B. Amendment to “Section 1.6 – Investment Policy and Strategy” from pages 7 to 8 of the Prospectus

The information relating to the investment policy and strategy is hereby deleted and replaced with the following:-

1.6 Investment Policy and Strategy

The Fund seeks to achieve its investment objective by investing primarily in equities and equity-related securities in Asia. The remaining of the Fund’s NAV will be invested in Liquid Assets.

The investment universe will include, but is not limited to, equities and equities-related securities listed on exchanges in the Asia Pacific region, as well as equities and equities-related securities of companies which have operations in, exposure to, or derive part of their revenue from the Asia Pacific region, wherever they may be listed. The Fund will have the flexibility to invest in collective investment schemes which is in line with the Fund’s investment objective. The Fund’s investment in China "A" Shares listed on PRC stock exchanges may be made through the Stock Connects and/or any other means as may be permitted by the relevant regulations from time to time, for up to 35% of the Fund’s NAV.

THIS FIRST SUPPLEMENTARY PROSPECTUS OF TA ASIA ABSOLUTE ALPHA FUND DATED 1 MARCH 2024 MUST BE READ TOGETHER WITH THE PROSPECTUS OF TA ASIA ABSOLUTE ALPHA FUND DATED 28 MARCH 2023

The Fund may focus on growth companies with sound economic fundamentals to generate alpha (i.e. excess return) through fundamental company and industry research and by applying a bottom-up approach. This approach seeks to identify companies with either proven track records and durable competitive strengths or growth potential that is not fully reflected in the price of its securities. The stock selection process for the investments takes various factors into account, including but not limited to the potential maximum loss under adverse market conditions.

The Fund may use financial derivative instruments ("FDIs") (including, without limitation, futures, options and forwards) for hedging and efficient portfolio management purposes.

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund may take temporary defensive positions that may be inconsistent with the Fund's strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Fund may temporarily hold up to 100% of the Fund's assets in Liquid Assets which may be inconsistent with the Fund's objective and asset allocation strategy as a defensive strategy.

The investment management of the Fund has been delegated to an external investment manager, Fullerton Fund Management Company Ltd.

Derivatives

The Fund may use derivatives for any of the following purposes as described below:

Hedging

The Fund may employ currency hedging strategies to hedge the foreign currency exposure to manage the currency risk of the Classes not denominated in the Base Currency. The Fund may also utilise derivative instruments such as futures or options for the purpose of hedging the Fund's exposure to particular markets, sectors or currencies (e.g., equity index).

Efficient Portfolio Management

Efficient portfolio management means the cost-effective use of derivatives with the aim of reducing certain risk associated with the Fund's investments, reducing costs or to generate additional capital or income. The risks generated will be consistent with the Fund's risk profile and be adequately captured by the risk management process.

Types of derivatives the Fund can use and the rationale of their use:

The Fund may use a range of derivatives to achieve a particular investment outcome such as:

FDIs	Descriptions of FDIs	Rationale of their Use
Options	The Fund may invest in call or put options on equities, indices, currencies, futures contracts or other instruments.	The Fund may use options as a substitute for investing directly in securities (e.g. call options) and for managing equity market risk (e.g. put options) and for gaining or adjusting exposure to particular markets, sectors or currencies (e.g. options on equity index/sector futures).
Futures	The Fund may enter into listed futures contracts on equities, indices, currencies or other instruments.	The Fund may use futures for managing equity market risk (e.g. equity sector futures) and for gaining or adjusting exposure to particular markets, sectors or currencies (e.g. equity index/sector futures).

THIS FIRST SUPPLEMENTARY PROSPECTUS OF TA ASIA ABSOLUTE ALPHA FUND DATED 1 MARCH 2024 MUST BE READ TOGETHER WITH THE PROSPECTUS OF TA ASIA ABSOLUTE ALPHA FUND DATED 28 MARCH 2023

Forwards	Typically foreign exchange contracts.	The Fund may enter into forward contract to hedge the foreign currency for the hedged Classes.

C. Amendment to “Section 1.7 – Asset Allocation” on page 8 of the Prospectus

The information relating to the asset allocation is hereby deleted and replaced with the following:-

1.7 Asset Allocation

- Minimum of 60% to 98% of the Fund's NAV in equities and equity-related securities;
- At least 2% of the Fund's NAV in Liquid Assets; and
- Maximum of 30% of the Fund's NAV in derivatives.

D. Amendment to “Section 1.12 – Permitted Investments” from pages 9 to 10 of the Prospectus

The information relating to the permitted investments is hereby deleted and replaced with the following:-

1.12 Permitted Investments

Unless otherwise prohibited by the relevant regulatory authorities or any relevant law and provided always that there are no inconsistencies with the objective of the Fund, the Fund is permitted under the Deed to invest in the following:

- a) equities and equity-related securities traded in or under the rules of an Eligible Market;
- b) unlisted securities including securities not listed or quoted on a stock exchange but have been approved by the regulatory authority for such listing or quotation and are offered directly to the fund by the issuer;
- c) Liquid Assets;
- d) units and/or shares in local and foreign collective investment schemes;
- e) financial derivatives instruments, including but not limited to options, futures contracts, forward contracts and swaps; and
- f) any other form of investment as may be permitted by the relevant regulatory authorities from time to time and in accordance to the Fund's objective.

E. Amendment to “Section 1.14.1 – General Risks of Investing in a Unit Trust Fund” from pages 11 to 12 of the Prospectus

The information relating to the “suspension risk” is hereby inserted immediately after the “Operational Risk”:-

g) Suspension Risk

The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units where it is impractical for the Manager to calculate the NAV of the Fund due to the Manager being unable to determine the market value or fair value of a material portion of the Fund's investments. Upon suspension, the Fund will not be able to pay Unit Holders' redemption proceeds in a timely manner and Unit Holders will be required to remain invested in the Fund for a longer period. In such a scenario, Unit Holder's investments will continue to be subjected to risk factors inherent to the Fund.

THIS FIRST SUPPLEMENTARY PROSPECTUS OF TA ASIA ABSOLUTE ALPHA FUND DATED 1 MARCH 2024 MUST BE READ TOGETHER WITH THE PROSPECTUS OF TA ASIA ABSOLUTE ALPHA FUND DATED 28 MARCH 2023

F. Amendment to “Section 1.14.2 – Specific Risks Associated to the Fund” from pages 12 to 17 of the Prospectus

The information relating to the financial derivative instruments risk and counterparty risk are hereby deleted and replaced with the following:-

c) Financial Derivative Instruments Risk

FDIs may be used where the relevant investment guidelines permit.

The successful use of such instruments depends on the ability to accurately predict movements in stock prices, interest rates, currency exchange rates or other economic factors and the availability of liquid markets. If the External Investment Manager's prediction is incorrect, or if the FDIs do not work as anticipated, greater losses may be incurred than had FDIs not been used.

While some strategies involving FDIs can reduce the risk of loss, they can also reduce the opportunity for gain or even result in losses by offsetting favourable price movements in other investments. This results in likelihood of high volatility of the NAV per Unit of the Fund.

Investments in FDIs may require the deposit of an initial margin and additional deposits of margin on short notice if the market moves against the investment positions. If no provision is made for the required margin within the prescribed time, FDI investments may be liquidated at a loss.

Other risks in using FDIs include the risk of mispricing or improper valuation of FDIs and the inability of FDIs to correlate perfectly with underlying assets, rates and indices. Many FDIs, in particular privately negotiated FDIs, are complex and often valued subjectively. Improper valuations can result in increased cash payment requirements to counterparties or a loss of value to the Fund. Also, the value of FDIs may not correlate perfectly, or at all, with the value of the assets, reference rates or indices they are designed to closely track. In addition, the use of FDIs may attract taxes for short-term capital gains than had FDIs not been used.

For hedged classes, the Manager may use forward contract for the purpose of hedging the foreign currency movement against the Base Currency. In particular for those forward transactions that traded over-the-counter, there is an increase in counterparty risk. If a counterparty defaults, the Fund may not get the expected payment or delivery of assets. This may result in the loss of the unrealised profit. The investment in FDIs is used to reduce currency fluctuation risk for the Fund.

o) Counterparty Risk

The Fund will be exposed to credit risk of the counterparties for investments in financial derivative instruments with the financial institutions for hedging purposes. Any default by the counterparty would affect the NAV of the Fund. The Fund will only enter into financial derivatives instruments that are issued by counterparty with a minimum long-term credit rating of investment grade (including gradation and subcategories). Where the counterparty is not rated, the counterparty must be guaranteed by the parent company of the counterparty which has an investment grade credit rating (including gradation and subcategories). In the event where the rating of the counterparty falls below the minimum required, or the counterparty ceases to be rated, analysis will be conducted to assess the impact of unwinding the affected trades and replacement cost. We shall, within six (6) months or sooner, if the Trustee considers it to be in the best interests of the Unit Holders, take the necessary action to ensure that the requirements are complied with.

THIS FIRST SUPPLEMENTARY PROSPECTUS OF TA ASIA ABSOLUTE ALPHA FUND DATED 1 MARCH 2024 MUST BE READ TOGETHER WITH THE PROSPECTUS OF TA ASIA ABSOLUTE ALPHA FUND DATED 28 MARCH 2023

G. Amendment to “Section 1.14.3 – Risk Mitigation” on page 18 of the Prospectus

The information relating to the risk mitigation is hereby deleted and replaced with the following:-

1.14.3 Risk Mitigation

We will take reasonable steps to mitigate the risks associated with the Fund by taking the following steps:

- (a) monitor and review the Fund on a monthly basis and ensure that the Fund adheres to the investment policy and strategy and investment restrictions and limits;
- (b) review the investment results on a monthly basis against the target return of the Fund;
- (c) hedge currency risk, if applicable; and
- (d) escalate and report investment related matters of the Fund to the senior management and investment committee of TAIM.

To mitigate the risks confronting the Fund, the External Investment Manager will, amongst other things:

- (a) constantly monitor the market liquidity and pricing;
- (b) always adhere to the Fund’s investment policy and strategy and the investment restrictions and limits to achieve the Fund’s investment objective;
- (c) practice prudent liquidity management to ensure that the Fund maintains reasonable levels of liquidity to meet any redemption request. The External Investment Manager deploys a proprietary risk model to quantify liquidity risks by taking into consideration, different determinants of liquidity for the individual securities. Key liquidity metrics are the time to liquidate (also known as the liquidity profile) and liquidation cost at the security and Fund level. In addition, historical redemption patterns are considered in assessing the ability of the Fund in meeting redemption requests. Liquidity stress tests based on stress scenarios are also performed.

To avoid suspension of the Fund, the Fund will hold adequate Liquid Assets and if the Liquid Assets are insufficient to meet redemption requests, the External Investment Manager will liquidate the investments of the Fund. If the liquidation of the investments is insufficient to meet redemption request, the External Investment Manager will inform the Manager, and the Manager may seek temporary financing, considering the best interests of Unit Holders. If the Manager is of the view that they have exhausted all possible avenues to avoid a suspension of the Fund, the Manager may as a last resort, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units where it is impractical for the Manager to calculate the NAV of the Fund due to the Manager being unable to determine the market value or fair value of a material portion of the Fund’s investments. Please note that during the suspension period, there will be no NAV per Unit available and hence, any application for subscription, redemption or switching of Units received by the Manager during the suspension period will only be accepted and processed on the next Business Day after the cessation of the suspension. Unit Holders will be notified of the suspension and when the suspension is lifted.

Derivatives

We may use the derivatives for efficient portfolio management if the transaction is:

- a) economically appropriate and realised in a cost-effective way;
- b) entered into for one or more of the following specific aims:
 - (i) reduction of risk;
 - (ii) reduction of cost; or
 - (iii) generation of additional capital or income for the Fund with a level of risk which is consistent with the risk profile of the Fund and the risk diversification requirements as prescribed in the Guidelines;
- c) The exposure is fully covered to meet any obligation to pay or deliver; and

THIS FIRST SUPPLEMENTARY PROSPECTUS OF TA ASIA ABSOLUTE ALPHA FUND DATED 1 MARCH 2024 MUST BE READ TOGETHER WITH THE PROSPECTUS OF TA ASIA ABSOLUTE ALPHA FUND DATED 28 MARCH 2023

d) The risks are adequately captured by the risk management policy and procedures of the Fund.

Global exposure calculation method:

For the purposes of the Fund's investment in derivatives for hedging and/or efficient portfolio management, the global exposure will be calculated using commitment approach to ensure it does not exceed the Fund's NAV. The global exposure of the Fund to derivatives is calculated as the sum of the:

- (a) absolute value of the exposure of each individual derivative not involved in netting or hedging arrangements;
- (b) absolute value of the net exposure of each individual derivative after netting or hedging arrangement; and
- (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC derivatives.

If the FDIs are not listed or quoted on the exchange, we will attempt to minimise the risks of using derivatives through the careful selection of reputable counterparties and constant monitoring of derivative position. Such counterparties will have a minimum long-term credit rating of investment grade (including gradation and subcategories) and will be subject to such other selection criteria as we may determine. Where the counterparty is not rated, the counterparty must be guaranteed by the parent company of the counterparty which has an investment grade credit rating (including gradation and subcategories).

H. Amendment to “Chapter 2: Fees, Charges and Expenses” on page 21 of the Prospectus

The following new note is hereby inserted immediately after the first note following section 2.9:-

Unit Holders and/or the Fund, shall be responsible for any taxes and/or duties chargeable in respect of all applicable fees, charges and expenses which may be imposed by the government or other authorities from time to time as provided in the Prospectus.

1.5 Investment Objective

The Fund aims to generate long term positive return, which includes both capital appreciation and income.

Any material change to the investment objective of the Fund would require Unit Holders' approval.

1.6 Investment Policy and Strategy

The Fund seeks to achieve its investment objective by investing primarily in equities and equity-related securities in Asia. The remaining of the Fund's NAV will be invested in Liquid Assets.

The investment universe will include, but is not limited to, equities and equities-related securities listed on exchanges in the Asia Pacific region, as well as equities and equities-related securities of companies which have operations in, exposure to, or derive part of their revenue from the Asia Pacific region, wherever they may be listed. The Fund will have the flexibility to invest in collective investment schemes which is in line with the Fund's investment objective. The Fund's investment in China "A" Shares listed on PRC stock exchanges may be made through the Stock Connects and/or any other means as may be permitted by the relevant regulations from time to time, for up to 35% of the Fund's NAV.

The Fund may focus on growth companies with sound economic fundamentals to generate alpha (i.e. excess return) through fundamental company and industry research and by applying a bottom-up approach. This approach seeks to identify companies with either proven track records and durable

Prospectus in respect of the TA Asia Absolute Alpha Fund

competitive strengths or growth potential that is not fully reflected in the price of its securities. The stock selection process for the investments takes various factors into account, including but not limited to the potential maximum loss under adverse market conditions.

The Fund may use financial derivative instruments for hedging purposes. For example, the Fund may employ currency hedging strategies to hedge the foreign currency exposure to manage the currency risk of the Classes not denominated in the Base Currency. The Fund may also utilise derivative instruments such as futures or options for the purpose of hedging the Fund's exposure to particular markets, sectors or currencies (e.g., equity index).

Although the Fund is actively managed, how active or the frequency of its trading strategy will very much depend on market opportunities.

The Fund may take temporary defensive positions that may be inconsistent with the Fund's strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Fund may temporarily hold up to 100% of the Fund's assets in Liquid Assets which may be inconsistent with the Fund's objective and asset allocation strategy as a defensive strategy.

The investment management of the Fund has been delegated to an external investment manager, Fullerton Fund Management Company Ltd.

1.7 Asset Allocation

- Minimum of 60% to 98% of the Fund's NAV in equities and equity-related securities; and
- At least 2% of the Fund's NAV in Liquid Assets.

1.8 Performance Benchmark

The performance of this Fund cannot be compared directly with any specific publicly available benchmark. However, the Fund has a target return of 8% per annum.

Note:

- This is not a guaranteed return and is only a measurement of the Fund's performance. The Fund may not achieve the target return in a particular financial year but targets to achieve this over Medium to Long Term.
- Any change of the Fund's benchmark will be updated on our website and/or the Fund's product highlights sheet.

1.9 Investor's Profile

The Fund is suitable for investors who:

- have Medium to Long Term investment horizon;
- have a moderate risk tolerance; and
- seek income and capital appreciation.

1.10 Distribution Policy

Distribution (if any), may be declared in our absolute discretion on a quarterly basis. The distribution may be made from (1) realised income, (2) realised gains, (3) unrealised income, (4) unrealised gains, (5) capital or (6) a combination of any of the above to provide a consistent level of distribution to Unit Holders.

In order for the Manager to generate the distributable income, all or parts of the fees and expenses incurred by the Fund may be charged to the capital of the Fund.

Prospectus in respect of the TA Asia Absolute Alpha Fund

The effects of distributing income out of capital would include but are not limited to the following:

- the value of the investments in the Fund may be reduced; and
- the capital of the Fund may be eroded.

The distribution is achieved by forgoing the potential for future capital growth. As a result, the value of future returns would be diminished and there would be an impact on the future growth potential of the Fund as the available assets to grow in the future is the net of the expenses charged to the Fund.

Please note that if distribution is made, such distribution is not a forecast, indication or projection of the future performance of the Fund. The Manager has the right to make provisions for reserves in respect of distribution of the Fund. If the distribution available is too small or insignificant, any distribution may not be of benefit to the Unit Holders as the total cost to be incurred in any such distribution may be higher than the amount for distribution. The Manager has the discretion to decide on the amount to be distributed to the Unit Holders. The Manager also has the discretion to make distribution on an ad-hoc basis, taking into consideration the performance of the Fund.

1.11 Mode of Distribution

Distribution, if any, will be paid out in the currencies which the Class(es) are denominated. Unit Holders may choose to receive any distribution declared in either of the following methods:

1) Reinvestment of Units

We will create the Units based on the NAV per Unit of the Class on the Reinvestment Date. There will not be any cost for reinvestment of those additional Units, i.e. no sales charge will be imposed on such transaction.

2) Cash Payment

Unit Holders should note that distribution payments, if any, will be made in the respective currency of the Class(es). As such, the distribution amount may be different for each Class as a result of exchange rate movement between the Base Currency and the currency denomination of the Class(es). The distribution will be paid into your bank account (which shall be in the respective currency of the Class(es)) in our records. All the cost and expenses incurred in facilitating such distribution payments shall be borne by Unit Holders.

Any distribution payable which is less than or equal to the amount of USD/MYR /AUD/SGD/GBP/RMB/EUR 250.00 would be automatically reinvested.

In the absence of instructions to the contrary, distribution of income and/or capital from the Fund will be automatically reinvested, at no charge, into additional Units of the Fund based on the NAV per Unit of that Class on the Reinvestment Date.

Note:

Any change in distribution instruction must be in writing. If this is done in the last 14 days before the distribution declaration date of the Fund, the change will only take effect from the next distribution point, if any.

1.12 Permitted Investments

Such extension shall be subject to at least a monthly review by the Trustee.

There are no restrictions and limits imposed on securities or instruments issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

1.14 Risk Factors

1.14.1 General Risks of Investing in a Unit Trust Fund

While we believe that the investment policy will be effective and that investment in unit trust funds may be rewarding, you should be aware that there are risks associated with their investment in unit trust funds. Below are some of the **general risks** which you should be aware of when investing in a unit trust fund:

a) **Market Risk**

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.

b) **Manager Risk**

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or Guidelines due to factors such as human error or weaknesses in operational processes and systems may adversely affect the performance of the Fund.

c) **Inflation Risk**

Inflation risk is the risk that an investor's investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investor's purchasing power even though the value of the investment in monetary terms has increased.

d) **Non-compliance Risk**

This risk arises from non-compliance with laws, rules, regulations, prescribed practices and internal policies and procedures by the Manager. For example, the Manager may fail to comply with internal policies and procedures due to internal factors such as oversight, human error and/or system error. This risk may also occur indirectly due to the imposition and/or amendment to the relevant regulatory frameworks, laws, rules and other prescribed practices affecting the Fund. The Manager has put in place internal controls to ensure that comprehensive and timely compliance monitoring is undertaken.

e) **Loan Financing Risk**

This risk occurs when investors take a loan or financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event Units are used as collateral, investors may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.

f) **Operational Risk**

Apart from a market disruption event, system interruption can also impact processes when there is an interruption in the flow of information needed for making qualified decisions where decisions are made based on accurate flow of information with operated system in managing the Fund. These disruptions may impact the performance of the Fund, the settlement of trades in the Fund and may also affect the investor's transactions with the Fund. The Manager has put in place internal controls to manage some of these disruptions such as business continuity plans. However, investors should note that not all circumstances can be prepared for nor anticipated. In such circumstances, the Manager in consultation with the Trustee will take appropriate measures to safeguard the Unit Holders' interests.

1.14.2 **Specific Risks associated to the Fund**

Below are some of the **specific risks** when investing in the Fund; these may include but are not limited to:

a) **External Investment Manager's Risk**

The investments of Fund are managed by the External Investment Manager, the Manager has no control over the External Investment Manager's investment technique, knowledge or management expertise. In the event of mismanagement of the Fund by the External Investment Manager, the NAV of the Fund would be affected negatively. The Fund would also be affected should there be any

unresolved dispute between the Manager and the External Investment Manager. Although the probability of such occurrence is minor, should the situation arise the Manager reserves the right to seek an alternative external investment manager to replace the External Investment Manager.

b) Equity and Equity-Related Securities Risk

Prices of equities and equity-related securities may be influenced and affected by many micro and macro factors such as economic, political, market, and company-specific changes. Such changes may adversely affect the value of the equities and equity-related securities which can go up and down. Additionally, different industries, financial markets, and securities can react differently to these changes. This may give rise to fluctuations in the Fund's value and can adversely affect the overall portfolio performance in any given period, resulting in significant losses.

c) Financial Derivative Instruments Risk

Derivatives, if any, will only be used for the purpose of hedging the Fund's portfolio from certain anticipated losses such as those resulting from unfavourable exchange rate and equity market movements. However, every hedge comes with a cost. In a move to mitigate the risk of uncertainty, the Fund is now exposed to the risk of opportunity loss. The volatility of the Fund will also depend on the correlations between derivatives to which the Fund is exposed and such correlations may vary from time to time. Once hedged, the Fund cannot take full advantage of favourable exchange rate and equity market movements. If the exposure which the Fund is hedging against makes money, the act of hedging would have typically reduced the potential returns of the Fund. On the other hand, if the exposure which the Fund is hedging against loses money, the act of hedging would have reduced the loss, if successfully hedged.

d) Currency Risk

As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

The Fund may offer Units in multiple currency Classes, which will expose the Unit Holder to currency risk in respect to the currency of Units of a Class other than the Base Currency.

(i) Currency risk at the hedged Class level

Investors in the hedged Classes may be subjected to currency risk due to imperfect hedging by the Manager when the Manager hedges the respective currency against the Base Currency. However, investors should note that hedging is subject to a minimum investment size of entering into a forward contract and the unhedged portion of the respective hedged Classes may still be affected by the exchange rate movement which may result in fluctuation of NAV of the respective hedged Classes. In addition, investors in the hedged Classes should note that by employing this hedging, investors would not be able to enjoy the additional currency gains when USD moves favourably against the currency of the hedged Classes. Additional transaction costs of hedging will also have to be borne by investors in these Classes.

(ii) Currency risk at the non-hedged Class level

For investors in the non-hedged Classes, the impact of the exchange rate movement between the Base Currency and the currency of the respective Classes (other than USD Class) may result in a depreciation of the investor's holdings as expressed in the Base Currency.

e) Country Risk

Investments of the Fund in foreign markets may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. This may impact on the prices of the Fund's investment in those countries and consequently may also adversely affect the Fund's NAV.

f) Liquidity Risk

Liquidity risk exists when particular investments are difficult to purchase or sell. The Fund's investment in illiquid securities may reduce the returns of the Fund because it may be unable to sell the illiquid securities at an advantageous time or price. Investments in securities with substantial market risk tend to have the greatest exposure to liquidity risk. Illiquid securities may be highly volatile and difficult to value. To mitigate the liquidity risk, the External Investment Manager will monitor the minimum threshold for daily liquidity of the investment of the Fund. In the event the investments of the Fund may not be able to be liquidated within a specific period of time, or may be sold below their valuation due to insufficient liquidity in the markets, this will negatively impact the NAV of the Fund and the investments of the Unit Holders.

g) Concentration Risk

The Fund may not be well diversified in terms of the number of holdings and the number of issuers of securities that the Fund invests in. Consequently, the price movement of the Fund can be more volatile than a fund which is more diversified.

h) Taxation Risk

Investors should note in particular that the proceeds from the sale of securities in some markets or the receipt of any dividends and other income may be or may become subject to tax, levies, duties or other fees or charges imposed by the authorities in that market, including taxation levied by withholding at source. Tax law and practice in certain countries into which the Fund invests in or may invest in the future (in particular emerging markets) is not clearly established. It is therefore possible that the current interpretation of the law or understanding of practice might change, or that the law might be changed with retrospective effect. As a result, the Fund could become subject to additional taxation in such countries that is not anticipated when investments are made, valued or disposed of.

i) Stock Connects Risk

The Fund may invest and have direct access to certain eligible China "A" shares via the Stock Connects. The aim of the Stock Connects is to achieve mutual stock market access between the PRC and Hong Kong.

Further information about the Stock Connects is available online at the website: <http://www.hkex.com.hk/mutualmarket>

Where the Fund invests through the Stock Connects, the Fund will be subject to the following risks associated with the Stock Connects:-

Quota limitations risk – The Stock Connects are subject to quota limitations. Trading under the Stock Connects will be subject to a daily quota respectively ("Daily Quota") which may restrict the Fund's ability to invest in China "A" Shares on a timely basis, and the Fund may not be able to effectively pursue its investment strategies.

Suspension risk – SEHK, SSE and SZSE reserve the right to suspend trading if necessary to ensure an orderly and fair market and that risks are managed prudently, subjected to the consent from the relevant regulator. Where a suspension is effected, the Fund's ability to access the PRC market will be adversely affected.

Differences in trading days – The Stock Connects only operate on days when both the PRC Stock Exchanges and the Hong Kong Exchanges and Clearing Limited (the "Hong Kong Stock Exchange") are open for trading and when banks in both markets are open on the corresponding settlement days. It is possible that there are occasions when it is a normal trading day for the PRC Stock Exchanges but Hong Kong Stock Exchange or banks are closed and overseas investors (such as the Fund) cannot carry out any China "A" Shares trading. Consequently, the Fund may be subject to a risk of price

Prospectus in respect of the TA Asia Absolute Alpha Fund

fluctuations in China "A" Shares on a day that the PRC Stock Exchanges are open for trading but the Hong Kong Stock Exchange is closed.

Operational risk – Market participants generally have configured and adapted their operational and technical systems for the purpose of trading China "A" Shares through the Stock Connects. However, it should be appreciated that the securities regimes and legal systems of the two markets differ significantly and in order for the program to operate, market participants may need to address issues arising from the differences on an on-going basis. In the event that the relevant systems failed to function properly, trading in both markets through the program could be disrupted and adversely affected the Fund's ability to access the China "A" Shares market.

Restrictions on selling imposed by front-end monitoring – PRC regulations require that before an investor sells any share, there should be sufficient shares in the account before the market opens on the day of selling; otherwise SSE or SZSE will reject the sell order concerned. SEHK will carry out pre-trade checking on China "A" Shares sell orders of its participants (i.e. the stock brokers) to ensure there is no over-selling. Consequently, the Fund may not be able to dispose of holdings of China "A" Shares in a timely manner.

This can be mitigated by opening a special segregated account ("**SPSA**") in CCASS (the Central Clearing and Settlement System operated by the Hong Kong Securities Clearing Company Limited ("**HKSCC**") for the clearing securities listed or traded on SEHK) to maintain its holdings in China "A" Shares for verification.

Recalling of eligible stocks – When a stock is recalled from the scope of eligible stocks for trading via the Stock Connects, the stock can only be sold but restricted from being bought. This may affect the investment portfolio or strategies of the Fund, for example, when the External Investment Manager wishes to purchase a stock which is recalled from the scope of eligible stocks.

Custody, clearing and settlement risk – The HKSCC will be responsible for the clearing, settlement and the provision of depository, nominee and other related services of the trades executed by Hong Kong market participants and investors.

HKSCC and China Securities Depository and Clearing Corporation Limited ("**ChinaClear**") have established the clearing links and each is a participant of each other to facilitate clearing and settlement of cross-boundary trades.

Should ChinaClear default on its obligations, HKSCC's liabilities under its market contracts with clearing participants will be limited to assisting clearing participants in pursuing their claims against ChinaClear. HKSCC will in good faith, seek recovery of the outstanding stocks and monies from ChinaClear through available legal channels or through ChinaClear's liquidation. In that event, the Fund may suffer delay in the recovery process or may not be able to fully recover its losses from ChinaClear.

Nominee arrangements in holding China "A" Shares – HKSCC is the nominee holder of the SSE Securities and SZSE Securities acquired by overseas investors (including the Fund) through the Stock Connects. The current Stock Connects rules expressly provide for the concept of a "nominee holder" and there are other laws and regulations in the PRC which recognise the concepts of "beneficial owner" and "nominee holder". Investors should note that some of the relevant PRC rules related to nominee holder are only departmental regulations and are generally untested in the PRC. There is no assurance that the Fund will not encounter difficulties or delays in terms of enforcing its rights in relation to China "A" Shares acquired through the Stock Connects.

No Protection by Investor Compensation Fund – Investments through the Stock Connects are conducted through brokers, and are subject to the risks of default by such brokers' in their obligations.

Prospectus in respect of the TA Asia Absolute Alpha Fund

The Fund is exposed to the risks of default of the broker(s) it engages in its trading in China "A" Shares through the Stock Connects and is not protected by the China Securities Investor Protection Fund in the PRC.

Regulatory risk – The Stock Connects are novel in nature, and the Stock Connects will be subject to regulations promulgated by regulatory authorities and implementation rules made by the stock exchanges in the PRC and Hong Kong. Further, current regulations are subject to change and new regulations may be promulgated from time to time by the regulators in connection with operations and cross-border legal enforcement in connection with cross-border trades under the Stock Connects.

Such regulations are untested and there is no certainty as to how they will be applied. There is no assurance that the Stock Connects will not be abolished. Consequently, the Fund may be adversely affected as a result of such changes.

j) Risk of Investing in Emerging and Less Developed Markets

In emerging and less developed markets, in which the Fund may invest in, the legal, judicial and regulatory infrastructure is still developing but there is much legal uncertainty both for local market participants and their overseas counterparts.

Emerging markets may be subject to political instability which could affect the value of securities in emerging markets to a significant extent. Emerging markets tend to have higher volatility and less liquidity than developed markets, and this could affect the liquidation of securities and valuation of assets in such markets.

Investing in emerging markets are also subject to risks such as market suspension, restriction on foreign investment and repatriation of capital. There are also possibilities of nationalism, expropriation or confiscatory taxation, foreign exchange controls, political changes, government regulation or social instability which could affect adversely the Fund's investments.

k) Political and Economic Risk

Economic and/or political instability in countries the Fund invests in could lead to legal, fiscal and regulatory changes or the reversal of legal / fiscal / regulatory / market reforms, which could have an adverse impact on the Fund's investments. Such changes include, but are not limited to (A) the compulsory acquisition of assets without adequate compensation; (B) interest rate hikes which could adversely affect the valuation of securities and the profitability of the companies the Fund invests in; and (C) sudden imposition of taxes or exchange controls.

A country may be heavily dependent on its commodity and natural resource imports/exports and is therefore vulnerable to weaknesses in world prices for these products.

Countries the Fund invests in may be subject to inflation/deflation risks. Inflation is the risk that the Fund's assets or income from the Fund's investments may be worth less in the future as inflation decreases the value of money. As inflation increases, the real value of the Fund's portfolio could decline. Deflation risk is the risk that prices throughout the economy may decline over time. Deflation may have an adverse effect on the creditworthiness of issuers and may make issuer default more likely, which may result in a decline in the value of the Fund's portfolio.

l) Small Capitalisation Companies Risk

Smaller companies may offer greater opportunities for capital appreciation than larger companies, but are more likely to have limited product lines, markets or financial resources, or to depend on a small, inexperienced management group. Securities of smaller companies may, especially during periods where markets are falling, become less liquid and experience short-term price volatility and wide spreads between dealing prices. They may also be traded on the OTC market or on a regional exchange, which have limited liquidity. Investments in smaller companies may be more vulnerable to adverse developments than those in larger companies. Consequently, the Fund may have more difficulty in trading the securities of smaller companies at prevailing market prices. There may be less publicly

Prospectus in respect of the TA Asia Absolute Alpha Fund

available information about smaller companies or less market interest in the securities, and it may take longer for the prices of the securities to reflect the full value of the issuers' earning potential or assets.

m) Settlement Risk

The securities markets in some countries are lack of efficiency and regulatory controls than more developed markets.

The share register of some markets may not be properly maintained and the ownership or interest may not be (or remain) fully protected. Registration of securities may be subject to delay and during the period of delay it may be difficult to prove beneficial ownership of the securities. The provision for custody of assets may be less developed than in other more mature markets and thus provides an additional level of risk for the Fund. Settlement procedures may be less developed and still be in physical form.

Limitations may exist with respect to the Fund's ability to repatriate investment income, capital or the proceeds from the sale of securities by foreign investors. The Fund can be adversely affected by delays in, or refusal to grant, any required governmental approval for such repatriation.

n) IPO Securities Risk

The Fund may invest in initial public offering ("IPO") securities. IPO securities risk is the risk that the prices of IPO securities may experience higher volatility and subject to more unpredictable changes than securities which are already listed. Liquidity risk associated with IPO securities may be difficult to assess, due to factors such as the lack of trading history. As a result, such securities could have a significant impact on the Fund's performance.

o) Counterparty Risk

The Fund will be exposed to credit risk of the counterparties for investments in financial derivative instruments with the financial institutions for hedging purposes. Any default by the counterparty would affect the NAV of the Fund. The Fund will only enter into financial derivatives instruments that are issued by counterparty with a minimum long-term credit rating of investment grade (including gradation and subcategories) by any domestic or global rating agency. Where the counterparty is not rated, the counterparty must be guaranteed by the parent company of the counterparty which has an investment grade credit rating (including gradation and subcategories). In the event where the rating of the counterparty falls below the minimum required, or the counterparty ceases to be rated, analysis will be conducted to assess the impact of unwinding the affected trades and replacement cost. We shall, within six (6) months or sooner, if the Trustee considers it to be in the best interests of the Unit Holders, take the necessary action to ensure that the requirements are complied with.

p) Distribution Out of Capital Risk

Distribution may be paid out of capital when the realised gains or realised income of the Fund is insufficient to pay a distribution. Unit Holders should note that the payment of distribution out of capital represents a return or withdrawal of part of the amount from any capital gains attributable to the original investment. Such distribution may result in an immediate decrease in the NAV per Unit of the Class and the capital of the Fund which is available for investment in the future. As a result, capital growth may be reduced and a high distribution yield from distribution out of capital does not imply a positive or high return on Unit Holders' total investments.

q) Collective Investment Scheme Risk

The Fund's NAV may be affected by its investments in collective investment schemes. For example, the performance of the collective investment schemes may be adversely affected due to various factors such as poor market conditions as well as the fund manager's capabilities. As a result, the performance of the Fund may be adversely impacted.

1.14.3 Risk Mitigation

We will take reasonable steps to mitigate the risks associated with the Fund by taking the following steps:

- (a) monitor and review the Fund on a monthly basis and ensure that the Fund adheres to the investment policy and strategy and investment restrictions and limits;
- (b) review the investment results on a monthly basis against the target return of the Fund;
- (c) hedge currency risk, if applicable; and
- (d) escalate and report investment related matters of the Fund to the senior management and investment committee of TAIM.

To mitigate the risks confronting the Fund, the External Investment Manager will, amongst other things:

- (a) constantly monitor the market liquidity and pricing;
- (b) always adhere to the Fund's investment policy and strategy and the investment restrictions and limits to achieve the Fund's investment objective;
- (c) practice prudent liquidity management to ensure that the Fund maintains reasonable levels of liquidity to meet any redemption request. The External Investment Manager deploys a proprietary risk model to quantify liquidity risks by taking into consideration, different determinants of liquidity for the individual securities. Key liquidity metrics are the time to liquidate (also known as the liquidity profile) and liquidation cost at the security and Fund level. In addition, historical redemption patterns are considered in assessing the ability of the Fund in meeting redemption requests. Liquidity stress tests based on stress scenarios are also performed.

Global exposure calculation method:

For the purposes of the Fund's investment in derivatives for hedging purposes, the global exposure will be calculated using commitment approach to ensure it does not exceed the Fund's NAV. The global exposure of the Fund to derivatives is calculated as the sum of the:

- (a) absolute value of the exposure of each individual derivative not involved in netting or hedging arrangements;
- (b) absolute value of the net exposure of each individual derivative after netting or hedging arrangement; and
- (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC derivatives.

THE ABOVE SHOULD NOT BE CONSIDERED TO BE AN EXHAUSTIVE LIST OF THE RISKS WHICH POTENTIAL INVESTORS SHOULD CONSIDER BEFORE INVESTING INTO THE FUND. POTENTIAL INVESTORS SHOULD BE AWARE THAT AN INVESTMENT IN THE FUND MAY BE EXPOSED TO OTHER RISKS FROM TIME TO TIME.

Notwithstanding the aforesaid, the Manager or the External Investment Manager may retain goods or services ("soft commissions") provided by any broker or dealer if the following conditions are met:

- (a) The soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;

Prospectus in respect of the TA Asia Absolute Alpha Fund

- (b) Any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund; and
- (c) The availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and the Manager or the External Investment Manager shall not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

THERE ARE FEES AND CHARGES INVOLVED AND INVESTORS ARE ADVISED TO CONSIDER THEM BEFORE INVESTING IN THE FUND.

CHAPTER 3: TRANSACTION INFORMATION

3.1 Sale and Purchase of Units

3.1.1 Computation of NAV and NAV per Unit

The NAV of the Fund means the total value of the Fund's investment, assets and properties less the Fund's expenses or liabilities incurred or accrued for the day.

The NAV per Unit is the NAV of the Fund attributable to a Class divided by the number of Units in circulation for that particular Class, at the same valuation point.

The valuation of the Fund will be carried out on a daily basis in the Base Currency. Accordingly, all assets that are not denominated in USD will be translated to USD for valuation purposes. The foreign exchange rate used for this purpose shall be the bid foreign exchange rate quoted by Bloomberg or Reuters at 4.00 p.m. United Kingdom time (which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysia time) on the same day) as the valuation point of the Fund or such time as may be prescribed under the relevant laws from time to time.

Due to multiple Classes in the Fund, the gain, income, expenses, and/or other expenses related to the Fund are apportioned based on the value of the Class (quoted in the Base Currency) relative to the value of the Fund (also quoted in the Base Currency), which is shown as multi-class ratio.

Please refer to the illustration below for the computation.

3.2 Pricing of Units

We adopt the single pricing policy which is in line with the SC's requirement for the Malaysian unit trust industry where the selling price and redemption price of Units will be at the NAV per Unit of the Fund.

The daily NAV per Unit of the Fund is valued at the next valuation point after a subscription application or a redemption request is received by us, i.e., on forward price basis.

Example:

Making an investment

Illustration: Determining the Investment Amount & Units Entitlement

Assuming an investor decided to invest RM10,000 in the Fund for MYR Class. The NAV per Unit is RM0.5000 and the sales charge is 5.50% of the NAV per Unit. The sales charge is calculated based on his investment amount and is illustrated as follows:

Investment amount	RM	10,000.00
-------------------	----	-----------

Prospectus in respect of the TA Asia Absolute Alpha Fund

Number of Units allocated (RM10,000 / RM0.5000)		20,000
Add: sales charge 5.50% of investment amount (5.50% x RM10,000)	RM	550.00
Amount payable by investor	RM	10,550.00

Redeeming an investment

Investors may redeem their investment on a daily basis by submitting a complete transaction form to the Manager on any Business Day. The redemption application will be processed on a daily basis and the redemption amount is calculated by multiplying the NAV per Unit at the next valuation point after the Manager receives the redemption application, with the number of Units to be redeemed.

Determining the Redemption Amount		
Number of Units to be redeemed		20,000.00
If for example, the NAV per Unit for MYR Class calculated at the next valuation point is RM0.5500, the redemption value, would be:		
Multiply by NAV per Unit	RM	0.5500
Redemption value payable to investor	RM	11,000.00

Please note that the calculation set out above is for illustration purposes only.

Incorrect Pricing

The Manager shall take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the relevant authorities of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance. An incorrect valuation and/or pricing of the Fund and/or the Units shall result in a reimbursement of moneys unless the Trustee considers that such incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee shall not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of zero point five per centum (0.5%) or more of the NAV per Unit attributable to a Class unless the total impact on a Unit Holder's account of each Class is less than RM10.00 or in the case of a foreign currency Class, less than 10.00 denominated in the foreign currency denomination of the Class. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee shall result in reimbursement of moneys in the following manner:

- (a) if there is an over valuation and/or pricing in relation to the application for Units, the Fund shall reimburse the Unit Holder;
- (b) if there is an over valuation and/or pricing in relation to the redemption of Units, the Manager shall reimburse the Fund;
- (c) if there is an under valuation and/or pricing in relation to the application for Units, the Manager shall reimburse the Fund; and
- (d) if there is an under valuation and/or pricing in relation to the redemption of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

Policy on rounding adjustment

In calculating your investments with the Manager, the NAV per Unit of the Fund will be rounded to four (4) decimal places.

THE INVESTOR MAY CONSEQUENTLY NOT HAVE ALL THE RIGHTS ORDINARILY EXERCISABLE BY A UNIT HOLDER (FOR EXAMPLE, THE RIGHT TO CALL FOR A UNIT HOLDERS' MEETING AND TO VOTE THEREAT).

The Trustee shall, at the same time, by writing appoint some other corporation already approved by the relevant authorities to be the management company of the Fund; such corporation shall have entered into such deed or deeds as the Trustee may consider to be necessary or desirable to secure the due performance of its duties as management company for the Fund.

Dear Sirs

Re: Taxation of the Fund and Unit Holders

This letter has been prepared for inclusion in the Prospectus in respect of the TA Asia Absolute Alpha Fund ("the Fund").

Taxation of the Fund

Income Tax

The Fund is a unit trust for Malaysian tax purposes. The taxation of the Fund is therefore governed principally by Sections 61 and 63B of the Income Tax Act, 1967 ("the Act").

Subject to certain exemptions, the income of the Fund in respect of investment income derived from or accruing in Malaysia is liable to income tax at the rate of 24% effective Year of Assessment ("YA") 2016.

The Fund may receive dividends, interest^{N1} and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia was previously exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Based on the Finance Act 2021, income derived by a resident unit trust from foreign sources and received in Malaysia from 1 January 2022 onwards will be subject to Malaysian income tax. A transitional tax rate of 3% is accorded on the gross amount of the foreign source income received in Malaysia from 1 January 2022 to 30 June 2022. From 1 July 2022, the prevailing tax rate of 24% will apply to the chargeable income computed in respect of the foreign source income remitted into Malaysia by the Fund.

^{N1} Pursuant to Section 2(7) of the Act, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred by an Islamic fund, in lieu of interest, in transactions conducted in accordance with the principles of Syariah.

Where the same foreign income has been taxed in both Malaysia and the foreign country, a tax credit in the form of bilateral relief under a Double Tax Agreement (“DTA”) or unilateral relief under the domestic law (if there is no available DTA or a limited DTA which does not provide such relief) may be given in respect of such income, subject to conditions.

Gains from the realisation of investments by the Fund will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income or profits earned by the Fund from the following are exempt from tax:-

- any savings certificates issued by the Government; or
- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013^{N1}; or
- any development financial institution regulated under the Development Financial Institutions Act 2002^{N2}; or
- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority^{N2}.

Discounts earned by the Fund from the following are also exempt from tax:

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Fund’s expenses such as manager’s remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage (“permitted expenses”) are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Single tier Malaysian dividends received by the Fund is exempt from tax and expenses in relation to such dividend income are disregarded.

Real Property Gains Tax (“RPGT”)

Gains on disposal of investments by the Fund will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

^{N1} Effective from 1 January 2019, the exemption shall not apply to the interest paid or credited to a unit trust that is a wholesale fund which is a money market fund.

^{N2} Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions. Based on the Finance Act 2021, income tax exemption shall not apply to interest paid or credited by a special purpose vehicle to a company pursuant to the issuance of asset-backed securities lodged with the Securities Commission or approved by the Labuan Financial Services Authority from 1 January 2022 where the company and the person who established the special purpose vehicle solely for the issuance of the asset-backed securities are in the same group.

Sales Tax and Service Tax

The Goods and Services Tax ("GST") has been replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and subsidiary legislation, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Fund such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Fund is only deriving income from such activities, the Fund is not liable to be registered for service tax.

However, certain expenses incurred by the Fund such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of funds management under the Capital Markets and Services Act 2007. The service tax incurred by the Fund is a cost to the Fund and is not recoverable, unlike the GST input tax which is claimable under the GST regime.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

Taxation of Unit Holders

Income Tax

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Fund, to the extent that this is distributed to them. The income distribution from the Fund may carry with it applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Fund. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders.

Corporate unit holders, resident or non-resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016), on distributions of income from the Fund to the extent of an amount equivalent to their share of the total taxable income of the Fund.

Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 17% on chargeable income of up to RM600,000, effective from YA 2020. This concessionary income tax rate is given only to corporate unit holders having gross business income for the relevant year of assessment of not more than RM50 million, in addition to the share capital requirement. For chargeable income in excess of RM600,000, the tax rate of 24% is still applicable.

However, the said tax rate of 17% on chargeable income of up to RM600,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Based on the Finance Act 2021, a corporate tax rate of 33% (“Cukai Makmur”) will be levied on corporate unit holders with chargeable income exceeding RM100 million. Corporate unit holders with chargeable income below RM100 million will still be taxed at tax rate of 24%. However, the chargeable income in respect of foreign source income received in Malaysia from 1 July 2022 is exempted from the application of Cukai Makmur, computed based on a prescribed formula. The Cukai Makmur is effective for YA 2022 only.

The tax rate of 33% on chargeable income exceeding RM100 million would not apply to corporate unit holders in Malaysia that qualify for the preferential tax rate of 17% on chargeable income of up to RM600,000.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 30% with effect from YA 2020.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, are subject to Malaysian income tax at the rate of 30% with effect from YA 2020. Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdiction.

The distribution of single-tier Malaysian dividends and tax exempt income by the Fund will not be subject to tax in the hands of the unit holders in Malaysia. Units split by the Fund will also be exempt from tax in Malaysia in the hands of the unit holders.

However, based on the Finance Act 2021, the income distributed to a unit holder other than an individual, out of the interest income of a unit trust that is a retail money market fund which is paid or credited by a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013, or any development financial institution regulated under the Development Financial Institutions Act 2002 will be subjected to tax. This is effective from 1 January 2022.

Further, a new withholding tax mechanism is applicable on the above distribution. The income distributed to the unit holder other than an individual will be subject to withholding tax at the rate of 24% and the tax deducted can be utilised to set off against the tax payable by a tax resident unit holder. Withholding tax deducted on the income distributed to a non-individual unit holder who is not a tax resident in Malaysia will be regarded as a final tax. This is effective from 1 January 2022.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfer or redemption of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

Service Tax

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

Neoh Beng Guan

DEFINITIONS

Account Holder

The "Account Holder" means the person listed or identified as the holder of a Financial Account by the Financial Institution that maintains the account. This is regardless of whether such person is a flow-through Entity. Thus, for example, if a trust or an estate is listed as the holder or owner of a Financial Account, the trust or the estate is the Account Holder, rather than the trustee or the trust's owners or beneficiaries. Similarly, if a partnership is listed as the holder or owner of a Financial Account, the partnership is the Account Holder, rather than the partner in the partnership. A person, other than a Financial Institution, holding a Financial Account for the benefit or account of another person as agent, custodian, nominee, signatory, investment advisor, or intermediary, is not treated as holding the account, and such other person is treated as holding the account.

Active NFE

An NFE is an Active NFE if it meets any of the criteria listed below. In summary, those criteria refer to

- active NFEs by reason of income and assets;
- publicly traded NFEs;
- Governmental Entities, International Organisation, Central Banks, or their wholly owned Entities;
- holding NFEs that are members of a nonfinancial groups;
- start-up NFEs;
- NFEs that are liquidating or emerging from bankruptcy;
- treasury centres that are members of a nonfinancial group; or
- non-profit NFEs.

Controlling Person(s)

Controlling Person(s) are the natural person(s) who exercises control over an entity. Where that entity is treated as a Passive Non-Financial Entity ("Passive NFE") then a Financial Institution is required to determine whether or not these Controlling Persons are Reportable Persons. This definition corresponds to the term "beneficial owner" described in Recommendation 10 and the Interpretative Note on Recommendation 10 of the Financial Action Task Force Recommendations (as adopted in February 2012).

Entity

The term "Entity" means a legal person or a legal arrangement such as a corporation, organisation, partnership, trust or foundation. The term covers any person other than an individual (i.e. a natural person)

Financial Institution

The term "Financial Institution" means a "Custodial Institution", a "Depository Institution", an "Investment Entity", or a "Specified Insurance Company". Please see the relevant domestic guidance and the CRS for further classification definitions that apply to Financial Institutions.

NFE

"NFE" is an Entity that is not a Financial Institution.

Passive NFE

Under the CRS a "Passive NFE" means any NFE that is not an Active NFE. An Investment Entity located in a Non-Participating Jurisdiction and managed by another Financial Institution is also treated as a Passive NFE for purposes of the CRS.

Related Entity

An Entity is a "Related Entity" of another Entity if either Entity controls the other Entity, or the two Entities are under common control. For this purpose, control includes direct or indirect ownership of more than 50% of the vote and value in an Entity.

Reportable Person

A "Reportable Person" defined as a "Reportable Jurisdiction Person", other than:

- a corporation the stock of which is regularly traded on one or more established securities markets;
- any corporation that is a related Entity of a corporation described in clause (i);
- a Governmental Entity;
- an International Organisation;
- a Central Bank; or a Financial Institution (except for an Investment Entity described in Sub Paragraph A (6) b) of the CRS that are not Participating Jurisdiction Financial Institutions. Instead, such Investment Entities are treated as Passive NFE's)

Reportable Account

The term "Reportable Account" means an account held by one or more Reportable Persons or by a Passive NFE with one or more Controlling Persons that is a Reportable Person.

DEFINITIONS

Account Holder

The term "Account Holder" means the person listed or identified as the holder of a Financial Account. A person, other than a Financial Institution, holding a Financial Account for the benefit of another person as an agent, a custodian, a nominee, a signatory, an investment advisor, an intermediary, or a legal guardian, is not treated as the Account Holder. In these circumstances that other person is the Account Holder. For example, in the case of a parent/child relationship where the parent is acting as a legal guardian, the child is regarded as the Account Holder. With respect to a jointly held account, each joint holder is treated as an Account Holder.

Controlling Person

This is a natural person who exercises control over an entity. Where that entity is treated as a Passive Non-Financial Entity ("NFE") then a Financial Institution must determine whether such Controlling Persons are Reportable Persons. This definition corresponds to the term 'beneficial owner' as described in Recommendation 10 and the Interpretative Note on Recommendation 10 of the Financial Action Task Force Recommendations (as adopted in February 2012).

Controlling Person of a trust

Means the settlor(s) the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust (including through a chain of control or ownership). The settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) of beneficiaries, must always be treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the activities of the trust.

Where the settlor(s) of a trust is an Entity then the CRS requires Financial Institutions to also identify the Controlling Persons of the settlor(s) and when required report them as Controlling Persons of the trust.

In a case of a legal arrangement other than a trust, such term means persons in equivalent or similar positions.

Entity

The term "Entity" means a legal person or a legal arrangement such as a corporation, organisation, partnership, trust or foundation.

Passive NFE

Under the CRS a "Passive NFE" means any NFE that is not an Active NFE. An Investment Entity located in a Non-Participating Jurisdiction and managed by another Financial Institution is also treated as a Passive NFE for purposes of the CRS.

Reportable Account

The term "Reportable Account" means an account held by one or more Reportable Persons or by a Passive NFE with one or more Controlling Persons that is a Reportable Person.

Reportable Jurisdiction

A Reportable Jurisdiction is a jurisdiction with which an obligation to provide financial account information is a place and that is identified in a published list.

15. UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust scheme with borrowed money is more risky than investing with your own savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:-

- a) The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the potential for losses as well as gains.
- b) You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- c) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral or pay additional amounts on top of your normal installments. If you fail to comply within the time prescribed, your units may be sold to settle your loan.
- d) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore study the terms and conditions carefully before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.
