.

Accordingly, where applicable:

- (i) Listed local and foreign securities

Listed local and foreign securities will be valued daily based on the last done market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.

However, if:-

- (a) a valuation based on the market price does not represent the fair value of the securities, for example during abnormal market conditions; or

- 
- (b) no market price is available, including in the event of a suspension in the quotation of securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee,

then the securities should be valued at fair value, as determined in good faith by the Manager based on the methods or bases approved by the Trustee after appropriate technical consultation.

(ii) Unlisted fixed income securities

Investments in unlisted fixed income securities / sukuk denominated in Ringgit Malaysia will be valued on a daily basis by reference to the fair value price quoted by a bond pricing agency (“BPA”) registered by the Securities Commission. However, where quotations are not available, such fixed income securities / sukuk will generally be valued on a weekly basis or as and when appropriate, by reference to the average indicative yield quoted by three independent and reputable financial institutions in over-the-counter market at the close of trading. These institutions include investment banks and commercial banks dealing in fixed income securities / sukuk.

Investments in foreign unlisted fixed income securities / sukuk are valued daily using the Bloomberg Generic Price (BGN) provided by Bloomberg. Where BGN prices are not available on any business day, these securities will be valued by reference to the average indicative yield quoted by three independent and reputable financial institutions.

In a case where the Manager is of the view that the market yield for a specific unlisted fixed income security / sukuk differs by more than 20 basis points from the price quoted by BPA or BGN, the Manager may use its own view of the market yield for a specific unlisted fixed income security/sukuk, provided that the Manager records its basis for using a non BPA price or non BGN price, obtains necessary internal approvals to use the non BPA price or non BGN price and keeps an audit trail of all decisions and basis for adopting its own view of the market yield.

However, when the Manager, after taking all reasonable efforts, is unable to obtain quotations from BPA or any BGN price or quotations from three independent and reputable financial institutions due to circumstances such as extreme market conditions, such local and foreign unlisted fixed income securities / sukuk will be valued according to an alternative method determined in good faith by the Manager, which has been verified by the auditor of the Fund and approved by the Trustee provided that the Manager records its basis for using the alternative method having obtained necessary internal approvals to use the alternative method and the Manager keeps an audit trail of all decisions and basis for adopting the alternative method. Any alternative method shall be consistently applied unless advised otherwise by the auditor of the Fund and the Trustee.

(iii) Unlisted securities

Investment in unlisted securities will be valued at the cost price of each investments until the securities of the investee companies are successfully listed on a recognised stock exchange, upon which quoted prices will be available and valuation will be based on the last done market price or such other basis as may be prescribed by the relevant laws from time to time including approved accounting standards.

(iv) Collective investment schemes

Collective investment schemes which are quoted on an approved exchange shall be valued in the same manner as listed securities as described above. When investing in unlisted collective investment schemes, the value shall be determined by reference to that manager’s last published repurchase price of a unit for that unlisted collective investment scheme.

(v) Financial derivatives

Exchange traded financial derivatives / Islamic financial derivatives positions will be “marked to market” at the close of each trading day. In respect of OTC derivatives, the Manager has access to the resources of specialists to verify the reasonableness of the prices quoted by the issuer whenever the Manager considers it necessary to do so.

(vi) Cash and deposits

Cash and deposits / Islamic deposits placed with financial institutions will be valued each day by reference to the principal value of such investments and the interest / profits accrued thereon for the relevant period.

(vii) Money market instruments

Money market instruments / Islamic money market instruments will be valued each day based on the accretion of discount or amortisation of premium on a yield to maturity basis.

(viii) Foreign exchange translation

Foreign exchange translation into RM for a particular Business Day is determined based on the bid rate quoted by Bloomberg or Reuters at 4.00 p.m. (United Kingdom time) or such other time as may be prescribed from time to time by relevant laws.

#### 4. FEES, CHARGES AND EXPENSES

The cost to the investor of investing in a Fund is as follows:

##### 4.1 Charges

The charges directly incurred by an investor when purchasing or redeeming units of the respective Funds are as follows:

(a) Sales Charge

Where applicable an investor can expect differing sales charge or transaction fee to be levied when buying units of the Fund from the various distribution channels and within each distribution channel, subject to the maximum sales charge or transaction fee stipulated herein. This is due to the different levels of services provided by each distribution channel and/or the size of the investment undertaken.

From the sales charge or transaction fee received from investors for each of the respective Funds, the Manager pays no more than the entire sales charge or transaction fee as mentioned above as selling commission to its distributors for that particular Fund.

#### (i) Switching of units

|                     |                    |                 |                    |

This is considered as a withdrawal of investment from one Fund and an investment into any of the unit trust funds under the management of the Manager that allows switching of units. A switching fee will be imposed on Unit Holders switching between funds under management (that allow switching). A switching fee<sup>1</sup> of RM25.00 will be imposed and deducted from the redemption amount of the units to be switched for a switch between funds that impose a similar sales charge or a switch to a fund that impose a lower sales charge. Unit Holders switching to a fund that imposes a higher sales charge will pay the difference in sales charge which is deductible from the redemption amount of the units to be switched.

The Manager however, reserves the right to vary this fee or to vary the terms of the switching facility. Units of the Fund to be switched into shall be purchased at the Net Asset Value per Unit of that Fund as at the next valuation point of the Fund's relevant Business Day after the form of request to switch is received by the Manager ("forward pricing").

Say, an investor redeems 23,380.87 units at the Repurchase Price of RM 0.4277 (which is the Net Asset Value per Unit as at the next valuation point), he would receive proceeds of redemption of RM10,000.00 as follows:

Similarly, units of a Fund can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branch offices, or to any of its participating IUTAs or to any other authorised distributors before their respective cut-off times. For investors who paid by cheque, the refund will be made upon clearance of the cheque. Where applicable, for EPF investors, the refund will be credited back into their respective EPF accounts only after funds have been received from the EPF.

This letter has been prepared for inclusion in the master prospectus dated 3 August 2017 in connection with the offer of units in the above unit trust funds (“the Funds”):-

### **Taxation of the Funds**

#### ***Income Tax***

The Funds are treated as a unit trust for Malaysian tax purposes. The taxation of the Funds is therefore governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 (“the Act”).

Any reference to interest in the Act shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

---

Subject to certain exemptions, the income of the Funds in respect of investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24% with effect from Year of Assessment (“YA”) 2016.

Investment income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments (whether local or foreign) by the Funds will not be subject to tax in Malaysia.

Any income received by the Funds from a Sukuk Issue which has been issued by the Malaysia Global Sukuk Inc will be exempt from tax.

Any income received by the Funds from a Sukuk Ijarah, other than convertible loan stock, issued in any currency by 1Malaysia Sukuk Global Berhad will be exempt from tax.

Discounts earned by the Funds from the following are also exempt from tax:-

- securities or bonds issued or guaranteed by the Government of Malaysia; or
- debentures or sukuks, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Deductions in respect of the Funds’ expenses such as manager’s remuneration, maintenance of a register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage are generally allowed based on a prescribed formula subject to a minimum of 10 percent and a maximum of 25 percent of the total of these expenses.

Single-tier Malaysian dividends received by the Funds are exempted from tax and expenses incurred by the Funds in relation to dividend income (which is paid or credited under the single-tier system) are disregarded.

Interest income or gains / profits earned by the Funds from the following are exempt from tax:-

- any savings certificates issued by the Government of Malaysia; or
- securities or bonds issued or guaranteed by the Government of Malaysia; or
- debentures or sukuks, other than convertible loan stock, approved or authorised by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013<sup>1</sup>; or
- any development financial institution regulated under the Development Financial Institutions Act 2002<sup>1</sup>; or
- Sukuks originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorised by, or lodged with, the Securities Commission (“SC”) or approved by the Labuan Financial Services Authority<sup>2</sup>; or
- A Sukuk Wakala, other than a convertible loan stock, issued in any currency by Wakala Global Sukuk Berhad; or
- A Sukuk Wakala issued in accordance with the principle of Wakala Bil Istithmar with the nominal value of up to one billion and five hundred million United States Dollars, other than a convertible loan stock, issued by the Malaysia Sovereign Sukuk Berhad.

---

Note 1: Effective from YA 2017, in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with criteria as set out in the relevant guidelines of the Securities Commission.

Note 2: With effect from YA 2017, the income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions.

- 
- A Sukuk Wakala issued in accordance with the principle of Wakala with the nominal value up to one billion and five hundred million United States Dollars, other than convertible loan stock, issued by the Malaysia Sukuk Global Berhad (formerly known as 1Malaysia Sukuk Global Berhad).

### ***Real Property Gains Tax (“RPGT”)***

Gains on disposal of investments by the Funds will generally not be subject to income tax in Malaysia. However, such gains may be subjected to RPGT in Malaysia, if the gains are derived from the sale of Malaysian real properties or shares in Malaysian real property companies (as defined). The gains on the disposal of the chargeable assets would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

### ***Goods and Services Tax (“GST”)***

GST has been implemented in Malaysia with effect from 1 April 2015, at a standard rate of 6%. It replaced the Sales Tax and Service Tax.

The issue, holding or redemption of any unit under a trust fund is regarded as an exempt supply. The investment activities of the Funds such as buying and selling of securities are exempt supplies and thus not subject to GST. Thus, if the Funds are only making such exempt supplies, it is not required to be registered for GST.

However, certain expenses incurred by the Funds such as fund manager’s fees, trustee fees and professional fees will be subject to GST if the service providers are GST registered. If the Funds are only making exempt supplies (and thus not GST registered), any input tax incurred by the Funds for the aforementioned expenses are not claimable.

### **Taxation of Unit Holders**

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Funds, to the extent that this is distributed to them. The income distribution from the Funds may carry with it applicable tax credits proportionate to each unit holder’s share of the total taxable income in respect of the tax paid by the Funds. Unit holders will be entitled to utilise the tax credit as a set-off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders. No other withholding taxes will be imposed on the income distribution of the Funds.

With effect from YA 2016, corporate unit holders (resident or non resident in Malaysia), will be taxed at the corporate tax rate of 24%, on distributions of income from the Funds to the extent of an amount equivalent to their share of the total taxable income of the Funds.

Resident corporate unit holders whose paid-up capital in the form of ordinary shares does not exceed RM2.5 million will be subject to a tax rate of 19% (will be reduced to 18% from YA 2017) on chargeable income of up to RM500,000. For chargeable income in excess of RM500,000, the tax rate of 24% (effective from YA 2016) is still applicable. However, the said tax rate of 19% on chargeable income of up to RM500,000 will not apply if more than 50% of the paid up capital in respect of ordinary shares of that company is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Pursuant to Income Tax (Exemption) (No. 2) Order 2017 [P.U.(A) 117], a tax exemption equivalent to a reduction in the corporate tax rate from 1% to 4% will be effectively given for YA 2017 and YA 2018 based on percentage of increase in the chargeable business income for the relevant YA as compared to the immediately preceding YA, subject to meeting the stipulated conditions.

Individuals and other non-corporate unit holders who are resident in Malaysia are generally subject to income tax at scaled rates. The scaled tax rates range from 0% to 28% with effect from YA 2016.

---

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, will be subject to Malaysian income tax at the rate of 28% with effect from YA 2016. Non resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

The distribution of single-tier dividends and other tax exempt income by the Funds will be exempted from tax in the hands of the unit holders in Malaysia. Distribution of foreign income will also be exempted from tax in the hands of the unit holders.

Units split by the Funds will be exempted from tax in Malaysia in the hands of the unit holders.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfers or redemptions of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

The following gains or income received by the unit holders are not subject to GST:-

- the distribution of income from the Funds to the unit holders which may comprise of dividends, interest income and gain from realisation of investments;
- distribution of foreign income from the Funds;
- unit split by the Funds and reinvestment of distribution; and
- gain made from selling or redemption of units.

However, the following expenses incurred by the unit holders should be subject to GST if the supplier is GST registered:-

- any fee based charges in relation to buying of the units such as sales charge; and
- switching and transfer charges for switching or transferring the units.

The tax position is based on our understanding and interpretation of the Malaysian tax laws and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

Ong Guan Heng  
*Executive Director*

### LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings. You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financing circumstances. You should be aware of the risk, which would include the following:-

- (i) The higher the margin of financing (that is, the amount of money you borrow for every Ringgit of your own money that you put in as deposit or down payment) the greater the loss or gain on your investment.
- (ii) You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- (iii) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the prescribed time, your units may be sold towards the settlement of your loan.

- (iv) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are incurred instead. Whether you eventually realise a gain or incur loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take the loan. If you have doubts in respect of any aspect of this Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.
