#### 4. Who am I investing with?

<b>Manager</b>	TA Investment Management Berhad (Registration Number: 199501011387 (340588-T))
<b>Trustee</b>	Maybank Trustees Berhad (Registration Number: 196301000109 (5004-P))

#### 5. What are the possible outcomes of my investment?

This is a feeder fund where the Target Fund's assets are invested in equities or equity-related instruments of technology-related companies or companies that derive the main part of their revenue from technology. The performance of the Fund would be dependent on the investments of the Target Fund and reliant on the Investment Manager's expertise in managing the Target Fund to meet its investment objective.

The investors may gain from the appreciation of Unit price as a result of the increase in value of the underlying and/or accrual of interest earned. However, investment involves risk. The value of the Fund may rise or fall. Subject to the availability of income, distribution is incidental. These risk factors, among others, may cause you to lose part or all of your investment.

### KEY RISKS

#### 6. What are the key risks associated with this product?

##### Specific risks related to the Fund:

<b>Fund Management of the Target Fund Risk</b>	As the investments of Fund are invested in the Target Fund, the Manager has no control over the management company of the Target Fund's investment technique, knowledge or management expertise. In the event of mismanagement of the investments by the management company of the Target Fund, the Fund which invests substantially most of its assets into the Target Fund would be affected negatively. The Fund would also be affected should there be any unresolved dispute between the Manager and the management company of the Target Fund. Although the probability of such occurrences is minor, should the situation arise TAIM reserves the right to seek other collective investment scheme that is consistent with the objective of the Fund.
<b>Sector Investment Risk</b>	Because equities within a given economic sector or industry tend to be affected by many of the same factors, the Fund may be more volatile than the funds that invest more broadly and may underperform the overall equity market for any given period of time. Sector investment risk can be mitigated by investing into a more defensive sector at different business cycle.
<b>Currency Risk</b>	The Fund may offer Units in multiple currency Classes, which will expose the Unit Holder to currency risk in respect to the currency of Units of a Class other than the base currency of the Fund.
	<b>(i) Currency risk at the hedged Class level</b>

	<p>Investors in the hedged Classes may be subjected to currency risk due to imperfect hedging by the Manager when the Manager hedges the respective currency against the base currency of the Fund. However, investors should note that hedging is subject to a minimum investment size of entering into a forward contract and the unhedged portion of the respective hedged Classes may still be affected by the exchange rate movement which may result in fluctuation of NAV of the respective hedged Classes. In addition, investors in the hedged Classes should note that by employing this hedging, investors would not be able to enjoy the additional currency gains when USD moves favourably against the currency of the hedged Classes. Additional transaction costs of hedging will also have to be borne by investors in these Classes.</p> <p><b>(ii) Currency risk at the non-hedged Class level</b> For investors in the non-hedged Classes, the impact of the exchange rate movement between the base currency of the Fund and the currency of the respective Classes (other than USD Class) may result in a depreciation of the investor's holdings as expressed in the base currency of the Fund.</p>
<b>Counterparty Risk</b>	<p>Investors in the hedged Classes of the Fund are subject to counterparty risk on the derivatives contract that may be entered into with the financial institutions for the purpose of hedging strategy. Any default by the counterparty would affect the NAV of the Fund. The Fund will only enter into derivatives contract that are issued by counterparty with a minimum long-term credit rating of investment grade (including gradation and subcategories) by any domestic or global rating agency. Where the counterparty is not rated, the counterparty must be guaranteed by the parent company of the counterparty which has an investment grade credit rating (including gradation and subcategories). In the event where the rating of the counterparty falls below the minimum required or the counterparty ceases to be rated, analysis will be conducted to assess the impact of unwinding the affected trades and replacement cost. We should, within six (6) months or sooner, if the Trustee considers it to be in the best interests of the Unit Holders, take the necessary action to ensure that the requirements are complied with.</p>
<b>Temporary Suspension of the Target Fund Risk</b>	<p>The management company of the Target Fund has the right to suspend dealing of the Target Fund. Please refer to Section 2.9 of the Prospectus for the possible deferral or suspension of redemptions of the Target Fund.</p> <p>If the right of the Fund to redeem its shares of the Target Fund is temporarily suspended, the Fund may also be affected if the Fund does not have sufficient liquidity to meet redemption request from Unit Holder.</p> <p>To avoid suspension of the Fund, the Fund will hold adequate Liquid Assets and if the Liquid Assets are insufficient to meet redemption requests, the Manager may seek temporary financing if this is in the best interests of Unit Holders. If the Manager has exhausted all possible avenues to avoid a suspension of the Fund, the Manager may as a last resort, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units where it is impractical for the Manager to calculate the NAV of the Fund due to market value or fair value of the investment in the Target Fund cannot be determined.</p> <p>Please note that during the suspension period, there will be no NAV per Unit available and hence, any application for subscription, any redemption or switching of Units received by the Manager during the suspension period will only be accepted and processed on the next Business Day after the cessation of the suspension. Unit Holders will be notified of the suspension and when the suspension is lifted.</p>
<b>Distribution Out of Capital Risk</b>	<p>Distribution may be paid out of capital when the realised gains or realised income of the Fund is insufficient to pay a distribution. Unit Holders should note that the payment of distribution out of capital represents a return or withdrawal of part of the amount from any capital gains attributable to the original investment. Such distribution may result in an immediate decrease in the NAV per Unit of the Class and in the capital of the Fund which is available for investment in the future. As a result, capital growth may be reduced and a high distribution yield from distribution out of capital does not imply a positive or high return on Unit Holders' total investments.</p>

**Note:**

Please refer to section "Risk Factors" of the Prospectus, including specific risks related to the Target Fund for further information. Please note that this is part of the specific risks associated to the Fund only. Unit Holders are required to refer to the full risks associated to the Fund in the Prospectus such as Regulatory Risk and Country Risk.

**Please be advised that if an investor invests in Units through an IUTA which adopts the nominee system of ownership, the investor would not be considered to be a Unit Holder under the Deed and the investor may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holders' meeting and to vote thereat and the right to have the investor's particulars appearing in the register of Unit Holders of the Fund).**

<b>Switching Fee</b>	The Manager does not impose any switching fee, however, if the amount of sales charge of the fund that the Unit Holder intends to switch into is more than the sales charge imposed by the fund being

	switched from, then the difference in the sales charge between the two (2) funds shall be borne by the Unit Holder.

2. All sales charge is to be rounded to two (2) decimal points. The Manager reserves the right to waive and/or reduce the sales charge from time to time at its absolute discretion. Investors may negotiate with their preferred distribution channel for a lower sales charge. Investment through the distribution channel shall be subjected to their respective terms and conditions.
3. We may, at our own discretion, from time to time, charge an annual management fee that is lower than that stated above.
